2. Does the entity have processes in place to avoid/ manage conflict of interests involving members of the Board? (Yes/No). If Yes, provide details of the same.

Yes, we have implemented processes to avoid/manage conflict of interests involving members of the Board. The details are mentioned below:

- i.

Every Director on the Board is required to make disclosure of his/her interest or concern in other entities (under Section 184 of the Companies Act, 2013 as also the parties to which such Director is related to (as under Section 2(76) of the Companies Act, 2013 and other laws applicable to us). Such disclosure is required to be made as and when a Director attends first Board Meeting after his/her appointment on the Board and thereafter at every first Board Meeting held in a financial year as well as within 30 days from any change in the disclosure previously given by such Director.
- ii.

Director, if interested or concerned in any transaction(s) or arrangement(s) to be entered into by the Bank, does not participate in the discussion and passing of the resolution thereon.
- iii.

We have also put in place necessary mechanisms and have formulated a Policy on Dealing with Related Party Transactions, keeping in view the requirements under Regulation 23 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and the provisions of the Companies Act, 2013. This Policy provides a framework to ensure proper identification, approval and reporting of Related Party Transactions. Such transactions would be appropriate only if they are in our and our members best interest.
- iv.

All transactions with Related Parties of the Bank are previously approved by the Audit Committee of the Bank. The Audit Committee also grants Omnibus Approval for Related Party Transactions of a recurring nature. Related Party Transactions, if not in the ordinary course or not at arm's length, are placed before the Board (based on the Audit Committee's recommendation) for its consideration and approval. If such transactions (which are placed before the Board of Directors) breach the threshold limits prescribed under Section 188 of the Companies Act, 2013 or if any transaction with a Related Party is material in nature as prescribed under Regulation 23 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, such transactions are also put up before the shareholders for their consideration and approval.
- v.

At the Audit Committee, only the Independent Directors who are members of the Audit Committee, consider and approve the transactions with related parties. At the Board, only those Directors who are not parties to the transaction(s) or arrangement(s) in subject or those who are not interested or concerned therein, participate to consider them. The interested Directors neither remain present nor do they vote on the resolution of Related Party Transaction. While seeking Shareholders' approval, no Related Party of the Bank, whether party to a particular transaction or not, votes to approve such transaction.
- vi.

In terms of Regulation 20 of the Banking Regulation Act, 1949, we do not extend any loans or advances on the security of our own shares, or commit to grant any loan or advance to or on behalf of our Directors, any firm in which a Director is interested as partner, manager, employee or guarantor, or any company or its subsidiary or holding company where Director of the Bank is a Director, Managing agent, manager, employee or guarantor or in which he holds substantial interest (as defined in Section 20 of the Banking Regulation Act, 1949), or any individual in respect of whom a Director of the Bank is a partner or guarantor.

PRINCIPLE 2: BUSINESSES SHOULD PROVIDE GOODS AND SERVICES IN A MANNER THAT IS SUSTAINABLE AND SAFE

Essential Indicators

1. Percentage of Research and development and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total Research and development and capex investments made by the entity, respectively.

As we are a financial services company, capital expenditure and Research and development expenses are not directed towards technologies that improve environmental and social impacts. We are in the midst of a mindset shift and have moved in part from the physical world to the 'phygital' (physical enabled by digital) one. We are now leap frogging to 'digital' (digital first supported by physical) and are evaluating AI enabled technologies. We have begun to proactively look for opportunities to direct our capital to finance assets that may have positive impact on the environment and communities.

2. a. Does the entity have procedures in place for sustainable sourcing?

Kotak Mahindra Bank's Code of Conduct covers aspects on Human Rights, Health and Safety, Operational Eco-efficiency, etc., and indicates applicability to the Bank's vendors. Besides this, a focused Code of Conduct for service providers forms part of the service agreements with outsourced vendors.

b. If yes, what percentage of inputs were sourced sustainably?

As a financial services organisation, our direct consumption of consumables and input materials is limited. We strive to improve energy efficiency, use cleaner sources of energy, and reduce paper consumption to a minimum. We expect our vendors to comply with our Code of Conduct for service providers which includes aspects on Human Rights, Health and Safety, Operational Eco-efficiency, etc. All Service contracts that were signed and renewed in FY 2022-23 include the Code of Conduct for service providers as an annexure.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) plastics (including packaging) (b) e-waste (c) hazardous waste and (d) other waste.

We have on-boarded authorised waste management vendors to recycle our e-waste. We have also installed Organic Waste Composters (OWCs) across six of our corporate offices to convert our wet waste generated to manure. This manure is then utilised for captive use as well as for donation to our employees and surrounding housing societies. We also have a buyback policy for small batteries. Please find further details of our approach to waste management on page 61 of the 'Managing our environmental footprint' section.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes/No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

No. As we are a financial services company, Extended Producer Responsibility (EPR) is not applicable to our activities.

The manual also clearly defines the scope and responsibilities of the teams tasked with overseeing the OHSMS. A monitoring plan has been established that takes into account factors including parameters measured, locations, scope and the methods used. The senior management is responsible for overseeing the evaluation of OHS performance and determining its effectiveness. In line with ISO 45000:2018 standard, a Hazard Identification and Risk Assessment (HIRA)exercise is conducted where all the work-related hazards are identified and risks on a routine and non-routine basis are assessed, and along with these their mitigation measures are tabulated. The non-routine jobs are maintenance activities and extension of the premises etc. HIRA is reviewed annually and is revised, if required, in light of any incident. The updated documents are circulated to all our premises to ensure that the feedback gathered in the exercise serves as a preventive measure.

At the ISO 45001:2018 certified premises, we adopted an process that includes, but is not limited to, how the work is organised, social factors, leadership and organisational culture, activities and situations, past relevant incidents, potential emergency situations, actual and proposed changes irrespective of the level and nature and changes in knowledge of and information about hazards. The Occupational Health & Safety (OH&S) Management Representative (HMR) ensures that hazard identification is conducted by persons with competence in relevant hazard identification methodologies and techniques and appropriate knowledge of the work activity⁴. All jobs performed at our premises are supervised by the HMR. They ensure proper work permits are requested and granted prior to the job being undertaken, and also note and report work related hazards, if any. 'Toolbox talks' for routine and non-routine jobs are delivered to vendors undertaking work at our premises, as required which cover safety instructions and detailed processes to be followed to protect themselves from injuries or ill health and an OHSMS Hazard Identification Checklist is maintained. The methodology and criteria for the assessment of Occupational Health & Safety (OH&S) risks are

⁴ GRI 403-2
