

Business Responsibility and Sustainability Reporting (BRSR)

Guided by bp’s sustainability frame¹, Castrol launched PATH360², its sustainability programme, in 2021. PATH360 focuses on saving waste, reducing carbon, and improving people’s lives all with the aim to help deliver a more sustainable future of becoming net zero. Castrol’s new PATH360 strategy embraces circular thinking – looking at the life-cycle of Castrol’s existing and new products, to see how they can be improved, extended, reused or recycled and supports new and growing sectors, like renewable energy and e-mobility with products and services.

At Castrol India (CIL), we aim to optimise energy consumption and integrate renewable energy alternatives into our operations. We have identified key focus areas across the guiding principles of PATH360 to set targets and detail initiatives for achieving our goals. These focus areas constitute our ESG strategy/framework to guide our future actions.

Our Business Responsibility and Sustainability Report (BRSR) adheres to the National Guidelines on Responsible Business Conduct (NGRBC) issued by the Ministry of Corporate Affairs in July 2023. This report is compiled as per the amended 34 (2) (f) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, following the Gazette notification no. SEBI/LAD-NRO/GN/2023/131 dated June 14, 2023. Alongside detailed information regarding our business and operations, this report details the ESG initiatives that Castrol India has implemented throughout the calendar year of 2025.

26. Overview of the entity’s material responsible business conduct issues:

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1.	Energy and Emissions Management (Focus Area: Reducing Carbon)	Opportunity	CIL has plans in place to reduce carbon emissions in its operations by improving energy efficiency, renewable energy integration, and of its products through a focus on product formulation choices, packaging choices and by working with suppliers that share our values.	All CIL operating sites (manufacturing) use renewable electricity. Solar photovoltaic plants have been set up in the Silvassa and Paharpur manufacturing units. Patalganga unit consumes green power from the state DISCOM (Distribution Company). For reduction of Scope 1 emissions, initiatives such as replacement of diesel and furnace oil with PNG (Piped Natural Gas) have been undertaken.	Positive – Reduces emissions and operational costs.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
2.	Product Carbon footprint (Focus Area: Reducing Carbon)	Opportunity	CIL's commitment to lowering product carbon footprint ³ is delivered through technology incorporation in product design to minimise waste generation and utilising waste prevention methods during manufacturing of the products.	CIL products contribute to saving energy and driving efficiency in use, however there are carbon emissions associated with their life cycle. The aim is to reduce overall emissions by improving operational efficiency, promoting decarbonisation within supply chain, sourcing low carbon raw materials and collaborating with value chain partners to influence the environmental performance of products during use and post use phases.	Positive – Reduce operational costs, boost sales, and market share, and enhance brand image, leading to an increase in the company's overall performance.
3.	Sustainable Packaging (Focus Area: Circularity)	Opportunity	To promote responsible design and management of plastic packaging along its lifecycle. CIL defines its plastic footprint ³ as the amount of virgin plastic included in its packaging per litre that isn't recycled.	CIL continues to implement initiatives such as using post -consumer recycled plastic (PCR), and optimised pack designs to reduce use of virgin plastics in the packaging of its products.	Positive - Reducing use of virgin plastic packaging can assist with adhering to regulations and reducing plastic waste in the environment through use of recycled materials.
4.	Waste Management (Focus Area: Circularity)	Opportunity	CIL is committed to waste reduction and minimisation at various levels. All manufacturing plants are certified for Environment Management Systems (ISO 14001:2015).	CIL's waste management is focused on minimising waste; arisings are monitored and managed in accordance with the reduce, re-use, recycle hierarchy. Waste generated in operations are collected and disposed off through authorised vendors enabling compliance with relevant regulations.	Positive – Adhering to the principles of circular economy and effectively handling waste at each stage of the manufacturing process directly influences resource efficiency and ensures compliance with relevant regulations.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
5.	Sustainable Supply Chain (Focus Area: Responsible Sourcing)	Risk	CIL is dependent on a network of suppliers and distributors for the manufacturing and delivery of their products to customers. Any disruptions in any segment of the supply chain may lead to delays in the manufacturing of certain products and shortages in inventory.	CIL has adopted bp's code of conduct and supplier expectation guidelines to state the ESG requirements. CIL conducts awareness programmes on aspects such as the Code of Conduct, with all the distributor partners annually.	Negative – Supply chain disruption may result in increase in the cost of materials, as the company may be compelled to seek materials or products from alternate suppliers or manufacturer.
6.	Occupational Health and Safety (Focus Area: Safety)	Opportunity	CIL is committed to safety, protecting the environment and respecting the communities in the areas of operation. CIL's Health, Safety, Security and Environment (HSSE) goals are no accidents, no harm to people and no damage to the environment. Safety is good business.	CIL has set the foundations and standards for operational risk management through implementation of bp's operating management system (OMS). Through experts, partners and assurance activities, CIL works with business groups to build operations capability to manage risk and enhance safety performance. CIL seeks to leverage digital, and data driven innovative solutions to improve OMS and assurance impact.	Positive – Focus on health and safety to ensure no workplace injuries and illnesses and enhances employee productivity and morale, potentially improving overall business performance and profitability.
7.	Diversity, and Inclusion (D&I) (Focus Area: People and Culture)	Opportunity	CIL aims for greater diversity, and inclusion for the workforce. CIL also envisions to further enhance D&I impact through ecosystem partners and suppliers.	To promote D&I, the company has put in place a D&I council which continues to focus on diversity hiring, conducting D&I roadshows, recognizing on-ground efforts. CIL has established cohorts of women in both sales and supply chain, creating a dedicated platform where participants can connect, share concerns, exchange best practices, and learn from one another's experiences. This platform aims to inspire and empower women	Positive - Adopting and promoting a diverse and inclusive culture can improve creativity and productivity.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
				in these fields by fostering a supportive community where knowledge is shared, challenges are addressed, and success stories are celebrated.	
8.	Corporate Social Responsibility (Focus area: Empowering communities)	Opportunity	CIL engages with communities around areas of operations through its flagship CSR programmes, community development programmes focused on skilling & wellbeing, and environmental sustainability programmes focused on research in circularity.	CIL adopts an approach of implementing pilot projects in collaboration with leading non-governmental organisations (NGOs) to test on-ground relevance. Based on responses from stakeholders, experiences shared by partners and contributions towards achieving the defined agenda, the projects are either scaled up or re-strategised. Encouraged by the positive feedback, the company continues to expand its portfolio of activities with partnerships and investments.	Positive – Enables continuous engagement with communities empowering sustainable livelihoods.
9.	Employee Wellbeing (Focus Area: People and Culture)	Opportunity	Wellbeing is not just about preventing illness. It is about feeling good and functioning well and covers the physical, psychological, and social factors which influence our health and happiness. A focus on wellbeing with supporting programmes provided within the workplace can help individuals to learn and maintain good habits for health and to build resilience to cope with everyday stress.	CIL supports people to perform at their best by promoting wellbeing to maximise personal and business value(s). Various health and wellbeing resources, training, publications, health moments, guidance and other digital tools are provided by bp and used by CIL, an example is Connect & Heal, an integrated health tech company providing end-to-end coordinated care and support.	Positive - Better health and wellbeing of employees leads to improved employee engagement and higher productivity.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
				"Thrive" is bp's global personal wellbeing portal, it is designed to help employees make positive change no matter where they are on their wellbeing journey. "Healthy Minds", a mental health education programme for leaders and colleagues launched in early 2024. It is designed to help an individual to look after their own mental health, invest in oneself and deal with change. Another support provided is the Employee Assistance Programme (EAP) - employees and their family members can access free, confidential and independent advice, and practical support to help manage issues that are worrying them at work or at home.	
10.	Human Rights and Ethical Operations	Risk	CIL is committed to ethical operations while engaging workers and communities and conducting its business. CIL encourages its people and businesses to care for others and participate in the local community. CIL maintains an open-minded, ethical stance and respects diversity, local cultures and customs to make a positive impact in its areas of operation.	CIL has adopted a human rights policy applicable to all staff, backed by grievance and disciplinary policy to handle workplace concerns. We have a structured investigation process overseen by the Ethics & Compliance function. Human rights standards are extended through contracts, integrating clauses concerning respect for Human Rights, including labour rights, across all agreements.	Positive - CIL has mechanisms in place to support respect for human rights and compliance with related regulations at the workplace.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
11.	Customer Satisfaction	Opportunity	Customer satisfaction directly affects overall business. CIL aims to focus on improving its products, services, and customer connect, to provide innovative solutions that meet customer needs and add value to the company.	Our 'Onward, Upward, Forward' strategy embodies our dedication to accelerating our customers' progress, helping them to face the challenges of tomorrow. We aim to grow our core business in new ways, using our cutting-edge technology and our trusted global brand to stay at the forefront of our sector. We're developing more circular offers to help customers achieve their sustainability goals and exploring exciting new growth opportunities beyond lubricants.	Positive - Customer satisfaction will lead to lower financial risk, increased business valuation and strong customer loyalty.
12.	Corporate Governance	Risk	CIL is part of the bp group with its corporate governance framework and code of conduct.	Key aspects of CIL governance processes are: Clear statements of Board processes and Board relationships with executive management of CIL, set of Company's beliefs and purpose embedded in the Code of conduct. It lays down the expectations for safe operations, people, working with our business partners, government and communities and our commitment to maintain the integrity of assets and financial information of the Company.	Positive - CIL is committed to responsible governance that underlines its dedication to responsible business practices, ensuring adherence to regulatory standards, ethical principles, and stakeholder expectations with the evolving dynamic and regulatory landscape.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
13.	Risk Management	Risk	Risk management has a significant impact on an organization's ability to achieve its objectives. Identifying and managing risks proactively is essential to ensure success of the company.	CIL has adopted bp's Risk Management policy, which outlines the identification and assessment of risks, including safety and operational risks. These primarily include hazards that could potentially harm people and the environment. The policy also emphasizes the necessity of maintaining a risk register. CIL has a risk-governance structure, which consists of the Risk Management Committee (RMC) that oversees risks and/or opportunities from both business and ESG perspectives. This process is aptly supported by departmental heads.	Negative - Failure in managing risks can lead to unexpected financial losses, compliance fines, reputational damage, and missed growth opportunities.
14.	Data Privacy and Data Security	Risk	Cyber threats are a risk for business today to conduct business with its stakeholders in a secure environment without compromising on digital security of information and data used in conduct of business operations.	CIL's digital security team collaborates with business units to assess security risks, provide training, and disseminate information that encourages safe behaviors among users and safeguards the business from data breaches. The Digital Security team has created a series of 'cyber moments' that are integrated into meetings and other gatherings to increase awareness of the cyber threats faced by CIL.	Negative - Cybersecurity breaches could put CIL, as well as its customers, at significant risk and cause reputational damage.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
15.	Technology and Innovation	Opportunity	Leverage technology and innovation to enhance the digital experience for customers and consumers, and to gain operational advantages.	As part of its digitalization strategy, the company continues to implement digital initiatives such as FASTSCAN, Castrol SMART Castrol DIGICLAIM, YUKTI Castrol Connect and the new Rural DMS (distributor management system) These applications enable streamlining of customer experiences across channels, enhance sales conversations and reduce manual interventions in claim processing etc, thereby reducing time spent on non-value addition activities and releasing working capital for customers and channel partners.	Positive - Technology can enhance work efficiency, expand a business's customer reach and increase convenience. Additionally, it can help with accurate claim tracking and business growth.

