Yes, the policy covers the Company. In addition, the Company has an adopted Integrity Pact with all vendors/suppliers/contractors/service providers for all Orders/Contracts of value ₹ 300 Lakh. The pact essentially envisages an agreement between the prospective vendors/bidders and the Principal (BEL), committing the persons/officials of both sides, not to resort to any corrupt practices in any aspect/stage of the contract. Only those vendors/bidders, who commit themselves to such a Pact with the Principal, would be considered competent to participate in the bidding process. The Integrity Pact, in respect of a particular contract, would be operative from the stage of invitation of bids till the final completion of the contract. Any violation of the same would entail disqualification of the bidders and exclusion from future business dealings.

- How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

In the Company, there is constant effort to enhance customer satisfaction level. Accordingly, many initiatives have been taken to address product support issues effectively. Product Support Monitoring Groups have been established across the Company to address all supportability issues. Dedicated Senior Officers at the level of Additional General Managers/Sr. Deputy General Managers are appointed for Army, Navy and Air Force for monitoring progress on complaint handling. BEL has opened 10 Regional Product Support Centres for supporting Indian Airforce & Indian Army and Water Front Support Centres at 7 locations for

Section E: Principle-wise performance:
Principle 1

- Does the policy relating to ethics, bribery and corruption cover only the Company? Yes/No. Does it extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/ Others?

Supporting Indian Navy ensuring timely resolution of Customer Complaints. These Support Centres are single point of contact of Customers in their respective operational zones, thereby facilitating better and faster coordination between customer and BEL manufacturing Units. Customer Co-ordination Cell has been set up at Bengaluru for registration of complaints. The facility is armed with Toll Free BSNL/MTNL number along with CRM module of SAP connected through internet. Our customers can log-in to the Customer Coordination Cell and register complaints. Also, the CRM module helps the customer to track progress on complaint online, by getting Unique Docket Number for the registered complaint. The cell generates monthly report on summary of complaints for management. Summary of complaints for the FY 2021-22 are as follows:

No. of Complaints Registered	No. of Complaints Resolved	No. of Complaints Pending
12,939	11,712 (90.52%)	1,227 (9.48%)

Principle 2

- List up to three of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

The following products are designed to address social/environmental concerns.

- Oxygen Concentrators
- Haemo Dialysis Machine
- Smart City Projects
- Platform Screen Doors for Metro Rail

- For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):

- Reduction during sourcing/production/distribution achieved since the previous year throughout the value chain?
- Reduction during usage by consumers (energy, water) has been achieved since the previous year?

The manufacturing process is not constant and the integration of several electronic components takes place. Production ranges from manufacturing of integrated circuits to bigger electronic equipment like RADAR etc. Therefore, product-specific information cannot be quantified.

- Does the Company have procedures in place for sustainable sourcing (including transportation)?

If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

Yes. The Company has established a rigorous selection mechanism for supplier selection and inclusion in the Company's Vendor Directory with the goal of sustainable sourcing and long-term mutual benefit. The Company provides feedback to suppliers by regularly monitoring performance on a variety of parameters including quality, cost and delivery. The Company's image, ethical and transparent business practices, and good relationships with suppliers make it possible for most items to be sustainable. MSME meetings are also held and sustainable supply is encouraged.

- Has the Company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?

BEL's mainstream business is manufacture & supply of Strategic Electronics Products/Systems primarily for the Defence requirements as well as for select non-defence markets. Nearly one-third of the total turnover is generated from indigenously developed products. In order to enhance procurement from local suppliers, various Units of BEL across India engage in continuous Vendor Development program to attract vendors from around the respective Unit locations.

Besides, BEL also has 16 Ancillary Units owned by small entrepreneurs, at Bengaluru. The ancillary units were established to encourage establishment of small industries in different areas of production. The products manufactured by the ancillary units include Castings, Composites, Cable Harness, Coils & Transformers, Communication equipment, Electronics Testing Systems, Indigenisation of Defence Products, Industrial Tailoring, Power Supply & UPS, Rubber & Plastic Products, Sheet Metal Products, Solar Products, Stainless Steel Customised Products and Traffic Signal Systems.

