3. Governance related to Business Responsibility

At P&G, we strive to be a force for good and a force for growth. All successful and sustainable companies have one thing in common – good governance practices. Your Company believes in “Doing the Right Thing, Everytime”.

Your Company operates within the spirit and letter of the law, maintaining high ethical standards wherever we conduct business. We believe that good governance practices contribute to better results for stakeholders. We maintain governance principles, policies and practices that support management accountability. These are in the best interest of the Company, our shareholders and all stakeholders, and they are consistent with the Company's Purpose, Values and Principles.

The Corporate Social Responsibility Committee and the Board of Directors assess the Business responsibility performance annually. The Business Responsibility Report is issued annually along with the Annual Report of the Company. The Business Responsibility Report can be viewed at in.pg.com.

OUR PURPOSE VALUES & PRINCIPLES

P&G Brands and P&G people are the foundation for P&G's success.

P&G People bring the values to life as we focus on improving the lives of the world's consumers

SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1: Ethics, Transparency and Accountability

Your Company is committed to being a good corporate citizen and doing the right thing. Our Purpose, Values and Principles (PVPs) are the foundation of the Company. Our philosophy is that a reputation of trust and integrity is built over time, earned every day and is what sets us apart. And our Principles articulate P&G's unique approach to conducting work every day. We operate within the letter and spirit of the law, maintaining high ethical standards. Our Purpose is to improve consumers' lives in meaningful ways, and it inspires your Company to make a positive contribution every day. Our Values of Integrity, Leadership, Ownership, Passion for Winning, and Trust shape how we work with each other and with our partners. We believe that good governance practices contribute to better results for Shareholders. We maintain governance principles, policies and practices that

support management accountability. These are in the best interest of the Company and our Shareholders, and they are consistent with the Company's PVPs.

Your Company reinforces responsibilities on all its employees, of observing high standards of Corporate Governance through the Company's Worldwide Business Conduct Manual which sets forth management's commitment to conduct its business affairs with high ethical standards. The Sustainability Guidelines for external business partners explain the global standards to be followed by the external business partners in their daily business activities on behalf of the Company. External business partners and their suppliers are expected to share your Company's commitment to these standards.

Your Company is committed to creating a work environment that fosters open communication and supports employees in reporting potential violations. Your Company being a part of the Procter & Gamble group is guided by a Whistle Blower Policy as laid down in its Worldwide Business Conduct Manual. Any employee or other interested person can call on The Worldwide Business Conduct Helpline, twenty-four hours a day, seven days a week, to report any concerns about violations of the Company's Worldwide Business Conduct Standards. The Worldwide Business Conduct Helpline is not staffed or monitored by the Company personnel. All calls can be completed anonymous if the caller desires. The Helpline can take calls in most languages spoken by employees around the world. Calls made to the Helpline are reported to the Company's Corporate Security and Legal personnel, who ensure appropriate investigation and follow-up of all calls. Callers are given a confidential identification number so they can inquire about the status of their reported concerns. The Worldwide Business Conduct Helpline is accessible to all employees. Your Company is committed to reviewing all allegations of wrongdoing, and we do not tolerate retaliation of any kind.

In compliance with the requirement under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Section 177 of the Companies Act, 2013 and the Rules made thereunder, the Company has adopted the said whistle blower policy as the vigil mechanism for Directors and employees to report genuine concerns or grievances such as unethical behaviour, actual or suspected fraud or violation of the Company's code of conduct or ethics policy. The Audit Committee oversees the vigil mechanism and cases reported alongwith the status report and action taken (if any) are reported to the Committee. During the Financial Year, 6 complaints were reported to the Audit Committee. These cases were dealt with in accordance with the Worldwide Business Conduct Manual.

Principle 2 : Safety and Sustainability throughout the life cycle

We have a responsibility to make the world better—through the positive impact our brands and Company can have in communities worldwide. Our goal is to create brands that enable consumers to make more sustainable choices. We have integrated sustainability into our business practices, operations, innovation, brand building and culture.

In order to improve lives, now and for generations to come, we ensure that our products, packaging and operations are safe for employees, consumers and the environment. We ensure this with a focus on technologies, processes and improvements that matter for the environment. Product quality and safety are of the utmost importance to your Company. Our purpose is to make superior products that not only delight consumers but are also produced responsibly. Customers choose your Company because we provide products of superior quality and value that improve the lives of the consumers.

