BUILDING SUSTAINABLE BUSINESSES

At the Aditya Birla Group, we endeavor to become the leading Indian conglomerate for sustainable business practices across our global operations. We define action “Sustainable Business” as one that can continue to survive and thrive within the growing needs and tightening legal and resource constraints of a “Sustainable World”. We believe that this means that as we go forward towards constrained operating environments of 2030 and 2050, that for a continued “Sustainable World”, it can increasingly only contain “Sustainable Businesses”.

BUSINESS SUSTAINABILITY JOURNEY

We, at Aditya Birla Fashion and Retail Limited (“ABFRL”), consider sustainability as our ability to survive and thrive in the face of growing uncertainty and megatrends to build a sustainable business. Post successful achievement of milestones in 2021, we have set ourselves on a transition i.e., sustainability 2.0 from ‘Process-led to Product-led’, with a 2025 agenda focusing on product design and development, customer centricity and supply chain. We believe this transition shall strengthen integration of sustainability across the whole spectrum of design development, supply chain and consumer end of use for product life cycle.

All our value chain partners are in principle alignment with our sustainability goals and continue to play a vital role in achieving them together with us. This partnership demonstrates our commitment and vision to deliver sustainable fashion with a positive impact on society, stakeholders and the ecosystem.

In this ‘Decade of Journey’ we at ABFRL continue to transform our ambition to effective actions ensuring alignment not just to our sustainability goals but also to regional, national and global goals. We believe, going forward, imperatives for sustainability will only intensify and collective effort with pragmatic approach shall contribute in holistic growth taking businesses beyond obvious establishing a global ecosystem which is transparent, accountable and also sustainable.

Business Responsibility and Sustainability Report

Anchored by the ABG Vision and Sustainable Business Framework, we at ABFRL embarked on our sustainability journey with the launch of the sustainability 1.0 programme ‘ReEarth - For Our Tomorrow’ in FY13.

Building on our commitment to foster a sustainable tomorrow and deliver sustainable fashion, we have leapfrogged in our ReEarth programme with sustainability 2.0 and defined milestones for 2025.

Our Product Life Cycle Approach is the fulcrum of our sustainability 2025 strategy. From product design and development, to supply chain and customer-centricity, through use and end-use, this approach shall act as pivot in integrating sustainability into products.
