#### 19. Markets served by the entity

##### a. Number of locations

| Location                         | Number         |
|----------------------------------|----------------|
| National (No. of States)         | All Over India |
| International (No. of Countries) | 66             |

##### b. What is the contribution of exports as a percentage of the total turnover of the entity?

The contribution of exports as a percentage is 12.51% of the total turnover.

##### c. A brief on types of customers

Eicher Motors Limited (EML) caters to a diverse and dynamic customer base, spanning individual riders, commercial enterprises, and government agencies. Through its flagship brand, Royal Enfield, the company has established itself as a leader in the premium, retro-inspired motorcycle segment. With a versatile product portfolio and an unwavering commitment to quality, Eicher continues to attract a wide spectrum of customers, each with distinct needs and preferences.

##### Key Customer Segments:

- ♦ **Motorcycle Enthusiasts:** These riders are drawn to the brand's timeless design, vintage aesthetics, and the iconic thump of its engines. They value not just performance but also the heritage, exclusivity, and nostalgic appeal of Royal Enfield motorcycles.
- ♦ **Adventure Seekers:** Designed for thrill-seekers, the brand's adventure and off-road models come equipped with high ground clearance, rugged tyres, and robust chassis, making them ideal for exploring challenging terrains, long-distance touring, and off-road expeditions.
- ♦ **Daily Commuters:** With a focus on comfort, and agility, Royal Enfield motorcycles offer a practical and stylish commuting solution. Their ease of manoeuvrability and dependable performance make them a preferred choice for urban riders navigating daily traffic.
- ♦ **Retro & Classic Bike Lovers:** As the demand for retro-style motorcycles surges, Royal Enfield remains at the forefront of this trend. Customers who appreciate vintage craftsmanship and heritage-inspired designs are drawn to its line-up, which seamlessly blends old-world charm with modern engineering.
- ♦ **Global Riders:** Royal Enfield's appeal extends far beyond its home market, gaining a strong foothold in international markets such as the UK, US, Brazil and Australia. These customers are attracted to the brand's legacy, reliability, and its reputation for crafting motorcycles that deliver a unique riding experience.

By continuously evolving to meet the demands of these diverse customer segments, Eicher Motors Limited reinforces its position as a global leader in the premium motorcycle segment.

#### IV. EMPLOYEES

##### 20. Details as at the end of financial year:

###### a. Employees and workers (including differently abled):

| Sr. No.   | Particulars              | Total (A) | Male   |        | Female |        |
|-----------|--------------------------|-----------|--------|--------|--------|--------|
|           |                          |           | No.(B) | %(B/A) | No.(C) | %(C/A) |
| EMPLOYEES |                          |           |        |        |        |        |
| 1.        | Permanent(D)             | 3,162     | 2,847  | 90%    | 315    | 10%    |
| 2.        | Other than Permanent (E) | 228       | 196    | 86%    | 32     | 14%    |
| 3.        | Total employees (D+E)    | 3,390     | 3,043  | 90%    | 347    | 10%    |
| WORKERS   |                          |           |        |        |        |        |
| 4.        | Permanent(F)             | 2,016     | 1,941  | 96%    | 75     | 4%     |
| 5.        | Other than Permanent (G) | 13,889    | 10,862 | 78%    | 3,027  | 22%    |
| 6.        | Total workers (F+G)      | 15,905    | 12,803 | 80%    | 3,102  | 20%    |

| Employees other than BoD and KMPs | 290                                                    | <ul style="list-style-type: none"> <li>- Code of Conduct</li> <li>- Prevention of Sexual Harassment</li> <li>- Insider Trading Regulations</li> <li>- New Employee Induction</li> </ul>                                                                                                                                       | 98%                                                                        |

| Segment | Total number of training and awareness programmes held | Topics / principles covered under the training and its impact                                                                                                                                                                 | %age of persons in respective category covered by the awareness programmes |
|---------|--------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------|
| Workers | 158                                                    | <ul style="list-style-type: none"> <li>- Functional/Technical</li> <li>- Behavioural</li> <li>- Safety (EHS, ERT, First Aid, Safety Bytes)</li> <li>- Mandatory sessions on Prevention of Sexual Harassment (POSH)</li> </ul> | 81%                                                                        |

EML is dedicated to conducting business in a way that upholds the greatest standards of morality and professionalism. The business developed a “Code of Conduct ” (CoC) that applies to the entire organisation and is based on the fundamental principles of ethics, accountability and transparency. It talks about topics including bribery, corruption, adhering to the Company’s standards of corporate behaviour, and ensures that regulatory obligations are met. For Board and KMP’s, awareness programs are usually part of the Board proceedings.

Globally, all workers are required to abide by the code of conduct (CoC) and become familiar with it during the induction process. The organisation makes an endeavour that all the Employees periodically undergo training on topics including safety, codes of conduct, and human rights (such as POSH). All these result in lowering the number of undesirable instances in the organisation.

**2. Details of fines / penalties /punishment/ award/ compounding fees/ settlement amount paid in proceedings (by the entity or by directors / KMPs) with regulators/ law enforcement agencies/ judicial institutions, in the financial year, in the following format (Note: the entity shall make disclosures on the basis of materiality as specified in Regulation 30 of SEBI (Listing Obligations and Disclosure Obligations) Regulations, 2015 and as disclosed on the entity’s website):**

| Monetary        |                 |                                                                     |                 |                   |                                        |

|           | FY 2024-25 | FY 2023-24 |
|-----------|------------|------------|
| Directors | Nil        | Nil        |
| KMPs      | Nil        | Nil        |
| Employees | Nil        | Nil        |
| Workers   | Nil        | Nil        |

**6. Details of complaints with regard to conflict of interest:**

|                                                                                              | FY 2024-25 |         | FY 2023-24 |         |
|----------------------------------------------------------------------------------------------|------------|---------|------------|---------|
|                                                                                              | Number     | Remarks | Number     | Remarks |
| Number of complaints received in relation to issues of Conflict of Interest of the Directors | Nil        | Nil     | Nil        | Nil     |
| Number of complaints received in relation to issues of Conflict of Interest of the KMPs      | Nil        | Nil     | Nil        | Nil     |

**7. Provide details of any corrective action taken or underway on issues related to fines/ penalties / action taken by regulators/ law enforcement agencies/ judicial institutions, on cases of corruption and conflicts of interest.**

Not Applicable. There were no instances of fines/penalties/action taken by regulators/law enforcement agencies/judicial institutions on cases of corruption and conflict of interest during the reporting year.

**8. Number of days of accounts payables ((Accounts payable \*365) / Cost of goods/services procured) in the following format:**

|                                     | FY 2024-25 | FY 2023-24 |
|-------------------------------------|------------|------------|
| Number of days of accounts payables | 73         | 43*        |

Note: Denominator does not include contract manpower services purchased.