P&G continuously strives to deliver products with an improved environmental profile. To reduce the environmental impact of our products P&G uses life cycle analysis to understand where the biggest impact exists, to know where to focus innovation. Its deep understanding of the consumer enables P&G to develop sustainable products that will delight the consumer, without tradeoffs in performance.

Your Company is focused on the environmental performance of its entire supply chain, including its manufacturing facilities, its suppliers, and the logistics of its finished products. Your Company is

focused on creating efficiencies in energy, water and waste emissions.

Within our operations, we strive to grow responsibly and continuously improve our efficiency while reducing our carbon footprint. This year, P&G Group in India achieved 'plastic packaging waste neutrality', as it collected, processed and recycled over 19,000 MT post-consumer plastic packaging waste from across the country, which is more than the amount of plastic packaging in its products sold during the year. In the last 5 years, the Group has reduced usage of packaging material by more than 5000 MT. We remain committed to help reduce the flow of plastic by continuing to make changes now and bringing long-term solutions.

Additionally, the Group put forth a new ambition to achieve net-zero greenhouse gas (GHG) emissions across its operations and supply chain, from raw material to retailer, by the year 2040. Your Company continues to build partnerships with external organizations to combat some of the challenges and issues we are facing today on sustainability.

The environment sustainability guidelines of the Company cover both the Company and other people associated with the Company. Your Company's broad-reaching environmental sustainability goals are designed to enable responsible consumption and sustainable manufacturing.

Our sustainability work goes beyond the core of our manufacturing operations, extending to a holistic end-to-end view of opportunities. We deliver strong results across the supply chain, ranging from manufacturing to finished product logistics—engaging our suppliers throughout the process:

1. **Manufacturing:** Between the procurement of raw materials and the creation of a product, we strive to reduce waste, water, energy, and CO₂ through systemic conservation efforts. We apply smart eco-design through innovative construction process improvements. And, we re-use where feasible, giving new life to what was once waste.
2. **Finished Product Logistics:** In the logistics stage, we reduce waste in customization by applying more sustainable designs. We have also optimized our transportation efficiency by making changes to the rate, route, mode and method of transportation. We have focused on eliminating inefficiencies such as loading and unloading delays, rush transport up-charges, dead legs (empty trucks) and P&G production line stops. We are identifying solutions that optimize the distribution routes and drive increased use of multi-modal transportation thereby reducing our carbon footprint.

Your Company ensures that it meets all applicable legislative and regulatory requirements related to product quality, safety and labeling.

Principle 3: Employee Well-Being

For your Company, people are its most important asset. Accordingly, we are committed to the highest standards of safety to protect employees as well as extended business partners who work at or visit the Company sites.

Your Company ensures fair employment practices and encourages employee engagement and participation by:

- Ensuring Health and Safety of all the employees
- Providing a Safe work environment by avoiding violence and harassment
- Encouraging diverse workforce, non-discriminated opportunities
- Freedom of forming Associations
- Continuous Learning, growth and development

Your Company has identified the creation of a highly engaged, business focused organization as a key priority. Our engagement strategy continues to position the Company as an exciting and inspiring place to work, in line with our business strategy. Our overall plan for the year had several interventions including best in class recruitment practices, meaningful equality & inclusion initiatives, learning & development opportunities, digital capability building and opportunities for individuals to innovate.

Your Company also endeavors to be a 'Great Place to Work' via various employee centric policies. This year, P&G India announced the extension of all our Company offered benefits to partners of LGBTQ+ employees & rolled out fertility treatment support. These latest initiatives build on top of our 'Share the Care' inclusive parental leave policy that we launched last year.

P&G India continued to extend support to employees & their families resolving 12000+ queries via the COVID CARE Helpdesk.

Your Company is at the forefront of re-imagining the future of work post-pandemic with the objective of - how employees can best manage their work and personal priorities, how they can continue to improve on their productivity & how they can maintain strong connectedness via a hybrid new work environment. Under this program, we invited employees back to

the office helping us significantly improve the in-office collaboration, celebration and a sense of community for our employees.

