24. Overview of the entity's material responsible business conduct issues

S r. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate the positive/negative implications)
1	Employee Health, Safety and Well-Being	Risk	Failure to ensure the health, safety and well-being of the Company's workforce can impact productivity. This can consequently affect our business operations, customer satisfaction and profitability.	The Company strives to foster a safe working environment and ensure Zero Harm. Hazards and risks are periodically identified, with mitigation plans devised for each. Additionally, safety trainings are provided to employees and workers on regular basis to ensure their holistic well-being.	Negative
2	Community Development	Opportunity	Community development activities help the Company to create a positive impact on society by undertaking meaningful interventions to bring significant benefits to large sections of society. The CSR efforts also help foster a more productive and positive work environment for employees.	The Adani Foundation has been striving to create sustainable opportunities for the marginalized communities by facilitating quality education, sustainable livelihood development, promoting a healthy society and supporting rural infrastructure development. The Adani Foundation's outreach as of now has been to 2,409 villages in 16 States across India. With an aim to contribute to the holistic development of communities, the Adani Foundation is contributing to the global agenda of meeting Sustainable Development Goals (SDGs).	Positive
3	Ecological Impact	Risk	Reducing the Company's ecological impact is crucial to mitigating climate change and the physical and transition risks that accompany it.	Various policies – including the Climate Change Policy, Resource Conservation Policy, Water Stewardship Policy and Energy Management Policy – have been instituted to reduce the Company's ecological impact.	Negative

S r. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate the positive/negative implications)
4	Business Ethics, Integrity and Transparency	Risk	Ethical conduct, integrity and transparent two-way communication with stakeholders are integral to ensuring regulatory compliance and building stakeholder trust. Non-adherence to business ethics and integrity related compliance obligations can lead to legal fines and penalties, financial forfeiture, damage to brand reputation, loss of business opportunities and valuation.	We adhere to the highest standards when it comes to personal and collective integrity, reflected by compliance with the standards stipulated by the government, other regulatory agencies, and peer global standards. Over the years, we have further strengthened our commitment to gender respect, zero tolerance for sexual harassment, zero tolerance on ethical transgressions, commitment to recruit without prejudice and appraise without partialness, respect for the dignity of people and environment integrity and respect for the laws of the lands of our presence. The Company has also formulated and implemented a Code of Business Conduct and Ethics for all its Board members and senior management personnel, in compliance with corporate governance requirements as per the SEBI Listing Regulations. Apart from this, Adani Group's Code of Conduct is also applicable to all employees across Adani Group, including the Company.	Negative
5	Human Rights	Risk	Failing to address human rights issues can risk damaging brand value and reputation and can also bring an increasing risk of litigation and of non-compliance with a growing body of legislation in the area.	The Company has constituted a standing forum, both at the Group Level as well as at individual entity level, that aids and advises the management in its approach towards building sustainable Human Rights. Group HR through Business HR is responsible to ensure that any issue or impact related to human rights are addressed in the defined manner within the stipulated timeline.	Negative
6	Water management	Risk	We are directly affected by the availability and quality of water considering the nature of business operations. Water scarcity can interrupt our business operations, disrupt supply chains, raise the costs of raw materials, and put employee's and community's health and safety at risk. It may also lead to loss of social license to operate due to competition for water with local communities.	As water is material to our operations, it becomes a business imperative for us to optimize its consumption and move towards water security. Reduction of freshwater consumption, water recycling/reusing and water saving initiatives are part of our water management strategy. We have also instituted a Water Stewardship Policy, which serves as a guiding principle to reduce consumption of water in the operation and conserve water wherever feasible.	Negative
7	Waste Management	Risk	Waste management has become a global issue impacting the environment and health of the people. Industries are one of the large generators of hazardous waste and are directed by the pollution control board (PCB) for waste management practices. Not abiding to the practices prescribed the PCBs may lead to legal penalties and impact the brand image.	At AEL level, we have instituted a Resource Conservation Policy, which serves as a guiding principle to reduce generation of waste, treat the waste, and dispose in environmentally friendly manner. The Company has defined processes for managing waste at each of its sites/locations. We follow the basic principle of segregation of the waste at source & adopt the 3R concept of "reduce, reuse & recycle".	Negative

