SECTION E:

PRINCIPLE-WISE PERFORMANCE

Principle 1

Business should conduct and govern themselves with Ethics, Transparency and Accountability

Good Corporate Governance practices ensure ethical and efficient conduct of the affairs of the Company and also help in maximizing value for all its stakeholders. NBCC being a listed Public Sector Enterprise, conducts and governs itself with Ethics, Transparency and Accountability as per policies mandated by Department of Public Enterprises(DPE) Guidelines on Corporate Governance, SEBI (Listing Obligations and Disclosure Requirement) Regulations, 2015 and other guidelines and policies of the DPE.

The company has an established Code of Conduct and Business Ethics, and Whistle Blower Policy. These documents are underpinned by a NBCC Sustainable Development Framework – policies, management and technical standards. The code, policies and standards communicate our zero tolerance approach to ethical violations, and communicate our commitment and requirement for legal compliance and ethical good practice.

To ensure that all employees are well versed with code, a mandatory training is provided for newly recruits, also refresher workshops on anti-corruption policies and procedures are conducted for all the employees at various levels.

1. Does the policy relating to ethics, bribery and corruption cover only the Company? Yes/ No. Does it extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?

The Company has a well-structured vigilance department ushering transparency, efficiency and integrity and best corporate practices in the working of the organisation. The Company has a Whistle Blower Policy meant for employees to raise any ethical issues within the organisation. The Business Code of Conduct and Ethics informs our approach to sustainability and how we conduct ourselves day to day – with each other, our customers, our shareholders, our competitors, our employees, our neighbouring communities, our host government and our suppliers and contractors. It covers all the employees of the Company including posted in Subsidiaries.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

The company has a designed mechanism for all its stakeholders to communicate to the Management about any inappropriate behaviour. The exclusive whistle blowing Policy of the company, has provisioned for a contact number, and email id, which all stakeholders can make use of to report anonymously to the management. During the reporting period no Whistle-blowing cases were reported.

Principle 2

Business should provide goods and services that are safe and contribute to sustainability throughout their life cycle

NBCC is committed to build a strong and sustainable business that believes in the well being of the community, where it operates and actively pursues the goals of improving the impact of its business on the environment, for moving towards a sustainable business environment. NBCC recognizes its responsibility in ensuring energy security for the vast population of the country and works towards strengthening the three pillars of sustainability viz. economic, social and environmental pillars.

As part of ongoing green initiative, NBCC has conducted plantation drives across its project sites throughout the country where it has planted thousands of trees. At NBCC, all work practices, procedures and production methods are oriented towards complying with the highest standards of Health, Safety and Environment, as per the statutory norms.

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

Waste Water Management

Process: NBCC built East Kidwai Nagar redeveloped project has capacity to process 100% waste and sewage at source. Treated water & manure generated to be re-used within the society.

Benefits: preservation of water and its maximum uses.

Organic/ Kitchen waste management:

Process: Household waste is segregated into organic and dry recyclable waste. The next step is to transport the organic waste into the waste treatment facility through electric rickshaw. Once received, the organic waste is processed in a shredder prior to its treatment in the organic waste composting (OWC) unit. Finally, the shredded organic waste along with green waste is processed in the OWC for 20-30 minutes and is made into homogenous odour free material. After treatment in the OWC, the homogenous waste is stored in curing trays for about 15 days. These trays are fitted with water sprinklers that are automatically timed for sprinkling twice a day. At the end of the 15-days cycle, the organic is ready to use and is packed and sent for all horticultural purposes.

Benefits: All kitchen waste is treated in an environment friendly process and turned into a useful product without being disposed off to a landfill.

Plastic Wastes

Process: Pyrolysis is the process involved in the treatment of plastic waste. The waste is treated in high temperatures and in the absence of oxygen to turn it into a value-added fuel product. This fuel is environment-friendly and can be used in generators that use conventional diesel. The minimal gas that is released can be stored and used for cooking using LPG cylinders or direct gas lines.

Benefits: All plastic waste can be treated in-house without the need for sending it to far-distance recycling centres or landfills. Plastics are not only a useful product in our day-to-day life but they are also a very profitable and big industry. This technology is by far the most innovative and environment friendly solution to manage the huge quantum of plastic waste.

2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product(optional):

- (a) Reduction during sourcing/production/ distribution achieved since the previous year throughout the value chain.

During the financial year 2021-22, the company has not measured usage of water, energy and raw material on all its projects being executed all over the India. However, NBCC is actively engaged in providing services at its project sites to propagate the use of natural resources and energy saving alternatives. Sustainability and Sustainable Development has been adopted as a practiced philosophy towards 'Building Green' making use of water energy and renewable energy, and eco-friendly recycled/recyclable materials for improved quality of life and comfort.

