BUSINESS RESPONSIBILITY AND SUSTAINABILITY REPORT

26. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format.

S. No.	Material Issue Identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Climate Change and Action	Risk	Risk: Climate change is identified as a risk due to the possibility of extreme weather events, sea-level rise, and changing regulations posing threats to railway infrastructure, leading to operational disruptions, financial losses, and reputational damage. Adapting infrastructure for resilience, meeting stricter environmental policies, and addressing supply chain disruptions become imperative considerations. Stakeholder pressure and long-term viability concerns also drive the need to acknowledge and manage climate-related risks effectively.	Incorporating energy audits, switching to energy-efficient technology, and conducting periodic risk assessments.	Negative Implication
2	Water Management	Risk/ Opportunity	Risk: We recognize the challenges posed by water scarcity, climate change impacts, regulatory compliance, and environmental concerns. Opportunity: Emphasizing efficient water usage not only reduces costs but also demonstrates our commitment to environmental stewardship. Adhering to water-related regulations ensures smooth operations and avoids any potential penalties or project delays.	Ensuring compliance with statutory provisions and incorporating judicious use and re-use of water.	Positive/ Negative Implication
3	Waste Management	Risk/ Opportunity	Risk: We acknowledge the significance of addressing waste challenges, including proper disposal, recycling, and minimizing environmental impacts. Implementing effective waste management practices not only aligns with our commitment to sustainability but also contributes to a positive image within the communities we operate. Non-compliance with waste regulations can lead to disruptions and reputational risks, underscoring the need for adherence to waste management guidelines. Opportunity: Embracing waste management as an opportunity allows us to explore innovative solutions, reduce waste generation, and support our sustainable development goals.	Incorporating an efficient waste collection and disposal mechanism, with regular record keeping.	Positive/ Negative Implication

4	Environment Management & Compliance	Risk	Risk: We recognize the potential risks associated with non-compliance, including regulatory penalties, project delays, and reputational harm. By prioritizing environmental compliance, we demonstrate our commitment to responsible business practices and safeguarding the environment. Ensuring adherence to environmental regulations not only mitigates risks but also strengthens our relationships with stakeholders and communities. Proactive measures to meet compliance standards can lead to smoother project execution and operational continuity.	Ensure compliance to all statutes as an when required and keeping updated with respective changes made on the same	Negative Implication
5	Sustainable Construction & Technological Innovation	Opportunity	Opportunity: Embracing eco-friendly practices enhances our reputation, attracts environmentally conscious clients, and reduces our environmental impact. Adopting innovative technologies improves efficiency, resource utilization, and competitiveness in the market.	Incorporating reduce, reuse and recycle strategies whenever applicable and switching to efficient technology to bridge gaps.	Positive Implication
6	Sustainable Supply Chain	Opportunity /Risk	The sustainable supply chain represents both a risk and an opportunity for IRCON. Risk: Supply chain disruptions and non-compliant suppliers pose risks to our operations and reputation. Opportunity: Embracing sustainable practices presents opportunities to enhance our environmental impact, attract like-minded clients and investors, foster innovation, and contribute to a more responsible industry.	Ensuring safe and quality procurement of goods.	Positive/ Negative Implication
7	Health & Safety	Opportunity/ Risk	Health and safety represent both risks and opportunities for IRCON. Risk: Neglecting these aspects can lead to accidents, legal liabilities, delays, and reputational damage. Opportunity: Prioritizing health and safety measures fosters a positive work environment, reduces accidents, attracts skilled workers, and ensures compliance with regulations. Proactive investment in health and safety contributes to our organization's long-term success and sustainability.	Ensuring the smooth functioning of the Safety protocols and updating the ISO45001 as and when required.	Positive/ Negative Implication