S r. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate the positive/negative implications)
8	Energy and Emissions management	Risk / Opportunity	Considering India's commitment to become NET ZERO by 2070, stringent energy and emission related laws and regulations may be enacted for companies to follow. If as a Company we are not prepared in time to comply with these emerging laws and regulations, we may face additional unexpected cost to comply as a result of not timely anticipating to the new requirements. Business restrictions leading to loss of revenue and/or additional costs may also force our business to change our business model.	Energy is one of the major overhead costs for our business operations. There is an opportunity to make cost savings through implementing various energy efficiency projects such as using high energy efficient equipment, on-site renewables installations, wherever feasible, etc. which not only reduce carbon emissions but also deliver cost savings. We expect that our ambition to eliminate direct greenhouse gas emissions from operations will not only lower overhead costs but will improve resilience in our energy supply and attract investors who are increasingly considering carbon emission as a risk. This may also help us to identify new business opportunities in the clean technologies sector. Establishment of Adani New Industries Limited as a subsidiary of the Company and an investment plan of \$50-70 billion across the energy transition value chain by Adani Group's businesses, signals our commitment. In case of risk: The energy-intensive nature of our business operations not only drives us towards energy saving measures but also directs us to increase the share of clean energy in our overall energy mix. We also have an Energy Management Policy, designed to aid and formalize the Company's efforts to manage its energy consumption and emissions, integrate renewable energy sources wherever feasible, and adopt efficient ways of energy usage. To accomplish our goals of resource conservation, we regularly monitor our energy performance at all our operating units.	Negative / Positive
9	Labor Practices	Risk / Opportunity	Risk: Failing to manage sound labor management practices can lead to prosecution by regulators, insurance claims due to accidents and injuries, reduce employee motivation in turn leading to loss of productivity and also hamper the brand image and reputation. Opportunity: Ensuring sound labour practices allows the organisation to avoid regulatory action, penalties and empower its employees and workers.	We remain committed to providing a safe work environment for our employees, contractual workers, visitors and the community at large. We have adopted Adani Group's Safety Mgt. System which focusses on the improvement of working conditions, working environment and the protection and promotion of workers' health. We have implemented a robust Contract Labour Management System and the registration process ensures that the entire contractual workforce is above legal minimum age for employment as defined by the legal authority. We also have a grievance redressal process at our locations for our employees. The Company adheres to all the laws of the land, related to human rights and labour practices.	Negative / Positive

S r. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate the positive/negative implications)
10	Climate Change Adaption and Mitigation	Risk / Opportunity	Climate change-related regulations focused on mitigation (e.g. carbon pricing) have a direct impact on AEL business. Emerging and potential regulations may introduce or escalate regulatory risks.	AEL draws on input from subject matter experts as and when required to identify and manage exposure to risks and impacts associated with emerging regulations. Impacts to business considered include regulatory/legal impacts, health, safety, environment and community impacts, and reputational impacts. We see climate change also as an opportunity for us as the low-carbon transition creates opportunities for efficiency, innovation and growth. Through investment and clean technologies, AEL businesses can save energy and materials costs, serve new customer needs, enhance their reputations and better attract and retain talent - all as a consequence of working to reduce their emissions and those of their customers and suppliers. Establishment of Adani New Industries Limited as a subsidiary of AEL and an investment plan of \$50-70 billion across the energy transition value chain by Adani Group's businesses, signals our commitment and identified opportunity on climate change	Negative / Positive
11	Responsible Supply Chain	Opportunity	Organizations are under increased pressure from investors, customers, and regulators to mitigate environmental, social and governance (ESG) risk exposures within their supply chain. Not having sustainable supply chain management practices, a company may be exposed to more risks including labor disruptions, workforce health and safety incidents, human rights issues, and shortages of raw materials.	At AEL, we see responsible supply chain as an opportunity, as considering sustainability in selecting and maintaining suppliers, we can effectively reduce overall risk, improve our brand equity, and attract new clientele including investors and top talent.	Positive

