

BUSINESS RESPONSIBILITY REPORT (BRR)

Your Company being among the top 1000 entities based on Market Capitalisation presents this Business Responsibility Report as required under Regulation 34(2)(f) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended.

This report has been prepared on the basis of the following Principles which are prescribed by SEBI vide its Circular CIR/CFD/CMD/10/2015 dated November 04, 2015.

P1	Businesses should conduct and govern themselves with Ethics, Transparency and Accountability
P2	Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle
P3	Businesses should promote the well being of all employees
P4	Businesses should respect the interests of, and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalised.
P5	Businesses should respect and promote human rights
P6	Business should respect, protect, and make efforts to restore the environment
P7	Businesses, when engaged in influencing public and regulatory policy, should do so in a responsible manner
P8	Businesses should support inclusive growth and equitable development
P9	Businesses should engage with and provide value to their customers and consumers in a responsible manner

SECTION A: GENERAL INFORMATION ABOUT THE COMPANY

S. No.	Particulars	Details	
1	Corporate Identity Number (CIN) of the Company	L15499TN1986PLC012747	
2	Name of the Company	HATSUN AGRO PRODUCT LIMITED	
3	Registered Office Address	No.1/20A, Domaine, Rajiv Gandhi Salai (OMR), Karapakkam, Chennai - 600 097.	
4	Website	www.hap.in	
5	E-mail id	secretarial@hap.in	
6	Financial Year reported	2021-2022 (01st April, 2021 to 31st March, 2022)	
7	Sector(s) that the Company is engaged in (industrial activity code-wise)	Dairy Industry (covered under various codes as specified under NIC 1987 covering Dairy Industry) NIC 10501 – Pasteurised Milk NIC 10502 – Milk Powder NIC 10504 – Butter, Curd and Ghee NIC 10505 – Ice Cream NIC 10509 – Other Dairy Products	
8	List three key products/services that the Company manufactures/provides (as in balance sheet)	Milk	Standardized, Toned, Full Cream
		Milk Products	Curd, Ghee, Dairy Whitener, Paneer
		Ice Cream	Broad range of Ice Cream varieties sold in the form of Cones, Cups, Tubs, Sticks and Scoops.
9	Total number of locations where business activity is undertaken by the Company	The Company's businesses and operations are spread across the country. Please refer to "Corporate Governance Report – Plant Locations" of the Annual Report 2022 for details on business locations of the Company.	

	(a) Number of International Locations (Provide details of major 5)	None.
	(b) Number of National Locations	Please refer to “Corporate Governance Report – Plant Locations” of the Annual Report 2022 for details on business locations of the Company.
10	Markets served by the Company: Local/State/National/International	Company’s products have a national presence and its wide range of products are being sold across geographies in India.

SECTION B: FINANCIAL DETAILS OF THE COMPANY

S. No.	Particulars	Details
1	Paid up Capital (INR) (As on 31-Mar-21)	INR 21.56 Crore
2	Total Turnover (INR) (As on 31-Mar-22)	INR 6,396.48 Crore
3	Total profit after taxes (INR) (As on 31-Mar-22)	INR 217.91 Crore
4	Total spending on Corporate Social Responsibility (CSR) as percentage of profit after tax (%) (For FY 2021-2022)	INR 9.31 Crore (4.27 % of PAT and 3.38 % of PBT)
5	List of activities in which expenditure in 4 above has been incurred:-	An amount of INR 9.24 Crore has been given as contribution to HAP Sports Trust, a Charitable Sports Trust set up with the objective of undertaking charitable and socially relevant activities in the field of Sports including establishment of and operation of a sports development centre which is in the interest and the wellbeing of the society, as approved by Shareholders by postal ballot on 6th October, 2016 and INR 0.07 Crore towards Eradicating Hunger, Poverty, Malnutrition, Promoting Health Care, Sanitation, provision of Safe Drinking Water, Promotion of Rural development projects, Education and protection of environment in the Districts of Dharmapuri and Kanchipuram in the State of Tamilnadu. For detailed report on CSR, please refer to Annexure B of Board’s Report.