Your Company's policies on leadership pipeline, talent planning, mentoring and diversity & inclusion continue to evolve and stay ahead of the times, to ensure that we attract and retain the best talent. All our new hires undergo a very comprehensive 3-day corporate on-boarding program called 'GetIN' which is coupled with functional onboarding programs to ensure that they are able to make an impact and feel valued from Day 1. Building organization capability continues to be a key focus area for us and we continue to organize virtual learning sessions as part of the P&G Learning Academy offerings.

Your Company forbids the use of child or forced labor in any of its operations or facilities. Your Company fully respects and follows all applicable labor laws. Your Company respects every employee's right to choose to join or not to join a trade union, or to have recognized employee representation in accordance with applicable law.

As on June 30, 2022, your Company had a total of 597 permanent employees, including 48 permanent women employees. 536 persons were engaged on temporary / contractual basis. During the Financial Year under review, the Company did not receive any complaints relating to child labour, forced labour, involuntary labour, or discriminatory employment. Your Company had received three complaints on sexual harassment, which were resolved during the year and no complaints were pending as on June 30, 2022. All the employees and persons engaged on temporary / contractual basis were given safety & skill up-gradation training.

Principle 4 : Stakeholder Engagement & Relation

Your Company acknowledges that improving transparency, respecting human and labor rights and sourcing responsibly is an enormous challenge and progress will be made through a journey of collaboration and engagement with our stakeholders. Thus, we seek meaningful collaboration and engagement with our stakeholders including employees, shareholders, consumers, customers, communities, external business partners, authorities, NGOs, industry associations and the government.

In 2015, our brand Gillette launched the 'Safalta' program with the vision to impart soft-skills and grooming training to the youth in the age group 18-24 years. Research indicates that despite having the right technical skills, a large section of employable youth in the country faces hardships in getting a dream job, due to lack of soft skills and grooming.

The #GilletteSafaltaMutthiMein program aims to help the youth eliminate this barrier and be job ready, by providing them best-in-class soft-skills and grooming training. During the pandemic induced lockdown, we adopted a hybrid approach and continued delivering the training through videoconferences as well as in-class sessions with limited seating. Since the inception of the program, we have trained over 50 lakh students across 15 geographies in the country.

In 2019, Gillette launched its #ShavingStereotypes movement to challenge and redefine gender stereotypes prevalent in the society. In its first edition, Gillette showcased the story of two sisters Jyoti and Neha Narayan, known as the 'Barbershop

Girls of India' who are inspiring the next generation of men by redefining gender stereotypes. The second edition of the movement asked the question - 'Why don't men show their tears?' and the third edition Gillette sparked conversations the need for men to re-think their notions of masculinity and strength through the campaign -- #ManEnough.

The latest edition of the campaign - #EngineeringChange Gillette brought to life the true story of Prashant Gade, an engineer who left behind a high-paying job to create the world's most affordable bionic arm. Prashant is helping thousands of amputees through his Inali Foundation. Through this story, the campaign urges young Indian students to introspect and rethink how education can be a steppingstone for changing more than just their own lives. In line with its global mission of inspiring 'The Best a Man Can Be', the film authentically portrays the one-dimensional perspective with which many people treat their education and degrees. The featured true story serves as an example to convey the brand's message: "Every one of us can meaningfully contribute to our communities, we just need to be aware of our true potential."

Face masks and hand sanitizers have acted as the first guard of defense against the pandemic for people around the globe. In the wake of the pandemic, we had installed additional capacity at our manufacturing sites in India to produce masks for safeguarding our employees and assisting the frontline warriors. We distributed over 20 lakh masks and bottles of hand sanitizer in partnership with government and relief authorities.

Principle 5 : Human Rights Protection

At P&G, we believe in an equal tomorrow. Therefore, we aspire to be a company and a world where equality and inclusion is achievable for all, where respect and inclusion are the cornerstones of our culture; where equal access and opportunity to learn, grow, succeed, and thrive are available to everyone.

At P&G, we know that an equal world is a better world — for everyone. Our success is grounded in the success of our employees, consumers and communities. All of them. Our Equality & Inclusion (E&I) strategy is holistic and integrated so that we make meaningful impact in four key areas: for our employees, with our brands, through our partners and in our communities. We are committed to honoring the individuality and unique contributions of our people, and by being united in our values and goals, our people flourish, business thrives and our communities prosper.