	Governance, leadership and oversight									
7	Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements	The Adani Group's purpose of Nation Building provides a guiding framework for investment in businesses that accelerate India's economic growth, which is vital for the wellbeing of its citizens. The Group strongly believes that embedding Environmental, Social, and Governance (ESG) principles in its business operations is not only a responsibility but an essential part of our DNA. Adherence to these principles helps build resilience, transform culture and long-term value creation to systematically identify opportunities, manage risks, and secure the interest of all our stakeholders. The Company, a flagship entity of Adani Group, is India's most successful incubator of tomorrow's businesses and its journey parallels India's growth story. All the Company's businesses have undertaken a rigorous mapping of their emission footprint and will adhere to transparent disclosure and validation through internationally reputed platforms. Each of our businesses aims to be a sector leader in reducing direct emissions, in sourcing renewable energy for operations, and will work with value chain partners to reduce indirect emissions. We are deeply conscious of our responsibility to help marginalized and underprivileged communities wherever we operate. This commitment goes beyond job creation and embraces a wide range of initiatives in partnership with the Adani Foundation that have touched millions of lives across thousands of villages, driving beneficial change in education, health, infrastructure, and sustainable livelihood development. We are one of the first companies in India to deploy a tree trans-planter for transplanting Sal trees in mining areas. All of our operational airports aim to achieve ACA Level 4+ by 2025, which is the highest-level achievement in global carbon management certification for airports. We also aim to be the first data center operator in India to operate on 100% renewable energy by 2030. Green Hydrogen will be an important ingredient of India's energy transition. Establishment of Adani New Industries Limited as a subsidiary of the Company and an investment plan of \$50-70 billion across the energy transition value chain by Adani Group's businesses, signals our commitment. Green Hydrogen will also play a critical role in emission reduction for all sectors of the economy and in this regard, we have recently signed a MoU with Ballard Power, Canada to explore opportunities to manufacture hydrogen fuel cells. The Company has made a notable progress in its ESG journey and has received many recognitions, including the prestigious "Aviation Sustainability & Environment" award in March 2022 by Wings India to Mumbai Chhatrapati Shivaji Maharaj International Airport.

The Suppliers' Code of Conduct facilitates collaboration with our suppliers in the promotion of professional and fair business practices that integrates respect of human rights, business ethics and environment. Our objective is to ensure that we minimize our potential impacts on people and on the environment, and that we manage business and reputation risks while capitalizing on opportunities. For example, we make efforts to source supplies and services from local sources where possible. We also organize various capacity building programs for our value chain partners.

We also encourage our suppliers to be compliant with social and environmental standards such as SA8000, ISO 14001, and ISO 45001. All of our suppliers are expected to apply the Suppliers' Code of Conduct or more stringent standards in a manner that is appropriate and proportional to the nature and scale of their activities, the goods that they supply and the services that they perform.

Apart from Supplier Code of Conduct, we have also implemented an internal system for vendor registration which includes supplier screening based on ESG criteria. This system helps to ensure that the vendor onboarded meets all the sustainability criteria defined by the system.

However, at present, percentage of inputs sourced sustainably is not currently mapped for AEL.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

Given the nature of its business, the Company has limited scope to reuse, recycle and dispose the products at the end of their life.

However, the Company has defined processes for managing waste at each of its sites/locations. The hazardous wastes are handled, segregated, stored and transported in accordance with applicable regulatory requirements and best industry practices.

The hazardous waste is disposed of in an environmentally sound manner through authorized vendors for recycling as required by regulation.