SECTION C: OTHER DETAILS

S. No.	Particulars	Details
1	Does the Company have any Subsidiary Company/Companies?	The Company does not have any Subsidiary Company/Companies. It is a Standalone entity.
2	Do the Subsidiary Company/Companies participate in the BR Initiatives of the parent company? If yes, then indicate the number of such subsidiary company(s)	Not Applicable
3	Do any other entity/entities (e.g. suppliers, distributors etc.) that the Company does business with participate in the BR initiatives of the Company? If yes, then indicate the percentage of such entity/entities? [Less than 30%, 30-60%, More than 60%]	Through the Business Responsibility Initiatives, your Company works with stakeholders in its extended value chain. Issues arising out of Supply chain can impact our operations. For the size of Operations of our Company, Suppliers, distributors etc. are critical. In respect of Operational issues, we engage with our suppliers to sort out the issues through various channels. Our Suppliers and Vendors are made aware on Environmental and Social Issues. Meetings with Vendor are used as a platform to raise awareness on health & safety, environmental and community initiatives etc., of the Company. While it is difficult to estimate the percentage, the Company actively encourages adoption of BR initiatives by our Business Partners.

	9.	Does the Company have a grievance redressal mechanism related to the policy/policies to address stakeholders' grievances related to the policy/policies?	Y	Y	Y	Y	Y	Y	Y	Y	Y
	10.	Has the Company carried out independent audit/evaluation of the working of this policy by an internal or external agency?	Y	Y	Y	Y	Y	Y	Y	Y	Y
	(b) If answer to the question at serial number 1 against any principle, is 'No', please explain why: (Tick up to 2 options): Not Applicable										
3.	Governance related to BR										
	(a)	Indicate the frequency with which the Board of Directors, Committee of the Board or CEO to assess the BR performance of the Company. Within 3 months, 3-6 months, Annually, More than 1 year	The Board reviews the BR performance at least once annually.								
	(b)	Does the Company publish a BR or a Sustainability Report? What is the hyperlink for viewing this report? How frequently it is published?	This is the sixth year of publishing the Business Responsibility Report and it is available on the company's website as part of the Annual Report 2021-2022. https://www.hap.in/annual-report.php								

SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1

1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes/No. Does it extend to the Group /Joint Ventures/Suppliers/Contractors/NGOs /Others?

Hatsun's Code of Conduct provides guidelines on ethics, bribery and corruption. The Code of Conduct is binding on Hatsun's employees only. The Code of Conduct complies with the legal requirements of applicable laws and regulations. However, the guidelines are communicated to most of our key associates like vendors, suppliers etc., and it is expected that they will follow it in their interactions with Hatsun. Hatsun has taken significant steps to ensure that our members understand and practice our Code of Conduct. Hatsun has a Whistle-blower Policy which is accessible to all of its Stakeholders.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

The Company has an internal and external mechanism for investigation of all the complaints received as these have significant bearing on individuals as well as the Organisation. The Company invests a lot of resources in maintaining its Code of Conduct. Our Stakeholders include our Investors, Clients/ Customers, Employees, Vendors/Partners, Government and Local Communities.

During the past financial year, there were no complaints received from the stakeholders and no investor complaint was pending resolution at the end of the year.

Principle 2

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

The Company constantly strives to ensure that all the products and services are designed to address social and environmental concerns. All of our products are based on bountiful produce that nature generously provides to us and our dairy products are dependent on nature to a large extent and the Company has been continuously advocating on efficient and prudent use of natural resources, especially that of encouraging and educating farmers to take care of milch animals and teaching them best ways to prevent common ailments for their cattle. Resource efficiency is integrated into our product and process design and is a critical component in the creation of physical infrastructure, operations and logistics management. Our products being dairy products fulfill the nutrition requirement of all age groups of the public providing the benefit of milk protein along with goodness of calcium.

2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):

a) Reduction during sourcing/production/distribution achieved since the previous year throughout the value chain? and

(b) Reduction during usage by consumers (energy, water) has been achieved since the previous year?

All of our processes are directed towards efficient utilisation of resources and the Company constantly strives to ensure that all the products are produced with optimum use of energy and other natural resources.