\* Revised, to align with latest standards / guidelines.

**9. Open-ness of business**

**Provide details of concentration of purchases and sales with trading houses, dealers, and related parties along-with loans and advances & investments, with related parties, in the following format:**

| Parameter                         | Metrics                                                                                  | FY 2024-25 | FY 2023-24 |
|-----------------------------------|------------------------------------------------------------------------------------------|------------|------------|
| <b>Concentration of Purchases</b> | a. Purchases from trading houses as % of total purchases                                 | NA         | NA         |
|                                   | b. Number of trading houses where purchases are made from                                | NA         | NA         |
|                                   | c. Purchases from top 10 trading houses as % of total purchases from trading houses      | NA         | NA         |
| <b>Concentration of Sales</b>     | a. Sales to dealers/ distributors as % of total sales                                    | 99.99%     | 99.99%     |
|                                   | b. Number of dealers distributors to whom sales are made                                 | 1,460      | 1,357      |
|                                   | c. Sales to top 10 dealers/ distributors as % of total sales to dealers/ distributors    | 7.43%      | 6.30%      |
| <b>Share of RPTs in</b>           | a. Purchases (Purchases with related parties/ Total Purchases)                           | 2.84%      | 2.80%      |
|                                   | b. Sales (Sales to related parties/ Total Sales)                                         | 4.01%      | 2.80%      |
|                                   | c. Loans & advances (Loans & advances given to related parties / Total loans & advances) | 69.85%     | 69.78%     |
|                                   | d. Investments (Investments in related parties/ Total Investments made)                  | 3.14%      | 3.17%      |

**LEADERSHIP INDICATORS**

**1. Does the entity have processes in place to avoid/ manage conflict of interests involving members of the Board? (Yes/No). If yes, provide details of the same.**

Yes, the Code of Conduct for Directors and Senior Management requires all senior management personnel to disclose any potential conflicts of interest and comply with applicable laws. Board members are also obligated to submit disclosures of interest under Section 184 of the Companies Act, 2013, at the time of their appointment, annually thereafter, and promptly upon any changes. The Company maintains a comprehensive list of related parties in accordance with the Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, to effectively monitor conflicts of interest and ensure compliance with related party transaction norms. All such transactions are undertaken only after obtaining the necessary approvals from the Board, Audit Committee, or shareholders, as required.

**PRINCIPLE 2: Business should provide goods and services in a manner that is sustainable and safe**

**ESSENTIAL INDICATORS**

**1. Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.**

|       | FY 2024-25 | FY 2023-24 | Details of improvements in environmental and social impacts                                                                                          |
|-------|------------|------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| R&D   | 16.02%     | 9.30%      | Eicher is undertaking several projects to improve its environmental and social impacts. These include:                                               |
| Capex | 29.71%     | 14.22%     |                                                                                                                                                      |
|       |            |            | 1. Continuous refinement of engines and undertaking other efforts like exploring alternative fuels, continues our focus on improving fuel efficiency |
|       |            |            | 2. R&D activities to make the motorcycle more fuel-efficient, sustainable and environmentally compliant adhering to global emission standards        |
|       |            |            | 3. Engine oil developed with SN grade for Flex fuel Variant                                                                                          |
|       |            |            | 4. UV resistance additive added for Plastic material for enhanced life                                                                               |
|       |            |            | 5. Flex fuel emission testing capability upgraded. With this new upgraded test lab, we can measure emissions of E0 to E100 fuel                      |

**2. a. Does the entity have procedures in place for sustainable sourcing? (Yes/No)**

EML has been working to enhance the degree of sustainability associated with its sourcing practices through ESG & Safety Audits across supply chain. As part of the sustainable sourcing strategy, the Company has been Prioritising proximity procurement, 76.71% of the total direct materials in FY 2024-25 were sourced from suppliers within 500 km range (65% <50 Km), ensuring sustained supplies with 91% of Parts with Returnable Green Packaging.

Also as part of our supplier ESG Assessment it is noted and evident that 64.48% of suppliers by purchase value are using renewable energy, 70.64% of suppliers by purchase value are certified with ISO 14001 Environment Management system and 63.32% of suppliers by purchase value are certified with ISO 45001 Occupational health and safety Management system underlying our commitment towards sustainable sourcing.

**b. If yes, what percentage of inputs were sourced sustainably?**

Approximately 71% of direct raw materials and 73% of indirect materials—such as consumables, spares, and tools—are sustainably procured from local suppliers and vendors, predominantly based in and around Chennai, near our operational sites.

**3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for**

**(a) Plastics (including packaging)**

**(b) E-waste**

**(c) Hazardous waste and**

**(d) other waste.**

The Company is actively advancing circular economy practices by adopting the 3R principle—Reduce, Reuse, and Recycle—to promote efficient resource utilization and minimize environmental impact.

- ♦ Efforts are underway to achieve zero waste to landfill, with initiatives such as paperless bidding processes aimed at reducing the Company's ecological footprint.
- ♦ Hazardous waste is either treated in-house or handed over to authorized vendors in compliance with regulatory guidelines, while non-hazardous waste is systematically segregated and sold to licensed dealers.
- ♦ Additionally, sewage treatment plant (STP) sludge is converted into vermicompost for use in landscaping activities. The Company also maintains detailed records of waste generation to enhance waste management and reporting efficiency.

**4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.**

Yes, EPR is applicable to EML and its waste management plans for plastic, waste oil and battery are in line with EPR norms.

**LEADERSHIP INDICATORS**

**1. Percentage of recycled or reused input material to total material (by value) used in production (for manufacturing industry) or providing services (for service industry).**

| Indicate input material | Recycled or re-used input material to total material* |            |
|-------------------------|-------------------------------------------------------|------------|
|                         | FY 2024-25                                            | FY 2023-24 |
| Recycled steel          | 11.53%                                                | 11.44%     |
| Recycled aluminium      | 73.73%                                                | 72.61%     |

\* EML initiated ESG audits for suppliers in FY 2023-24. By FY 2024-25, suppliers amounting to approximately 83% of purchase value have been assessed.

FY 2024-25 figures are based on confirmations from the suppliers on % share of recycled in respective material supplied. Accordingly the figures for FY 2023-24 are restated.

**PRINCIPLE 3:**

**Business should respect and promote the well-being of all employees, including those in their value chains**

**ESSENTIAL INDICATORS****1. a. Details of measures for the well-being of employees:**

\* All eligible employees and workers are covered as per act

### 3. Accessibility of workplaces

**Are the premises / offices of the entity accessible to differently abled employees and workers, as per the requirements of the Rights of Persons with Disabilities Act, 2016? If not, whether any steps are being taken by the entity in this regard.**

EML's premises are thoughtfully designed to be accessible to individuals with disabilities, in accordance with the Rights of Persons with Disabilities Act, 2016. The Company is committed to upholding human rights and fostering an inclusive, safe workplace environment.