Apart from hazardous waste, the most significant types of non-hazardous waste streams include overburden (generated by mining business), scrap metal, wood waste, glass, tires, e-waste, cardboard, and paper. Our strategic intent is to eliminate or reduce the generation of waste to divert waste from disposal through reuse and recycling wherever possible. All our businesses are working towards achieving Zero waste to landfill certification wherever feasible.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Owing to the nature of the Company's product/service offerings, EPR is not applicable to the Company.

Principle 3: Businesses should respect and promote the well-being of all employees, including those in their value chains

1. a. Details of measures for the well-being of employees:

3. Accessibility of workplaces

At our corporate office, we have made special provisions for differently abled employees and workers in accordance with Rights of Persons with Disabilities Act, 2016. We promote equal opportunities for everyone and acknowledge the importance of having a diverse and equitable work environment. We have designed workplaces for providing assistance or making changes to a position or workplace to enable employees with disabilities for carrying out their jobs.

At our Corporate office, we have ramps at entry locations and lobbies to facilitate wheelchairs. We have dedicated toilets for differently abled employees. We have elevators with Braille signs, designed for blind people or visually impaired people.

All the Company's existing and new infrastructure has implemented a comprehensive plan to address accessibility of workplaces for differently abled employees. Work areas, rest rooms, common areas and areas for movement in and around facilities have been designed with all accessibility aspects in mind.

4. Does the entity have an equal opportunity policy as per the Rights of Persons with Disabilities Act, 2016? If so, provide a web-link to the policy.

Yes. The Company is committed to delivering value through equality and to nurture and promote diversity across its operations.

We promote an inclusive work culture of creating a supportive professional environment that promotes trust, empathy, and mutual respect. Our policy on Diversity, Equality, and Inclusion has been developed in line with our commitment.

Workers

The workers are trained and sensitized about health and safety and skill development through various health and safety as well as job related training programs throughout the year. Any worker at the time of joining also need to undergo a safety induction designed to inform them about the worksite, organization, emergency procedures, rules, safety management plan, incident and hazard reporting requirements, and other important aspects of the company's operation. The contractor agencies working with the company are required to identify the job-related skills for their workmen before deploying them in the company and wherever required provide the necessary skill development trainings.

We are further working on to strengthen our existing approach to safety and skill development for workers including setting up a digital platform for better tracking and recording of hours of trainings conducted on ESG including health & safety and skill-based trainings for different category of employees including workers.

9. Details of performance and career development reviews of employees and worker:

We have a robust Performance Management System (PMS) with an objective to establish utmost clarity in terms of the process to be followed at each step and what is expected from all the stakeholders involved. The process covers activities related to measuring performance of all employees as part of the year-end review, rating & promotion recommendation, moderation and individual feedback. We also have a performance review group (PRG) consisting of a group of people who discuss the performance and behavioral aspects of an individual.

All the employees undergo an annual performance appraisal process as determined by the Company. With regards to worker category, their performance is reviewed by the contractors based on the conditions outlined in the contract.

10. Health and safety management system:

- a. **Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage such system?**

Yes, the Company has adopted and implemented the Adani Group's Safety Management System framework by integrating all critical business activities and applying principles and processes in order to provide safe and healthy workplaces across all Company's establishments, prevent work related injury and ill health, minimize risks and continuously improve safety performance.

Eight major elements of the Adani Safety Management System are on performance orientation, executive commitment, teamwork orientation, employee empowerment and enlistment, scientific decision making, continual improvement, comprehensive and ongoing training, and unity of purpose.

The Company's businesses (covered in this report) are well aligned with Group Safety Management System and have well defined internal controls to implement the safety requirements on the ground. The mining business has set up an Integrated Security Command center at PEKB mine, Chhattisgarh, which provides a holistic view to the security team, covering surveillance and safety. This technology helps the business to monitor real-time activities by transmitting the required data to the base office. This is instrumental in preventing casualties and injuries in the mines.

