SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1

1. Does the policy relating to ethics, bribery and corruption cover only the Company?

No, it also covers the Subsidiary companies.

2. Does it extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?

The Company's Code of Conduct outlines and creates a set of values for all concerned people to behave in an ethical manner while working for and on behalf of the Company. It takes into account factors like regulatory compliance, equal employment opportunity, non-harassment & prevention of sexual harassment, prevention of use of alcohol, illegal drug or medication, use of the Company's, Customers' and Suppliers' resources and competition.

It is applicable to all Directors and employees (all Birlasoft managers and employees, including managers and employees of its divisions, subsidiaries and other affiliates worldwide, as well as agents and contractors working on behalf of the Company, its subsidiaries and affiliates).

Prevention of Sexual Harassment ("PoSH") policy: The policy framework aims at educating employees on any sort of harassment (including sexual harassment) and report about it appropriately when seen or experienced at the workplace. All the cases are acted upon immediately and corrective actions are taken. E-learning on PoSH has been mandated for all employees.

3. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

During the year, 3 (three) complaints were received. Out of which, 2 (two) were Investor complaints, the first complaint was for change of signature and updation of Bank details which was registered with National Stock Exchange of India Limited. The second complaint was a court case which pertains to non-receipt of share certificate. Further, 1 (one) complaint was reported under the PoSH mechanism.

All the above complaints were resolved and there are no pending complaints as on the end of the financial year.

Principle 2

1. List of upto 3 products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

The Company is in the business of software development services and products. Hence, these products do not attract social or environmental concerns, risks and/or opportunities.

2. For each such product, provide the following details in respect of resource use (energy, water, raw material, etc.) per unit of product (optional):

a) Reduction during sourcing/production/distribution achieved since the previous year throughout the value chain?

b) Reduction during usage by consumers (energy, water) has been achieved since the previous year?

The Company is in the business of software development services and products. Therefore, these products require minimal usage of energy, water, raw material, etc.

3. Does the Company have procedures in place for sustainable sourcing (including transportation)?

a) If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

Responsible sourcing is becoming an area of focus for the Company. Through collaboration with its business partners, the Company aims to enhance supplier relationships, ensure the highest quality standards and create a sustainable supply chain.

As a step towards contribution to sustainability, we have introduced electric vehicles into our transportation fleet in partnership with an industry pioneer in this domain. We have been one of the early adopters in using this technology for day to day transport operations and we look forward to contributing to the environment with this move. Electric Vehicles are environment friendly, have low running costs and pose a reduced risk of breakdowns. Operating electric vehicles will help us to achieve sustainability through reduction in our carbon footprint. To be specific, 10,000 electric KMs per month = 24 MT of CO2 emissions abated per year, which is equal to growing 360 trees per year. Currently, electric vehicles are plying at our Bengaluru, Hyderabad and Pune office.

4. Has the Company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?

Birlasoft supports local and small producers through its Corporate Social Responsibility activities.

a) If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

Birlasoft aims to create a need-based sustainable community driven model to provide a platform for developmental change in ecosystem. In consonance with this vision, Birlasoft supports local and small vendors through its "Joy of Giving" program. This is a platform to connect buyers with sellers. We also help small entrepreneurs in building their capacity through skill training and financial assistance.

5. Does the company have a mechanism to recycle products and waste? If yes, what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof, in about 50 words or so.

The Company has taken the following initiatives to recycle products and waste:

The Company endeavors to address global environmental issues through contribution in the following areas namely: Conservation of Energy, e-vehicles for commutations of employees, Waste Management, Environment Awareness and Occupational Health & Safety.

Conservation of Energy:

The Company has initiated many projects towards conservation of energy and water. Recently, one project which we have executed is replacement of HVAC system at SDB2 Building at the Company's Registered Office situated in Pune.

Highlights of the project:

- It will achieve reduction of approx. 100,000 kWh units p.a. power consumption considering full occupancy utilization of SDB2 building.
- It will also reduce approx. 80 tonnes of carbon emission p.a.
- The earlier system was 15 year old which was based on digital scroll technology now changed to inverter based technology.

Electric Vehicles:

As a step towards contribution to a greener environment and in line with Birlasoft's commitment to environmental sustainability, we have introduced electric vehicles into our transportation fleet in partnership with an industry pioneer in this domain. Details have been provided in foregoing paragraphs.