To support this, infrastructure features include specially designed washrooms, ramps for improved mobility, and clearly placed signboards to aid individuals with hearing impairments. Additionally, wheelchair facilities are available at occupational health centres across all major sites.

### 4. Does the entity have an equal opportunity policy as per the Rights of Persons with Disabilities Act, 2016? If so, provide a web-link to the policy.

Yes, EML is dedicated to promoting equal opportunities and upholding equal rights. The Company enforces a strict anti-discrimination policy and takes an inclusive approach to employment, thoughtfully considering the nature of disabilities across both plant and office locations.

### 5. Return to work and Retention rates of permanent employees and workers that took parental leave.

| Gender | Permanent employees |                | Permanent workers   |                |
|--------|---------------------|----------------|---------------------|----------------|
|        | Return to work rate | Retention rate | Return to work rate | Retention rate |
| Male   | 100%                | 100%           | 100%                | 100%           |
| Female | 100%                | 100%           | 100%                | 100%           |
| Total  | 100%                | 100%           | 100%                | 100%           |

### 6. Is there a mechanism available to receive and redress grievances for the following categories of employees and worker? If yes, give details of the mechanism in brief.

| Yes/No (If Yes, then give details of the mechanism in brief) |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|--------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Permanent Workers                                            | EML gives utmost importance to addressing needs and grievances of all its stakeholders. It has adopted various codes and policies to address and receive any form of complaints. The Company has a policy on human rights, code of conduct, POSH, vigil mechanism and whistle blower policy to put in line a steady mechanism and be able to address the issues under a stipulated amount of time. The company has in place a self learning POSH module having sessions on POSH which are mandatory to be undertaken by each employee. |
| Other than Permanent Workers                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

**10. Health and safety management system:****a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/No). If yes, the coverage of such system?**

As part of the integrated management system, EML has implemented ISO 45001-certified safety management systems across its four manufacturing facilities, spare parts warehouse, and corporate headquarters. This comprehensive framework covers all employees and workers, ensuring adherence to occupational health and safety standards.

**b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?**

EML places the highest priority on the health and safety of its employees. An Occupational Health and Safety Management System is in place to proactively identify and address work-related hazards and risks on a regular basis. Aligned with ISO 45001 standards, the system ensures safe working conditions across all of EML's manufacturing facilities, covering every employee and worker within its premises.

Additionally, EML has implemented an Integrated Management System (IMS) that utilizes effective tools such as Hazard Identification and Risk Assessment (HIRA) for robust safety management. A central Safety Committee conducts quarterly reviews of safety standards and implements necessary improvements to maintain a safe and secure work environment.

**c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Y/N)**

Yes, the Company has established procedures that allow workers to report work-related hazards and withdraw from situations that pose a risk to their health or safety.

**d. Do the employees/worker of the entity have access to non-occupational medical and healthcare services? (Yes/No)**

Yes, EML places a strong emphasis on employee healthcare, and the benefits offered are thoughtfully designed to support the well-being of employees and their families. The Company provides the following health-related benefits to all full-time employees:

1. Life insurance
2. Health care coverage
3. Disability support
4. Annual health check-ups and wellness camps

**11. Details of safety related incidents, in the following format:**

| Safety Incident/Number                                                        | Category* | FY 2024-25 | FY 2023-24 |
|-------------------------------------------------------------------------------|-----------|------------|------------|
| Lost Time Injury Frequency Rate (LTIFR) (per one million-person hours worked) | Employees | -          | 0.03       |
|                                                                               | Workers   | -          | -          |
| Total recordable work-related injuries                                        | Employees | -          | 1          |
|                                                                               | Workers   | -          | -          |
| No. of fatalities                                                             | Employees | -          | -          |
|                                                                               | Workers   | -          | -          |
| High consequence work-related injury or ill-health (excluding fatalities)     | Employees | -          | -          |
|                                                                               | Workers   | -          | -          |

*\*Including in the contract workforce*

**12. Describe the measures taken by the entity to ensure a safe and healthy work place.**

EML is firmly committed to safeguarding health and safety across its operations, with a goal of achieving 'Zero Harm' to its employees, the environment, and the communities in which it operates. The Company believes that all injuries and illnesses are preventable.

Occupational health and safety considerations are integral and non-negotiable elements in all business decisions and daily operations. To support this commitment, EML has implemented ISO 45001-certified safety management systems across its four manufacturing facilities, spare parts warehouse, and corporate headquarters. All employees and workers are covered under this system. Additionally, EML employs Hazard Identification and Risk Assessment (HIRA) tools to ensure effective and proactive safety management. Aside, safety training to the employees and workers through mock drills are conducted & exclusive emergency response teams are prepared for any emergency situation.

**13. Number of Complaints on the following made by employees and workers:**

|                    | FY 2024-25            |                                       |         | FY 2023-24            |                                       |         |
|--------------------|-----------------------|---------------------------------------|---------|-----------------------|---------------------------------------|---------|

| Health & Safety    | -                     | -                                     | NA      | -                     | -                                     | NA      |

**14. Assessment for the year:**

|                             | % of your plants and offices that were assessed (by entity or statutory authorities or third parties) |
|-----------------------------|-------------------------------------------------------------------------------------------------------|
| Health and safety practices | 100                                                                                                   |
| Working Conditions          | 100                                                                                                   |

**15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks/ concerns arising from assessments of health & safety practices and working conditions.**

No corrective actions were required since there were no safety-related incidents. However, periodic reviews are done.

**LEADERSHIP INDICATORS****1. Does the entity extend any life insurance or any compensatory package in the event of death of (A) Employees (Y/N) (B) Workers(Y/N).**

Yes, the organisation ensures that its employees and workers and their families are taken care of in case of any unfortunate situation. Some of the initiatives already in place are:

- EMPLOYEES:** All categories of employees are provided with Group Medical Insurance and Group Voluntary Term Life Insurance.
- WORKERS:** All the permanent workers working under EML are provided with life insurance and accident insurance benefits. Non permanent workers will be provided based on policies of the vendor

**2. Provide the measures undertaken by the entity to ensure that statutory dues have been deducted and deposited by the value chain partners.**

The company's General purchase agreement clearly defines statutory dues and statutory compliance adherence expected from our value chain partners. The company also has a defined Supplier code of conduct where all our value chain partner groups have to abide by it. Aside, we also conduct routine compliance measures through supplier audits for select suppliers to confirm that statutory dues are being appropriately deducted and remitted.