The operational businesses have also linked the Group Safety Management System with their existing Integrated Management System (IMS), e.g., ISO 14001 (EMS), and ISO 45001 (OHSMS).

- b. **What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?**

Adani Group has established and aligned globally recognized high level Safety Intervention and Risk Assessment programs such as Safety Interaction (SI), Vulnerability Safety Risks (VSR), Site Risk Field Audits (SRFA), Process Hazard Analysis (PHA), and Pre-Startup Safety Review (PSSR) with Business specific Integrated Management System based Hazard Identification and Risk Assessment Process, e.g., HIRA and JSA. The Company has adopted this framework and the reporting businesses have developed an ecosystem of participative and consultative approach for engaging concerned stakeholders, including, employees, associates, and contract workmen.

The Company recognizes that the dynamic risks need to be managed and mitigated as per Hierarchy of Control to protect its stakeholders and achieve objective of Zero Harm with enablement of Sustainable Growth.

These interventions bring together an understanding of the potential upside and downside of all job and personal factors which can impact the organization with an objective to prevent injury, protect assets and add maximum sustainable value to all the activities and processes of the organization.

c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Y/N)

Yes, the Company uses the Adani Group's well established Incident Management and Investigation System for fair and transparent reporting of work-related hazards and risks as unsafe Acts/ unsafe Conditions, near misses, injuries and illness and serious incidents. This is followed by a comprehensive Root Cause Failure Analysis (Investigation), formulation of corrective actions as per Hierarchy of Controls, its tracking and monitoring and subsequent closure. The outcome and learnings from these events and incidents are deployed horizontally across the Group through a systemic process of 'Critical Vulnerable Factor' (CVF) as a part of Group Safety Governance Process. The progress on CVF is reviewed during Adani Apex Group Safety Steering Council Meetings as well as during their Business Safety Council Meetings.

To facilitate this, an advanced digital platform on OH&S Reporting has been deployed by Adani Group. The Company accesses this platform through its machines as well as native and lite Mobile App version.

d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/ No)

Yes, the employees and workers have access to non-occupational medical and healthcare services.

11. Details of safety related incidents, in the following format:

Safety Incident/Number	Category	Current FY (2021-22)	Previous FY (2020-21)

12. Describe the measures taken by the entity to ensure a safe and healthy workplace.

Health and Safety of our people is of utmost importance to us. To achieve this, we have adopted a shared responsibility approach, with increased engagements at all levels of the workforce and strengthening the safety culture across all Company's businesses. We are taking steps to reduce reportable incidents, minimize injuries and regularly monitor the safety performance of our sites.

Our occupational health and safety management system is also well aligned with Group's Safety framework and covers all employees, contractors, business associates, visitors and the community as well. In addition to that, a number of our sites across all Company's businesses are ISO 45001 (2018) certified.

As a part of our strategy to prevent health and safety related incidents, we have identified two focus areas which are contractor safety management (CSM) and operational discipline. CSM procedure provides support in manpower deployment whereas the operational discipline ensures that proper measures to eliminate hazards are taken at all our sites.

All of our employees and contractors are provided with appropriate PPEs and it is ensured that they are not negligent in using them. We are providing job related training to our employees to perform given task safely along with display of do's and don'ts at prominent locations of the sites. Beside this, we have a stringent work permit system in place. Toolbox talks, task briefing, job specific training, job hazard analysis and mock drill help us in building a safety culture within our businesses.

Mental and emotional health is a core part of our work culture. In view of this, an emotional wellness program was launched as part of Adani Care our integrated suite of health and well-being services and support platform. As an inclusive health service, the program offers professional and confidential counselling for our employees. Family members of our employees can also avail these services at any time of the day and in any location.

We also have various rewards and recognition programs in place to appraise the champions of safety working in Company's businesses.

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks / concerns arising from assessments of health & safety practices and working conditions.

