26. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

Union Bank of India recognizes the risks and opportunities associated with climate change and environmental sustainability, social inclusion and financial accessibility, data privacy and cybersecurity, as well as responsible lending and credit risk management. The bank has implemented various approaches to adapt and mitigate these risks, including minimizing its carbon footprint, extending financial services to underserved communities, implementing data protection and cybersecurity measures, and maintaining responsible lending practices.

While there may be initial financial implications, such as investments in eco-friendly infrastructure, tailored products and infrastructure for underserved communities, security technologies, and credit risk assessment mechanisms, Union Bank of India anticipates long-term benefits. These benefits include cost savings, improved operational efficiency, potential revenue growth, increased customer loyalty, enhanced brand reputation, and improved risk management. Through its proactive

Business Responsibility & Sustainability Report

approach to managing these material issues, Union Bank of India demonstrates its commitment to responsible business practices, sustainability, and meeting the evolving needs of its customers and stakeholders.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Climate Change and Environmental Sustainability	Risk	Rapid climate change and increasing environmental concerns present a significant risk to Union Bank of India's business operations, reputation, and long-term sustainability	Union Bank of India has adopted a comprehensive approach that includes minimizing its carbon footprint, promoting energy efficiency, adopting green technologies, and supporting environmental conservation initiatives.	Initial investments in eco-friendly infrastructure and technologies may lead to short-term financial implications. However, the long-term benefits can include cost savings, improved operational efficiency, and enhanced brand reputation.
2	Social Inclusion and Financial Accessibility	Opportunity	Limited financial inclusion and inadequate access to banking services in underserved communities present an opportunity to expand Union Bank of India's customer base and reach new markets.	Union Bank of India is focused on extending financial services to unbanked and underbanked individuals, promoting financial literacy, and establishing partnerships with community-based organizations.	While initial investments may be required to develop tailored products and infrastructure, the long-term financial implications include potential revenue growth, increased customer loyalty, and a positive brand image.
3	Data Privacy and Cybersecurity	Risk	With the growing dependence on digital platforms, data privacy and cybersecurity risks have intensified. Breaches or unauthorized access to customer information could lead to reputational damage and financial losses.	Union Bank of India has implemented stringent data protection measures, robust cybersecurity protocols, regular audits, and employee training programs to safeguard customer data	Financial implications may include investments in advanced security technologies, regular security audits, and potential costs associated with legal and regulatory compliance.
4	Responsible Lending and Credit Risk Management	Risk	Inadequate credit risk management practices and non-compliance with responsible lending principles pose a significant risk to Union Bank of India's financial stability and reputation.	Union Bank of India has established robust credit risk assessment mechanisms, implemented responsible lending practices, and adheres to regulatory guidelines.	The financial implications include the potential reduction in non-performing assets (NPAs), enhanced risk management, and improved asset quality.

Energy intensity in terms of physical output	12.29	11.48
Energy intensity (optional) – the relevant metric may be selected by the entity	-	-

Note: Electricity consumption from non-renewable sources is estimated using UBI's expenditure data and average state-wise electricity rates. Fuel consumption (in litres) is estimated from UBI's fuel expenditure data. Electricity consumption from renewable sources is calculated based on the average Capacity Utilization Factor (CUF) and the installed solar capacity.

In accordance with the GHG protocol standard, FY2023-24 scope 1 & 2 total energy consumption has been revised due to improved methodology.

Note: Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Assurance is provided by M/s TUV India Pvt. Ltd.

- Does the entity have any sites/facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

The PAT Scheme is not applicable to the UBI and its operations.

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

The Bank does not have any of its operations, branches and facilities inside or in close proximity to ecologically sensitive areas. Further given the nature of our business, the Bank does not have significant direct or indirect impacts on biodiversity.

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions/effluent discharge/waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

Sr. No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1.	Rooftop solar installation at 14 owned Locations	-	The rooftop solar installation resulted in installed capacity of 598 KW.
2.	Certified 2 new sites under IGBC	-	IGBC certification of 2 new sites resulted in reduced energy consumption.

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/web link.