The Company has been consistently increasing its milk procurement volumes in various regions and geographies in order to bring down the supply chain and processing costs. The sustainable principles adopted by Hatsun in its milk procurement process has increased the savings in terms of bringing down the freight cost and banking on higher utilisation of processing facilities which has led to creation of an eco system in its process.

The quantitative details on reduction in energy consumption are detailed in Annexure F to the Board's Report.

BIO GAS POWER GENERATION:

The Company uses both aerobic and anaerobic treatment at our Effluent Treatment Plant (ETP) process. The Chemical Oxygen Demand (COD) and Biological Oxygen Demand (BOD) is let down to the lower level keeping flora and fauna healthy. During the anaerobic process, the COD and BOD are converted to methane and other organic gases which are being used to generate power. FY 2021/22, we have generated 2.40 Lakh UNITS (In Value ₹15,24,000/-) of power through Bio DG using Methane gas which has saved us appx 144 tons of fossil fuel, thus minimising our carbon prints equivalent to 228 tons of carbon dioxide emission to atmosphere.

Hot Water generation from biogas (Methane):

For the FY 2021/22, we have generated 7130 KL of hot water using Methane gas (Temp 30 °C – 60 °C), which has given us savings of appx 146 tons (In Value ₹7,52,611 /-) of fire wood, thus minimising our carbon foot equivalent to 263 tons of carbon dioxide emission to atmosphere.

SOLAR HOT WATER GENERATION:

At our Salem Plant, Solar Hot Water generation has been placed to save energy. The hot water obtained from the Solar panels is catering to our CIP as well to the boiler make up water at 85°C. We have commissioned this Solar Hot Water Generation system in September 2016. Annual Hot Water Generation amounted to 279086500 kcal. Annual Hot water Equivalent Steam generation is: 516826 kg of Steam. Annual Wood savings amounted to 191.5 tons. Annual Cost saved amounted to ₹9.82 Lakh. Annual Carbon footprints reduced amounted to 345 tons.

SOLAR STEAM GENERATION:

At our Salem Plant, Solar Parabolic Trough Steam generation has been placed to save energy. The steam obtained from the Solar Parabolic Trough is catering to our Milk Powder plant at 17 bar g / 170°C. We have commissioned this Solar Parabolic Trough system in March 2018. Annual Steam generation amounted to 107445 kg. Annual Wood savings amounted to 39.80 Tons. Annual Cost saved amounted to ₹2.04 Lakh. Annual Carbon footprints reduced amounted to 71 Tons.

SOLID WASTE DISPOSAL:

Solid Wastes are generated in the process of manufacturing Milk and Milk Products. The Waste generated are used as fuel for captive consumption. Using POLY HOUSE Technology / Sun Drying, ETP Scum is dried and 260 tons of dried scum was used as boiler fuel thus saving Appx 89 tons of Wood and 171 tons of Coal.

WATER RECYCLING AND RE USE:

We have recycled 84110 KL (In Cost ₹29.87 Lakh) of our trade effluent in FY 2021/22 using MBR+RO, NALCO, ETP water softening. Reuse of recycled water was done within our plants in Non-Food contact areas. Substantial environmental benefits are derived through Water Conservation and Reuse since it has reduced our waste water discharge to the environment minimising the pollution to the surroundings. Water Conservation and Reuse has brought down our dependency over purchase of Water from outsiders and this has improved the ground water table in and around our Manufacturing facilities.

3. Does the Company have procedures in place for sustainable sourcing (including transportation)? If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

Milk is to be moved to the Chilling Centre within hours of procurement to avoid spoilage due to its nature of being susceptible to contamination. Direct Milk procurement is done by Hatsun from the farmers and the Company has state-of-art logistics infrastructure to transport the milk procured to the nearest chilling centres.

Hatsun has crafted extensive strategies to ensure that sustainable methods are being put in place in the procurement process, that the fresh milk from the farmers reaches the hands of millions of people in quick turnaround time.

Considering these efforts, milk procurement is done in a sustainable way which contributes to 70% of overall procurement.