All incidents are investigated thoroughly as per Group Safety Guidelines on Incident Reporting & Investigation and learning is shared across sites to ensure non-occurrence of the similar incidents. Also, employees and workers are encouraged to report maximum number of unsafe acts and conditions to eliminate such incidents.

Principle 4: Businesses should respect the interests of and be responsive to all its stakeholders**1. Describe the processes for identifying key stakeholder groups of the entity.**

We believe that engagement with stakeholders is key to understanding their needs, working with them to minimize risks, maintaining social legitimacy, improving credibility, and gaining their trust.

We identify our stakeholders as groups and individuals, who can influence or/ are impacted by our operations/ activities, change in technology, regulations, market, and societal trends either directly or indirectly which comprise of communities, employees, supply chain partners, customers, investors, regulators, and civil society organizations for all its operations. We commit to engage openly and authentically with our stakeholders to enhance cooperation and mutual support for a sustainable relationship.

Other than permanent	Our approach to human rights is guided by our Group's policy on Human Rights which is aligned to relevant national and international standards/protocols. We also have robust internal controls and procedures in place to ensure compliance with applicable labour laws including human rights. Our Human rights policy extends to our business partners who are responsible to ensure compliance with the same and make sure that the workforce employed at different adani businesses are provided with relevant trainings to make them aware about their rights and obligations. The Company also has a Supplier Code of Conduct (SCC) that covers various human rights aspects; all procurement agreements of the Company with critical suppliers include conditions pertaining to labour standards and occupational health and safety. Although AEL at present does not have a structured system of monitoring the training hours for the contract manpower, however, they are trained and sensitized about human rights through initiatives on labour practices and CSR activities.					

Note: As a part of our learning and development strategy we ensure that all the employees have access to Human Rights training and there are e-modules on the relevant topics in the learning management tools. The onboarding exercise for all new employees includes Human Rights awareness as part of their induction session. This induction session is held on monthly basis and focuses on aspects of prevention of sexual harassment (POSH), and Code of Conduct. While the training on different elements of human rights are covered under various awareness and training program organized by the company, we are further strengthening our existing approach to human rights training and engagement including setting up a digital platform for better tracking and recording of hours of trainings conducted on ESG including human rights for different category of employees including workers.

The POSH policy has the mechanism for addressing complaints pertaining to sexual harassment. All complaints related to sexual harassment are taken up by the Internal Complaint Committees (ICCs), which are governed under strict confidentiality and there are defined procedures to protect the complainant from any retaliatory actions.

Any employee can raise grievances through the online grievance portal. The system is designed to redress the grievance within a defined timeline of 14 working days. The grievances are resolved in a fair and time bound manner maintaining utmost confidentiality. However, no such cases of harassment and discrimination were reported during the financial year 2021-22.

8. Do human rights requirements form part of your business agreements and contracts? (Yes/No)

Yes, the human rights related requirements are covered as a part of the vendor onboarding process through the ARIBA portal.

9. Assessments for the year:

We have defined systems for ensuring compliance with regulatory requirements. There is a Code of Conduct for employees and Suppliers' Code of Conduct to ensure conformity with business ethics and human rights requirements. Also, the human rights criteria are screened through the online ARIBA portal during vendor onboarding process.

In addition, we review compliance with these requirements during contract execution. In all our business units, it is mandatory to check the age proof documents at the time of recruitment to prevent employment of child labour and during the induction session essential business ethics and human rights related aspects are covered for creating awareness among employees.

	% of your plants and offices that were assessed (by entity or statutory authorities or third parties)
Child labour	100%
Forced/involuntary labour	100%
Sexual harassment	100%
Discrimination at workplace	100%
Wages	100%
Others – please specify	100%

10. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 9 above.

There were no risks/concerns identified during the assessments.