Majority of CIL's policies are aligned with the bp group's policies. CIL is an ISO 9001:2015 certified company and our manufacturing locations are ISO 14001:2015 and ISO 45001:2018 certified. The bp group operates an enterprise corporate IT infrastructure to provide centralized IT services to the group (the "bp IT infrastructure"), including CIL. bp operates and maintains a documented digital security management system, including policies and procedures, which govern our approach to security, governance, and risk management of the bp IT infrastructure (the "IT control framework"). The relevant requirements from bp's IT control framework are maintained in a central requirements library. The technical and organizational measures from the IT control framework are aligned with best industry practices within the energy sector and, where relevant, to industry standards such as NIST, and PCI-DSS.								

5.	Specific commitments, goals and targets set by the entity with defined timelines, if any.	PATH360 is our strategy to help Castrol reach net zero by 2050 or sooner*. By 2030, Castrol aims are: • Saving waste: Continuing to help our customers and the users of our products towards their sustainability goals related to energy, waste, water and carbon, as well as continuing to work to reduce our plastic footprint³. • Reducing Carbon: Continue to work to reduce the carbon intensity of our products and to offer lower carbon and more circular products to our customers^{4,5}. • Improving People’s Live: Support our employees and local communities through the energy transition.
6.	Performance of the entity against the specific commitments, goals and targets along-with reasons in case the same are not met.	CIL shall endeavour to report on the performance of the above targets every year. As of CY 2025, CIL has accomplished the following: 1. 79% reduction in operational (manufacturing) Scope 1 and 2 emissions against the 2019 baseline. 2. 100% of total electricity consumed in manufacturing operations is from renewables. 3. 60% recycled content in bottles and 30% recycled content in Pail packaging. 4. CIL collaborated with an OEM customer to develop sustainable lubricant technology (RRBO-based engine oil), specifically designed for BS IV vehicles.