The services include Advanced Welding, Assembly & Testing of Electronic Products, CNC Machining, Electroplating, Indigenisation of Defence Products, Painting & Coating, Product Improvement and Sheet Metal Fabrication. Design services include: Communication, Equipments, Composites, Electronics, Equipment, Machine Design, Rubber and Plastic products, Sheet Metal Products, Shelter & Manpacks, Solar Products, Tools & Jigs etc.

If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

The Company generates, updates & maintains AVD including MSMEs for standard components, materials and sub-contract items across India. This provides ample of opportunities for the small and local vendors to get qualified as the Company's approved vendor by improving their capacity and capability to be in tune with the Company's requirements. The AVD is referred to by all the Units/SBUs to facilitate the procurement of items from the respective local vendors.

To facilitate the vendors to scale up their capacity and capability, the vendors are evaluated through vendor rating mechanism including quality and delivery rating. Besides, the Company adopts stringent criterion on various parameters including capacity & capability for evaluation. The various issues arising due to the above factors are addressed during the annual vendor meet of BEL for mutual benefit. BEL's Test facilities are made accessible to domestic vendors at nominal rates to facilitate manufacturing. BEL has in place collaborative R&D Process by engaging domestic vendors including MSME as Technology partners towards indigenisation efforts. Besides, the Company also provides support to Startups in line with Government guidelines.

5. Does the Company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof.

The Company does not recycle products because most of the products are used for strategic/national security applications. Products delivered to customers are not returned to the Company. Guidelines have been provided to customers for handling and disposal of their End of life products. However, services have

been provided to customers who are willing to return products for scientific disposal. End-of-life products are scientifically processed and recycled through agency approved by the Pollution Control Board.

The Company has a structured mechanism to deliver waste from the manufacturing process of its products/equipment through authorised recyclers approved by the Pollution Control Board. Metal waste, waste oil, solvents and copper containing rejects are sent (100%) to authorised recyclers for recycling and recovery. Paper and plastic are handed over to recyclers. In addition, the food waste is used for biogas generation in the Bio-Methanation plant, which in turn was used for light cooking purposes or organic matter are converted to manure in organic waste converter.

Wastewater from the manufacturing process is treated and reused. Domestic waster is treated and recycled for horticultural purposes.

Principle 3

- Employees with disabilities
- Women employees

3. Are there any special initiatives taken by the Company to engage with the disadvantaged, vulnerable and marginalised stakeholders? If so, provide details thereof, in about 50 words or so.

Special Initiatives for SC/ST employees and their children: With a view to encourage and provide financial assistance to meritorious children of SC/ST employees, Management has instituted a scholarship in the name of Late Prime Minister Shri Jawaharlal Nehru for pursuing professional courses besides Diploma/Certified courses including ITI certified course.

A Study facility centre was started for the upliftment of the children of SC/ST employees who have inadequate parental care and improper facilities to study at their homes. A new building with facilities such as classrooms, furniture, library, etc. has been constructed by the Management.

In addition, various facilities such as coaching for competitive exams, computer training, etc. has been provided to SC/ST employees and their wards.

Special Initiatives for Women Employees: BEL provides opportunity to its women employees to participate in various activities, facilitates interaction and exchange of ideas and problems among women employees through the forum "Women in Public Sector". The forum also works towards creating awareness amongst women employees and work towards promoting a healthy working environment within the organisation.

BEL has been organising a number of programmes related to creating health awareness among women employees. Free health checkups are conducted in co-ordination with other hospitals. In addition, programmes are conducted on enhancing awareness on nutrition, diet, life style management, etc.

Special Initiatives for Employees with Disabilities:

BEL extends special allowance and facilities for Persons with disabilities which include conveyance allowance for physically handicapped employees not using Company transport, special ramps within the factory for movement of disabled persons, special toilets have been provided wherever required, grace time to record attendance and permission granted to take the vehicles upto the place of work. Appliances such as hearing aids, calipers, aluminium folding sticks etc., for orthopaedically handicapped, hearing and visually handicapped have also been provided.

Principle 5

1. Does the policy of the Company on human rights cover only the Company or extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?

Human Rights have been built into all the policies, systems and processes used in the Company. Human rights are a fundamental precept of all the Company's policies, interactions and business ventures (Group/Joint) with suppliers/contractors/NGOs and others. The regard for Human Rights is thus an inalienable facet of all business processes in the Company and covers the entire spectrum of the Company's business activities.