**3. Provide the number of employees / workers having suffered high consequence work-related injury / ill-health / fatalities (as reported in Q11 of Essential Indicators above), who have been are rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment:**

|           | Total no. of affected employees/ workers |            | No. of employees/workers that are rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment |            |
|-----------|------------------------------------------|------------|---------------------------------------------------------------------------------------------------------------------------------------------------|------------|
|           | FY 2024-25                               | FY 2023-24 | FY 2024-25                                                                                                                                        | FY 2023-24 |
| Employees | -                                        | -          | -                                                                                                                                                 | -          |
| Workers   | -                                        | -          | -                                                                                                                                                 | -          |

**4. Does the entity provide transition assistance programs to facilitate continued employability and the management of career endings resulting from retirement or termination of employment? (Yes/ No)**

Yes, EML does provide transition assistance to its employees to facilitate continued employability and the management of career endings resulting from retirement or termination of employment. In case of termination, employees are provided with severance packages on a case-by-case basis.

**5. Details on assessment of value chain partners:**

The Company conducts an ESG audit of suppliers, which covers employee health and safety along with other environmental, social, and governance aspects. The audit also covers various social aspects such as child labour, human rights, Sexual harassment, etc.

The Company initiated ESG audits in FY 2023-24. A cumulative 83.30% of suppliers by purchase value have been assessed until March 31, 2025, of which 41.95% of suppliers were assessed in FY 2024-25.

| % of value chain partners (by value of business done with such partners) that were assessed* |        |
|----------------------------------------------------------------------------------------------|--------|
| Health and safety practices                                                                  | 21.21% |
| Working Conditions                                                                           | 41.95% |

\* The % reported is for the % of the suppliers assessed during the reporting year 2024-25.

**6. Provide details of any corrective actions taken or underway to address significant risks/concerns arising from assessments of health and safety practices and working conditions of value chain partners.**

There were no significant risks / concerns noticed during onsite supplier assessments with regards to occupational health, safety and working conditions. However, for the supplier audits where minor concerns were observed related to safety at the supplier location, the suppliers were asked to submit corrective action plans. The supplier performance against these action plans was monitored through re-audits to ensure implementation of safety and good working condition practices.

**PRINCIPLE 4: Business should respect the interests of and be responsive to all its stakeholders**
**ESSENTIAL INDICATORS**
**1. Describe the processes for identifying key stakeholder groups of the entity.**

Stakeholders are individuals or groups who can influence or be impacted by an organization's activities. We acknowledge that our operations are affected, directly or indirectly, by various stakeholders such as customers, employees, investors, regulators, business partners, and peers. It is therefore essential to understand and address their needs and concerns transparently and ethically to foster lasting relationships. By prioritizing stakeholder engagement, the Company ensures alignment with stakeholder expectations, which helps reduce risks and enhances its reputation in the marketplace.

**2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.**

| Stakeholder Group             | Whether identified as Vulnerable & Marginalized Group (Yes/No) | Channels of communication (Email, SMS, Newspaper, Pamphlets, Advertisement, Community Meetings, Notice Board, Website), Other                                                                                | Frequency of engagement (Annually/ Half yearly/ Quarterly / others – please specify) | Purpose and scope of engagement including key topics and concerns raised during such engagement                                                                                                                                     |
|-------------------------------|----------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Employees                     | No                                                             | <ul style="list-style-type: none"> <li>Awareness training</li> <li>Performance appraisals</li> <li>Annual employee satisfaction survey</li> <li>Grievance redressal mechanism</li> </ul>                     | Continuous                                                                           | <ul style="list-style-type: none"> <li>Occupational health and safety Rewards and recognition</li> <li>Personal development and growth</li> <li>Empowering work environment</li> </ul>                                              |
| Consumers and dealers         | No                                                             | <ul style="list-style-type: none"> <li>Customer satisfaction survey</li> <li>Market surveys</li> <li>Market communications</li> <li>Dealer meets</li> <li>Rides and events</li> <li>Pulse surveys</li> </ul> | Continuous                                                                           | <ul style="list-style-type: none"> <li>Sales and marketing plan</li> <li>Product quality</li> <li>Incentives</li> <li>Enhancing customer experience</li> </ul>                                                                      |
| Suppliers                     | No                                                             | <ul style="list-style-type: none"> <li>Supplier meets</li> <li>Training and awareness programmes</li> <li>Pre-onboarding Supplier assessments</li> </ul>                                                     | Continuous                                                                           | <ul style="list-style-type: none"> <li>Planning and execution of work orders</li> <li>Innovation and product development</li> <li>Sourcing plans</li> <li>Co-creation of new technologies</li> </ul>                                |

## LEADERSHIP INDICATORS

### 1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

During the last year, the organisation undertook a comprehensive materiality assessment to identify key topics that significantly influence its environmental, social, and economic performance. This process involved engaging both internal and external stakeholders to ensure that the identified material issues are aligned with the organisation's strategic priorities and goals. These topics were then prioritised based on their relevance and impact.

The outcomes of the assessment serve as a foundation for shaping the organisation's sustainability strategy and informing its performance reporting. To maintain relevance and responsiveness, the materiality assessment is planned to review and update on a regular basis, taking into account stakeholder feedback and evolving market, regulatory, and environmental trends.

### 2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

At EML, we recognize that stakeholder consultations are essential for aligning our ESG strategies and objectives. Through active engagement, we aim to incorporate stakeholder perspectives on key material topics, enabling us to effectively manage the associated risks and opportunities.

### 3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

Company's Social Mission is focussed on the Indian Himalayan region (IHR), an ecologically and culturally important landscape. The social mission is catalysing an ecosystem of collective action to meet its long-term vision of partnering 100 Himalayan communities by 2030, towards building climate resilience and related areas of concern. The social mission is directly impacting > 1.5 Lakhs people in states across the IHR, with >80% of these being from vulnerable and marginalised groups. This includes engagement with >70 communities and presence in 13 aspirational districts.

The main Social Mission projects include 'The Himalayan Knot' – a textile conservation project, bringing together pastoral communities, artisans and designers for wider market access; 'The Himalayan Hub' – a collective learning center for Climate Resilience; a network of community-run 'Green Pit Stops', embodying responsible travel; 'The Great Himalayan Exploration' in partnership with UNESCO to document Intangible Cultural Heritage (ICH); the Royal Enfield 'Ice Hockey League' promoting rural sports and winter tourism; conserving biodiversity and wildlife through the Keystone Species project; and 'Helmets for India' – a road safety initiative.

In addition to the Social Mission, Company also works with local communities near its manufacturing plants in Tamil Nadu, focusing on areas such as water conservation, education, livelihood, sanitation, healthcare etc. Two multi-decade partnerships with Bodh Shiksha Samiti in Rajasthan and Dr. Shroff Charity Eye Hospital in Delhi continue to be supported as legacy projects. The Company remains committed to continuously identifying community needs and addressing key concerns through targeted efforts.