Governance, leadership and oversight

7.	Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements (listed entity has flexibility regarding the placement of this disclosure)	CIL is committed to being a socially and environmentally responsible company. PATH360 is Castrol’s holistic sustainability strategy to help contribute to a more sustainable future. The strategy has three focus areas and six guiding principles, all with the aim to be net zero by 2050 or sooner* Our business practices incorporate PATH360 sustainability concepts, influencing our aim to create a long-lasting organisation that meets clients’ expectations and long-term demands. We implemented specific interventions in our operations, packaging, and distribution to advance our sustainability mission in India with a focus on waste reduction, carbon reduction, and human welfare. On the social front, we have developed an even stronger bond with independent auto technicians and truck drivers as a result of our interactions with them over the years. In order to properly address the continuously changing scenario, the company implemented a business continuity plan. To safeguard the company’s well-being and long-term viability, response strategies were created and closely followed. In order to reduce its environmental impact, the Company concentrated on decreasing energy, water, and waste as part of resource optimization. In accordance with its sustainability objective, the Company is also running several programmes. Safety comes first for the company, with the main goal being that everyone returns home safely each day.
8.	Details of the highest authority responsible for implementation and oversight of the Business Responsibility policy/policies	Mr. Kedar Lele, Managing Director- up to 31st December, 2025. Mr. Saugata Basuray, Interim CEO – Effective 1st January, 2026
9.	Does the entity have a specified Committee of the Board/ Director responsible for decision making on sustainability related issues? (Yes / No). If yes, provide details.	Yes, The Company has established a ESG Committee which is supported by an operational Sustainability Sub-Committee (SSC) and a working group comprising representatives from specific functions. This working group shares a quarterly update with SSC. These committees collectively oversee the sustainability framework and ensure the integration of sustainable practices into core operations, addressing Environmental (E), Social (S), and Governance (G) aspects.

² See www.castrol.com/en/global/corporate/sustainability/path360-strategy.html for more information.

³ Castrol defines its plastic footprint as the amount of virgin plastic included in our packaging that isn’t recycled

⁴ These aims are contingent on supportive policy action by our suppliers and market development.

⁵ Most of Castrol’s scope 3 emissions are from category 1 “Purchased Goods and Services”, progress is largely dependent on the practicality and availability of lower-carbon alternatives.

CIL conducts numerous awareness programmes on aspects such as compliance with the company’s code of conduct with all its distributor partners at least annually, laying down the guidelines for business ethics and compliances as per the code signed by them in the customer and supplier agreements. All key suppliers are engaged based on their risk and materiality profile, with expectations to comply with the code.

2. Does the entity have processes in place to avoid/ manage conflict of interests involving members of the Board? (Yes/No) If yes, provide details of the same:

Yes. The Board has adopted the Code of Conduct which stipulates that the Directors must act objectively and in accordance to their responsibilities, while making decisions. Each year, the Board members and management certify that the Code of Conduct is being followed. Further, the Audit Committee reviews matters pertaining to the Code of Conduct on a quarterly basis. The Company also obtains an annual declaration from its Board of Directors and Senior Management Personnel regarding their concerns and interests in other entities, along with any changes from time to time. It ensures that all requisite approvals, as mandated under applicable laws, are secured before entering into transactions with such entities. Additionally, Directors are required to abstain from participating in agenda items during Board or Committee meetings where they have an interest or are deemed to be interested.

Please refer to the bp’s Code of Conduct linked here: <https://www.bp.com/content/dam/bp/business-sites/en/global/corporate/pdfs/who-we-are/bp-code-of-conduct.pdf>

Principle 2: Businesses should provide goods and services in a manner that is sustainable and safe

Essential Indicators

1. Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively:

Particulars	CY 2025 Current calendar year	CY 2024 Previous calendar year	Details of improvements in environmental and social impacts
R&D	15%	15%	For RRBO (Re-Refined Base Oil) finished goods.
Capex	1%	1%	Investments in energy monitoring and measurement systems, pump replacement, airline replacement, five-star rated equipment etc.

2. a. Does the entity have procedures in place for sustainable sourcing? (Yes/No)

We are in the process of developing a framework for sustainable sourcing across the portfolio.

b. If yes, what percentage of inputs were sourced sustainably?

Our sustainability sourcing agenda would be defined post development of the sustainable sourcing framework.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste

Packaging waste: CIL is proactively working on reducing the use of virgin plastic material in its product packaging. The company has partnered with waste management agencies to identify authorized recyclers who collect and recycle plastic packaging waste across all states where its products are sold. The collected waste is then sent to authorized recyclers for the recycling process. These registered recyclers provide the corresponding credits on the Pollution Control Board (PCB)’s Plastic EPR portal, and annual returns are filed in line with the timelines set by the PCB.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity’s activities (Yes / No).

If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Yes, Extended Producer Responsibility (EPR) is applicable to the entity’s activities.

For plastic waste:

The Company is registered under the Extended Producer Responsibility (EPR) framework and complies with the Plastic Waste Management Rules, as prescribed by the Central Pollution Control Board (CPCB) for plastic packaging. The waste collection plan is aligned with the EPR plan submitted to the Pollution Control Board.

For FY 2024–25, Castrol India Limited received a total of 9,424 MT of EPR credits (Apr 2024–Mar 2025) for the recycling of plastic waste through registered Plastic Waste Processors (PWPs) engaged via authorised Waste Management Agencies. The Company has fully met its EPR obligation of 9,697 MT for the year by utilising the credits received during FY 2024–25 along with the accumulated balance available in the EPR credit wallet from previous years.

For used Oil:

Under the Hazardous and Other Wastes (Management and Transboundary Movement) Second Amendment Rules, 2023, producers are required to register on the designated government portal and fulfil their EPR obligations through the procurement of EPR certificates from authorised recyclers.

Castrol India Limited has successfully completed its registration as a producer, marking a significant milestone in its compliance journey. The Company is currently awaiting the issuance of detailed guidelines and timelines from the authorities for EPR fulfilment. Upon receipt of these guidelines, the waste collection plan will be aligned to ensure proper disposal of used oil through registered recyclers and authorised collection agents. Any gaps identified will be addressed in accordance with the prescribed requirement.

Kaushal is another technical capability development initiative for workmen across the three plants

CIL upholds a strong commitment to Ethics and Compliance through mandatory training programmes and dedicated sessions, emphasizing crucial views such as ‘Speak up’ and listening, maintaining integrity, zero retaliations, and a stringent stance against non-compliance. The company actively promotes cybersecurity across all teams and locations while investing in leadership development programmes for team leaders and managers to drive growth and success.

