## 26. Overview of the entity's material responsible business conduct issues

| Sl. No. | Material issue identified      | Indicate whether risk or opportunity (R/O) | Rationale for identifying the risk/opportunity                                                                                                                                                                                                                                                                                                                                                                                                                                 | In case of risk, approach to adapt or mitigate                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Financial implications of the risk opportunity (Indicate positive or negative implications)                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|---------|--------------------------------|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1       | Ethics & Compliance            | Risk                                       | NMDC operates under stringent regulatory scrutiny where lapses in compliance can result in legal penalties, financial and reputational impact. Additionally, to position itself as a global mining leader, NMDC must adhere to international ethical standards and expectations, as failure to do so could impede its global growth ambitions.                                                                                                                                 | The Company aims to maintain zero cases of corruption every year. For this, it has undertaken several initiatives, to remain compliant: <ol style="list-style-type: none"> <li>1) Dedicated Vigilance Department led by a Chief Vigilance Officer</li> <li>2) Regular training sessions are conducted to raise awareness and build capacity on ethical conduct and compliance.</li> <li>3) Complies with ISO 9001:2015 Quality Management System</li> <li>4) Company has policies including a Board Code of Conduct and Whistle Blower Policy to enforce ethical behaviour and accountability.</li> </ol>                                                                                                                                                                                                                                                                            | Negative financial implication: <ol style="list-style-type: none"> <li>1) Non-compliance with ethical standards and regulations can potentially result in significant legal penalties and fines, which may adversely impact NMDC's financial performance.</li> <li>2) Any ethical breaches or compliance failures can potentially impact NMDC's reputation and stakeholder trust.</li> <li>3) Ensuring compliance with evolving regulations and ethical standards may require additional resources.</li> </ol>                                                          |
| 2       | Biodiversity & Land Management | Risk                                       | Environmental impacts caused by mining activities, leads to habitat loss and degradation. Strict regulatory requirements demand compliance to avoid legal penalties and operational shutdowns. Increasing public concern over environmental conservation heightens reputational risks that could impact NMDC's social license to operate. Poor management can increase rehabilitation costs, cause community conflicts, and reduce climate resilience, threatening operations. | <ol style="list-style-type: none"> <li>1) NMDC has put in place its Biodiversity policy and is committed to net positive impact.</li> <li>2) Collaborates with State Forest Departments and works to restore biodiversity for each operational unit.</li> <li>3) Implements land reclamation and rehabilitation using structures like buttress walls, garland drains, and check dams to stabilize barren land and prevent erosion.</li> <li>4) Has in-situ conservation facilities such as deer parks to support biodiversity.</li> <li>5) Monitors ecological health and promotes conservation through wildlife management programs, maintaining biodiversity records and awareness initiatives.</li> <li>6) Ensures compliance with environmental laws, including conducting Environmental Impact Assessments (EIA) and following Environmental Management Plans (EMP).</li> </ol> | Negative financial implication: <ol style="list-style-type: none"> <li>1) Non-compliance with environmental regulations can potentially result in significant fines and penalties.</li> <li>2) Land reclamation and habitat restoration require significant investment in infrastructure like buttress walls, garland drains, and check dams to stabilize and restore affected areas.</li> <li>3) Biodiversity loss can trigger conflicts with local communities and environmental groups, potentially impacting the operations and finances of the company.</li> </ol> |

|---------|-----------------------------|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 3       | Community Relations         | Opportunity                                | Strong community relations help NMDC maintain its social license to operate, reduce conflicts, and support smooth operations. Investing in education, healthcare, and infrastructure enhances NMDC's reputation as a socially responsible company, attracting investors and partners.                                                              | 1) NMDC invests in community development, including education, healthcare, and infrastructure.<br>2) Engages stakeholders through meetings, surveys, and CSR activities to align ESG efforts with community needs.<br>3) Supports skill development programs to boost local employability.<br>4) Improves community connectivity through targeted infrastructure projects.                                                                                  | Positive financial implication<br>1) By supporting skill development and employment initiatives, NMDC contributes to the economic empowerment of local communities.<br>2) By investing in community development projects, NMDC enhances its reputation as a socially responsible entity.<br>3) Strong community relations help NMDC secure and maintain its social license to operate, reducing the risk of conflicts that might impact its activities. This can lead to smoother operations and cost savings by minimizing impact and ensuring stable operations. |
| 4       | Health, Safety & Well-being | Risk                                       | Critical risk area for NMDC due to the inherently high-risk nature of mining operations. Failure to manage safety effectively can potentially lead to workplace injuries, regulatory non-compliance, legal penalties, and operational shutdowns. Such incidents also impact productivity, and financial performance, and impact NMDC's reputation. | NMDC aims for zero accidents. For this, it is undertaking several initiatives:<br>1) Established rigorous safety protocols throughout its operations and implements site-specific Safety Management Plans and SOPs based on detailed risk assessments.<br>2) Conducts regular safety audits and inspections to ensure compliance with standards.<br>3) Offers specialized safety training, emergency drills, and continuous safety education for employees. | Negative financial implication:<br>1) Non-compliance with health and safety regulations can potentially result in significant legal penalties and fines.<br>2) Health and safety breaches can potentially lead to litigation, which can be expensive and time-consuming.<br>3) Health and safety incidents can potentially lead to operational disruptions, affecting productivity and financial performance.                                                                                                                                                      |

| Sl. No. | Material issue identified | Indicate whether risk or opportunity (R/O) | Rationale for identifying the risk/opportunity                                                                                                                                                                                                                                                                                                                                                     | In case of risk, approach to adapt or mitigate                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Financial implications of the risk opportunity (Indicate positive or negative implications)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|---------|---------------------------|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 5       | Energy & GHG Management   | Opportunity                                | Effective energy and GHG management positions NMDC in-line with evolving global and national regulations, avoiding legal risks and reinforcing its leadership in sustainable mining. Energy efficiency and renewable integration reduce operational costs, boost competitiveness, and drive innovation.                                                                                            | <ol style="list-style-type: none"> <li>1) Integrating renewable energy sources into its operations, such as wind and solar power, to reduce its carbon footprint.</li> <li>2) Regular energy audits are conducted to monitor and manage energy consumption, ensuring efficient use of resources and identifying opportunities for further reductions in energy use.</li> <li>3) Adopted various energy-efficient solutions, such as LED lighting and electric drills.</li> <li>4) Use of rail transit for transportation, which significantly lowers emissions compared to road transport. We are also developing slurry pipelines to further reduce the need for fossil fuel-powered vehicles.</li> </ol> | <p>Positive financial implication:</p> <ol style="list-style-type: none"> <li>1) Managing energy efficiently enhances NMDC's reputation as an environmentally responsible company. This can improve stakeholder trust and attract investors who prioritize sustainability, potentially leading to increased business opportunities.</li> <li>2) By optimizing energy consumption and integrating renewable energy sources, NMDC can achieve significant cost savings.</li> <li>3) Proactively managing GHG emissions and energy use helps NMDC comply with environmental regulations, avoiding potential fines and legal penalties.</li> </ol> |
| 6       | Human Capital Management  | Opportunity                                | Investing in human capital enhances NMDC's productivity, fosters innovation, and supports strategic growth by equipping employees with essential skills. It boosts retention and satisfaction, reducing hiring costs and ensuring workforce stability. A strong focus on people also cultivates a positive workplace culture, driving collaboration and positioning NMDC as an employer of choice. | <ol style="list-style-type: none"> <li>1) Engage employees through bespoke learning and development programs, regular performance evaluations, appraisals, and support during transitions.</li> <li>2) Skill upgradation training to both executives and non-executives, ensuring that employees are equipped with the necessary skills to meet evolving business needs.</li> <li>3) By providing consistent feedback, educational programs, and initiatives aimed at employee well-being.</li> <li>4) NMDC ensures that 100% of employees receive performance appraisals.</li> </ol>                                                                                                                      | <p>Positive financial implication</p> <ol style="list-style-type: none"> <li>1) By investing in training and development programs, NMDC enhances employee skills and capabilities, leading to increased productivity.</li> <li>2) Effective human capital management improves employee satisfaction and retention rates, reducing the costs associated with recruiting and training new employees.</li> <li>3) A well-trained and motivated workforce fosters innovation, leading to the development of new processes and solutions that can enhance NMDC's competitiveness in the market.</li> </ol>                                          |