- The Bank has a documented Business Continuity Plan (BCP) Policy, which is reviewed annually by the Board. The primary objective of the policy is to provide an overview of the BCP measures implemented by the Bank and outline plans for their continuous improvement to ensure effective management of any event that could impact the Bank's business continuity.
- A BCP Quick Response Team (QRT) has been established to address both IT and non-IT related disruptions. The QRT is responsible for deciding when to invoke the BCP and, subsequently, for convening a meeting of the BCP Committee to take appropriate action. The QRT also monitors the situation closely until normalcy is fully restored.
- The BCP Committee comprises senior officials from key departments such as Human Resources, Information Technology, Legal, Banking Operations, and Information Security. The Committee is entrusted with maintaining, exercising, and invoking the Business Continuity Plan as necessary. Under normal circumstances, the Committee meets at least twice a year to assess and review the Bank's BCP preparedness.

- The Bank has established a Disaster Recovery (DR) site with capacity equivalent to the primary data centre, to ensure seamless business continuity in case of downtime at the primary location. As part of its DR strategy, the Bank shifts operations from the primary site to the DR site at least once every quarter to validate the effectiveness of the plan.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

The Bank has not identified any significant adverse environmental impacts arising from its value chain. As its operations primarily involve service delivery, the direct environmental footprint is minimal.

7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts. Currently bank is developing the process of assessing value chain partners for environmental impacts.

PRINCIPLE 9 Businesses should engage with and provide value to their consumers in a responsible manner

Essential Indicator

- Describe the mechanisms in place to receive and respond to consumer complaints and feedback.
 - The CRM Edge is gamut of Lead Management, customer 360-degree view and handling of the customer issues/complaints. It is integrated with Bank's Core Banking Solution (Finacle), ATM Switch, Online Grievance Portal, UV Connect, VYOM, Social Media Platforms (Twitter/Facebook/Instagram) etc. to cater the customer issues/complaints at the single platform. The branches/offices have been provided with login user id & password to use the application.
 - The customer can lodge the complaints through various channels like call centre, email, social media, mobile banking, internet banking, WhatsApp banking, corporate website, hard copy etc. In case any complaint is delivered at branch by the customer, it should also be recorded in the CRM package. Acknowledgement of the complaint recorded in the CRM is sent digitally on registered Mobile and email.
 - There is Auto escalation mechanism of the Tickets (Service Request/Query/Complaint) to respective Branch/RO/Verticals. Auto escalation is integrated within the solution, which ensures the resolution of the Tickets within pre-decided TAT (Turn Around Time). It is desired that branch/offices to attend the issues/complaints on daily basis. The role should be recorded in the KRA of the officer as well.
 - Areas and sub-areas are defined in CRM EDGE for easy lodgement of complaints. Based on the category and sub-category, the complaint is automatically routed to a specific vertical/RO/Branch.
 - The complaint is then taken-up by the responsible official for resolution and he/she then become the "Owner" of that complaint. On lodgement of the complaint, mail is auto escalated through CRM EDGE to respective Branch/RO/Verticals and the customer confirming lodgement of complaint and expected time of resolution. Complaint pertaining to branch/RO/Vertical, an officer who is looking into grievances redressal needs to be involved in resolving the complaint and same to be updated in the system in timely manner. Customer can verify the status of the complaint by using ticket number shared with him/her through E-mail/SMS.
 - It is to be noted that as and when a complaint is received from a customer, it should be addressed at the Branch/Regional Office/Zonal Office/CO level itself as per the defined area with desired resolution, within TAT (Turn Around Time), so that it does not escalate further. It needs to be noted that the data regarding the complaints Received, Resolved and Pending, as well as the Awards and Advisories (if any) passed by the BO against the Bank, during the Financial Year, are reflected in the Bank's Balance Sheet, thereby affecting the Bank's Ranking/Reputation/Rating standards, amongst the peer Banks.
 - CRM Edge is a very effective module used by our Call Centre, Customer Care Unit. Field offices viz. ZOs/ROs/Branches, should make use of it to lodge/resolve the complaints online for speedy resolution. This application aims to centralize the Bank's customer handling and service resolution process. It is integrated with Bank's Core Banking Solution (Finacle), ATM Switch, Online Grievance Portal etc. The routing of the Service Request (SR) to respective departments and the escalation for the same is done automatically by CRM EDGE, which ensures the resolution of the Service Requests/complaints within pre-decided TAT (Turnaround Time).
