PRINCIPLEWISE PERFORMANCE

PRINCIPLE 1

1. Does the policy relating to ethics, bribery and corruption cover only the Company? Yes/ No. Does it extend to the Group/Joint Ventures/ Suppliers / Contractors/NGOs / Others?

Our policies on ethics, bribery and corruption cover the Company, its subsidiaries and branches and our suppliers and contractors. Transparency and Accountability.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

Suven's stakeholders include investors, employees, customers, suppliers, contractors, bankers and financial institutions, government agencies and the local community. For details of Shareholders complaints, please refer to the Investors section in our Annual Report 2022.

PRINCIPLE 2

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

(a) Contract Development and Manufacturing Operations (CDMO)

(b) Contract Technical Services

2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):

(a) Reduction during sourcing/ production/ distribution achieved since the previous year throughout the value chain?

For Suven, contract research is the business vertical which generates more than 90% of its revenue. Under contract research, the materials

(primarily chemicals and additives) required vary widely between projects. Since these are research projects, there is no defined standard for material procurement or quantum of usage. Hence, measuring reduction during sourcing does not seem to be not an appropriate efficiency benchmark for the Company.

(b) Reduction during usage by consumers (energy, water) has been achieved since the previous year?

Suven's primary business is one of contract research where it develops intermediates for global innovators through non-infringing routes. Hence there is no specific standard for consumption of utilities namely energy, water etc.

As a result, measuring the quantum of reduction in utilities is not relevant for the Company. Despite this reality, the Company continues to endeavour to minimise wastages by disciplined operations and real time monitoring of every process in its labs.

For its contract manufacturing operations, the Company needs to adhere to systems and processes that are approved by globally respected and reputed regulatory authorities - this ensures that the consumption of utilities is optimised.

3. Does the Company have procedures in place for sustainable sourcing (including transportation)?

Yes. At Suven, we have defined processes for addressing sustainable sourcing of all key elements required in our business operations.

(a) If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

We continuously strive to maintain the best practices for sustainable sourcing (number of partners: 200).

To ensure the seamless availability of all critical resources, we continue to identify alternate sources which ensures business continuity.

4. Has the Company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?

Yes.

(a) If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

The Company strives to improve the business of its vendors. It provides technical inputs to small vendors for improving product quality and operational efficiency. The company periodically informs small vendors of its expansion and growth plans to enable them expand their operating capacity to align their growth with the Company's aspirations.

5. Does the Company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof, in about 50 words or so.

As an environment respecting corporate, Suven has invested in sophisticated pollution control and waste recycling equipment which facilitates in generating wealth from waste. Moreover, the Company continuously strives to reduce effluent and waste generation through process improvements. During the year, the Company achieved a recycling efficiency of more than 10%.

As a quality-focused organisation, the Company does not reprocess products which have failed the quality test. However, incidents of quality failure of products are rare and insignificant.