| Sl. No. | Material issue identified      | Indicate whether risk or opportunity (R/O) | Rationale for identifying the risk/opportunity                                                                                                                                                                                                                                                                                                                                          | In case of risk, approach to adapt or mitigate                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Financial implications of the risk opportunity (Indicate positive or negative implications)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|---------|--------------------------------|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 7       | Circularity & Waste Management | Opportunity                                | By integrating circularity and robust waste management practices, NMDC enhances operational efficiency by utilizing tailings, reusing process water, and reducing reliance on raw inputs. These efforts lower disposal and input costs while aligning with tightening environmental regulations.                                                                                        | 1) NMDC blends low-grade with high-grade ore to maximize resource efficiency and reduce waste.<br>2) Hazardous waste like used oil is responsibly recycled through authorized agencies.<br>3) Biomedical and other specialized wastes are carefully segregated and disposed of via certified treatment facilities to ensure compliance.<br>4) Waste is managed in structured dump sites with retaining walls to prevent erosion and protect nearby water bodies.<br>5) NMDC is enhancing its tracking systems for waste items such as filters, batteries, and tires                                                                                                                                                                                                                                                                                                                                             | Positive financial implication:<br>1) Blending low-grade with high-grade ore in pellet production reduces reliance on raw materials and lowers production costs.<br>2) Careful collection, segregation, and recycling of waste can reduce the impact on environment and generate additional revenue to the company.<br>3) Strong waste monitoring and compliance practices help NMDC avoid legal fines and financial risks tied to regulatory violations.                                                                                                                                                                                                                                   |
| 8       | Water Management               | Risk                                       | Water management is critical for NMDC due to strict regulations, especially in water-stressed regions. Non-compliance risks legal action and reputational impact. Excessive use can strain local communities and ecosystems, creating social friction. Operationally, water scarcity or mismanagement can disrupt mining activities, while poor planning undermines climate resilience. | 1) Conducts regular water audits and periodic assessments of water quality to ensure efficient water use and compliance with environmental standards.<br>2) Processing plants feature Zero Liquid Discharge facilities, which prevent any liquid waste from being released into the environment, thereby minimizing water pollution and conserving water resources.<br>3) Well-constructed rainwater harvesting structures are implemented across projects to store and reuse rainwater for operations, reducing dependency on external water sources<br>4) NMDC has established Effluent Treatment Plants (ETP) and Sewage Treatment Plants (STP) to treat industrial discharge and domestic sewage, respectively.<br>5) NMDC has constructed a 30-lakh cubic meter reservoir at its processing site in Panna to store runoff water, meeting the demands of NMDC, nearby villages, and the Panna Tiger Reserve | Negative financial implication:<br>1) Non-compliance with water management regulations, especially in areas with water stress, can result in significant fines and penalties.<br>2) Inefficient water management can potentially lead to operational disruptions, affecting productivity and financial performance. Water scarcity or mismanagement can potentially halt operations, leading to financial losses due to downtime and reduced output.<br>3) Any perceived or actual lapses in water management can impact NMDC's reputation, affecting its social license to operate and stakeholder trust. This can result in decreased investor confidence and potential loss of business. |

## SECTION B: MANAGEMENT AND PROCESS DISCLOSURES

This section is aimed at helping businesses demonstrate the structures, policies and processes put in place towards adopting the NGRBC Principles and Core Elements.

Additionally, NMDC adheres to GRI standards for assessing and reporting its sustainability performance.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |    |    |    |    |    |    |    |    |
| 5                                      | Specific commitments, goals, and targets set by the entity with defined timelines if any                                                                                                                                                                 | At NMDC, we emphasize technological advancements and innovation in our mining operations to promote environmental sustainability. These improvements are essential for meeting our Environmental, Social, and Governance (ESG) goals. Our key objectives include:                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |    |    |    |    |    |    |    |    |
| 6.                                     | Performance of the entity against the specific commitments, goals, and targets along-with reasons in case the same are not met                                                                                                                           | <ol style="list-style-type: none"> <li><b>Expanding renewable energy usage:</b> In alignment with India's 2070 net-zero emissions target, we are committed to progressively expanding our renewable energy capacity. During the year we have generated approximately 19 million units of wind power and consumed around 1.64 million units from solar energy.</li> <li><b>Ensuring zero harm:</b> The safety and well-being of our workforce remain our highest priority. As a result, there has been a reduction of over 50 % in LTIFR and there was no fatality during the reporting year.</li> <li><b>Conducting human rights audits:</b> Comprehensive audits at project sites help maintain human rights standards. We also provide human rights training tailored for various employee groups and denominations.</li> <li><b>Strengthening organizational structure:</b> ESG management is integrated throughout our organization with well-defined roles and responsibilities.</li> </ol> <p>Furthermore, we are making substantial progress towards Net Zero strategy, aligning with global sustainability initiatives.</p> |    |    |    |    |    |    |    |    |

### Governance, leadership and oversight

#### 7. Statement by the director responsible for the business responsibility report, highlighting ESG related challenges, targets, and achievements (listed entity has flexibility regarding the placement of this disclosure)

NMDC is steadfast in its pledge to environmental integrity and sustainable development. We are continually addressing the complex task of aligning resource-heavy mining processes with ecological care, community needs, and regulatory standards. The advancing imperatives of climate resilience, habitat conservation, and decarbonization present us with challenges that are nonetheless essential to confront.

In response, NMDC has articulated specific goals: we are lowering carbon emissions by scaling up renewable energy, systematically tracking Scope 1, 2, and 3 emissions, and devising our pathway to Net Zero. We are also bolstering initiatives in water conservation, waste control, and protection of biodiversity, with particular focus on our flagship projects.

Socially, we have broadened our community programs in education, health, vocational training, and livelihood support, striving to deliver equitable development in every area we serve.

Among our milestones we highlight the yearly publication of our GRI-aligned Sustainability Report since 2017, steady enhancement of our CDP disclosures, our engagement in the DJSI Corporate Sustainability Assessment, and measurable advances in deploying renewable energy across our operational footprint.

NMDC is committed to embedding sustainability deeper into our business strategy, guided by ESG principles that align with stakeholder expectations and national priorities.

**8. Details of the highest authority responsible for implementation and oversight of the Business Responsibility policy (ies).**

Shri Pravin Shekhar  
Company Secretary  
Email ID: [pshekhhar@nmdc.co.in](mailto:pshekhhar@nmdc.co.in)

**9. Does the entity have a specified Committee of the Board/ Director responsible for decision making on sustainability related issues? (Yes / No). If yes, provide details.**

Yes. The Board has established various committees, each with defined terms of reference, to facilitate decision-making and oversight regarding sustainability-related matters, viz.,

- Sustainability and CSR Committee
- Stakeholders Relationship Committee
- Risk Management Committee
- ESG Committee

**10. Details of Review of NGRBCs by the Company:**

## SECTION C: PRINCIPLE WISE PERFORMANCE DISCLOSURE

## Principle 1

Businesses should conduct and govern themselves with integrity, and in a manner that is Ethical, Transparent and Accountable

## Essential Indicators

## 1 Percentage coverage by training and awareness programs on any of the principles during the financial year:

| Segment                                                                     | Total number of training and awareness programmes held | Topics / principles covered under the training and its impact                                                             | % of persons in respective category covered by the awareness programmes |
|-----------------------------------------------------------------------------|--------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------|
| Board of Directors (BOD)                                                    | 1                                                      | Concept of Corporate Governance, fiduciary duties and responsibilities of Directors                                       | 16.67%                                                                  |
| Key Managerial Personnel (KMP)                                              | 1                                                      | Corporate Governance roadmap, changing business trends                                                                    | 100%                                                                    |
| Employees other than Board of Directors and Key Managerial Personnel (KMPs) | 313                                                    | First Aid, Fire Fighting, General Safety in Mines, Behavior Based Safety & Skill Development, Knowledge upgradation, etc. | 58.4%                                                                   |
| Workers                                                                     | 444                                                    |                                                                                                                           | 43.7%                                                                   |

2. Details of fines / penalties / punishment / award / compounding fees / settlement amount paid in proceedings (by the entity or by its directors / KMPs) with regulators/ law enforcement agencies/ judicial institutions in FY 2023-24 (Note: the entity shall make disclosures based on materiality as specified in Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and as disclosed on the entity's website)

The Company has received a Notice levying fines/penalties on the Company for non-compliance with regard to composition of the Board in terms of Regulation 17 of SEBI (LODR) Regulations, 2015. Details of the same are mentioned in the Corporate Governance Report.

The Company has replied to BSE and NSE requesting waiver of fines on the grounds that being a Central Public Sector Enterprise under administrative control of Ministry of Steel, Govt. of India and as per Articles of Association, the President of India acting through the controlling ministry is empowered to appoint all members on the Board of Directors. The letters/ emails received from BSE and NSE were placed before the Board of Directors of the Company in its meetings for their comments / advice. Comments / Advice made by the Board, if any, are informed to the exchanges.