Further, we seek to enhance the skills of our employees by providing them with access to prominent learning platforms such as Coursera and LinkedIn via Grow@bp. These platforms offer a vast array of training modules, including numerous offerings on sustainability, that employees can select based on their developmental needs and career aspirations.

Other training is conducted on a voluntary basis which include additional basic safety, behavioural based safety programmes and other wellness programmes. In 2025, Castrol employees spent a total of around 4,500 hours attending various training programmes.

Building people’s functional capability is one of the key elements of the Company’s investment in people. There is an emphasis on employee engagement and building line manager and employee capability via training covering a range of key people and Human Resource (HR) processes. Robust talent management sessions are conducted with focus on managers having talent conversations with their teams. All eligible employees captured their development needs in a structured format following talent conversations with their line managers.

10. Health and safety management system:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, what is the coverage of such a system?

HSSE is central to the company’s business activities and is a key enabler of its business strategy. The company is committed to the goal of ‘no accidents, no injuries to people and no damage to the environment’ and expects every employee/worker to be a safety leader. The OHS management system encompasses 100% of the company’s employees, workers, contractors and service providers working in manufacturing facilities and CIL offices. The company has implemented bp’s Operating Management System as relevant to CIL’s operating activities to consistently improve the delivery of operations that are safe, responsible and reliable. The OMS has helped the company in effectively managing four key elements of operations – People, Plants, Processes and Performance.

Road safety continues to be a priority for the company. All professional drivers (those driving for company business) undergo rigorous defensive driver training. All road safety related incidents, however minor, are reported and investigated in an attempt to learn and adopt improvements. All new employees, both permanent and contractual, undergo HSSE training as part of their onboarding within a month of joining the company.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

Health, Safety, Security and Environment are critical focus areas for the Company. Hazard Identification and Risk Assessment (HIRA) are conducted as per ISO 45001 and ISO 14001 standards for all routine activities within the manufacturing plants. Non-routine activities are monitored through OMS procedures such as Control of Work “CoW”. As part of the annual risk management process, various risk assurance tools are used to identify and mitigate risks.

c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks.

Processes have been developed and implemented in accordance with the OMS for reporting work-related hazards by employees and workers, with the aim to prevent risks. These processes include Safety Observations, Safety Observation Conversations, and Focused Safety Observation Conversations. All instances of risk are documented in the ‘IRIS’ reporting tool.

Additionally, workers are guided to follow Safety Leadership Principles. All safety observations and near-miss incidents are reported and investigated to prevent any injury or illness. Both offices and plants have established

Safety Committees, which provide a forum for reporting of work-related hazards. The company also follows the ‘Stop Work’ principle. In alignment with this principle, all employees, contractors, and visitors, are authorized to stop any work/activity deemed unsafe.

d. Do the employees/workers of the entity have access to non-occupational medical and healthcare services?

Yes. Employees have access to non-occupational medical and health services through the following provisions:

- Connect and Heal (CNH):** This online service, available 24/7, offers medical consultation (both audio and video consultation) as well as emergency assistance. All employees and eligible dependents can avail this service.
- Mediclaim facilities:** The company has a Mediclaim tie-up with ICICI Lombard, supported by a Third-Party Administrator (TPA) i.e., Paramount Health Services & Insurance TPA Pvt. Ltd.
- Employee Assistance Programme (EAP):** This service offers personal, confidential, and professional counseling, available to employees and their family members via the telephone, email, or face-to-face interactions. Counseling can be availed in English and regional languages, at any given time.

Furthermore, we also provide access to wellness apps such as Headspace and Thrive along with online counseling services through ICAS and informative webinars, emphasizing the company’s commitment towards the mental health and overall well-being of its employees. The company also actively promotes psychological safety to further strengthen the safety and wellness of employees through training programmes.

12. Describe the measures taken by the entity to ensure a safe and healthy workplace:

CIL firmly believes in providing a safe, supportive, and friendly workplace environment – a workplace where our values come to life through supporting behaviors. A positive workplace environment and a great employee experience are integral parts of our culture.

The Company aims to provide an ergonomically safe and comfortable work environment at all offices and plants. The Company regularly provides annual preventive health checks for all employees.

A core component of the Company’s diversity and inclusion ambition is agile working which encompasses a wide range of working options enabling employees to work flexibly at their full potential. Part-time working, work from home and flexible hours are some options granted under these initiatives.

All three manufacturing plants of CIL are certified with the Environment Management System (ISO 14001:2015), Occupational Health and Safety Management System (ISO 45001:2018) and Quality Management System Standard (ISO 9001:2015), with two of the Company’s plants certified with Automotive Quality Management System IATF 16949:2016. Castrol Patalganga plant received the OHSSAI Gold and BSC Merit Awards, Silvassa won the Golden Peacock Award for Occupational Health & Safety. These achievements underscore our unwavering commitment to HSE&C excellence and continuous improvement. The leadership team maintains the highest standards of occupational HSSE by reviewing business safety performance on monthly basis.

The India Sexual Harassment Prevention and Grievance Handling Policy (the “Policy”) was rolled out in April 2014. This Policy provides guidance around the process to raise such a grievance and methodology for recourse and redressal of the grievance. While the Policy is based on the ‘The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013’, which deals specifically with acts committed against women, CIL follows this policy irrespective of gender.

Principle 4: Businesses should respect the interests of and be responsive to all its stakeholders

Essential Indicators

1. Describe the processes for identifying key stakeholder groups of the entity:

At CIL, stakeholder identification encompasses identifying potential stakeholders, categorizing them, analyzing their interest and influence, and prioritizing them accordingly. An engagement plan is developed, and Relationship Managers address specific concerns. This process is continuously reviewed to ensure effective engagement and to address each individual's/group's needs.

2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group:

Stakeholder Group	Whether identified as Vulnerable & Marginalized Group (Yes/No)	Channels of communication (Email, SMS, Newspaper, Pamphlets, Advertisement, Community Meetings, Notice Board, Website), Other	Frequency of engagement (Annually/ Half yearly/ Quarterly / others – please specify)	Purpose and scope of engagement including key topics and concerns raised during such engagement

Leadership Indicators

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board:

At CIL, stakeholder consultation plays a critical role in identifying and addressing economic, environmental, and social concerns. The Risk Management Committee (RMC) is responsible for overseeing CIL’s sustainability agenda. Stakeholders are engaged to consider and understand the broader environmental, social and governance contexts in which the company operates and its associated risks.