4. Has the Company taken any steps to procure goods and services from local and small producers, including communities surrounding their place of work? If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

The Company works with farmer communities to ensure sustainable production in the long-term. The Company procures its total raw material indigenously and touches the lives of millions of farmers, and practices a strong preference for local procurement of raw materials. Over the last two decades, Hatsun, through its milk procurement network, has built a reputation as a brand that stands for trust and transparency amongst farmers in South India. Building on its reputation and advocacy of transparency in its milk procurement process, farmers look forward towards Hatsun entering their village for milk procurement which has made the Company create the largest direct milk procurement network amongst private dairy companies.

5. Does the Company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%)? Also, provide details thereof, in about 50 words or so.

As an environmentally responsible Company, we have adopted a focused approach to managing the waste generated by our Operations. Our waste management strategy takes in to account, the philosophy on the three R's – Reduce, Re-Use and Re-Cycle.

Since we are dairy based company, our products are of perishable nature (consumption base) they are not meant to be recycled. However during our production process we recycle effluent water used in our production facilities to the extent of 10%, which is used for washing milk storage tankers and crates. The rejected packing materials by our quality control team is disposed to an authorised recycling dealer and it is ensured that it is being disposed of in compliance with Plastic Waste (Management and Handling) Rules, 2011.

SOLID WASTE DISPOSAL

In order to reduce the generation of solid waste, we are reusing online damaged milk, curd pouch and Ice cream waste. Also, we are converting the solid waste generated from ETP as compost and utilising the same in irrigation land.

On a trial basis, one of the Plants was engaged to make natural manure from our waste resources like, fly ash from boiler, sludge milk, waste ice cream mix and waste curd and other microbial ingredients. The wastes mentioned were made into compost and converted to natural manure which has rich NPK values analysed by one of the reputed Agricultural University. The Company plans to pursue these waste recycling/disposal practices across all our Plants in the near future.

Principle 3

S.No.	Particular	Details
1	Please indicate the Total number of employees	5541
2	Please indicate the Total number of employees hired on temporary/contractual/casual basis	7065
3	Please indicate the Number of permanent women employees.	113
4	Please indicate the Number of permanent employees with disabilities.	10
5	Do you have an employee association that is recognised by management?	None
6	What percentage of your permanent employees are members of this recognised employee association?	Not Applicable
7	Please indicate the Number of complaints relating to child labour, forced labour, involuntary labour, sexual harassment in the last financial year and pending, as on the end of the financial year.	No complaints relating to child labour, forced labour, involuntary labour, sexual harassment are pending as of 31-Mar-2022
8	What percentage of your under mentioned employees were given safety and skill up-gradation training in the last year? (a) Permanent Employees (b) Permanent Women Employees (c) Casual/Temporary/Contractual Employees (d) Employees with Disabilities	100 % 100 % 100 % employees receive training as part of their induction. Not Applicable

Principle 4

1. Has the Company mapped its internal and external stakeholders?

Yes, as a result of regular and extensive stakeholder engagement, the Company's business operations have evolved, balancing business priorities and responsibility towards economic, environmental and social sustainability. Your Company actively engages with stakeholders in its own operations and beyond to bring transformational change. Internal and external stakeholder engagement and partnership is essential to grow your Company's business and to reach the ambitious targets set. The Company builds trust through productive relationships, fosters working partnerships and considers stakeholders both internal and external as integral to its business.

2. Out of the above, has the Company identified the disadvantaged, vulnerable & marginalised stakeholders?

Yes.

3. Are there any special initiatives taken by the Company to engage with the disadvantaged, vulnerable and marginalised stakeholders?

As a socially responsible Organisation, we are committed to working for the welfare of the communities around us.

Dairying has become an important secondary source of income for millions of rural families and has assumed the most important role in providing employment and income generating opportunities particularly for marginal and women farmers. Hatsun through its milk procurement network has built a reputation as a brand that stands for trust and transparency amongst farmers in South India. Building on its reputation and advocacy of transparency in its milk procurement process, farmers look forward towards Hatsun entering their village for milk procurement which has made the Company to create the largest direct milk procurement network amongst private dairy companies.

As the Company sells its Feed only to its own farmers directly avoiding any middlemen and the recoveries are made against supply of milk, the cash transactions are totally avoided with negligible receivables.