The Company is regularly following up with Ministry of Steel, Govt. of India for appointment of requisite number of Independent Directors on the Board of the Company.

**3 Of the instances disclosed in Question 2 above, details of the Appeal/Revision preferred in cases where monetary or non-monetary action has been appealed.**

| Case Details | Name of the regulatory/ enforcement agencies/ judicial institutions |
|--------------|---------------------------------------------------------------------|
| NA           |                                                                     |

**4. Does the entity have an anti-corruption or anti-bribery policy? If yes, provide details in brief and if available, provide a web-link to the policy.**

Yes, NMDC incorporates anti-corruption and anti-bribery principles into its code of conduct, as well as various policies and procedures. To enhance transparency in procurement, the company has signed an MoU with Transparency International India for the implementation of the Integrity Pact Programme.

Additionally, in accordance with the Companies Act and LODR regulations, NMDC has established a Whistleblower Policy to protect employees from retaliation or victimization when reporting unethical or improper practices, procedures, or misconduct in good faith. The weblink for the Whistleblower Policy is provided : [https://www.nmdc.co.in/cms-admin/Upload/Policies-Documents/405f4d8884cb49bdf42fc548d4edda2\\_20210920061059002.pdf](https://www.nmdc.co.in/cms-admin/Upload/Policies-Documents/405f4d8884cb49bdf42fc548d4edda2_20210920061059002.pdf)

**5. Number of Directors/KMPs/employees/workers against whom disciplinary action was taken by any law enforcement agency for the charges of bribery/corruption:**

| Segment                        | FY2024-25<br>(Current Financial Year) | FY2023-24<br>(Previous Financial Year) |
|--------------------------------|---------------------------------------|----------------------------------------|
| Directors                      | 0                                     | 0                                      |
| Key Managerial Personnel (KMP) | 0                                     | 0                                      |
| Employees                      | 0                                     | 0                                      |
| Workers                        | 0                                     | 0                                      |

**6. Details of complaints with regard to conflict of interest:**

| Particulars                                                                                  | FY 2024-25<br>(Current Financial Year) |        | FY 2023-24<br>(Previous Financial Year) |        |
|----------------------------------------------------------------------------------------------|----------------------------------------|--------|-----------------------------------------|--------|
|                                                                                              | Number                                 | Remark | Number                                  | Remark |
| Number of complaints received in relation to issues of Conflict of Interest of the Directors | 0                                      | Nil    | 0                                       | Nil    |
| Number of complaints received in relation to issues of Conflict of Interest of the KMPs      | 0                                      | Nil    | 0                                       | Nil    |

**7. Provide details of any corrective action taken or underway on issues related to fines / penalties / action taken by regulators/ law enforcement agencies/ judicial institutions, on cases of corruption and conflicts of interest.**

No complaints related to conflicts of interest have been reported, making this matter inapplicable.

|                            | b. Sales (Sales to related parties / Total Sales)                                        | 10.85%                                              | *5.88%                                               |
|                            | c. Loans & advances (Loans & advances given to related parties / Total loans & advances) | 94.34%                                              | *96.42%                                              |
|                            | d. Investments (Investments in related parties / Total Investments made)                 | 99.99%                                              | *99.99%                                              |

\*Restated

**Leadership Indicators**

**1. Awareness programmes conducted for value chain partners on any of the principles during the financial year:**

NMDC hosted a Vendor Meet on January 28<sup>th</sup>, 2025, which brought together 200+ industry experts and trusted vendors to shape a roadmap for 2030. Discussions focused on expansion strategies, advanced evacuation infrastructure and innovative models like EPCM and PPP, which set a tone to enhance collaboration and charting out a sustainable growth path. NMDC also hosted an interactive customer meet at Hospet.

**2. Does the entity have processes in place to avoid/ manage conflict of interests involving members of the Board? (Yes/No) If Yes, provide details of the same.**

Yes, the Vigilance department serves an advisory role, conducting investigations and assessments of organizational systems and processes to suggest improvements. If an inquiry reveals any misconduct or deviations with malicious intent, Vigilance confidentially notifies the Disciplinary Authority and recommends appropriate disciplinary action. However, the final decision on whether to impose penalties or take corrective action rests solely with the Disciplinary Authority.

Additionally, the Company has a Board-approved Policy on Related Party Transactions, which outlines materiality criteria and standard operating procedures for managing such transactions. The Audit Committee, led by an Independent Director, reviews and recommends related party transactions for Board approval in accordance with statutory requirements.

Moreover, a Board-approved Code of Conduct for the Directors and Senior Management of NMDC establishes guidelines to prevent conflicts of interest. It states that directors must avoid any direct or indirect involvement in situations that could compromise the Company's interests. Board members and Senior Management affirm compliance with this Code annually, with a consolidated certification signed by the CEO (CMD) included in the Corporate Governance Report.

Board members also periodically disclose their roles or affiliations with other organizations to the Board. If a conflict of interest arises concerning any agenda item, the respective Director abstains from discussions on that matter. Furthermore, no personal expenditure has been incurred by the Board of Directors or Top Management, and this has been transparently disclosed in the Corporate Governance Report.

Weblinks to the referenced Policies/ Code are provided below.

## Principle 2

**Businesses should provide goods and services in a manner that is sustainable and safe**

### Essential Indicators

1. **Percentage of R&D and Capital Expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and Capex investments made by the entity, respectively.**

| Particulars                    | FY2024-25<br>(Current<br>Financial Year) | FY2023-24<br>(Previous<br>Financial Year) | Details of improvements in environmental and social impacts                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|--------------------------------|------------------------------------------|-------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Research and Development (R&D) | 3.06%                                    | 3.9%                                      | <p>In our ongoing research projects at the R&amp;D Centre, we are actively engaged in the process of developing cold bonded pellets and developing a dry process for upgradation of silicious low grade blue dust.</p> <p>Blue dust is a type of iron ore that is very fine and rich in iron oxide but often contains impurities like silica, making it low-grade and less suitable for direct iron production. To enhance its usability, cold bonded pelletization and dry upgradation processes are employed.</p> <p>Cold bonded pelletization aims to agglomerate fine iron particles into larger pellets without high-temperature sintering by mixing the ore with binders such as cement, forming pellets, and allowing them to harden at room temperature. This method saves energy, offers binder flexibility, and produces strong pellets. The dry upgradation process targets the removal of impurities without water, involving the crushing and grinding of the ore, magnetic separation to differentiate iron from non-magnetic materials, and air classification by size. This approach conserves water, reduces environmental impact, and is cost-effective, thereby making low-grade iron ore more usable and eco-friendlier, benefiting the iron and steel industry.</p> |
| Capex                          | 28.80%                                   | 43.82%                                    | <p>To enhance the environmental and social outcomes of its mining operations, NMDC consistently invests in cutting-edge technology. A notable example of this commitment is the adoption of slurry pipeline transport for iron ore fines. Here are the key points:</p> <p>To supplement its existing K-K Railway line for transporting iron ore lumps and fines from its Bailadila mines to Vizag, NMDC has adopted slurry pipeline transport. This innovative approach converts iron ore fines into a concentrate slurry. At the terminal stations, the slurry undergoes filtration to produce pellet feed concentrate, a key material then converted into pellets for the iron and steel industry.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| Particulars | FY2024-25<br>(Current<br>Financial Year) | FY2023-24<br>(Previous<br>Financial Year) | Details of improvements in environmental and social impacts                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|-------------|------------------------------------------|-------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|             |                                          |                                           | <p>The adoption of slurry pipeline transport reflects an alignment with industry best practices, capitalizing on the advantages of using iron ore fines in pellet form. This method offers considerable environmental and operational benefits compared to rail transport. The underground pipeline significantly reduces land disturbance, enabling the continuation of existing activities on the surface. Moreover, the process efficiently handles low-grade slimes, thereby reducing ore wastage. Unlike weather-dependent rail, the pipeline ensures uninterrupted operation, even in adverse conditions. This solution is particularly valuable for accessing and transporting ore from remote regions where traditional rail infrastructure is not feasible.</p> <p>In the first phase, NMDC has taken up the laying of 135 kms of slurry pipeline from Bailadila to Nagarnar. About 107 km of slurry pipeline has been laid as on 31/03/2025.</p> |

**2. a. Does the entity have procedures in place for sustainable sourcing? (Yes/No)**

Yes. In the realm of sustainable sourcing, NMDC expects all its suppliers must adhere to the highest human rights standards. This means treating all workers and contractors with dignity and respect, providing humane working conditions, and actively preventing discrimination and harassment. Crucially, it entails guaranteeing no breaches of human rights, specifically prohibiting forced and child labor, while also championing freedom of association and supporting collective bargaining rights.