Waste Management:

Being an IT services company, there are no significant primary emissions or process wastes. Due to the nature of our business, waste generation is limited and restricted primarily to Municipal Solid Waste. Other wastes include e-waste and a small proportion of hazardous waste like waste lube oil, etc. Our waste management practice seeks to reduce the environmental impact of this limited waste to the maximum extent possible by reduction in generation and segregation at source.

E-waste Management:

Being an IT company, the Company generates e-waste like laptops, computers, monitors, servers, etc. Apart from this, we also generate e-waste like wires, switches, lamps, etc. The Company's waste management procedure is the defining guideline for handling all types of waste and complying with the Government and Maharashtra Pollution Control Board ("MPCB") norms.

Hazardous Waste:

Hazardous waste is disposed through authorized agencies as per the guidelines of Ministry of Environment, Forests and Climate Change.

Occupational Health and Safety Assessment Series ("OHSAS"):

The Company has always considered its employees as the most valuable asset of the organization. Towards this end,

the Company constantly undertakes initiatives to ensure the safety and wellbeing of its employees at workplace.

The Company engages its employee and third party vendors in various EOHS initiatives held in the organization. The hazard identification and risk assessment is carried out in consultation with relevant stakeholders, employees and third party vendors. The implemented controls are monitored and evaluated regularly to ensure employee safety all the time at workplace.

For details, please refer the relevant Annexure to the Board's Report relating to "Information on conservation of energy, technology absorption and foreign exchange earnings and outgo", which forms part of this Annual Report.

CSR Project – Shodhan:

Birlasoft's flagship award winning project Shodhan was incepted in 2017. It focuses on the villages of Haryana and Punjab, the two big states of India and major producers of rice. Shodhan objective is to reduce crop residue burning by educating the farmers. Till date, we have covered 84 villages of Punjab and Haryana, covering approx. 71000+ acres of farmable land. In collaboration with CII Foundation, local and corporate volunteers, we conduct awareness sessions to mobilize farmers and their families in the identified villages, orient them with new farming practices which obviate the need for stubble burning. Birlasoft is a recipient of the Grant Thornton "Social and Business Enterprise Responsible Awards" (GT SABERA) for three years and also won "Special Jury Award" from CSRBOX during the financial year.

For details, please refer the relevant Annexure to the Board's Report relating to Corporate Social Responsibility Activities which forms part of this Annual Report.

5. Have you taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain in 50 words or so.

Birlasoft believes that regular and concurrent monitoring is critical to assess the progress of CSR projects. We have a mechanism of continuous feedback and mid-course implementation, whenever and wherever required. This assures effectiveness and efficiency of CSR activities undertaken. Additionally, we conduct pre and post assessment to observe the qualitative and quantitative impact of CSR activity. This helps in building the trust and confidence of community, thereby increases the acceptance of community development initiative.

Principle 9

1. What percentage of customer complaints/consumer cases are pending as on the end of financial year?

The customer complaints are technology specific and get resolved at the appropriate level through the defined resolution process, at time of delivery of the Services/Software before contract closure. There are no customer complaints that are material in nature, as on the end of financial year.

2. Does the Company display product information on the product label, over and above what is mandated as per local laws? Yes/No/N.A./Remarks (additional information).

Since, the Company is in the business of software solutions, this requirement does not strictly apply to the Company.

There are no cases related to unfair trade practices, irresponsible advertising and/or anti-competitive behavior pending against the Company.

4. Did your Company carry out any consumer survey/consumer satisfaction trends?

At Birlasoft, we take pride in keeping our customers happy. For understanding our customer's perception of our deliverables & services, we have Voice of Customer ("VOC") process which is driven at two levels i.e. Project and Engagement with a defined frequency of six months. Through this process, we capture customer's verbatim feedback which is analyzed to draw action points that are tracked to closure so that the VOC rating is improved over time. Best practices from Projects and Engagements receiving High VOC score is shared with Sr. Management and delivery leaders. Root cause analysis along with action plan for Low VOC score is also shared with higher management and delivery leaders to ensure that timely appropriate corrective action is taken.

Customer satisfaction is determined by Project VOC rating which is from 1 to 5 and WOW (Rating 1 being for dissatisfied and WOW being above 5 rating where customer is delighted with delivery which is beyond expectation). For the Engagement VOC rating is from 1 to 10 (Rating 1-6 is Detractor, 7-8 is Neutral & 9-10 is Promoters).

As per the performance of last cycle, 96% customers have rated us either WOW, Very satisfied/satisfied, overall VOC score is 4.56 out of 5, with 60% of response rate.