Each department deals with its respective stakeholders and collects feedback on various issues. These delegated departments engage in several forms of stakeholder consultation which may involve surveys, focus groups, public consultations, individual meetings, annual general meetings, or online engagements. The purpose is to gather thoughts, opinions, and concerns on various topics related to the organization’s operations impacting economy, environment, and society. All key points, concerns, and suggestions raised during these consultations are documented and analyzed to understand the concerns of stakeholders, their potential impacts, and possible responses. Regular reports summarizing the feedback from these consultations and analyses are submitted to various committees of the Board for their review. The guidance from these reviews is then passed down to the management for execution.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity:

Yes, stakeholder consultation is indeed used to support the identification and management of environmental and social topics. Stakeholder consultations play an instrumental role in helping us understand their concerns, expectations and the potential impact of our operations on them. This process is an important input as we implement our actions for inclusive growth and sustainable development.

We consistently engage in consultations with stakeholders in a variety of ways. Regular needs study, and impact assessments are undertaken as an integral part of our commitment to the community. This includes continuous updates to technical modules, based on feedback from local communities and to keep pace with external technological advancements.

Moreover, we strive to maintain ongoing dialogue with communities and stakeholders, ensuring our services remain relevant and beneficial; example introduction of health and wellbeing programs, EV readiness training to mechanics and financial/digital literacy training to truck drivers.

In summary, stakeholder consultation significantly influences the shaping of our activities towards social and environmental issues, allowing us to balance our business objectives with our commitment to our stakeholders, society and the environment.

3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups:

At CIL, we believe that we have a responsibility to bring enduring positive value to communities we work with. In line with our core theme to keep India moving, we have and will continue to build enduring and engaging relationships with key stakeholders in the mobility sector.

- The Company’s CSR efforts are directed towards mechanics and truck drivers who play a significant role in keeping the wheels of this sector moving. Truck drivers carry most freight traffic in the country, while mechanics service one of the largest automotive markets in the world. However, their skills, livelihood opportunities and socio-economic conditions need more focus. At CIL, we are committed to making a positive impact in the lives of these truck drivers and mechanics by preparing them to face today’s reality and leverage tomorrow’s opportunity. More than 590,000 truck drivers and mechanics have benefited from these programmes. Contributing to the overall empowerment and upliftment of this community, enabling them to earn a sustainable livelihood and live with pride is the key motto of CIL’s CSR programmes – Sarathi Mitra and Eklavya.
- The Company continues to engage with the communities around its plant and other areas of presence through various community development programmes ‘Ujjwal Kal’ focused on women empowerment, upskilling for youth, education and sustainable development initiatives in the communities. Our employee engagement activities in the community include various program like awareness session on health and well-being, supporting self-help group in market linkages, factory visit for communities members etc.

Principle 5: Businesses should respect and promote human rights

bp’s Human Rights Policy was launched in 2013 and as revised in 2020 it applies to every employee and worker at bp / Castrol. There are many ways in which human rights issues might be associated with our activities, including impacts on people’s livelihoods, access to water, land and resources, workforce rights – including modern slavery, and the actions of the security personnel who protect our sites. Applicable aspects in the Human rights policy such as child labor, discrimination, harassment and working conditions are covered as a part of mandatory Code of Conduct training for all employees and workers at CIL. Principles on Labour Rights and Modern Slavery (LRMS) such as clear employment status, protection of young persons, freedom from forced labour, grievance process, work environment, freedom of association training is also provided to all employees and contractors across the manufacturing facilities on an annual basis.

Our actions and operations can also bring about major benefits and improvements to individuals, communities and society. The policy document (link below) further details bp’s Commitment and outlines how these are delivered.

4. Do you have a focal point (Individual/Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

The Company has a whistle-blower mechanism called “OpenTalk”. Employees are encouraged to raise any of their concerns Via their line managers or can use OpenTalk if they feel unable to raise concerns directly using OpenTalk including any that could be considered whistleblowing. Also, employees have been given access to reach out to the Audit Committee Chairman through a dedicated e-mail address indiaauditcommitteec@bp.com. No employee has been denied access to the Audit Committee concerning the Whistle Blower Policy. The POSH committee members are responsible for addressing sexual discrimination issues caused or contributed by the business. Furthermore, Grievance Committees have also been established as per statutory requirements at plant-level to redress grievances/issues of workmen.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues:

We have developed a well-defined Grievance Policy and a Disciplinary Policy tailored to handle matters related to employee work conditions or issues which affect them personally. A systematic investigation process exists in our business structure with clear roles, responsibilities, and accountabilities, along with trained investigators and decision-makers (People and Culture Line Manager/Business Head/Legal representatives). This process is under the oversight of the Ethics and Compliance Liaison department.

Additionally, OpenTalk serves as a global helpline for bp, providing a confidential medium for people to raise their issues or seek explanations about our code. Every report made will be kept confidential to the fullest extent possible consistent with law and good business practices.

6. Number of Complaints on the following made by employees and workers:

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

CIL has a Grievance Policy, a Disciplinary Policy and Prevention of Sexual Harassment Policy. The Company on a regular basis sensitizes its employees on the prevention of sexual harassment at the workplace through workshops, group meetings, online training modules and awareness programme which are held on a regular basis.

CIL does not tolerate retaliation of any kind. All complaints can be made without fear of reprisal and with the assurance that the Company stands with its employees. Retaliation of any type against someone who reports harassment in good faith, against someone who provides information, or against someone who otherwise assists in a harassment investigation is not permitted.

If an individual believes he or she has been retaliated against for reporting harassment, for making a complaint of harassment, or for participating in an investigation related to harassment, they should immediately report the alleged retaliation to their line manager or any of the speak up channels. Any employee who is found to have acted in retaliation against someone after an investigation will face disciplinary action, which may include termination of employment.

9. Do human rights requirements form part of your business agreements and contracts? (Yes/No)

Yes. CIL extends human rights requirements as a part of its business agreements and contracts. Human Rights (HuRi) clauses are incorporated across contracts coming up for renewals. A formal Human Rights Policy was launched in 2013 and revised in 2020, which applies to every employee at CIL.

10. Assessments of the year:

	% of your plants and offices that were assessed (by entity or statutory authorities or third parties)
Child labour	100%
Forced/involuntary labour	100%
Sexual harassment	100%
Discrimination at workplace	100%
Wages	100%

CIL does not engage in or tolerate any violations of human rights in any form or manner and does not adopt any discriminatory employment practices. CIL performs risk-based assessments at periodic intervals.

11. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 9 above:

Not applicable – there were no significant risks / concerns arising from the assessments conducted in our premises.

Leadership Indicators

1. Details of a business process being modified / introduced as a result of addressing human rights grievances/complaints:

Not applicable for CIL as no significant grievances/complaints were received on human rights.