**b. If yes, what percentage of inputs were sourced sustainably?**

NMDC's efforts to track and verify the percentage of sustainably sourced inputs are currently in progress. NMDC is meticulously gathering data and establishing robust verification processes to ensure accuracy while advancing towards our sustainability goals.

**3. Describe the processes in place to safely reclaim your products for reusing, recycling, and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.**

Not Applicable as NMDC's key product, iron ore, is not reclaimed for recycling.

**4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.**

EPR does not apply to iron ore, which is NMDC's primary product.

**Leadership Indicators**

**1. Has the entity conducted Life Cycle Perspective / Assessments (LCA) for any of its products (for manufacturing industry) or for its services (for service industry)? If yes, provide details in the following format?**

| NIC Code | Name of Product/Service | % of total Turnover contributed | Boundary for which the Life Cycle Perspective / Assessment was conducted                                  | Whether conducted by independent external agency (Yes/No) | Results communicated in public domain (Yes/No) If yes, provide the web-link. |
|----------|-------------------------|---------------------------------|-----------------------------------------------------------------------------------------------------------|-----------------------------------------------------------|------------------------------------------------------------------------------|
| 71       | Iron Ore                | 96%                             | The Life Cycle Assessment (LCA) of iron ore encompasses all stages from blasting to hot metal production. | Yes                                                       | No                                                                           |

2. If there are any significant social or environmental concerns and/or risks arising from production or disposal of your products / services, as identified in the Life Cycle Perspective / Assessments (LCA) or through any other means, briefly describe the same along-with action taken to mitigate the same.

No

3. Percentage of recycled or reused input material to total material (by value) used in production (for manufacturing industry) or providing services (for service industry).

This is not applicable to iron ore as it is mined and processed.

4. Of the products and packaging reclaimed at end of life of products, amount (in metric tonnes) reused, recycled, and safely disposed, as per the following format:

This is not applicable to NMDC's product i.e., iron ore.

5. Reclaimed products and their packaging materials (as percentage of products sold) for each product category.

This is not applicable to NMDC's product i.e., iron ore.

### Principle 3

Businesses should respect and promote the well-being of all employees, including those in their value chains

#### Essential Indicators

1. a. Details of measures for the well-being of employees

| Category                       | % of employees covered by |                  |              |                    |              |                    |              |                    |              |                     |              |
|--------------------------------|---------------------------|------------------|--------------|--------------------|--------------|--------------------|--------------|--------------------|--------------|---------------------|--------------|
|                                | Total<br>(A)              | Health insurance |              | Accident insurance |              | Maternity benefits |              | Paternity Benefits |              | Day Care facilities |              |
|                                |                           | No.<br>(B)       | %<br>(B / A) | No.<br>(C )        | %<br>(C / A) | No.<br>(D)         | %<br>(D / A) | No.<br>(E)         | %<br>(E / A) | No.<br>(F)          | %<br>(F / A) |
| Permanent employees            |                           |                  |              |                    |              |                    |              |                    |              |                     |              |
| Male                           | 1,510                     | 1,510            | 100          | 1,510              | 100          | NA                 | NA           | 1,510              | 100          | NA                  | NA           |
| Female                         | 81                        | 81               | 100          | 81                 | 100          | 81                 | 100          | NA                 | NA           | 81                  | 100          |

Not Applicable - NA

3. Accessibility of workplaces –

Are the premises/offices of the entity accessible to differently abled employees and workers, as per the requirements of the Rights of Persons with Disabilities Act, 2016? If not, whether any steps are being taken by the entity in this regard.

Yes, all office premises are designed to be accessible for differently abled employees, and NMDC remains committed to continuously enhancing infrastructure to improve accessibility. The office includes dedicated facilities such as washrooms, parking spaces, and ramps for ease of access. Additionally, we have a public announcement system and a sound-enabled lift system which enhances accessibility to all visually impaired.

4. Does the entity have an equal opportunity policy as per the Rights of Persons with Disabilities Act, 2016? If so, provide a web-link to the policy.

NMDC, as a SA-8000 certified company and a Public Sector Enterprise under the Government of India, operates in accordance with DPE Guidelines which are government policies, and parliamentary regulations, ensuring a strong commitment to equal opportunity in both principle and practice.

Furthermore, the company explicitly upholds non-discrimination across all areas, including recruitment, employment opportunities, and promotions, as outlined in the United Nations Global Compact (UNGC).

5. Return to work and Retention rates of permanent employees that took parental leave.

| Gender       | Permanent Employees |                | Permanent workers   |                |
|--------------|---------------------|----------------|---------------------|----------------|
|              | Return to work rate | Retention rate | Return to work rate | Retention rate |
| Male         | 100%                | 100%           | 100%                | 100%           |
| Female       | 100%                | 100%           | 100%                | 100%           |
| <b>Total</b> | <b>100%</b>         | <b>100%</b>    | <b>100%</b>         | <b>100%</b>    |

6. Is there a mechanism available to receive and redress grievances for the following categories of employees and workers? If yes, give details of the mechanism in brief.

| Gender                         | Yes/No |
|--------------------------------|--------|
| Permanent Employees            | Yes    |
| Other than Permanent Employees |        |
| Permanent Workers              |        |
| Other than Permanent Workers   |        |

If Yes, then give details of the mechanism in brief:

Yes, the Public Grievance Redressal System in NMDC is overseen by the Head of the Corporate Personnel Department, who also serves as the company's Grievance Redressal Officer and supervises the CPGRAMS portal. He is supported by officers from the Personnel Department. Additionally, the heads of Personnel at various projects act as Grievance Redressal Officers for their respective projects and provide assistance to the Grievance Redressal Officer at the Head Office.

A link to the CPGRAMS is provided on the NMDC's website, where a grievance can be lodged by an aggrieved person.

## 10. Health and Safety Management System:

- a) Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage such system?

NMDC has adopted the ISO 45001:2018 Occupational Health and Safety Management System as part of its Integrated Management System, ensuring compliance across all operational projects. Additionally, NMDC has established a comprehensive Occupational Health and Safety policy. Its commitment to safety and health standards is reinforced through adherence to key regulations, including the Mines Act of 1952, Metalliferous Mines Regulation of 1961, Mines Rules of 1955, Explosive Act of 1883, Explosive Rules of 2019, and the Occupational Safety, Health, and Working Conditions Code of 2020.

- b) What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

For all of NMDC's mines, Safety Management Plans based on risk assessments have been developed, implemented, and controlled, taking into account local site-specific conditions. Multidimensional teams from each mine design these plans to address unique risks. Standard Operating Procedures for various mining and related operations are created and executed based on risk evaluations. Project audit teams conduct internal safety audits twice a year, ensuring a secure work environment by following up on their findings. Additionally, all projects undergo quarterly equipment inspections and monitoring to maintain stability, with a dedicated team assigned to oversee this process.

c. **Whether you have processes for employees/workers to report the work-related hazards and to remove themselves from such risks. (Y/N)**

Yes. NMDC has a robust health and safety governance framework overseen by top management, which considers input from workers' unions and associations to address employees' safety needs. The company's safety management system covers more than a hundred workers and employees. Workplace hazards identified by workers are reported to the shift in charge, recorded at the site, and reviewed during monthly safety meetings.

d) **Do the employees/workers of the entity have access to non-occupational medical and healthcare services? (Yes / No)**

Yes. All NMDC projects are equipped with hospitals that cater to both occupational and non-occupational healthcare needs, including outpatient and inpatient services. NMDC prioritizes the health and well-being of its employees and workers by providing free access to hospitals and dispensaries at their respective locations.

**11. Details of safety related incidents, in the following format**

| Safety Incident/Number                                                           | Category  | FY2024-25<br>(Current Financial Year) | FY2023-24<br>(Previous Financial Year) |
|----------------------------------------------------------------------------------|-----------|---------------------------------------|----------------------------------------|
| Lost Time Injury Frequency Rate (LTIFR)<br>(Per one million-person hours worked) | Employees | 0                                     | 0                                      |
|                                                                                  | Workers   | 0.17                                  | 0.38                                   |
| Total recordable work-related injuries                                           | Employees | 0                                     | 0                                      |
|                                                                                  | Workers   | 3                                     | 4                                      |
| No. of fatalities                                                                | Employees | 0                                     | 0                                      |
|                                                                                  | Workers   | 0                                     | 0                                      |
| High consequence work-related injury or ill-health (excluding fatalities)        | Employees | 0                                     | 0                                      |
|                                                                                  | Workers   | 2                                     | 0                                      |

**12. Describe the measures taken by the entity to ensure a safe and healthy workplace.**

For all its operational projects, NMDC has implemented a comprehensive Hazard Identification and Risk Assessment (HIRA) process to prevent incidents, injuries, and occupational diseases. HIRA registers are maintained on-site and reviewed regularly to mitigate risks. The process also outlines roles and responsibilities, monitors control measures, and promotes awareness among individuals involved. Employees receive periodic formal training on risk assessment.