**PRINCIPLE 5: Businesses should respect and promote human rights**
**ESSENTIAL INDICATORS**

1. Employees and workers who have been provided training on human rights issues and policy(ies) of the entity, in the following format:

| Category             | FY 2024-25 |                                        |           | FY 2023-24 |                                        |           |
|----------------------|------------|----------------------------------------|-----------|------------|----------------------------------------|-----------|
|                      | Total (A)  | No. of employees / workers covered (B) | % (B / A) | Total (C)  | No. of employees / workers covered (D) | % (D / C) |
| <b>Employees</b>     |            |                                        |           |            |                                        |           |
| Permanent            | 3,162      | 3,100                                  | 98        | 2,833      | 2,778                                  | 98        |

\* This is based on the median remuneration reported in the Director's report.

#The remuneration of two directors who joined the organisation in February, 2025 have not been included in the calculation. The head count & remuneration also includes one male and one female director who left during the financial year 2024-25.

@ The managing director has been included as a Key Managerial Personnel

**b. Gross wages paid to females as % of total wages paid by the entity, in the following format:**

|                                                 | FY 2024-25 | FY 2023-24 |
|-------------------------------------------------|------------|------------|
| Gross wages paid to females as % of total wages | 6.46%      | 6.33%      |

**4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)**

Yes. The Internal Complaints Committee and Human Resources department, is responsible for addressing any human rights concerns or issues arising from the Company's operations.

**5. Describe the internal mechanisms in place to redress grievances related to human rights issues.**

EML maintains a zero-tolerance approach toward human rights violations and is committed to upholding internationally recognized human rights standards. The Company expects the same level of commitment from its stakeholders and business partners. Its practices are aligned with key global frameworks, including the UN Guiding Principles on Business and Human Rights and the International Labour Organization's Declaration on Fundamental Principles and Rights at Work.

To effectively address human rights concerns, EML has implemented clear policies such as a Human Rights Policy, Whistleblower Policy, and the establishment of a POSH Committee. These mechanisms ensure that any issues are addressed appropriately and allow individuals to report concerns without fear of retaliation. Additionally, EML conducts regular audits at its facilities to ensure compliance with social and human rights standards

**6. Number of Complaints on the following made by employees and workers:**

|                                   | FY 2024-25            |                                       |         | FY 2023-24            |                                       |                                                                        |

**8. Mechanisms to prevent adverse consequences to the complaint in discrimination and harassment cases.**

We are committed to fostering a respectful and dignified environment for all. Our Prevention of Sexual Harassment (POSH) policy outlines clear guidelines to prevent misconduct, including discrimination and harassment. The POSH Committee has established a structured mechanism to address and resolve any complaints or concerns raised.

**9. Do human rights requirements form part of your business agreements and contracts? (Yes/No)**

Yes, all our agreements and contracts are aligned with statutory and regulatory requirements, incorporating provisions related to human rights and safe working conditions. We enforce a Supplier Code of Conduct across our supply chain, mandating that all suppliers comply with applicable human rights laws and regulations and adhere to the Code. The Company also upholds the principles of the United Nations Global Compact (UNGC), which include strong commitments to human rights.

**10. Assessment for the year:**

|                             | % of your plants and offices that were assessed (by entity or statutory authorities or third parties) |
|-----------------------------|-------------------------------------------------------------------------------------------------------|
| Child labour                | 100%                                                                                                  |
| Forced/involuntary labour   |                                                                                                       |
| Sexual harassment           |                                                                                                       |
| Discrimination at workplace |                                                                                                       |
| Wages                       |                                                                                                       |
| Others—please specify       |                                                                                                       |

**11. Provide details of any corrective actions taken or underway to address significant risks/ concerning arising from the assessments at Question 10 above.**

No significant risks or concerns were identified as a result of the human rights assessments.

**LEADERSHIP INDICATORS**

**1. Details of a business process being modified / introduced as a result of addressing human rights grievances/ complaints.**

No process modifications have been required, as no complaints or grievances related to human rights were identified. However the Company continuously reviews its processes and make changes wherever required.

**2. Details of the scope and coverage of any Human rights due-diligence conducted.**

EML is dedicated to respecting and protecting the human rights of all its stakeholders, operating in full compliance with applicable labour laws and regulations. The Company has implemented several policies and internal committees—such as the Human Rights Policy and the POSH Committee—to oversee human rights due diligence. These committees evaluate relevant concerns and recommend corrective actions when necessary. Regular internal audits are also conducted to ensure compliance with established standards and protocols.

**3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?**

Yes. All our campuses feature accessible workspaces, with necessary infrastructure such as ramps, sidewalks, and elevators installed in both corporate offices and plants to support differently-abled employees and visitors in compliance with the Disabilities Act, 2016. Appropriate signboards are strategically placed throughout the premises to assist employees and workers with hearing impairments. Additionally, wheelchairs are available at Occupational Health Centres across all major facilities.

**4. Details on assessment of value chain partners:**

The Company conducts ESG audit of suppliers which covers employee health and safety along with other environmental, social and governance aspects. The audit also covers various social aspects such as child labor, human rights, Sexual harassment etc under the Human Rights & Labor Practices Section.

The Company initiated ESG audits in FY 2023-24. 83.30% suppliers by purchase value have been assessed until March 31, 2025 of which 41.95% suppliers were assessed in FY 2024-25.

|                             | % of value chain partners (by value of business done with such partners) that were assessed |
|-----------------------------|---------------------------------------------------------------------------------------------|
| Child labour                | 41.95%                                                                                      |
| Forced/involuntary labour   |                                                                                             |
| Sexual harassment           |                                                                                             |
| Discrimination at workplace |                                                                                             |
| Wages                       |                                                                                             |
| Others-please specify       | Nil                                                                                         |

**5. Provide details of any corrective actions taken or underway to address significant risks/ concerns arising from the assessments at Question 4 above.**

There were no significant risks / concerns noticed during onsite supplier assessments with regards to Human Rights & Labor Practices. However, for the supplier audits where minor concerns were observed related to working conditions or missing social parameters trainings, appropriate feedback is provided and supplier performance against agreed action plans is monitored through re-audits to ensure implementation.

**PRINCIPLE 6: Businesses should respect and make efforts to protect and restore the environment**

**ESSENTIAL INDICATORS**

**1. Details of total energy consumption (in Joules or multiples) and energy intensity, in the following format:**

| Parameter                                                                                                                                                                                              | Unit            | FY 2024-25      | FY 2023-24      |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|-----------------|-----------------|
| <b>From renewable sources</b>                                                                                                                                                                          |                 |                 |                 |
| Total electricity consumption (A)                                                                                                                                                                      | GJ              | 3,10,163        | 1,23,858        |

Core parameters for FY 2024-25 are assured by DNV Business Assurance India Pvt Ltd

### 5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Yes, EML has implemented a Zero Liquid Discharge (ZLD) system across all its facilities and corporate offices. By leveraging advanced technology, the Company effectively prevents wastewater pollution. The treated water is fully recycled or reused for various applications, including irrigation, heating, cooling, ventilation, and cleaning of Reverse Osmosis (RO) membranes.