8	Human Rights, Diversity & Inclusion	Risk	Risk: Human rights, diversity, and inclusion represent potential risks for IRCON if not properly addressed. Failure to uphold these principles could lead to reputational damage, legal disputes, decreased productivity, and strained relationships with stakeholders. Proactively promoting human rights, diversity, and inclusion fosters a positive work environment, attracts top talent, enhances innovation, and demonstrates our commitment to social responsibility. Integrating these considerations into our core values and operations contributes to a more resilient and sustainable organization, positively impacting our long-term success.	Incorporating human rights trainings and awareness programs into the system. Working on improving the assessments regarding human rights issues within the organization.	Negative Implication
9	Employee Engagement & Wellbeing	Opportunity	Opportunity: Employee engagement and well-being offer valuable opportunities for IRCON. Prioritizing these aspects leads to a motivated and committed workforce, resulting in increased productivity, efficiency, and overall success. Supporting employee well-being creates a positive work environment, reduces turnover, and enhances physical and mental health, contributing to improved performance and safety.	-	Positive Implication
10	Community Development	Opportunity	Opportunity: By engaging with and investing in local communities, we can build strong relationships, create positive impacts, and foster goodwill. Tailoring projects to address community needs and concerns strengthens IRCON's reputation as a responsible and community-minded organization. Community development initiatives also lead to socio-economic growth, smoother project execution, and increased support from local stakeholders.	-	Positive Implication

11	Data Privacy & Cybersecurity	Opportunity	Opportunity: Prioritizing the protection of sensitive data and implementing robust cybersecurity measures enhances our reputation as a trusted partner and builds confidence among clients and stakeholders. Complying with regulations reduces legal risks and improves operational efficiency. Embracing data privacy and cybersecurity as opportunities allows us to innovate, stay competitive, and gain a competitive edge. Investing in these areas demonstrates our commitment to security and reliability, contributing to our long-term success and sustainability in the industry.	-	Positive Implication
12	Risk Management	Risk/ Opportunity	Risk management presents both risks and opportunities for IRCON. Risk: Inadequate practices can lead to project delays, cost overruns, and reputational damage. However, proactive and effective risk management can mitigate threats, capitalize on opportunities, improve decision-making, and foster a culture of innovation. Opportunity: Prioritizing risk management is crucial for ensuring our organization's long-term success and sustainability.	Ensuring the risk register is updated regularly.	Positive/ Negative Implication
13	Business Ethics, Accountability & Transparency	Opportunity	Opportunity: Embracing ethical practices enhances our reputation, builds trust with stakeholders, and attracts socially conscious clients and investors. Being accountable and transparent fosters a positive work environment, improves risk management, and complies with regulations. Stakeholders value organizations that prioritize these principles, leading to long-term relationships and potential business opportunities.	-	Positive Implication

4. Does the entity have an anti-corruption or anti-bribery policy? If yes, provide details in brief and if available, provide a web-link to the policy

IRCON follows the Central Vigilance Manual, a comprehensive guide that provides principles, procedures, and best practices for combating corruption and bribery. It serves as a valuable resource for IRCON, outlining measures to prevent corruption, conduct investigations, and take disciplinary actions. The manual emphasizes transparency, integrity, and accountability, and guides on implementing anti-corruption policies and internal control systems. It addresses corruption risks in various areas, such as procurement and financial management. By following the manual, IRCON aims to establish a strong anti-corruption framework, build public trust, and foster a culture of integrity within the organization.

Apart from this, the Company also has a Fraud Prevention and Detection Policy in place for any fraud or suspected fraud involving employees of IRCON as well as representatives of vendors, suppliers, contractors, consultants, service providers or any outside agency/agencies doing any type of business with IRCON and a Whistle-blower Policy meant for employees to raise any ethical issues within the organization.

Additionally, the Company has adopted a Code of Conduct for all the Board Members and Senior Management and Whole-time Directors. As of now, IRCON is exploring the implementation of an anti-bribery policy to further enhance its commitment to ethical practices.

IRCON, being a listed Public Sector Enterprise, conducts and governs itself with the Ethics, Transparency and Accountability policies mandated under SEBI Regulations, the Companies Act, Department of Public Enterprises (DPE) Guidelines, and other policies of the Government of India as applicable from time to time. All these policies cover the Company and its employees and directly/indirectly extend to its subsidiary companies. The Joint Venture Companies have their own set of principles and procedures, broadly in line with the Government's policies.

3. Accessibility of workplaces

Are the premises / offices of the entity accessible to differently-abled employees and workers, as per the requirements of the Rights of Persons with Disabilities Act, 2016? If not, whether any steps are being taken by the entity in this regard.