Hazards, both routine and non-routine are identified through HIRA and Job Safety Analysis. Associated risks are managed using operational control measures based on the hierarchy of control approach. To combat dust-related hazards in mines, strategies like water sprinkling, mask distribution, and other safety measures are employed.

In line with statutory requirements, NMDC has established adequate medical facilities, including Occupational Health Centres with qualified medical professionals. New hires undergo initial medical examinations, while regular health checkups are conducted for departmental and contractor personnel.

NMDC's Occupational Health Centre delivers quality healthcare services, offering audiometry, X-ray imaging, and eye testing. All medical records are stored digitally for efficient management.

**13. Number of Complaints on the following made by employees and workers:**

|                    | FY2024-25<br>(Current Financial Year) |                                       |         | FY2023-24<br>(Previous Financial Year) |                                       |         |
|--------------------|---------------------------------------|---------------------------------------|---------|----------------------------------------|---------------------------------------|---------|
|                    | Filed during the year                 | Pending resolution at the end of year | Remarks | Filed during the year                  | Pending resolution at the end of year | Remarks |
| Working Conditions | 0                                     | 0                                     | NA      | 0                                      | 0                                     | NA      |
| Health & Safety    | 0                                     | 0                                     | NA      | 0                                      | 0                                     | NA      |

\*Not Applicable- NA

## 14. Assessments for the year:

| Particulars                 | % of your plants and offices that were assessed by the entity |
|-----------------------------|---------------------------------------------------------------|
| Health and safety practices | 100%                                                          |
| Working Conditions          | 100%                                                          |

## 15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks/concerns arising from assessments of health and safety practices and working conditions.

No significant risk or concern was report during the health and safety risk assessment. NMDC has already taken all necessary precautions to maintain safe working conditions.

**Leadership Indicators**

## 1. Does the entity extend any life insurance or any compensatory package in the event of death of (A) Employees (Y/N) (B) Workers (Y/N).

(A) Employees – Yes

(B) Workers – Yes (For all Permanent Workers)

## 2. Provide the measures undertaken by the entity to ensure that statutory dues have been deducted and deposited by the value chain partners.

The company has a strong system in place for deducting statutory dues, including TDS, GST, and other levies, in accordance with applicable laws. It fully complies with all relevant regulations.

## 3. Provide the number of employees / workers having suffered high consequence work-related injury / ill-health / fatalities (as reported in Q11 of Essential Indicators above), who have been/are rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment:

|           | Total no. of affected employees/<br>workers |                                           | No. of employees/workers that<br>are rehabilitated and placed in<br>suitable employment or whose<br>family members have been placed in<br>suitable employment |                                           |
|-----------|---------------------------------------------|-------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------|
|           | FY2024-25<br>(Current<br>Financial Year)    | FY2023-24<br>(Previous<br>Financial Year) | FY2024-25<br>(Current<br>Financial Year)                                                                                                                      | FY2023-24<br>(Previous<br>Financial Year) |
| Employees | 0                                           | 0                                         | 0                                                                                                                                                             | 0                                         |
| Workers   | 0                                           | 0                                         | 0                                                                                                                                                             | 0                                         |

## 4. Does the entity provide transition assistance programs to facilitate continued employability and the management of career endings resulting from retirement or termination of employment? (Yes/ No)

Yes.

## 5. Details on assessment of value chain partners:

|                             | % of value chain partners (by value of business done with such partners) that were assessed |
|-----------------------------|---------------------------------------------------------------------------------------------|
| Health and safety practices | Nil                                                                                         |
| Working Conditions          | Nil                                                                                         |

## 6. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from assessments of health and safety practices and working conditions of value chain partners.

Not Applicable.

## Principle 4

**Businesses should respect the interests of and be responsive to all its stakeholders**

### Essential Indicators

#### 1. Describe the processes for identifying key stakeholder groups of the entity.

NMDC follows a collaborative approach to stakeholder engagement, guided by the NMDC Citizen's Charter. This charter outlines the process for reaching out to stakeholders, gathering feedback, and incorporating their input into decision-making. The company ensures thorough consultation before making key decisions on production, management, and overall business operations. It also remains consistently compliant with legal, statutory, and regulatory requirements. Additionally, NMDC hosts periodic conference calls with institutional investors to update them on business developments, future outlook, and strategic plans.

#### 2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

| Stakeholder Group               | Whether identified as Vulnerable and Marginalized Group (Yes/ No) | Channels of communication (Email, SMS, Newspaper, Pamphlets, Advertisement, Community Meetings, Notice Board, Website), Other                                                                                                                                                                                                                                                                                                                                                                     | Frequency of engagement (Annually/ Half yearly/ Quarterly / others – please specify) | Purpose and scope of engagement including key topics and concerns raised during such engagement                                                                                                                                                                                                            |
|---------------------------------|-------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Government and other Regulators | No                                                                | <ul style="list-style-type: none"> <li>Meeting with Centre and State Government, Ministry of Steel, Ministry of Mines, Department of Public Enterprises, Ministry of Environment, Forests and Climate Change, Ministry of Corporate Affairs, Indian Bureau of Mines, Director General Mine Safety</li> <li>Periodic communication and submission of various compliance reports to statutory authorities</li> <li>Performance Report (Quarterly &amp; Annually)</li> <li>Inspections</li> </ul>    | Need based                                                                           | <ul style="list-style-type: none"> <li>Infrastructure development</li> <li>Community development</li> <li>Forest and environment compliance</li> <li>Other applicable acts like the Mines and Mineral Conservation Act</li> </ul>                                                                          |
| Employees                       | No                                                                | <ul style="list-style-type: none"> <li>Industrial Relations meetings with Union leaders</li> <li>Bipartite and tripartite meetings</li> <li>Collective bargaining interactions with officer associations</li> <li>Official communications</li> <li>Internal magazines and e-newsletters</li> <li>Employee satisfaction surveys</li> <li>Grievance redressal forums</li> <li>Employee training and seminars</li> <li>Organizational celebrations</li> <li>Monthly coordination meetings</li> </ul> | Quarterly                                                                            | <ul style="list-style-type: none"> <li>Job satisfaction</li> <li>Collective bargaining agreements</li> <li>Promotions and career growth</li> <li>Employee benefits and remunerations</li> <li>Performance management and recognition</li> <li>Health and safety measures at the operating sites</li> </ul> |

## Leadership Indicators

### 1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

- a) Stakeholder Identification: NMDC has recognized nine key stakeholder groups that both influence and are influenced by its business operations.
- b) Stakeholder Engagement: Survey questionnaires were designed to gather feedback from employees and workers, while Focus Group Discussions (FGDs) were conducted with other stakeholder groups, including Senior Management and the Board of Directors.
- c) Issue Prioritization: Based on stakeholder engagement responses, critical material topics for the company were identified.
- d) Issue Management: Senior management and the Board of Directors contributed insights on key material topics across the value chain.

### 2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes. Stakeholder consultation plays a key role in identifying and managing environmental and social issues. For the current reporting year, NMDC reviewed all key ESG material topics and conducted a materiality survey that affect our business, recognizing that these also reflect our stakeholders' concerns and needs. Based on the consultation, we framed various policies pertaining to ESG, Biodiversity, and Human rights as well as we have updated our environment and OHS policy. We maintain strong, ongoing relationships with both internal and external stakeholders on sustainability matters. This regular engagement helps us understand their viewpoints and adapt to market changes for proactive risk management.

### 3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

As a part of strengthening cultural roots and community ties, NMDC had invested around ₹ 298 lakh to revive and restore Dantewada, the site of the Danteswari temple, unlocking its full cultural and tourism potential. This initiative has directly benefited local families by integrating them into a growing eco-tourism economy through service provision, craft showcasing, and the establishment of sustainable livelihoods.

NMDC has also partnered with the Central Institute of Petrochemicals Engineering & Technology (CIPET) to empower young tribal individuals with relevant technical training. This collaboration offers a free livelihood skill development course to 500 young people, guaranteeing 70% placement and creating more job opportunities in the Dantewada and Bastar regions of Chhattisgarh. Furthermore, NMDC continues to run its flagship programs like 'Balika Shiksha Yojana' and the PM Internship scheme amongst others, which provide essential educational support for young students.

To promote sustainable farming and a greener future, NMDC Bachel Complex distributed over 7,600 fruit-bearing saplings, including mango, coconut, litchi, and papaya. In line with its corporate social responsibility initiatives, the company also periodically provided vermicompost bags and worms to farmers.