2. Details of the scope and coverage of any Human rights due diligence conducted:

Human rights due diligence process and mechanisms are being established to enhance the current human rights assessment in CIL. Risk based assessments are conducted at periodic internals which include events like onboarding and renewal of agreements. Set criteria and risk-based reviews are performed.

3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

Yes, CIL premises/offices are accessible to differently abled employees and workers as per the requirements of the Rights of Persons with Disabilities Act, 2016.

CIL offices in Chennai and Delhi are designed in accordance with the accessibility requirements of differently abled individuals. Some measures undertaken include wheelchair availability, dedicated parking slots, meeting room signages in Braille, adjustable desk availability, Herman Miller’s chairs, disability friendly elevators and ramps.

If yes, name of the external agency

No.

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

CIL has been working to reduce freshwater consumption in its manufacturing facilities. Initiatives such as sprinkler systems and water-efficient taps have been implemented. Each facility has water balance flow charts to monitor freshwater usage and identify conservation measures.

Silvassa: Fresh water is used only for domestic and cooling tower operations. The cooling tower blowdown water, which is minimal in quantity, is sent to CETP for treatment. The domestic wastewater is treated in an in-house sewage treatment plant, and the treated water is used for gardening within the plant premises. This plant operates as a Zero Liquid Discharge facility. The plant has also installed rainwater harvesting system which is expected to operate at capacity the following year.

The Paharpur and Patalganga plants send their wastewater to CETP for further treatment.

6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N)
If yes, name of the external agency.

No.

8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details:

CIL has been working towards reducing the GHG emissions through process improvements, energy monitoring systems, energy efficiency measures and renewable alternatives. Installation of Solar photovoltaic plant within premises and purchasing renewable energy are the different options studied with respective to the plant locations and the key actions implemented are listed below:

Scope 1 emissions	Transition to lower Emission Factor heating fuel has helped reduce Scope 1 emissions in operations
Scope 2 emissions	1. Silvassa plant: The solar plant is fully operational and solar electricity generated for its own consumption. Additionally, Renewable Energy Certificates have been procured. 2. Patalganga plant: The facility purchases green energy for 100% of its operations. 3. Paharpur plant: A rooftop solar photovoltaic system is currently in operation. Additionally, Renewable Energy Certificates have been procured. 4. Corporate office in Mumbai continues to procure green power for 100% operations. 5. Continuous improvement measures are undertaken across CIL's manufacturing operations resulting in consistent year-on-year energy efficiency.

9. Provide details related to waste management by the entity, in the following format:

Parameter	CY 2025 Current calendar year	CY 2024 Previous calendar year
Total Waste generated (in metric tons)		
Plastic waste (A)	147.73	110.96
E- waste (B)	3.42	68.28
Bio-medical waste (C)	0.01	0.10
Construction and demolition waste (D)	-	-
Battery waste (E)	-	-
Radioactive waste (F)	-	-
Other Hazardous waste -excluding e-waste and biomedical waste (G)	897.05	773.62
Other Non-hazardous waste generated (H) - excluding plastic waste	496.51	503.54
Total (A+B + C + D + E + F + G + H)	1544.72	1456.52
Waste intensity per rupee of Turnover (Total waste generated / Revenue from operations)	0.0000000270 MT/ Rupee turnover	0.0000000271 MT/ Rupee turnover
Waste intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total waste generated / Revenue from operations adjusted for PPP)	0.00000055 MT/USD turnover	0.00000055 MT/USD turnover
Waste intensity in terms of physical output	0.007 MT/KL	0.006 MT/KL
Waste intensity (optional) – the relevant metric may be selected by the entity	-	-
For each category of waste generated, total waste recovered through recycling, re-using or other recovery operations (in metric tons)		
Category of waste		
(i) Recycled	1527.24	1442.67
(ii) Re-used	-	-
(iii) Other recovery operations	-	-
Total	1527.24	1442.67
For each category of waste generated, total waste disposed by nature of disposal method (in metric tons)		
Category of waste		
(i) Incineration	16.59	13.33
(ii) Landfilling	-	-
(iii) Landfilling after incineration	-	-
Total	16.59	13.33

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes:

CIL employs the PATH360 guiding principles around circularity to minimize waste generated from its operations. Waste generated data is monitored and reviewed at the leadership level. The production process does not use any toxic chemicals. CIL's waste management practices are audited during the Environment Management System audit.

Hazardous waste: Hazardous waste quantities are regularly monitored, recorded and sent to authorized recyclers as per the facility's hazardous waste authorization rules stipulated by the Pollution Control Board. Corresponding manifests, forms and annual returns are maintained at the respective facilities.

Non-Hazardous waste: Non-hazardous waste quantities are routinely monitored, recorded and sent to company authorized recyclers. Details about this are reported in the annual Environment statement.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

S. No.	Location of operations/ offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any.
No manufacturing facilities and offices are located or planned in/around ecologically sensitive areas.			

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
EIA is not applicable as none of our projects are carried out in ecologically sensitive areas.					

13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:

CIL is in compliance with all applicable environmental rules and regulations. Verification of this compliance is conducted during the Environment Management System audit.

S. No.	Specify the law / regulation / guidelines which was not complied with	Provide details of the non-compliance	Any fines / penalties / action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken, if any
No non-compliance has been noted.				

Leadership Indicators

1. Water withdrawal, consumption and discharge in areas of water stress (in kilo liters):

For each facility / plant located in areas of water stress, provide the following information:

- (i) Name of the area:
- (ii) Nature of operations:
- (iii) Water withdrawal, consumption, and discharge in the following format:

Parameter	CY 2025 Current calendar year	CY 2024 Previous calendar year
Water withdrawal by source (in kilolitres)		
(i) Surface water	-	-
(ii) Groundwater	-	-
(iii) Third party water	-	-
(iv) Seawater / desalinated water	-	-
(v) Others	-	-
Total volume of water withdrawal (in kilolitres)	-	-
Total volume of water consumption (in kilolitres)	-	-
Water intensity per rupee of turnover (Water consumed / turnover)	-	-
Water intensity (optional) – the relevant metric may be selected by the entity	-	-
Water discharge by destination and level of treatment (in kilolitres)		
(i) Into Surface water	-	-
- No treatment	-	-
- With treatment – please specify level of treatment	-	-

Parameter	CY 2025 Current calendar year	CY 2024 Previous calendar year
(ii) Into Groundwater	-	-
- No treatment	-	-
- With treatment – please specify level of treatment	-	-
(iii) Into Seawater	-	-
- No treatment	-	-
- With treatment – please specify level of treatment	-	-
(iv) Sent to third parties	-	-
- No treatment	-	-
- With treatment – please specify level of treatment	-	-
(v) Others	-	-
- No treatment	-	-
- With treatment – please specify level of treatment	-	-
Total water discharged (in kilolitres)	NA	NA