**6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:**

| Parameter                          | Please specify unit         | FY 2024-25              | FY 2023-24 |
|------------------------------------|-----------------------------|-------------------------|------------|
| NO <sub>x</sub>                    | MT                          |                         |            |
| SO <sub>x</sub>                    | MT                          |                         |            |
| Particulate matter (PM)            | MT                          |                         |            |
| Persistent organic compounds (POP) | Parts per million by volume | Below the norms of CPCB |            |
| Volatile organic compounds (VOC)   | Parts per million by volume |                         |            |
| Hazardous air pollutants (HAP)     | Parts per million by volume |                         |            |
| Others-please specify              | Parts per million by volume |                         |            |

**7. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:**

| Parameter                                                                                                                                                                                                 | Unit                                                                                                       | FY 2024-25    | FY 2023-24 |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------|---------------|------------|

| <b>Total Scope 1 and Scope 2 emission intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP)</b> (Total Scope 1 and Scope 2 GHG emissions / Revenue from operations adjusted for PPP) | Metric tonnes of CO <sub>2</sub> equivalent/<br>Million USD<br>[20.66 PPP conversion factor used from IMF] | <b>3.31</b>   | 7.74       |
| <b>Total Scope 1 and Scope 2 emission intensity in terms of physical output</b>                                                                                                                           | Metric tonnes of CO <sub>2</sub> equivalent/<br>Motorcycle                                                 | <b>0.03</b>   | 0.06       |

Core parameters for FY 2024-25 are assured by DNV Business Assurance India Pvt Ltd

**8. Does the entity have any project related to reducing GreenHouse Gas emission? If Yes, then provide details.**

Yes, the Company has undertaken multiple initiatives to lower greenhouse gas emissions across its manufacturing plants and corporate offices, including:

- ♦ Expanding solar energy capacity through a 13 MW group captive solar plant that generated 19,737,222 kWh of electricity during the financial year.
- ♦ Work is underway to implement another 10MWp Capacity Group Captive Solar project.
- ♦ Waste Heat recovery from air compressor & paint shop oven to recirculate to preheat the incoming air.
- ♦ Implementation of Bio gas plant at Vallam to generate energy from plant food waste.
- ♦ Switching from gas welding to laser welding to minimize emissions associated with welding.
- ♦ Planting and nurturing more than 10,000 trees across all facilities to act as natural carbon sinks.

**9. Provide details related to waste management by the entity, in the following format:**

| Parameter                                                                                                                                                                                                                         | FY 2024-25     | FY 2023-24   |

Core parameters for FY 2024-25 are assured by DNV Business Assurance India Pvt Ltd

**10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.**

EML has a structured waste management system in place to effectively handle manufacturing and operational waste. Aligned with the principles of Reduce, Reuse, and Recycle (3R), the Company actively promotes a circular economy by minimizing the use of virgin materials and reducing environmental impact. EML is working towards achieving Zero Waste to Landfill and encourages waste reduction practices among employees across all facilities. The Company's paperless work culture further contributes to lowering its carbon footprint. Certified under ISO 14001:2015, EML's environmental management system covers all operations and includes standardized processes for managing both hazardous and non-hazardous waste—encompassing identification, segregation, collection, recycling, and safe disposal.

**11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:**

| Sr. no. | Location of operations/offices                                               | Type of operations | Whether the conditions of environmental approval/ clearance are being complied with? (Y/N)<br>If no, the reasons thereof and corrective action taken, if any. |
|---------|------------------------------------------------------------------------------|--------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1       | Tiruvottiyur, Chennai - Location around coastal regulation zone Ennore creek | Manufacturing      | Yes                                                                                                                                                           |

**12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:**

| Name and brief details of project                                                                                               | EIA Notification No. | Date | Whether conducted by independent external agency (Yes/No) | Results communicated in public domain (Yes/No) | Relevant Web link |
|---------------------------------------------------------------------------------------------------------------------------------|----------------------|------|-----------------------------------------------------------|------------------------------------------------|-------------------|
| No Environmental impact assessment were conducted due to non applicability for any project as per applicable environmental laws |                      |      |                                                           |                                                |                   |

**13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:**

No such instances during the reporting year 2024-25

## LEADERSHIP INDICATORS

**1. Please provide details of total Scope 3 emissions & its intensity, in the following format:**

Not Applicable

**2. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.**

Though EML's operations are not directly carried out in ecologically sensitive or important areas. However, the company has taken care to minimise its environment footprint through concerted efforts in waste, water and energy management. While already having a positive water footprint, we have gone beyond water conservation and actively contributing to the sustainable management and restoration of water resources through targeted programs near our factories. The company has already achieved its target of being zero waste to landfill while simultaneously increasing its renewable energy share out of total energy use to ~ 85%. EML has also created and maintained significant green spaces which harbours biodiversity in and around its factories. In addition, EML has taken the lead in conserving critical species, habitat and landscapes in the Indian Himalayan Region through its social mission.

**3. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:**

| Sr. No | Initiative undertaken                           | Details of the initiative (Web-link, if any, may be provided along-with summary)                                                                                                                                                                           | Outcome of the initiative                          |
|--------|-------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------|
| 1      | Energy conservation with efficiency improvement | 1. The Compressor waste heat recovery system. Installation at plant<br>2. Installation of VFD at Powder coating - 1 plant to reduce motor frequency for power conservation<br>3. Implementation of artic master device at Oragadam Paintshop-02-PTCED line | Reduction of 410 tCo2e in FY 2024-25               |
| 2      | Rainwater harvesting                            | Implementation of Recharge structures within premises to recharge the ground water table.                                                                                                                                                                  | ~50,000 KL qty of ground water recharging          |
| 3      | Energy conservation with efficiency improvement | 1. Installation of VFD in the ultrafiltration pumps of Pre-treatment CED plant<br>2. Installation of LED light and eliminating conventional lighting systems<br>3. Installation of Electrically operated tools over pneumatic tools                        | Reduction of 294 tCo2e in FY 2024-25               |
| 4      | Waste Management                                | Installation on & commissioning of Bio-gas Plant to generate energy from food waste                                                                                                                                                                        | No disposal of food waste                          |
| 5      | Energy conservation with efficiency improvement | 1. Implementation of VFD (Variable Frequency Drive) panel for air blowers<br>2. Implementation of lower capacity cooling tower from 12.5 HP to 10 HP                                                                                                       | Reduction of 46 tCo2e in FY 2024-25                |
| 6      | Rainwater harvesting                            | Installation of rainwater harvesting for collection and reuse of rain water for process requirements                                                                                                                                                       | 1917 KL of rain water use for process requirements |
| 7      | 1 MWp Rooftop Solar plant                       | Installed 1 MWp roof top solar plant at Cheyyar location                                                                                                                                                                                                   | Reduction of 143 tCo2e in FY 2024-25               |
| 8      | Tree plantations                                | 3750 Nos of native tree saplings done at Cheyyar                                                                                                                                                                                                           | Eco restoration                                    |