Our core values as a Company include treating everyone with respect. We have a strong non-discrimination policy and have zero tolerance for unlawful discrimination. Your Company advocates for all employees, regardless of race, religion, gender, sexuality, age or disability. We respect everyone's right to be who they are, and want all employees to feel safe, included and able to bring their whole selves to work. We aspire to create a gender-equal world with equal representation for all individuals. We are committed to driving equality within the Company. We are adopting equality based policies, broadening our definition of leadership and empowering our people to join us in building a workplace that is equal for all individuals. We are driving equality across the shop floor through deliberate interventions right from the recruitment stage. Your Company's Human Rights Policy statement extends to all the employees and all stakeholders associated with the Company. No complaints with respect to Human Rights violation were received by the Company during the Financial Year.

We use our voice through films, advertising, and programs to advance equality in our industry and society at large. We believe when brands and businesses meaningfully engage in supporting equality, it leads to a better world for all. We are also committed to accelerating the pace towards an equal and inclusive tomorrow. Your Company made efforts to spark conversations on gender equality through campaigns like Gillette #ShavingStereotypes.

To maximize our efforts, we focus on driving change in the areas within which we believe we can have the greatest impact. By being visible in our actions and staying anchored in our commitments to our

employees, through our brands and with our business partners, we can continue to drive and accelerate important change in the diverse communities that we operate in. As P&G group, your Company had undertaken following initiatives towards fostering Equality and Inclusion:

GABLE

GABLE is dedicated to fostering an inclusive, supportive global network that enables Lesbian, Gay, Bisexual and Transgender (LGBTQ+) employees, and their allies, to contribute to their fullest potential and to bring their whole self to work every day. GABLE began more than 25 years ago as a network for fostering workplace equality for LGBTQ+ employees, today it has grown into a supportive and global community, with chapters in 40 countries including India. These chapters represent the diversity of our employees, as well as strong allies to support individuality and inclusion. We are busting myths, initiating series of conversations internally and externally and taking meaningful steps towards creating a truly inclusive culture, where all LGBTQ+ employees and allies can bring their full selves to work every day.

P&G extended the company benefits to partners of LGBTQ+ employees

At P&G, our goal is to create a fully inclusive workplace where our employees feel included and are able to bring their authentic selves to work every day. In line with this, we transformed our company-offered comprehensive financial and medical benefits into a fully inclusive and equality-based program, which

extends to partners of our LGBTQ+ employees. This builds on top of our 'Share the Care' inclusive parental leave policy, which provides all new parents including biological parents, domestic partners, adoptive parents, parents in same-sex couples to 8 weeks of fully paid parental leave.

Pride Job Fair

We partnered with Pride Circle for 'RISE 2022', India's premier LGBTQ+ job fair and conference, where LGBTQ+ job seekers can meet companies, interact with the recruiters, learn about job opportunities, and get interviewed from the comfort of their home. This is part of our endeavor to not only foster a diverse workplace but also create a positive societal impact and inspire change.

Gender equality at our manufacturing sites

Gender Equality is a long-standing value at P&G. Over the past few years, P&G India has made significant progress and increased representation of women at P&G plants in India. P&G group in India is inducting over 20% more NEEM apprentices in the manufacturing plants. This has been possible through our intentional and deliberate approach to identify and bust barriers that are holding women back.

The Women's Interactive Network

It has been our mission to foster an environment within P&G where every employee feels valued and respected. We have set-up the Women's Interactive Network (iWIN) to create a community for women,

helping ensure that women's skills and insights are well represented at all levels of leadership. iWIN organizes events and programs that promote mentoring, sponsorship, development of leadership skills, flexibility and increasing representation of women throughout the Company.

#WeSeeEqual Summit

During the year, we hosted the India chapter of #WeSeeEqual Summit 2022. The annual equality and inclusion summit brought together P&G leaders, like-minded influencers, advocates and thought leaders from various walks of life to discuss the challenges that society faces on equality and inclusion, and how different stakeholders can accelerate progress together. This year, the illustrious speakers came together to talk about Shaping today's generation for an equal tomorrow, Driving Equality in Education and Economic Opportunity for women, as well as LGBTQ inclusion at workplace, among others.

We also committed to several actions needed to advance progress towards creating an equal and inclusive world during the summit, which urged us to #UnLearn biases, and #UnLeash the accelerated journey towards an equal and inclusive tomorrow.