The Company has assigned a team of veterinary doctors to take care of milch animals of all the farmers associated with the Company and has also arranged for trained inseminators to visit the villages to carry out artificial insemination on the animals to ensure that the milch animals produce at least one calf every year. Apart from the above your Company has commissioned a team of agricultural graduates to help farmers to cultivate their fodder and source appropriate technology to assist farmers to automate their farms to an optimum level. The Company has also commissioned a team of agronomists to help farmers cultivate fodder in the most economical way to meet the nutritional requirement of the cows.

Principle 5

1. Does the policy of the Company on Human Rights cover only the Company or extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?

Hatsun's Code of Conduct covers the guidelines on Human Rights and it is applicable to all the employees of Hatsun. The Code of Conduct, Whistle Blower Policy and Policy on Prevention and Redressal of Sexual Harassment at work place provide many options to speak up fearlessly and to report any violations of the Code/Policies, or share their concerns confidentially through various modes such as email, website, helpline, complaint drop box and access to Committee members and to the management.

The Code/Policies of Hatsun is/are binding to all Hatsun employees only. However, the guidelines are communicated to most of our key associates like vendors, suppliers etc., and they are encouraged to follow them in their interactions with Hatsun.

2. How many stakeholder complaints have been received in the past financial year and what percent was satisfactorily resolved by the management?

During the last financial year, the Company did not receive any complaints with regard to human rights.

Principle 6

1. Does the policy relate to Principle 6 cover only the Company or extends to the Group/Joint Ventures/Suppliers/Contractors/NGOs/others.

The Company is committed towards environmental sustainability and takes pride in tapping the resources in all forms solid, liquid and gaseous substances towards protection of environment. The Company has contributed in various ways towards environmental protection and sustainability by not only ensuring efficient use of resources but also implementing methods to preserve natural resources.

The Code/Policies of Hatsun are binding to all Hatsun employees only. However, the guidelines are communicated to most of our key associates like vendors, suppliers etc., and they are encouraged to follow them in their interactions with Hatsun.

2. Does the Company have strategies/initiatives to address global environmental issues such as climate change, global warming, etc? Y/N. If yes, please give hyperlink for webpage etc.

Yes, Hatsun has been working on climate change issues by improving its process efficiency and taking initiatives in energy efficiency, developing green zones at units and water conservation etc. Carbon foot prints are reduced every year and the details in this regard appear elsewhere in this report. In order to streamline the efforts and set common objective, a Safety, Health and Environment Policy (SHE Policy) has been prepared. The same can be viewed at <https://www.hap.in/pdf/policies/SHE-Policy.pdf>.

3. Does the Company identify and assess potential environmental risks?

Yes. Potential aspects related to environment are identified and evaluated for their impact on the basis of severity, scale and probability. All the significant aspects have operational control procedure in place.

4. Does the Company have any project related to Clean Development Mechanism? If so, provide details thereof, in about 50 words or so. Also, if yes, whether any environmental compliance report is filed?

NA

5. Has the Company undertaken any other initiatives on – clean technology, energy efficiency, renewable energy, etc. Y/N. If yes, please give hyperlink for web page etc.

Yes. For eg. Hatsun has taken other initiatives for energy efficiency by setting up Solar Panels at our Salem Plant, which generates hot water through Solar panels to save energy. The hot water obtained from the Solar panels is catering to our CIP as well as to the boiler at 85°C. This has resulted in Cost Saving as well as reduction in Carbon Footprint. This will be extended to all the possible plants to protect the environment. Besides the above, Hatsun has taken initiatives in generating power from Biogas (Methane) and using Solid Waste as boiler fuel resulting in energy efficiency. Besides the above, Hatsun has entered in to

an agreement for purchase of Solar Power from Swelect Sun Energy Pvt. Ltd. which has started generating power from the month of September, 2021 which gives us the green energy.

6. Are the Emissions/Waste generated by the Company within the permissible limits given by CPCB/SPCB for the financial year being reported?

Yes. All the units are complying with the norms of CPCB and SPCB.

7. Number of show cause/legal notices received from CPCB /SPCB which are pending (i.e. not resolved to satisfaction) as on end of Financial Year.

During FY 2021-2022, the Company did not receive any show cause/ legal notices from CPCB/SPCB which are pending as on 31-Mar-2022.