Additionally, NMDC addressed the concerns of vulnerable groups through curated CSR initiatives focusing on Health, skill development, clean water, transportation amongst others. The company remains committed to inclusive growth and sustainable community development.

## Principle 5

Businesses should respect and promote human rights

### Essential Indicators

1. Employees and workers who have been provided training on human rights issues and policy(ies) of the entity, in the following format:

| Category                 | FY2024-25<br>(Current Financial Year) |                                             |            | FY2023-24<br>(Previous Financial Year)                                                                                                                                                  |                                              |            |

| Board of Directors (BoD)<br>(Only Whole-time Directors) | 5*     | 63.39 lakhs                                              | 1**    | 4.46 lakhs                                               |
| Key Managerial Personnel (KMP) Other than BoD           | 1      | 55.52 lakhs                                              | 0      | -                                                        |
| Employees other than BoD and KMP                        | 1,505  | 28.46 lakhs                                              | 81***  | 22.84 lakhs                                              |
| Workers                                                 | 3,786  | 16.66 lakhs                                              | 300    | 7.82 lakhs                                               |

\*We have considered only Functional Directors for the purpose of calculating median remuneration. Further the Independent Directors were paid only sitting fees for attending meetings of the board and board level committees. No sitting fee is payable to Government nominee Directors,

\*\*Worked only one month as Director in the reporting period

\*\*\*One female employee was appointed to the Board of Directors in the middle of reporting period.

#### 3.b. Gross wages paid to females as % of total wages paid by the entity, in the following format:

|                                                 | FY2024-25<br>(Current Financial Year) | FY2023-24<br>(Previous Financial Year) |
|-------------------------------------------------|---------------------------------------|----------------------------------------|
| Gross wages paid to females as % of total wages | 4.55%                                 | 4.64%*                                 |

\* Restated

#### 4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes, as a Public Sector Enterprise, NMDC adheres to the Government of India guidelines in this matter. The Grievance Committee is responsible for overseeing and resolving any human rights-related concerns or issues resulting from the company's operations.

#### 5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

The Government-prescribed Grievance Procedure is in place to address employee concerns. NMDC has a dedicated Personnel Department at both the Corporate and Project/Unit levels, fully equipped to handle grievances. SC/ST employees can seek redressal through Liaison Officers, while SC/ST welfare associations also engage with management to resolve relevant issues.

Additionally, when the CMD or Directors visit Projects/Units, they hold meetings with Associations and Unions to address grievances. Employees can also submit grievances through the CPGRAMS link available on NMDC's website, which is monitored by the Head of the Corporate Personnel Department, who serves as the Grievance Redressal Officer.

NMDC upholds the Universal Declaration of Human Rights and the United Nations Global Compact, aligning with the Indian Constitution's commitment to justice, liberty, equality, and fraternity. The company remains dedicated to protecting human rights across its workplaces and subsidiaries. Furthermore, a separate committee has been established to handle grievance redressal for women employees.

#### 6. Number of Complaints on the following made by employees and workers:

**8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.**

NMDC has a Board-approved Whistle Blower Policy to safeguard employees from victimization when reporting discrimination or harassment. As per Department of Public Enterprise (DPE) guidelines, the Audit Committee, formed by the Board of Directors, reviews the effectiveness of the Whistle Blower Mechanism.

Strict confidentiality is maintained, ensuring that whistleblowers are protected from any form of retaliation. Employees assisting in investigations receive the same level of protection. Vigilance complaints filed with the Vigilance Department keep complainants' identities strictly confidential. If an employee lodges a harassment complaint against a superior, their identity is protected, and if necessary, transfers may be arranged for the complainant's safety.

To address workplace concerns:

- Internal Complaints Committee (ICC): Established at all Units/Projects under the POSH Act, 2013, ensuring protection against sexual harassment and discrimination for women employees.
- Grievance Redressal Mechanism: Led by a Grievance Redressal Officer at all Units/Projects to handle workplace grievances related to harassment or discrimination.
- SC/ST Welfare Associations: Formed across all Units/Projects to promote welfare and prevent discrimination against SC/ST category employees.

NMDC remains committed to fostering a safe and inclusive workplace for all employees.

**9. Do human rights requirements form part of your business agreements and contracts? (Yes/No)**

Yes

**10. Assessments for the year**

|                             | % of your plants and offices that were assessed (by entity or statutory authorities or third parties) |
|-----------------------------|-------------------------------------------------------------------------------------------------------|
| Child labor                 | 100                                                                                                   |
| Forced/involuntary labor    | 100                                                                                                   |
| Sexual harassment           | 100                                                                                                   |
| Discrimination at workplace | 100                                                                                                   |
| Wages                       | 100                                                                                                   |

**11. Provide details of any corrective actions taken or underway to address significant risks/concerns arising from the assessments at Question 10 above.**

Our assessments did not reveal any notable risks or concerns, so no corrective measures are required.

**Leadership Indicators**

**1. Details of a business process being modified / introduced as a result of addressing human rights grievances/complaints.**

Since no human rights issues were identified during the assessment period, no changes to the business process were necessary.

**2. Details of the scope and coverage of any Human rights due-diligence conducted.**

As a Public Sector Undertaking (PSU), NMDC is required to adhere to all government-mandated legal regulations, minimizing the likelihood of human rights violations.

**3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?**

Yes, NMDC has ensured its premises are fully accessible to differently abled visitors. The office includes dedicated facilities such as washrooms, parking spaces, and ramps for ease of access. Additionally, an audible lift system is available to enhance accessibility.

**4. Details on assessment of value chain partners:**

|                                  | % of value chain partners (by value of business done with such partners) that were assessed |
|----------------------------------|---------------------------------------------------------------------------------------------|
| Sexual Harassment                | Nil                                                                                         |
| Discrimination at Workplace      |                                                                                             |
| Child Labour                     |                                                                                             |
| Forced Labour/Involuntary Labour |                                                                                             |
| Wages                            |                                                                                             |

**5. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 4 above.**

Not Applicable

**Principle 6**

**Businesses should respect and make efforts to protect and restore the environment**

**Essential Indicators**

**1. Details of total energy consumption (in Joules or multiples) and energy intensity, in the following format:**

| Parameter                                                | Unit | FY 2024-25<br>(Current Financial Year) | FY 2023-24<br>(Previous Financial Year) |
|----------------------------------------------------------|------|----------------------------------------|-----------------------------------------|
| <b>From renewable sources</b>                            |      |                                        |                                         |
| Total electricity consumption (A)                        | GJ   | 5,916                                  | 6,395.37                                |
| Total fuel consumption (B)                               | GJ   | -                                      | -                                       |
| Energy consumption through other sources (C)             | GJ   | -                                      | -                                       |
| Total energy consumption from renewable sources (A+B+C)  | GJ   | 5,916                                  | 6,395.37                                |
| <b>From non-renewable sources</b>                        |      |                                        |                                         |
| Total electricity consumption (D)                        | GJ   | 416,754                                | *432,424                                |
| Total fuel consumption (E)                               | GJ   | 1,281,918                              | *1,228,793                              |

\* Restated due to change in PPP exchange rate

\*\* Water intensity per million USD of turnover adjusted for Purchasing Power Parity (PPP)=807.01KL/million USD

**Note:** Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, independent assurance has been carried out by Bureau Veritas (India) Pvt Ltd.

4. **Provide the following details related to water discharged:**

All project sites operate with a zero liquid discharge system, ensuring no water is released from the project areas. Effluent water is treated through ETPs and STPs at each site and repurposed for horticultural use. However, 9,282 KL of water was discharged from the head offices and regional offices into municipal sewer facilities.

**Note:** Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, independent assurance has been carried out by Bureau Veritas (India) Pvt Ltd.

**5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation**

Dry screening operations are currently underway at the iron ore mining complexes of Donimalai and Kirandul, as well as Deposit-10/11A of the Bacheli complex, with no discharge from the screening plants during this phase. However, wet screening takes place at Deposit-5's Screening Plant in the Bacheli complex during the monsoon season, lasting 80 to 90 days.

For tailings management, after the ore beneficiation process, tailings from the thickener are deposited into the Tailing Dam for settling, after which clear water is discharged through a decanting pipe and reused for dust suppression and gardening. Additionally, at the Panna Diamond Mining Project, a Tailing Dam has been built to settle kimberlite tailings, with the clear water recirculated into the processing plant via the RPH.

To prevent suspended solids from entering natural streams during the monsoon, check dams have been strategically constructed along various nalla courses. Moreover, ETPs and STPs are established across all mining complexes. NMDC maintains a zero liquid discharge policy, ensuring no water seepage occurs anywhere in the project area, reinforcing its commitment to environmental safeguards in mining operations.