Principle 6: Businesses should respect and make efforts to protect and restore the environment.**1. Details of total energy consumption (in Joules or multiples) and energy intensity, in the following format #**

Parameter	Unit	FY 2021-22 (Current Financial Year)	FY 2020-21 (Previous Financial Year)
Total electricity consumption (A)	GJ	8,22,344	2,98,601
Total fuel consumption (B)	GJ	15,71,670	7,82,899
Energy consumption through other sources (C)	GJ	17,884	8,779
Total energy consumption (A+B+C)	GJ	24,11,898	10,90,279
Energy intensity per rupee of turnover (Total energy consumption/ turnover in rupees)	GJ/Cr	309	217
Energy intensity (optional) – the relevant metric may be selected by the entity	NA	NA	NA

The energy consumption details mentioned above for the current financial year are for Airports, Natural Resources and Solar Manufacturing operations only, whereas the last financial year's information is for Natural Resources and Solar Manufacturing businesses. The operational control of Airports was started in mid of FY 2020-21, hence the reported energy data is limited to the current financial year.

Data Centre is yet to be operational and for Road business, the energy is mostly consumed in the value chain activities (Scope 3), hence the environment data presented in the report excludes these businesses.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, this data has been subject to independent assurance by Intertek India Pvt. Ltd. and its report shall form part of this Annual Report.

2. Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

No. The PAT scheme is not applicable to the Company's businesses.

3. Provide details of the following disclosures related to water, in the following format#

Parameter	FY 2021-22 (Current Financial Year)	FY 2020-21 (Previous Financial Year)
Water withdrawal by source (in kilolitres)		
(i) Surface water	NIL	NIL
(ii) Groundwater	21,75,126	26,02,635
(iii) Third party water	5,88,881	6,13,080
(iv) Seawater / desalinated water	NIL	NIL
(v) Others	NIL	NIL
Total volume of water withdrawal (in kilolitres) (i + ii + iii + iv + v)	27,64,007	32,15,715
Total volume of water consumption (in kilolitres)	27,64,007	32,15,715
Water intensity per rupee of turnover (Water consumed, KL / turnover in Crore)	562	639
Water intensity (optional) – the relevant metric may be selected by the entity	NA	NA

The water withdrawal details mentioned above are for the Natural Resources and Solar Manufacturing operations.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, this data has been subject to independent assurance by Intertek India Pvt. Ltd. and its report shall form part of this Annual Report.

4. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

We ensure compliance with all applicable statutory obligations laid by the Central and State Pollution Control Board. For one of our mining locations (PEKB Mine, Chhattisgarh), zero liquid discharge is mandated by Pollution Control Board, and we have implemented and maintained adequate systems to ensure compliance. In other sites, we have a mechanism in place to treat the sewage/effluent as per the statutory guidelines. After treatment, we utilize treated water for internal usage to the extent possible.

5. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

Parameter	Please specify unit	FY 2021-22 (Current Financial Year)	FY 2020-21 (Previous Financial Year)
NOx	The air emission sources (stacks, chimneys etc.) are monitored on a defined frequency by an approved laboratory/agency as mandated by the Central and respective State Pollution Control Boards. The details of air emissions are submitted to PCB annually through the Annual Environment Statement within the stipulated timelines.		
SOx			
Particulate matter (PM)			
Persistent organic pollutants (POP)			
Volatile organic compounds (VOC)			
Hazardous air pollutants (HAP)			
Others – please specify			

6. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:#

Parameter	Unit	FY 2021-22 (Current Financial Year)	FY 2020-21 (Previous Financial Year)
Total Scope 1 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	6,92,537	4,72,445
Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	2,14,762	1,02,141
Total Scope 1 and Scope 2 emissions per rupee of turnover	Mt of CO ₂ /Cr of turnover	116	114
Total Scope 1 and Scope 2 emission intensity (optional)– the relevant metric may be selected by the entity	NA	NA	NA

GHG emissions data is reported for Company's Natural Resources, Airports and Solar Manufacturing operations only. For the reasons cited above, the Airport data is limited to current year only.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, this data has been subject to independent assurance by Intertek India Pvt. Ltd. and its report shall form part of this Annual Report.

7. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

In line with Adani Group's target to meet India's Climate Change (NDC) commitments of emission reduction, the Company has taken various initiatives such as:

- Replacing low energy efficient equipment with high energy efficient equipment
- Installing solar roof tops and other green energy projects
- Replacing fossil fuel-based vehicles with electric vehicles
- Optimization of energy consumption in office buildings
- Using digitization to improve monitoring and reduce losses

- Awareness creation related to energy conservation and GHG reduction
- Replacing high Global Warming Potential (GWP) refrigerant with lower GWP refrigerant

The Group has also planned to invest \$50-70 billion across energy value chain over the next decade and explore options for green hydrogen, fuel cells, etc. to reduce dependency on fossil fuel and in turn reduce emissions

8. Provide details related to waste management by the entity, in the following format:

Parameter	FY 2021-22 (Current Financial Year)	FY 2020-21 (Previous Financial Year)
Total Waste generated (in metric tonnes)		
Plastic waste (A)	638	220
E-waste (B)	Nil	Nil
Bio-medical waste (C)	Nil	Nil
Construction and demolition waste (D)	Nil	Nil
Battery waste (E)	32	26
Radioactive waste (F)	NIL	NIL
Other Hazardous waste. Please specify, if any. (G-1)		
(Spent oil in KL) Other Hazardous waste. Please specify, if any. (in Tons) (G-2)	100.98	100.87
Note: The ETP Sludge generated from MSPVL was categorized as Hazardous Waste in previous FY, however based on internal calibration with PCB, the same has now been categorized as non-hazardous waste from this FY.	7.63	19.43
Other Non-hazardous waste generated (H-1). Please specify, if any. M3 Overburden generated during coal mining	5,40,83,749	4,15,72,771
Other Non-hazardous waste generated (H-2). Please specify, if any., Tons	8582.34	5150.61
Total (A+B + C + D + E + F + G2+ H2) Except overburden and spent oil	9259.97	5,416.04
Total (G1+ H1) Only overburden and spent oil of ANRL	5,40,83,849.98	4,15,72,871.87
For each category of waste generated, total waste recovered through recycling, re-using or other recovery operations (in metric tonnes)		
Category of waste		
(i) Recycled	4850	3342
- Recycled in Tonnes (overburden & spent oil at ANRL)	5,40,83,749	4,15,72,771
(ii) Re-used	91	568
(iii) Other recovery operations	NIL	NIL
Total	5,40,88,690	4,15,76,681
For each category of waste generated, total waste disposed by nature of disposal method (in metric tonnes)		
Category of waste		
(i) Incineration	1	12
(ii) Landfilling	NIL	NIL
(iii) Other disposal operations	4,419	1,594
Total	4,420	1,606

The above waste generation details are of the Natural Resources and Solar Manufacturing businesses only.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, this data has been subject to independent assurance by Intertek India Pvt. Ltd. and its report shall form part of this Annual Report.

9. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

The Company has defined processes for managing waste at each of its sites/locations. We follow the basic principle of segregation of the waste at source & adopt the 3R concept of "reduce, reuse & recycle".

The hazardous wastes are handled, segregated, stored and transported in accordance with applicable regulatory requirements and best industry practices. The hazardous waste is disposed of in an environmentally sound manner through authorized vendors for recycling as required by regulation.

Apart from hazardous waste, the most significant types of non-hazardous waste streams include overburden generated from mining sites, scrap metal, wood waste, glass, tires, e-waste, cardboard and paper. Our strategic intent is to eliminate or reduce the generation of waste to divert waste from disposal through reuse and recycling wherever possible. All our businesses are working towards achieving Zero waste to landfill certification wherever feasible.

10. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

Sr. No.	Location of operations/ offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any.