IRCON ensures compliance with the Rights of Persons with Disabilities Act, 2016 by designing its office premises in a manner that promotes accessibility and inclusivity for employees and workers with disabilities. The company has implemented various features to achieve this goal. The following are notable features:

1. **Sensor-equipped Automated Doors:** IRCON has installed automated doors with sensors, facilitating easy access for individuals with mobility challenges. These doors automatically open when triggered by the presence of a person, ensuring convenience and smooth entry.
2. **Lift Facilities:** To ensure vertical accessibility, IRCON has installed lifts that adhere to accessibility standards. These lifts enable employees and workers with mobility limitations to effortlessly access different floors of the office building, promoting ease of movement and convenience.
3. **Provision of Wheelchairs:** IRCON provides wheelchairs for employees and workers with mobility challenges. These wheelchairs are available within the office premises and can be used by individuals who require them to move around the workplace comfortably. This provision promotes inclusivity and ensures that employees with mobility limitations can navigate the office environment with ease. A provision for a liaison is made at the premises as per the requirements of the employee.

10. Health and safety management system:

- a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage of such system?

Yes, IRCON has established and implemented an Occupational Health and Safety (OH&S) Management System in accordance with ISO 45001-2018. The organization has determined the necessary processes

BUSINESS RESPONSIBILITY AND SUSTAINABILITY REPORT

and their application throughout the organization. This includes identifying the inputs and outputs of each process, as well as creating an Inter-relation Matrix to illustrate their relationships. The sequence and interaction of processes have been determined, and criteria and methods, including monitoring, measurements, and performance indicators, have been applied to ensure effective operation and control. Resources have been allocated and made available for the processes, and responsibilities and authorities have been assigned accordingly. Risks and opportunities have been addressed, and processes are regularly evaluated and improved to achieve their intended results. IRCON maintains documented information to support process operations and retains documentation to ensure adherence to planned processes.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

IRCON through their Occupational Health and Safety Manual has established a process for identifying and assessing aspects/hazards, with an assessment mechanism based on their significance. During the initial stage of project execution, major hazards are identified, tabulated, and communicated to the construction team. A comprehensive inventory of all aspects and OH&S hazards are periodically reviewed & updated based on the initial review and group risk assessment. Several factors are addressed, including storage, handling, and disposal of construction & hazardous materials, plant & machinery activities, construction activities & related standard operating procedures, and infrastructure facilities. For OH&S risk assessment, aspects with significant impacts on employee health and safety, such as physical, chemical, and biological factors, are identified. Probability and severity factors are used to rate the assessment, with a scale ranging from "Always" to "Never" for probability and from "Permanent/partial disability with hospitalization or death" to "No harm" for severity. The risk rating is determined by multiplying the probability and severity factors together. If the risk rating is 3 or higher, it is considered intolerable, and control measures should be developed and implemented. The OH&S risk levels are defined as Extreme, High, Moderate, Low, and Trivial based on specific criteria.

c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Y/N)

Yes, following an incident or accident, the Person in Charge of Health and Safety (PH/SO) will initiate an investigation in collaboration with the Sub-contractor's safety officer and other site staff to determine the cause(s) of the incident/accident and suggest appropriate remedial actions. The incident/accident report form will be completed, and the PH/SO will identify the necessary steps to be taken. Furthermore, the Safety Officer will present the report to the Safety Committee and also share it during the Project Quality Council Meeting.

d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/ No)

Yes, IRCON ensures that its employees have access to non-occupational medical and healthcare services. The company provides a range of benefits to both permanent and non-permanent employees, including outdoor and indoor treatment reimbursement, sanctions for medical advances, ambulance charges and other complete health checkup benefits. Apart from this IRCON has a medical trust set up that provides assistance to employees under different circumstances.