**6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:**

| Parameter                           | Unit              | FY 2024-25<br>(Current Financial Year) | FY 2023-24<br>(Previous Financial Year) |

**Note:** Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

The values represent ambient concentration, the SPCB does independent evaluation.

**7. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) and its intensity, in the following format:**

| Parameter                                                                                                                                                                                                  | Unit                      | FY 2024-25<br>(Current Financial Year) | FY 2023-24<br>(Previous Financial Year) |

| <b>Total Scope 1 and Scope 2 emission intensity in terms of physical output</b>                                                                                                                            | MtCO <sub>2</sub> e/Tonne | 0.0042***                              | *0.0042                                 |
| <b>Total Scope 1 and Scope 2 emission intensity (optional)- the relevant matric may be selected by the entity</b>                                                                                          | -                         | -                                      | -                                       |

**Note:** For calculation of emissions, we have used DEFRA 2024, USEPA and CEA emission factors

\* Restated

\*\* Emission intensity per million USD of turnover adjusted for PPP = 16.38 tCO<sub>2</sub>e/million USD

\*\*\* The Scope 1 & 2 emission intensity in terms of physical output for only iron ore is 0.0033 tCO<sub>2</sub>e/tonne.

**Note:** Indicate if any independent assessment, evaluation or assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, independent assurance has been carried out by Bureau Veritas (India) Pvt Ltd.

**8. Does the entity have any project related to reducing Green House Gas emission? If yes, then provide details.**

NMDC has started integrating green energy solutions to replace conventional electricity sources. As part of this initiative, wind power plants with a total capacity of 10.5 MW (comprising seven 1.5 MW wind turbines) have been installed in Chitradurga, along with solar power systems across various project sites. At present, NMDC generates approximately 19 million units of wind power and sources around 1.64 million units from solar energy.

**9. Provide details related to waste management by the entity, in the following format:**

| Parameter                                                                                                                                                       | FY 2024-25<br>(Current Financial Year) | FY 2023-24<br>(Previous Financial Year) |

\*Not Applicable- NA

\*\* Restated due to change in PPP exchange rate

\*\*\* Waste intensity per million USD of turnover adjusted for PPP = 1209.11 tonnes/million USD

**Note:** Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, independent assurance has been carried out by Bureau Veritas (India) Pvt Ltd.

**10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.**

NMDC is committed to minimizing waste in its iron ore mining process, with low-grade iron ore stored in subgrade stockpiles. As part of its sustainability efforts, NMDC is actively implementing the 3R strategy by exploring technological solutions to enhance the utilization of low-grade iron. Measures are being undertaken to reduce waste generation and reuse by-products, with ore blending serving as a key resource conservation strategy. Blending low-grade ore has shown encouraging potential.

A significant portion of mining waste consists of solid rocks, known as overburden, which is disposed of in designated waste dumps at each site, a common industry practice. To reinforce and stabilize these dumps, NMDC employs Garland drains, Toe walls, and Geo-coir matting.

Hazardous waste from mining operations includes waste oil, used lubricants, and grease-soaked cotton cloths used for cleaning HEMMs. In line with the Hazardous Waste (Management, Handling & Transboundary Movement) Rules, 2016, NMDC disposes of such waste through authorized vendor auctions. Additionally, the company has installed a 10KLD biomedical waste incinerator at its Bachel complex and has established organic waste converters across its project sites.

**11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:**

| Sl. No. | Location of operations/offices | Type of operations     | Whether the conditions of environmental approval/clearance are being complied with? (Y/N) If not, the reasons thereof and corrective action taken, if any. |
|---------|--------------------------------|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1       | Panna, Madhya Pradesh          | Diamond Mining Project | Yes                                                                                                                                                        |

**12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:**

| Name and brief details of project                                                                                                                                                                                                                                | EIA Notification No. | Date       | Whether conducted by independent external agency (Yes / No) | Results communicated in public domain (Yes / No) | Relevant Web link                                                                                                                                                                                                                                                           |

| MOEFCC, GOI accorded EC for capacity expansion of Deposit-14 NMZ from 5.5 to 8.5 MTPA                                                                                                                                                                            | EC24A0000CG5635166N  | 20.02.2025 | Yes                                                         | Yes                                              | <a href="https://www.nmdc.co.in/cms-admin/Upload/Environment_Clearances_Document/f2fa84c2642f4e0f8264b090ae096488_20250220105646433.pdf">https://www.nmdc.co.in/cms-admin/Upload/Environment_Clearances_Document/f2fa84c2642f4e0f8264b090ae096488_20250220105646433.pdf</a> |
| The Ministry of Environment, Forests & Climate Change (MoEF&CC), Govt of India, accorded Environmental Clearance for the capacity expansion of Deposit-5 project located at BIOM, Bachel Complex from 10 to 12 MTPA (20% expansion) vide letter dated 11.12.2024 | EC24A0000CG5775062NI | 11.12.2024 | Yes                                                         | Yes                                              | <a href="https://www.nmdc.co.in/cms-admin/Upload/Environment_Clearances_Document/bbce68cfee0d4fed878267d746574197_20241213114529002.pdf">https://www.nmdc.co.in/cms-admin/Upload/Environment_Clearances_Document/bbce68cfee0d4fed878267d746574197_20241213114529002.pdf</a> |

**13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India, such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules there under (Y/N). If not, provide details of all such non-compliances, in the following format:**

Yes, NMDC fully complies with the relevant environmental laws, regulations, and guidelines in India, including the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, and Environment Protection Act, among others.

### Leadership Indicators

**1. Water withdrawal, consumption and discharge in areas of water stress (in kiloliters):**

For each facility / plant located in areas of water stress, provide the following information:

- Name of the area
- Nature of operations
- Water withdrawal, consumption, and discharge in the following format:

| Parameter                                                                                                                                                     | FY 2024-25<br>(Current Financial Year) | FY 2023-24<br>(Previous Financial Year) |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------|-----------------------------------------|
| <b>Water withdrawal by source (in kiloliters)</b>                                                                                                             |                                        |                                         |

The water stress level for the areas is as per WRI Aqueduct (<https://www.wri.org/aqueduct/tools>)

\* The intensity values reported in the table above represent a consolidation of all sites and do not specifically indicate or infer any particular site.

\*\* Restated due to change in PPP exchange rate

\*\*\* The water is discharged from the head office into municipal sewer facility. Discharge value for water in Panna has not been included in the table because it is a Zero Discharge Plant.

**Note:** The water discharge at Head office is calculated as 80% of consumption as per CPCB & NBC guidelines

**Note:** Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, independent assurance has been carried out by Bureau Veritas (India) Pvt Ltd.

## 2. Please provide details of total Scope 3 emissions & its intensity, in the following format:

| Parameter                                                                                                                                                                                                 | Unit                   | FY 2024-25<br>(Current Financial Year) | FY 2023-24<br>(Previous Financial Year) |

\*Restated

**Note:** Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, independent assurance has been carried out by Bureau Veritas (India) Pvt Ltd.

**3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.**

The Diamond Mining Project in Panna is located near the Panna Tiger Reserve within the Gangau Wildlife Sanctuary, where mining operations take place in a single vertical pit with working benches reaching 120 meters deep. Controlled blasting and bottom initiation techniques are employed to minimize vibration and noise levels, while environmental quality parameters: water, air, and noise are routinely monitored and well-maintained. A monitoring committee appointed by the Hon'ble Supreme Court periodically reviews the workings of the project and suggests remedial measures which are implemented diligently by the NMDC team.

Indirectly, mining activities contribute to air pollution (dust), water pollution (sedimentation), noise pollution, and alterations in local hydrology. NMDC counters these by employing robust dust suppression techniques (water sprinkling, greenbelts), constructing check dams and garland drain for sediment control, striving for Zero Liquid Discharge (ZLD) to prevent water contamination, and using quieter machinery with controlled blasting to reduce noise disturbance. These efforts reflect a holistic approach to environmental stewardship, balancing mineral extraction with stringent ecological protection and a commitment to long-term sustainability.