- (b) Reduction during usage by consumers (energy, water) achieved since the previous year

NBCC has undertaken re-development works of old Government Colonies. All new construction work under the Re-development category would be carried out in the Smart City concept and will include salient features such as sewage treatment plants, C&D recycling plant on site, solid waste management, energy efficient LED and solar light fittings, rain water harvesting, solar water heaters, vehicle free residential zone (100% underground parking, etc.),

3. Does the Company have procedures in place for sustainable sourcing (including transportation)?

The Company pursues its business activities in a safe and sustainable manner. All work practices, procedures and production endeavours comply with the highest Health, Safety and Environment standards as per the Industry norms, Government and relevant statutory bodies. Since NBCC is engaged in the civil construction services sector, it offers 'Green Building' solutions to its clients. These initiatives not only nurture the environment but also translate in to improved comfort and health for the occupants. Some of the prominent building structures executed by NBCC and conforming to GRIHA Certification include:

- Indian Institute of Corporate Affairs, IICA, Manesar, LEED - India Gold rating.
- Civil Services Officers Institute (CSOI) in New Delhi - GRIHA 3-Star Building.

- National Institute for Solar Energy (NISE), Gurgaon - GRIHA 5 star rating.
- Central Information Commission Headquarters - GRIHA 4-star rating
- Coal India Building Headquarters, Kolkata (WB) - GRIHA 4-Star
- Central Bureau of Investigation (CBI) H.Q. building -IGBC green building certification trophy 2015 for silver rating.

Further, NBCC has set up a C&D waste recycling plant at the East Kidwai Nagar redevelopment Project for manufacturing of bricks which have been used in the project. As most of the projects executed by NBCC are in line with the GRIHA norms, the equipments used are all energy efficient. Most of the Company's upcoming building projects are Green Buildings and enjoy 3,4, & 5 Star GRIHA rating.

- (a) If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

Presently, the Company does not have a process to measure this parameter. There is a growing demand from NBCC clients for green buildings backed by a highly aware clientele that is environment-conscious and demands a better and healthy lifestyle, while using alternative energy fuels and preserving natural resources.

4. Has the Company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?

Being an Central Public Sector Enterprise (CPSE), NBCC's procurement policy and practices are guided by the Government Policies and CVC guidelines. Procurement of goods and services at Corporate Office is mainly done from government-approved sources.

- (a) If yes, what steps have been taken to improve the capacity and capability of local and small vendors?

There is a mechanism for registration of vendors (contractors/sub-contractors and consultants) under different categories in the company. Several vendor-meets are organized during the year, to upgrade them to the sustainable practices and resolve any critical issues that arise during the execution of a project. Besides, these meets go a long way in cementing relationships with the vendors.

5. Does the Company have a mechanism to recycle products and waste? If yes what is the percentage of recycling (separately as <5%, 5-10%, >10%). Also, provide details thereof, in about 50 words or so.

NBCC puts continuous efforts to improve upon utilization of recycled material, minimize loss, improve operational efficiency and reduce material use intensity ensuring optimum use of materials. NBCC had set up a facility to recycle 150 tons per day of construction and demolition waste at the redevelopment project at East Kidwai Nagar, Delhi. Approx 2 million bricks were produced and utilized in project itself.

Principle 3

Business should promote the well-being of all employees

NBCC recognizes that its human resource is integral to meeting organizational goals. NBCC actively promotes the well-being of its employees and their families. The focus of our people's strategy is to recruit, develop and retain our talent in the long-run. We are committed for providing our employees a safe and healthy work environment. 5. Have you taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain in 50 words, or so.

Prior to undertaking a CSR project, need assessment is conducted in order to ascertain the specific needs, problems and relevant solutions from the community perspective as also the gain from the concerned authorities, school, health officials and society at large. The projects are designed and taken up only after consultation with the relevant stakeholders and on the basis of need assessment. After approval of the CSR activity/initiative from Board of Directors, the concerned RBG/SBG/ ZO is given the responsibility for timely completion, quality of work and timely handing over. Upkeep and maintenance of the assets created is looked after by the concerned Government Authorities and local institutions.

Principle 9

Businesses should engage with and provide value to their customers and consumers in a responsible manner

NBCC always endeavours to nurture relationships with its customers. The Company deals with its contractors, customers in a transparent manner and ensure the interest of all the stakeholders. NBCC has a comprehensive system to address its customers' grievances. The Company has a structured and dedicated Vendor Portal for its contractors.

1. What percentage of customer complaints/consumer cases are pending as on the end of financial year? 18% cases are under process.
2. Does the company display product information on the product label, over and above what is mandated as per local laws? Yes/No/N.A. /Remarks(additional information).

Salient features, specifications and services depend upon the requirement of clients, which may differ from project to project. Detailed terms and conditions are separately enumerated in the bi-partite agreement executed by the Company with its clients while conforming to the applicable laws of the land.

3. Is there any case filed by any stakeholder against the company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behaviour during the last five years and pending as on end of financial year? If so, provide details thereof, in about 50 words or so:

There are a few litigations preferred by allottees alleging unfair trade practices which are presently pending before various consumer forums. These are primarily related to projects of real estate.

4. Did your company carry out any consumer survey/ consumer satisfaction trends?

The Company is pro-active on its part in dealing with customers. After the project is completed, feedback is obtained from its clients. During the course of execution, regular and structured meetings are often held to understand problems and difficulties for immediate remedy or to avoid recurrence thereafter. Any short coming/defect during construction is rectified and attended to promptly. This approach has led to customer's satisfaction, which is often reflected in the form of repeat orders.