Partnering with NITIE to advance gender equality in supply chain

Research indicates that women comprise only 12% of the workforce in manufacturing roles and 20% of the workforce in supply chain roles. One of the reasons for this, is the deep rooted on-ground,

perception-based and opportunity-linked barriers in advancement of women in STEM roles. To break these stereotypes, we partnered with NITIE to host the second P&G-NITIE Equality Summit with an aim to spark conversations on issues that perpetuate a glass ceiling for women, uncover deep-rooted stereotypes that still exist, and motivate change specifically linked to equal representation in STEM and Supply Chain. Through the event, we reached out to and engaged with over 700 colleges offering STEM curriculum, through a dedicated program focused on breaking gender barriers in STEM and Supply Chain

P&G's 'Women in Tech' summit

We hosted the second edition of the 'Women in Tech' summit to spark conversations on gender equality in tech and IT, through nuanced panel conversations among thought leaders from different walks of life. During the engaging rounds of conversations, the speakers shared their journey, experiences and shared their thoughts on building a gender equal workplace. P&G continues to be committed towards

building digital and technological capability of women across its external network (including customers, retailers, agency partners, among others).

Welcoming talented STEM professionals back with the P&G Relaunch Program

We introduced 'P&G Relaunch program' to welcome back talented professionals who took a break from the workforce and are looking to restart their careers in STEM (Science, Technology, Engineering, and Mathematics) roles, with targeted support and development. This program is part of the Company's commitment to strengthening diversity in STEM and is focusing on people looking to relaunch their

careers in IT, Research & Development, and Product Supply.

P&G commits to driving equal representation behind the camera

P&G, as a group, has been leveraging its voice in advertising and media to spark conversations on gender equality through campaigns like Gillette #ShavingStereotypes, among others. As we continue to drive accurate portrayal of women in front of the camera, last year we announced our commitment to drive equal representation behind the camera. With the belief that having more women behind the camera will help the industry achieve a more accurate and unbiased portrayal of women in advertising, we are leading this change through a comprehensive set of actions. In the last year, nearly 40% of advertising films of P&G group in India were directed by female directors in line with our endeavor to drive equality behind the camera and increase diversity in the creative pipeline.

Principle 6 : Environment

At P&G, environmental sustainability is embedded in everything we do, and we work towards achieving ambitious goals that we set, to continue our progress.

All P&G manufacturing units in India are 'zero waste to landfill', which means that no manufacturing waste is discharged into the environment. Your Company's plants in Baddi and Bhiwadi consistently take efforts to reduce carbon emission and energy consumption. The plants leverage technology, experts, employees and renewable sources of energy to reduce our overall carbon footprint, improve energy and water efficiency and make our operations more sustainable.

During Earth Week in 2018, P&G group announced its global sustainability goals called Ambition 2030. These broad-reaching goals have one purpose in mind: to enable and inspire positive impact on our environment and society while creating value for us as a company and you as a consumer. In an effort to address two of the world's most pressing environmental challenges—finite resources and growing consumption—we have focused our ambitious goals across four specific areas – brands, supply chain, society and employees. This includes improving finished product transportation emissions efficiency, making packaging recyclable or reusable, and reducing virgin petroleum plastic packaging. We're also committed to using our voice, reach, innovation and expertise to make responsible consumption across all our brands irresistible, and we've recently launched a program called "It's Our Home" to share how small actions at home can make a big difference in reducing energy use, waste and water

Globally, P&G Group also recently announced a global water strategy which aims to restore water in 18 water-stressed areas around the world for people and nature, responding to water challenges through innovation and partnerships, and reducing water in our operations. Out of these 18 water-stressed areas, 5 are in India. 5 of P&G India's manufacturing sites have already achieved 35% water efficiency target as part of P&G's Ambition 2030.

As we look to the future, our global Ambition 2030 program includes commitments that our operations will be carbon neutral for the decade by driving breakthrough energy efficiency, purchasing 100% renewable electricity and using natural climate solutions to compensate for any remaining emissions.

As P&G Group, we have put forth a new ambition to achieve net-zero greenhouse gas (GHG) emissions across our operations and supply chain, from raw material to retailer, by the year 2040. P&G's actions on climate began over a decade ago, and we know there is more work to do. Our plan to net zero will prioritize cutting most of our emissions across our operations and supply chain, from raw material to retailer. For residual emissions in these categories

that cannot be eliminated, we will use natural or technical solutions that remove and store carbon.