Principle 7

1. Is your Company a member of any trade and chamber or association? If Yes, Name only those major ones that your business deals with:

Hatsun ensures that its policy is with the highest degree of responsible and ethical behaviour and works with collective platforms such as trade and industry chambers and associations to raise matters with the relevant government bodies. Hatsun is a member of

- (a) Indian Dairy Association (IDA)
- (b) Indian Ice Cream Association (IICMA) and
- (b) Tamil Nadu Chamber of Commerce (TNCC)

2. Have you advocated/lobbied through above associations for the advancement or improvement of public good? Yes/No; if yes specify the broad areas (drop box: Governance and Administration, Economic Reforms, Inclusive Development Policies, Energy security, Water, Food Security, Sustainable Business Principles, Others):

Hatsun believes that it is our responsibility to help build a better business environment and an overall better world with ample opportunities for everyone. Our Promoters and Directors are constantly taking efforts to improve the general Public welfare. In an effort to drive advocacy, we have been a part of Governance bodies of many a Organisation across economic, social and environmental dimensions.

Principle 8

1. Does the Company have specified programmes/initiatives/projects in pursuit of the policy related to Principle 8? If yes details thereof.

The Company considers the Society as one of the most important stakeholder as it moves with the local community namely the Farmers who are the main contributors to the business of the Company. The Company takes care of sustaining the secured livelihoods of farmers as they not only get paid honestly for the quality of milk they supply which encourages them to be the long standing supplier to us but also improve their milk yield from their cattle by arranging supply of quality feeds to them.

2. Are the programmes/projects undertaken through in-house team/own foundation/external NGO/government structures/any other organization?

The company employs a thoroughly professional Animal Husbandry team. For farmers who do not have access to reliable irrigation, Hatsun is initiating a trial on the feasibility of

producing and feeding silage to the cattle. With an aim to maximise farmers' profits, the animal husbandry team works closely with the cattle feed team to provide farmers with a complete nutrition package of forages and concentrates. Hatsun has also commissioned a team of agronomists to help farmers cultivate fodder in the most economical way to meet the nutritional requirement of Cows.

3. Have you done any impact assessment of your initiative?

So far no formal impact assessment has been carried out as these initiatives have been introduced on trial basis.

4. What is your Company's direct contribution to community development projects- Amount in INR and the details of the projects undertaken?

These are detailed in ANNEXURE – B to the Board's Report.

5. Have you taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain in 50 words, or so.

Yes. The Community development initiatives are done through CSR activities viz., Eradicating Hunger, Poverty, Malnutrition, Promoting Health Care, Sanitation, provision of Safe Drinking Water, Promotion of Rural development projects, Education and protection of environment in the Districts of Dharmapuri in the State of Tamilnadu have been successfully adopted by the Company. For detailed report on CSR, please refer to Annexure B of Board's Report.

Besides the CSR activities, the Company has commissioned a team of agricultural graduates to help farmers to cultivate their fodder and source appropriate technology to assist farmers to automate their farms to an optimum level. The Company has also commissioned a team of agronomists to help farmers cultivate fodder in the most economical way to meet the nutritional requirement of the cows.

Principle 9

1. What percentage of customer complaints/consumer cases are pending as on the end of financial year?

As of 31st March 2022, the Company has no pending consumer complaints.

2. Does the Company display product information on the product label, over and above what is mandated as per local laws? Yes/No/N.A./Remarks(additional information)

Hatsun adheres to all the applicable regulations regarding product labelling and displays relevant information on it to enable safe and effective usage of its products.

3. Is there any case filed by any stakeholder against the Company regarding unfair trade practices, irresponsible advertising and/ or anti-competitive behaviour during the last five years and pending as on end of financial year. If so, provide details thereof, in about 50 words or so.

No case has been filed by any stakeholder related to the mentioned subject and no case is pending as at the end of financial year ended on March 31, 2022.

4. Did your Company carry out any consumer survey/ consumer satisfaction trends?

Consumer satisfaction is important for business. Hatsun connects with the Consumer with multiple touch points. The Company has set up a dedicated help line toll free number to address all the Consumer complaints and to receive feedbacks.
