8. Does the entity have any project related to reducing Green House Gas emission? If yes, then provide details.

Yes. The Bank is cognisant of its impact on the environment and is actively engaged in reducing its energy consumption and emissions across its operations. Automated energy management solutions are deployed at some of the branches, which helps monitor energy consumption and control usage. This initiative is now active at 568 branches and has resulted in savings of 16% on electricity, amounting to about 4.19 million units (kWh) in FY 23-24.

Implementation of static Power Factor (PF) solutions through the installation of Active Harmonic Filter (AHF) was another project rolled out in FY 23-24 that aims to address the correction of power factor and bring in efficiencies at the branch locations. The project was implemented at 86 locations and electricity savings amounted to close to 0.16 million units (kWh) in FY 23-24.

Wherever feasible, the Bank has also been trying to integrate renewable energy sources into the overall power consumption. The Bank has 25 rooftop solar plants with a cumulative capacity of about 720 kWp across the country. The Bank also procures green power at a premium tariff through DISCOMs at 12 locations in Maharashtra. With the procurement of over 2,639.18 MWh during FY 23-24, about 1,889.66 metric tonnes of carbon emissions were avoided during the year. To adopt a more holistic approach to emission reduction, the Bank has been evaluating all new projects for feasibility of green certification by the Indian Green Building Council (IGBC). As of March 31, 2024, 2,026 branches and offices received green certifications from IGBC.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

The Bank does not use hazardous and toxic chemicals in its products and processes. However, the Bank has been working towards sustainable management of waste generated from day-to-day operations. The Bank has formulated an internal Standard Operating Procedure to document its approach to waste segregation and handling in the office premises. The Bank segregates and recycles dry waste at select large offices. The dry waste from these offices is collected and disposed through authorised vendors who eventually recycle the waste. In FY 23-24, disposal of the Bank's owned IT assets within its premises and its co-located datacenters led to the generation and recycling of 110.58 tonnes of e-waste and 20.51 tonnes of battery waste. The e-waste and battery waste was handed over to authorized recyclers, thus ensuring circularity.

11. If the entity has operations / offices in / around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals/clearances are required, please specify details.