We are progressing in our focus areas- at your Company's registered office. We have made significant progress across our focus areas of climate, water and waste. Your Company's registered office is a zero waste to landfill, which means that no waste is discharged into the environment. We have installed electronic vehicle (EV) charging stations to facilitate our people as they make a transition towards greener commuting. Further, we have installed 'green cleaning solutions' which averts chemical waste.

Your Company, carries out 'waste-drive' at its registered office in Mumbai, by segregating plastic, paper, organic, e-waste, metal and other wastes. Waste collected is reused and recycled in partnership with authorized waste management agencies.

Principle 7 : Business Policy & Advocacy

As a corporate citizen, your Company often engages in efforts to affect legislation or government policy on issues that could impact our business and society at large. Your Company ensures that all its advocacy activities are consistent with its Purpose, Values & Principles and applicable laws.

Your Company is a member of following trade and chambers of association, through which advocacy was conducted in listed areas:

- Federation of Indian Chambers of Commerce & Industry (FICCI);
- Confederation of Indian Industry (CII);
- US India Business Council (USIBC); and
- India Home & Personal Care Industry Association (IHPCIA).

Some of the key issues on which your Company engaged with the Government in 2021-22 through the above associations or directly, include:

- Laws relating to environmental sustainability;
- Packaging Commodity Rules and Legal Metrology; and
- Obtaining permissions for administering vaccinations to employees at various sites.

Principle 8 : Inclusive growth and Equitable development

At P&G, our endeavor is to be a force for growth and a force for good in the communities we serve. This means not only serving consumers through our leading brands but going beyond business and creating a meaningful impact in their lives through our Corporate Social Responsibility (CSR) programs. This has been an integral part of our purpose and values since our foundation. We believe that the only way to build a sustainable business is to improve lives. Your Company strives to get the full value of diversity through inclusion — fostering an environment where its people can be their best, full and authentic selves in the workplace. But our job doesn't end there — our belief and commitment extend beyond P&G's walls. We are driving action to make a meaningful difference, and we care deeply about our impact, always striving to make the world a little bit better through our actions.

For your Company, sustainability means making every day better for people through how we innovate and how we act. As one of the world's largest consumer products Company, we have both a responsibility and an opportunity to do the right thing and create change. This strategy has inspired an enduring CSR strategy supported by its key pillars – P&G Shiksha and Timely Disaster Relief. Your Company has undertaken Corporate Social Responsibility initiatives during the Financial Year amounting to ₹ 6.18 Crores which are detailed in the CSR Report which is appended as Annexure II to the Directors' Report.

Through our flagship CSR program, P&G Shiksha, P&G group has supported over 2500 schools, impacting more than 23 lakh children. Over the years, P&G Shiksha has evolved into a 360-degree educational intervention addressing three critical barriers to achieving universal education – access to education infrastructure, gender inequality in access to education and gap in learning. During the pandemic, we worked with our trusted NGO partners to maintain continuity in learning. As schools re-open, we are ensuring back-to-school readiness with learning camps being organized at community level. Through our holistic covid response initiative P&G Suraksha, we continued to protect health and wellbeing of our people and the communities.

Principle 9 : Customer Value and Responsibility

Your Company understands and accepts the responsibility we have towards our consumers,

shareholders, customers, communities, and each other. And this is a responsibility we take rather seriously.

We believe that it is our responsibility to create and deliver superior products and value to our consumers to improve their lives. Our Purpose is to improve consumers' lives in small but meaningful ways, and it inspires P&G to make a positive contribution every day. In developing and marketing our products, we adopt a "Consumer Is Boss" approach to ensure that we delight consumers by launching new products and product improvements that genuinely meet their needs.

We actively encourage consumers to contact us because we want to hear about our consumers' experiences with our products. Our aspiration is to serve the world's consumers better than our best competitors, creating superior shareholder value in the process.

Innovation is at the heart of your Company's business. It's how we delight consumers, create value with retail partners, and create new businesses. P&G group combines "what's needed" with "what's possible", conducting number of consumer research studies to understand what people need and want, in order to create superior value and product experience every day.