**4. Does the entity have a business continuity and disaster management plan?**

EML has a Risk Management Committee, as part of its Board framework, which has oversight of business continuity and related risks and their mitigation strategies. The committee works on creating a framework for identification of risks related to finance, operations, sectorial, sustainability & cyber security; while adopting appropriate measures for risk mitigation that include systems and processes for internal control. The committee also monitors and oversees implementation of the risk management policy, including evaluating the adequacy of risk management systems. Climate related risks are also managed as part of this process. EML is also undertaking a Climate Risk Assessment exercise to evaluate physical and transitional risks, compute financial impact of risks and opportunities, prioritisation of risks and development of mitigation plans. The exercise will cover all its key offices, tech centres and manufacturing facilities. The governance structure at EML will be reviewed as per TCFD / IFRS2 guidelines and a detailed Climate Risk report will be prepared.

**5. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.**

There has been no significant adverse impact to the environment, arising from the value chain of the entity noticed during the onsite supplier assessments.

**6. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.**

41.95%

**7. How many Green Credits have been generated or procured:**

Eicher Motors Limited have not generated or procured green credits during the period under review.

**PRINCIPLE 7:**

**Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent**

**ESSENTIAL INDICATORS****1. a. Number of affiliations with trade and industry chambers/associations.**

Eicher Motors has a total of 7 affiliations with trade and industry associations/chambers

**b. List the top 10 trade and industry chambers/associations (determined based on the total members of such body) the entity is a member of/ affiliated to.**

| S. No. | Name of the trade and industry chambers/ associations          | Reach of trade and industry chambers/ associations (State/National) |
|--------|----------------------------------------------------------------|---------------------------------------------------------------------|
| 1      | Society of Automotive Fitness and Environment (SAFE)           | National                                                            |
| 2      | Society of Indian Automobile Manufacturers (SIAM)              | National                                                            |
| 3      | Confederation of Indian Industry (CII)                         | National                                                            |
| 4      | Bureau of Indian Standards (BIS)                               | National                                                            |
| 5      | Federation of Indian Chambers of Commerce and Industry (FICCI) | National                                                            |
| 6      | Employers' Federation of Southern India (EFSI)                 | National                                                            |
| 7      | Federation of Automobile Dealers Associations of India (FADA)  | National                                                            |

**2. Provide details of corrective action taken or underway on any issues related to anti-competitive conduct by the entity, based on adverse orders from regulatory authorities.**

There have been no issues pertaining to anti-competitive conduct during the year

**LEADERSHIP INDICATORS****1. Details of public policy positions advocated by the entity:**

| S. No. | Public policy advocated                                                                                                                                                                                                                                                                                                                                                                                                                                                | Method resorted for such advocacy | Whether information available in public domain? (Yes/No) | Frequency of Review by Board (Annually/ Half yearly/ Quarterly / Others – please specify) | Web Link, if available |
|--------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------|----------------------------------------------------------|-------------------------------------------------------------------------------------------|------------------------|
| 1      | Company actively engages in advancing industry interests and public welfare through its involvement with various industry associations. It backs several initiatives of SIAM, addressing areas such as product safety, alternative fuel vehicles, environmental issues, fuel policies, and customer education, among others. The Company's various policy on ESG and related areas represents a forward-thinking approach to fostering safe and inclusive development. |                                   |                                                          |                                                                                           |                        |

**PRINCIPLE 8:**

**Businesses should promote inclusive growth and equitable development**

**ESSENTIAL INDICATORS****1. Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year**

| Name and brief details of project                                                                                                                                                                                                                               | SIA Notification No. | Date of notification | Whether conducted by independent external agency (Yes / No) | Results communicated in public domain (Yes / No) | Relevant Web link |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------|----------------------|-------------------------------------------------------------|--------------------------------------------------|-------------------|
| No Social impact assessment is applicable to the Company for any of the projects for the year 2024-25. However Company conducted mandatory 3 <sup>rd</sup> party impact assessment of 8 social mission programs pertaining to different themes as per CSR rules |                      |                      |                                                             |                                                  |                   |

**2. Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:**

| S. No          | Name of Project for which R&R is ongoing | State | District | No. of Project Affected Families (PAFs) | % of PAFs covered by R&R | Amounts paid to PAFs in the FY (In INR) |
|----------------|------------------------------------------|-------|----------|-----------------------------------------|--------------------------|-----------------------------------------|
| Not Applicable |                                          |       |          |                                         |                          |                                         |

**3. Describe the mechanisms to receive and redress grievances of the community.**

Need Assessment exercises are carried out in consultation with communities and partner organisations prior to project commencement. Most program activities and interventions are designed to be led by community and community led bodies and program benefits flow back to the community. During the course of a program execution, continuous interactions with community are ensured to get their feedback, understand issues and do course correction. Impact assessments are carried out as per mandatory requirements of CSR law but also for learning and improvement in other cases. Long term relationships are created with community and efforts are made to support them in other initiatives.

**4. Percentage of input material (inputs to total inputs by value) sourced from suppliers:**

|                                              | FY 2024-25 | FY 2023-24 |
|----------------------------------------------|------------|------------|
| Directly sourced from MSMEs/ small producers | 7.52%      | 8.99%      |
| Directly from within India                   | 96.71%     | 70.56%     |

**5. Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent / on contract basis) in the following locations, as % of total wage cost**

| Location     | FY 2024-25 | FY 2023-24* |
|--------------|------------|-------------|
| Rural        | -          | -           |
| Semi-urban   | 14.20%     | 33.44%      |
| Urban        | 7.47%      | 5.15%       |
| Metropolitan | 78.33%     | 49.91%      |

\* To align with latest standards, guidelines, the last year classification have also been revised.