2. Please provide details of total Scope 3 emissions & its intensity, in the following format:

Parameter	Unit	CY 2025 Current calendar year	CY 2024 Previous calendar year
Total Scope 3 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	-	-
Total Scope 3 emissions per Crore of turnover	-	-	-
Total Scope 3 emission intensity (optional) – the relevant metric may be selected by the entity	-	-	-

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No

3. With respect to the ecologically sensitive areas reported at Question 10 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities:

Not applicable

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

Initiative undertaken	Outcome of the initiative
S. No. Details of the initiative (Web-link, if any, may be provided along-with summary)	
1. Reuse of flush oil generated in operations across operations	Increasing circularity - Reduction in waste oil (hazardous waste) generation
2. Rainwater Harvesting Solution	Increasing circularity - Reduction in freshwater consumption
3. Using Green Energy across manufacturing locations.	
4. Continuous Improvement measures through optimization of agitators, recirculation pumps, cooling systems	Reduction in GHG emissions
5. Formulation optimization to reduce process heating	
6. Continue use of LNG & CNG Vehicles in the transportation network	
7. 60% recycled content in bottles and 30% recycled content in Pail packaging	Increasing circularity - Recycling of plastic for use in packaging

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/web link:

Business Continuity Plan: Failure to address an incident effectively could potentially disrupt our business. A robust Crisis Management process enables us to address any incident or issues (safety, environment or product quality) which may escalate into an internal or external crisis. We have a detailed Business Continuity Plan (BCP), Incident Management Plan, Crisis Communication Plan, Emergency Response Plan and Tactical Management Plan for all sites. Regular annual trainings and exercises are conducted for team members in charge of the above plans in case of emergencies. A detailed Business Continuity Plan provides guidance on the actions to be taken to remain operational at acceptable levels, during and after a disruptive event, and to resume normal operations as quickly and effectively as possible. The BCP includes eight possible business disruptions and has detailed contingency strategies and action plans to mitigate them.

Incident Management Plan: CIL has an Incident Management Plan (IMP) that outlines broadly the guidelines for emergency response and incident escalation and management. The IMP is applicable across CIL’s operations (manufacturing units and offices). The Incident Management Team (IMT) operates in line with the IMP. The response of the IMT is defined through a structured process flowchart aligned to bp 3 Tier Response System. The primary role of the IMT is to verify safety of responders, manage incident impacts, direct emergency response to the incident and brief the BST (Business Support Team) and/or CST (Country Support Team) on status response activities.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard?

CIL has not identified significant adverse environmental impact in our value chain.

7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts:

Nil

8. How many green credits have been generated or procures:

a. By the listed entity

Not applicable

b. By the top ten (in terms of value of purchases and sales, respectively) value chain partners

Not applicable

PRINCIPLE 7 Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

Essential Indicators

1. a. Number of affiliations with and industry chambers/ associations:

Eleven

b. List the top 10 trade and industry chambers/ associations (determined based on the total members of such a body) the entity is a member of/ affiliated to:

S. No.	Name of the trade and industry chambers/ associations	Reach of trade and industry chambers/ associations (State/National)
1	ASCI - The Advertising Standards Council of India	National
2	Bombay Chambers of Commerce and Industry	State
3	Confederation of Indian Industry	National
4	Employer’s Federation of India (EFI)	National
5	Federation of Indian Chambers of Commerce and Industry (FICCI)	National
6	International Market Assessment India Pvt Ltd	National
7	Patalganga and Rasayani Industrial Association	State
8	Silvassa Industries Association	State
9	The Indian Society of Advertisers (ISA)	National
10	Automotive Component Manufacturers Association (ACMA)	National

2. Provide details of corrective action taken or underway on any issues related to anti-competitive conduct by the entity, based on adverse orders from regulatory authorities:

Not applicable

Leadership Indicators

1. Details of public policy positions advocated by the entity:

S. No.	Public policy advocated	Method resorted for such advocacy	Whether information available in the public domain? (Yes/No)	Frequency of Review by Board (Annually/ Half yearly/ Quarterly / Others – please specify)	Web Link, if available
	The company strategically channels industry-specific suggestions and contributions through active participation in trade bodies or associations, rather than direct public advocacy.				

PRINCIPLE 8 Businesses should promote inclusive growth and equitable development

Essential Indicators

1. Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year:

Name and brief details of project	SIA Notification No.	Date of notification	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web Link
Not applicable. No assessments were undertaken or necessitated during the reporting period.					

2. Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:

S. No.	Name of Project for which R&R is ongoing	State	District	No. of Project Affected Families (PAFs)	% of PAFs covered by R&R	Amounts paid to PAFs in the FY (In ₹)
Not applicable as there are no ongoing projects as such.						

3. Describe the mechanisms to receive and redress grievances of the community:

OpenTalk serves as a global helpline for bp, providing a confidential medium for people to raise their issues or seek explanations about our code. This service is managed by an autonomous enterprise, accessible 24/7 and provides assistance in over 75 different languages. Anyone, including contractors, partners, suppliers, customers and local community members can use OpenTalk. Anyone has the right to contact OpenTalk anonymously, except where this is prohibited by law

4. Percentage of input material (inputs to total inputs by value) sourced from suppliers:

Parameter	CY 2025 Current calendar year	CY 2024 Previous calendar year
Directly sourced from MSMEs/small producers	5%	5%
Directly from within India	48%	47%

5. Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent / on contract basis) in the following locations, as % of total wage cost:

Location	CY 2025 Current calendar year	CY 2024 Previous calendar year
Rural	12%	10%
Semi-urban	6%	6%
Urban	1%	1%
Metropolitan	82%	83%

*(Place to be categorized as per RBI Classification System - rural / semi-urban / urban / metropolitan)

Leadership Indicators

1. Provide details of actions taken to mitigate any negative social impacts identified in the Social Impact Assessments (Reference: Question 1 of Essential Indicators above):

Details of negative social impact identified	Corrective action taken
Not applicable	

2. Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:

State	Aspirational districts	Beneficiaries Covered	Amount (₹)
Karnataka	Yadgiri	192	7,27,680
Madhya Pradesh	Chhatarpur	165	4,69,425
Uttar Pradesh	Fatehpur	559	15,90,355
Madhya Pradesh	Khandwa	166	4,72,270
Rajasthan	Karauli	70	1,99,150
West Bengal	Birbhum	2870	1,05,93,170
Maharashtra	Jalgaon	1289	47,57,699

3. (a) Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized/vulnerable groups? (Yes/No)

No. The suppliers primarily considered for procurement of input materials include refineries and chemical industries.