Yes. Generation of wind energy (Green Energy) through 2.5 MW and 8.4 MW capacity wind energy power plants at Davanagere and 3 MW capacity windmill at Hassan in Karnataka State.

Details of electrical energy wheeled from wind power plants at Davanagere and Hassan, carbon credits earned, etc. during the year 2021-22 and cumulative from inception of these are provided below:

Davanagere 2.5 MW wind energy power plant (0.5 MW X 5 Nos.)

a. Total generation during 2021-22	22,15,575 KW hrs
b. Total wheeled energy during 2021-22	19,86,925 KW hrs
c. Reduction in CO ₂ emission	1,925 tonnes of CO ₂ equivalent
d. Carbon credits	15,856 CERs
e. Cumulative wheeled from inception	4,68,28,538 KW hrs
f. Cumulative CO ₂ emission reduction	49,805.98 tonnes of CO ₂ equivalent

Hassan 3.0 MW wind energy power plant (1.5 MW X 2 Nos.)

a. Total generation during 2021-22	44,84,400 KW hrs
b. Total wheeled energy during 2021-22	40,15,000 KW hrs
c. Reduction in CO ₂ emission	3,913 tonnes of CO ₂ equivalent
d. Carbon credits	Registered with UNFCC
e. Cumulative wheeled from inception	6,50,74,524 KW hrs
f. Cumulative CO ₂ emission reduction	74,363 tonnes of CO ₂ equivalent

Davanagere 8.4 MW wind energy power plant (2.1 MW X 4 Nos.)

a. Total generation during 2021-22	1,66,17,800 KW hrs
b. Total wheeled energy during 2021-22	1,50,36,583 KW hrs
c. Reduction in CO ₂ emission	15,185 tonnes of CO ₂ equivalent
d. Carbon credits	Yet to be registered with UNFCC
e. Cumulative wheeled from inception	9,70,89,357 KW hrs
f. Cumulative CO ₂ emission reduction	: 1,02,471 tonnes of CO ₂ equivalent

5. Has the Company undertaken any other initiatives on clean technology, energy efficiency, renewable energy, etc? Y/N. If yes, please give hyperlink for web page etc.

Yes. The concept of clean technology is practiced in the manufacturing process to prevent pollution. BEL always pays more attention towards prevention of pollution at source itself. In such endeavour, several improvements and modifications have been incorporated in the existing processes. Many of the Restriction of Certain Hazardous Substance (RoHS) compliant processes have

been introduced into the PCB manufacturing and metal finishing processes. Additional environmentally friendly materials have been introduced, such as low smoke halogen cables, low VOC metal finish (polyurethane), cyanide-free silver, zinc and copper plating, and trivalent chromium-based chromate conversion coating. A technical series of document have been published on RoHS compliant cadmium plating alternatives for fasteners and screws. This helps spread awareness and compliance of RoHS compliant alternatives among BEL's various D&E and quality engineers. New standard is released for environmental-friendly automated cleaning process of Printed wiring assembly using Aqueous based cleaner replacing the use of Iso-propyl Alcohol.

BEL has installed capacity of 13.9 MW Wind Power plant. Total green energy wheeled from BEL owned wind power plant during 2021-22 is 210.38 Lakh of units. Also, the total cumulative capacity of Grid connected Solar Power plant is 5101 KWp which generated 54 Lakh of units which are installed at roof tops of various buildings of all BEL Units. Wind energy contribution is 39% and Solar contribution is 10%. The total renewable energy contribution is around 49%. This has resulted in avoiding emission of 25,1161 MT equivalent of CO₂.

In addition, following energy conservation measures are taken up, energy-efficient retrofitting-LED lights, DALI (Digital Addressable Lighting Interface) lighting control system, Sky Light Pipe for daylight harvesting, reducing carbon footprint and water footprint. The concept of green building has been introduced in all new buildings and all future buildings will meet the GRIHA rating (Green Rating for Integrated Habitat Assessment).

6. Are the Emissions/Waste generated by the Company within the permissible limits given by CPCB/SPCB for the financial year being reported?