12. Describe the measures taken by the entity to ensure a safe and healthy work place.

IRCON takes several measures to ensure a safe and healthy workplace. The company conduct regular hazard identification and risk assessments, including safety drills for various scenarios. Stringent safety measures are in place at project sites to prioritize the well-being of employees and workers. This includes the implementation

BUSINESS RESPONSIBILITY AND SUSTAINABILITY REPORT

of Safety Standard Operating Procedures (SOPs) and comprehensive training programs. Regular pre-medical checkups are conducted at scheduled intervals to monitor the health of personnel. Following the principles of the Industrial Safety hierarchy, the project emphasizes a systematic approach to risk mitigation. The hierarchy involves the steps of elimination, substitution, engineering control and administrative control. Hazards are first eliminated whenever possible, followed by substituting hazardous elements with safer alternatives. Engineering controls are implemented to design a safer work environment, while administrative controls establish procedures and guidelines to manage risks effectively. Finally, when necessary, appropriate PPE is provided to ensure worker safety. Through the consistent application of this safety hierarchy, the project endeavors to identify and address potential hazards, fostering a culture of safety and responsibility throughout the project site.

Principle 4: Businesses should respect the interests of and be responsive to all its stakeholders

Essential Indicators

1. Describe the processes for identifying key stakeholder groups of the entity.

The process of identifying key stakeholder groups for IRCON encompasses several steps. Initially, it involves clearly defining IRCON's purpose and role within the industry. Subsequently, both internal and external stakeholders are identified, taking into account their respective interests and concerns.

As a listed EPC contractor in the infrastructure sector, there are several key stakeholder groups that are considered, these include investors and shareholders, employees and workers, clients or employers, vendors, sub-contractors, consultants, the community, and the end users of the infrastructure. The selection of client/employers is typically based on the company's business interests. Vendors, sub-contractors, and consultants are identified and chosen according to project requirements and contract conditions. The responsibility for the end users of the infrastructure facility typically lies with the client/employer, unless the contract provisions allow for involvement by the EPC contractor. Investors, shareholders, employees, and workers are integral parts of the entity itself.

IRCON can successfully understand and engage with stakeholders, effectively addressing their needs and concerns, and cultivating positive relationships through the stakeholder engagement process. Such a strategic approach enables IRCON to optimize project execution, enhance client satisfaction, collaborate effectively with government agencies, and generate value for its shareholders and other stakeholders, thereby achieving improved overall outcomes.

2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

8. Mechanisms to prevent adverse consequences to the complaints in discrimination and harassment cases.

To prevent adverse consequences for complainants in discrimination and harassment cases, IRCON adheres to the POSH policy by

- 1) Providing relief such as the transfer of the aggrieved or the respondent to any other workplace and granting leave to the aggrieved person for up to three months in addition to the entitled leave.
- 2) Ensuring strict confidentiality of complainants' identities and details.
- 3) Implementing robust non-retaliation policies to protect them from reprisals, and establishing whistleblower protection measures for anonymous reporting.
- 4) Conducting independent and unbiased investigations, providing adequate remedies such as disciplinary actions and support for complainants.
- 5) Offering ongoing training and awareness programs.
- 6) Implementing external reporting, and conducting regular reviews and evaluations.

By implementing these steps, IRCON creates a safe and supportive environment for individuals to report complaints, address issues effectively, and prevent adverse consequences for complainants in discrimination and harassment cases.

5. Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy.

Yes, IRCON has a comprehensive framework for managing cyber crisis. This plan delineates diverse categories of cyber incidents, along with associated policies, actions, and responsibilities. Its purpose is to effectively prepare for, identify, exchange information about, respond to, and remediate malicious cyber incidents that could potentially impact critical business functions and processes. The plan underscores the necessity of adopting a coordinated and thorough approach to address cyber security incidents and breaches.

This plan draws its foundation from the 'Cyber Crisis Management Plan for countering cyber-attacks and cyber terrorism' formulated by CERT-In, MeitY, Government of India. It acknowledges the dynamic nature of cyber security, wherein technological progress brings forth new vulnerabilities, necessitating periodic updates to

response strategies. Ideally, these updates should occur on an annual basis. The section concerning the nature of cyber crisis and contingencies identifies distinct types of threats and crisis that may target specific objectives. Its objective is to assess the impact of these crisis on critical business functions and services within IRCON, ultimately determining suitable response and mitigation measures.

The plan encompasses various organizational units within IRCON, including the corporate office, regional offices, and project offices. Additionally, it encompasses key business functions such as finance and accounts, human resources management, business development, plant maintenance, contract management, and project management.