(b) From which marginalized/vulnerable groups do you procure?

Not applicable

(c) What percentage of total procurement (by value) does it constitute?

Not applicable

4. Details of the benefits derived and shared from the intellectual properties owned or acquired by your entity (in the current financial year), based on traditional knowledge:

S. No.	Intellectual Property based on traditional knowledge	Owned/Acquired (Yes/No)	Benefit shared (Yes / No)	Basis of calculating benefit share
-				

5. Details of corrective actions taken or underway, based on any adverse order in intellectual property related disputes wherein usage of traditional knowledge is involved:

Name of authority	Brief of the Case	Corrective action taken
-		

6. Details of beneficiaries of CSR Projects:

@S. No.	CSR Projects	No. of persons benefited from CSR Projects 2025	% of beneficiaries from vulnerable and marginalized groups
1	Castrol Sarathi Mitra - The programme aims to holistically improve the lives of truck drivers through interventions that enable a sustainable livelihood and opportunities for socio-economic growth.	53,659 truck drivers	100%
2	Castrol Eklavya - The programme offers skilling initiatives in the automotive industry aiming to deliver inclusive growth for mechanics, covering the basics and focusing on diagnostic skills	26,243 mechanics	100%
3	Castrol Ujjwal Kal - Community development initiatives in key areas of education, upskilling and health.	4,804 beneficiaries in communities near plants	100%

@S. No.	CSR Projects	No. of persons benefited from CSR Projects 2025	% of beneficiaries from vulnerable and marginalized groups
4	Programme for driving safety - Castrol 2 Wheels 1 Life - educating the youth on safe two-wheeler riding techniques and sensitizing them on road safety; encouraging the formation of Road Safety Clubs, with trained youth as ambassadors of Road Safety, to educate their peers.	21,075 two-wheeler riders in Mumbai and Pune	-

PRINCIPLE 9 Businesses should engage with and provide value to their consumers in a responsible manner

Essential Indicators

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback:

The company is committed to addressing consumer queries, complaints and feedback in a timely manner. To this end, it has established a dedicated call center, which operates in English and seven other regional languages. Customers can reach the call center at 18002098100 or 1800222100. Additionally, the company has set up an email address, customercare.india@castrol.com, for addressing queries and feedback. Each consumer pack prominently displays these contact details. Several efficient workflows are in place to ensure all queries are addressed in a timely manner.

2. Turnover of products and/services as a percentage of turnover from all products/service that carry information about:

Parameter	As a percentage to total turnover
Environmental and social parameters relevant to the product	-
Safe and responsible usage	100%
Recycling and/or safe disposal	100%

Product Data Sheets and Material Safety Data Sheets list specific guidelines to ensure safe and responsible usage and disposal instructions for CIL’s products. The company also includes requisite disclosures on the packaging of its products. Additionally, CIL also undertakes information sharing through multiple channels of engagement to provide information to stakeholders on responsible practices.

3. Number of consumer complaints in respect of the following:

Particulars	CY 2025 (Current Calendar year)			CY 2024 (Previous Calendar year)		
	Received during the year	Pending resolution at end of year	Remarks	Received during the year	Pending resolution at end of year	Remarks
Data privacy	-	-	-	-	-	-
Advertising	-	-	-	-	-	-
Cyber-security	-	-	-	-	-	-
Delivery of essential Services	-	-	-	-	-	-
Restrictive Trade Practices	-	-	-	-	-	-
Unfair Trade Practices	-	-	-	-	-	-
Other	-	-	-	-	-	-

4. Details of instances of product recalls on account of safety issues:

Particulars	Number	Reasons for recall
Voluntary recalls	-	-
Forced recalls	-	-

5. Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy:

Yes, the organization has established a system and guidelines regarding cyber security and issues pertaining to data privacy.

A variety of measures are implemented to manage risks associated with cyber security. This includes the application of cyber security policies and procedures, the utilization of security defense tools, continuous monitoring of threats, and the capacities to detect events. Also, we have response strategies for incidents and routinely run drills to evaluate our recovery skills and response tactics to cyber-attacks. Our cyber security education and awareness initiative provides training to our staff on subjects like phishing and the proper classification and handling of our data. Actively engaging with governments, law enforcement agencies and peer industries allows us to gauge and respond appropriately to new and upcoming threats.

The cyber security guidelines and framework can be found on the company’s intranet. bp’s Privacy Policy outlines our privacy compliance framework, detailing the arrangement of central and local privacy resources. Best practices for managing personal data are promoted by a central team backed by local privacy coordinators appointed by local management, all in compliance with the bp Code of Conduct, bp privacy rules and any local legislative obligations.

6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services:

NIL

7. Provide the following information relating to data breaches:

- a. Number of instances of data breaches

b. Percentage of data breaches involving personally identifiable information of customers

c. Impact, if any, of the data breaches
- }
- NIL

Leadership Indicators

1. Channels / platforms where information on products and services of the entity can be accessed (provide web link, if available):

Details about all the products and services offered by the company can be found on its website at https://www.castrol.com/en_in/india/home.html

2. Steps taken to inform and educate consumers about safe and responsible usage of products and/or services:

Product Data Sheets and Material Safety Data Sheets for all CIL’s products have been made available on the CIL website (<https://thelubricantoracle.castrol.com/>). These sheets detail procedures for safe usage and disposal of the company’s products. Additionally, requisite disclosures have also been included on the packaging of these products.

3. Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services:

At CIL, we do not deal with any essential services, however, in event of any disruption or discontinuation of services, the company proactively informs its stakeholders through its website, social media platforms, distributor and retailer networks, sales representatives, emails etc. Also, customers can reach the call centers at 18002098100 or 1800222100 or email at customercare.india@castrol.com, for addressing queries and feedback.

4. Does the entity display product information on the product over & above what is mandated as per local laws? (Yes/No/ Not Applicable) If yes, provide details in brief? Did your entity carry out any survey with regard to consumer satisfaction relating to the major products / services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)

CIL has a wide range of products. In addition to mandate as per local laws, wherever space permits, information about benefits accrued from usage of a product and the product functionality towards the benefit are also elaborated on each product label.

Surveys carried out with principal customers have prompted implementation of strategies to enhance consumer experience. Regular evaluations are also conducted on significant brands to ascertain brand strength and cognitive impact among consumers.

Independent Auditor’s Report

To The Members of Castrol India Limited
Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Castrol India Limited (the “Company”), which comprise the Balance Sheet as at December 31, 2025, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.