## LEADERSHIP INDICATORS

**1. Provide details of actions taken to mitigate any negative social impacts identified in the Social Impact Assessments (Reference: Question 1 of Essential Indicators above):**

| Details of negative social impact identified | Corrective action taken |
|----------------------------------------------|-------------------------|
| Not Applicable                               |                         |

**2. Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:**

| Sr. No. | State            | Aspirational District | Amount spent (In ₹ Lakhs) |
|---------|------------------|-----------------------|---------------------------|
| 1       | Tamil Nadu       | Ramanathapuram        | 2.05                      |
| 2       | Tamil Nadu       | Virudhanagar          | 2.05                      |
| 3       | Punjab           | Firozpur              | 1.74                      |
| 4       | Punjab           | Moga                  | 1.74                      |
| 5       | Sikkim           | West Sikkim           | 15.00                     |
| 6       | Himachal Pradesh | Chamba                | 77.90                     |
| 7       | Assam            | Darrang               | 0.13                      |
| 8       | Assam            | Baksa                 | 17.75                     |
| 9       | Nagaland         | Kiphire               | 3.56                      |

| Sr. No. | State           | Aspirational District | Amount spent (In ₹ Lakhs) |
|---------|-----------------|-----------------------|---------------------------|
| 10      | Mizoram         | Mamit                 | 5.50                      |
| 11      | Meghalaya       | Ri Bhoi               | 3.50                      |
| 12      | Jammu & Kashmir | Baramulla             | 2.97                      |
| 13      | Jammu & Kashmir | Kupwara               | 6.44                      |
| 14      | Uttarakhand     | Haridwar              | 5.13                      |

**3. a. Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized/ vulnerable group? (Yes/ No)**

No

**b. From which marginalized /vulnerable groups do you procure?**

Not Applicable

**c. What percentage of total procurement (by value) does it constitute?**

Not Applicable

**4. Details of the benefits derived and shared from the intellectual properties owned or acquired by your entity (in the current financial year), based on traditional knowledge:**

| S. No. | Intellectual Property based on traditional knowledge | Owned/ Acquired (Yes/No) | Benefit shared (Yes / No) | Basis of calculating benefit share |
|--------|------------------------------------------------------|--------------------------|---------------------------|------------------------------------|
|        |                                                      | None                     |                           |                                    |

**5. Details of corrective actions taken or underway, based on any adverse order in intellectual property related disputes wherein usage of traditional knowledge is involved.**

| Name of authority | Brief of the Case                                                                                                                                | Corrective action taken |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|
|                   | There were no reported disputes concerning intellectual property having usage of traditional knowledge and hence no corrective action was taken. |                         |

**6. Details of beneficiaries of CSR Projects:**

| S. No                          | CSR Project                                   | No. of persons benefitted from CSR Projects | % of beneficiaries from vulnerable and marginalized groups |
|--------------------------------|-----------------------------------------------|---------------------------------------------|------------------------------------------------------------|
| <b>Community Beneficiaries</b> |                                               |                                             |                                                            |
| 1                              | Himalayan Hub                                 | 25,506                                      | 86%                                                        |

Note: Above numbers indicated are the primary beneficiaries of the different CSR projects. In addition, the social mission has reached out to >37 Lakh people as secondary beneficiaries.

#### PRINCIPLE 9: Businesses should engage with and provide value to their consumers in a responsible manner

#### ESSENTIAL INDICATORS

##### 1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

We have a well-established process for managing customer feedback and complaints. Ensuring customer satisfaction by prioritizing their voice is of utmost importance to us.

To make it easy for our customers to connect, we offer multiple channels including phone, email, social media, and our website. We utilize an automated ticketing system that registers each piece of feedback or complaint as a case.

Upon resolution, the customer receives a notification confirming the closure of their case. Subsequently, a Customer Satisfaction (CSAT) survey is sent to gather feedback on their overall experience and the quality of the resolution provided.

Internal teams also keep a check on TAT ( Turn around time ) to ensure closure of all cases at the earliest.

##### 2. Turnover of products and/ services as a percentage of turnover from all products/service that carry information about:

|                                                             | As a percentage to total turnover |
|-------------------------------------------------------------|-----------------------------------|
| Environmental and social parameters relevant to the product | 100%                              |
| Safe and responsible usage                                  | 100%                              |
| Recycling and/or safe disposal                              | NA                                |

##### 3. Number of consumer complaints in respect of the following:

|                                | FY 2024-25               |                                   | Remarks                                                 | FY 2023-24               |                                   | Remarks                                              |
|--------------------------------|--------------------------|-----------------------------------|---------------------------------------------------------|--------------------------|-----------------------------------|------------------------------------------------------|
|                                | Received during the year | Pending resolution at end of year |                                                         | Received during the year | Pending resolution at end of year |                                                      |
| Data privacy                   |                          |                                   | Nil                                                     |                          |                                   |                                                      |
| Advertising                    |                          |                                   |                                                         |                          |                                   |                                                      |
| Cyber-security                 |                          |                                   |                                                         |                          |                                   |                                                      |
| Delivery of essential services |                          |                                   |                                                         |                          |                                   |                                                      |
| Restrictive Trade Practices    |                          |                                   |                                                         |                          |                                   |                                                      |
| Unfair Trade Practices         |                          |                                   |                                                         |                          |                                   |                                                      |
| Other                          | 1,21,261                 | 7                                 | All pending complaints will be closed within FY 2025-26 | 91,994                   | 5                                 | All pending complaints were closed within FY 2024-25 |

**4. Details of instances of product recalls on account of safety issues:**

|                   | Number | Reasons for recall                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|-------------------|--------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Voluntary recalls | 1      | During a routine test, Royal Enfield discovered that some of the rear and/or side reflectors fitted on motorcycles manufactured between November 2022 and March 2023, may not meet the reflective performance requirements as per standards and the reflective quality may be less than required. While the issue was reported only in a very small sample size, the company proactively replaced the reflectors on all motorcycles manufactured between the said time period across all markets. |
| Forced recalls    | 0      | Not Applicable                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

**5. Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy.**

Yes. EML has implemented an Information Security Policy to mitigate risks related to cybersecurity and data privacy. This policy entails a set of protective measures that are consistently implemented throughout the entire value chain, fostering a secure environment for seamless business operations. It outlines the necessary controls to safeguard EML's information assets, facilitating access, utilisation, and disclosure of information in adherence to relevant standards, laws, and regulations.

**6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services.**

During a routine test, Royal Enfield discovered that some of the rear and/or side reflectors fitted on motorcycles manufactured between November 2022 and March 2023, may not meet the reflective performance requirements as per standards and the reflective quality may be less than required. While the issue has been reported only in a very small sample size, Royal Enfield decided to proactively replace the reflectors on all motorcycles manufactured between the said time period free of cost for customers across all the markets.

Further, no instances were reported in 2024-25 related to advertising issues, delivery of essential services, repeated product recalls, or penalties/actions imposed by regulatory authorities concerning product or service safety.

**7. Provide the following information relating to data breaches:****a. Number of instances of data breaches - 3**

**b. Percentage of data breaches involving personally identifiable information of customers -** Out of the 3 incidents reported above, 1 incident involves data breach involving personally identifiable information of customers.

**c. Impact, if any, of the data breaches-** The Company witnessed a ransomware incident on July 03, 2024. Some data and documents were lost due to this incident but there is no significant impact on the continuity of operations of the Company. Measures including enhancement of security controls were implemented to reinforce and strengthen our systems. Relevant authorities were also informed about the incident.