**4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:**

| S. No | Initiatives undertaken        | Details of the initiative (Web-link, if any, may be provided along-with summary)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Outcome of the initiative                                                                                                                         |
|-------|-------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| 1     | Slurry Pipeline Project       | NMDC operates six iron ore deposits in the Bailadila Sector of Chhattisgarh. To enhance iron ore evacuation, NMDC has taken up construction of slurry pipeline from Bailadila to Nagarnar at an estimated cost of ₹ 800 crores. Currently, most iron ore production from Bailadila relies on the KK Railway line, which has limitations for transporting over 30 million metric tons per annum (MPTA). To reduce dependence on railways, NMDC adopted an alternative mode of evacuation—transporting iron ore fines in slurry form through the Slurry Pipeline Project. This approach also utilizes iron ore slimes by converting them into iron ore concentrate. The pipeline is laid underground, allowing existing activities to resume after completion. The project benefits the local population by creating employment opportunities. In the first phase, NMDC is laying 135 km slurry pipeline from Bailadila to Nagarnar. As on March 31, 2025, laying of about 107 km is complete. | To reduce the dust and particulate emissions during the transportation of ore as well as reducing scope-3 emissions of downstream transportation. |
| 2     | Rooftop Solar PV cells        | NMDC's projects as well as HO use rooftop solar PV cells as a part of their energy consumption.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Reduction in Scope 2 emission by consuming about 1.64 million units of solar power.                                                               |
| 3     | Green Belt Development        | NMDC has proactively developed green spaces by planting trees in and around its operational zone. This initiative involved community consensus and guidance from district forest officers.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Sequestration of carbon from the atmosphere.                                                                                                      |
| 4     | Check Dams and garland drains | NMDC has made considerable efforts to strategically manage sediments, control red water discharge, and mitigate soil erosion by constructing 27 check dams and garland drains.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Conservation of surface runoff water and recharge of ground water.                                                                                |

**5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.**

Yes, NMDC formulates project-specific disaster management plans, which are integral to the project's risk management strategy. These plans are publicly accessible on NMDC's website. The Disaster Management Plan aligns with the National Disaster Management Plan-2019 (NDMP-2019) and incorporates the Hon'ble Prime Minister's 10-point agenda on Disaster Risk Reduction, with clearly defined responsibilities for designated officers.

**6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.**

NMDC is committed to minimizing any adverse environmental impacts that may arise from its value chain. In line with this commitment, We mandate that all suppliers adhere to our Supplier Code of Conduct policy, which requires full compliance with government regulations, including those pertaining to environmental sustainability and protection. This policy ensures that suppliers actively engage in sustainable practices such as reducing greenhouse gas emissions, minimizing pollution, implementing effective waste management strategies, conserving biodiversity and land, and enhancing resource and energy efficiency in their operations.

To further mitigate potential environmental impacts, we are in the process of initiating processes to closely work with its suppliers to monitor and improve their sustainability practices continuously. The company encourages innovation and the adoption of environmentally friendly technologies and processes. We are deliberating on the possibility of conducting regular assessments and audits, to ensure that its suppliers are effectively implementing these measures, thereby reducing the overall environmental footprint of its value chain. NMDC is fully dedicated to environmental stewardship and is committed to contributing positively to global sustainability efforts.

**7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.**

During this financial year, no environmental impact assessments were conducted for value chain partners.

**8. How many Green Credits have been generated or procured:**

**a) By the Listed Entity**

Nil

**b) By the top ten (in terms of value of purchases and sales, respectively) value chain partners"**

Nil

**Principle 7**

**Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent**

**Essential Indicators**

**1. a. Number of affiliations with trade and industry chambers/ associations.**

The number of affiliations with industry chambers and associations is 13.

**b. List the top 10 trade and industry chambers/ associations (determined based on the total members of such body) the entity is a member of/ affiliated to.**

| 35      | Nasha Mukht Bharat Abhiyaan (NMBA) campaign                                            | Mail sent to ministry on 20.08.2024 | No                                                       | NA                                                                                        | NA                     |
| 36      | Regarding solarization of government buildings under NMDC                              | Mail sent to ministry on 16.08.2024 | No                                                       | NA                                                                                        | NA                     |
| 37      | Saturation of Government Buildings with Rooftop Solar                                  | Mail sent to ministry on 10.07.2024 | No                                                       | NA                                                                                        | NA                     |
| 38      | Action Plan for implementing of stamp charging technology by FY 2030 for Steel Making. | Mail sent to ministry on 01.07.2024 | No                                                       | NA                                                                                        | NA                     |

NMDC's public policy engagement is strategically aligned with India's national development goals, particularly emphasizing sustainable resource management, critical mineral self-reliance, and digital governance. The company actively supports initiatives like the PM Surya Ghar: Muft Bijli Yojana for solar energy adoption and the National Steel Policy-2017, which targets increased domestic steel production and reduced import reliance. NMDC also champions social causes such as Indian Organ Donation Day and participates in government platforms like PRAGATI, NIP, CIC, PM GatiShakti Portal, eSamikSha, and CPGRAM to enhance transparency and efficiency. Their CSR efforts significantly contribute to healthcare through ICMR projects and empanelment under Ayushman Bharat.

NMDC is strategically diversifying beyond iron ore into critical and strategic minerals like lithium, copper, and coking coal, responding to the MMDR Amendment Act of 2023 and the National Critical Mineral Mission (NCMM). This includes a significant capital expenditure plan to boost production to 100 million tons by 2030 and a focus on pellet production. Furthermore, NMDC is committed to sustainable mining practices, including adopting slurry pipeline transport for environmental benefits, emphasizing GHG emission reduction, and investing in renewable energy sources like wind and solar power.

## Principle 8

### Businesses should promote inclusive growth and equitable development

#### Essential Indicators

#### 1. Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.

Yes. In adherence to Section 135 of the Companies Act, 2013, and the Companies (Corporate Social Responsibility Policy) Rules, 2014, our organization rigorously conducts Social Impact Assessments (SIAs) for all Corporate Social Responsibility (CSR) projects with an outlay exceeding INR 1 Crore.

Consistent with this regulatory requirement, Social Impact Assessments were duly conducted for all eligible CSR activities undertaken during the financial year 2022-23.

#### 2. Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R & R) is being undertaken by your entity, in the following format:

| Name of Project for which R&R is ongoing | State | District | No. of Project Affected Families (PAFs) | % of PAFs covered by R&R | Amounts paid to PAFs in the FY (In INR) |
|------------------------------------------|-------|----------|-----------------------------------------|--------------------------|-----------------------------------------|
| Nil                                      |       |          |                                         |                          |                                         |

### 3. Describe the mechanisms to receive and redress grievances of the community.

NMDC being a CPSE has its established grievance submission & redressal mechanism. A complaint box has been provided at all Project locations where stakeholders can drop in their grievances. In addition to the above, grievances /complaints can be submitted to the Head of the Projects/Head of the Departments.

### 4. Percentage of input material\* (inputs to total inputs by value) sourced from suppliers:

|                                              | FY2024-25<br>(Current Financial Year) | FY2023-24<br>(Previous Financial Year) |
|----------------------------------------------|---------------------------------------|----------------------------------------|
| Directly sourced from MSMEs/ small producers | 60%                                   | 59.05%                                 |
| Directly from within India                   | 100%                                  | 100%                                   |

\* It only covers raw materials

### 5. Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent / on contract basis) in the following locations, as % of total wage cost:

| Location     | FY2024-25<br>(Current Financial Year) | FY2023-24<br>(Previous Financial Year) |
|--------------|---------------------------------------|----------------------------------------|
| Rural        | 92.30%                                | 92.7%                                  |
| Semi-urban   | 0.8%                                  | 0                                      |
| Urban        | 1.2%                                  | 1.3%                                   |
| Metropolitan | 5.7%                                  | 6%                                     |

(place to be categorized as per RBI Classification System – rural/ semi-urban / urban / metropolitan)

## Leadership Indicators

### 1. Provide details of actions taken to mitigate any negative social impacts identified in the Social Impact Assessments (Reference: Question 1 of Essential Indicators above):

Not Applicable

### 2. Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:

| Sl. No. | State        | Aspirational District | Amount spent<br>(in lakhs INR) |
|---------|--------------|-----------------------|--------------------------------|
| 1       | Chhattisgarh | Dantewada             | 3,810.02                       |
| 2       | Chhattisgarh | Bijapur               | 11.56                          |
| 3       | Chhattisgarh | Sukma                 | 21.2                           |
| 4       | Chhattisgarh | Bastar                | 716.93                         |
| 5       | Chhattisgarh | Kondagaon             | 51.48                          |
| 6       | Chhattisgarh | Narayanpur            | 12.42                          |
| 7       | Chhattisgarh | Kanker                | 89.09                          |

### 3. (a) Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized /vulnerable groups? (Yes/No)

Yes

#### (b) From which marginalized /vulnerable groups do you procure?

SC/ST Category

#### (c) What percentage of total procurement (by value) does it constitute?

Total procurement made by value of ₹ 32.56 Crores. i.e. 10.34% during FY 2024-25. This has increased from procurement made by value of ₹ 18.34 Crores. i.e. 5.35% during FY 2023-24.

4. **Details of the benefits derived and shared from the intellectual properties owned or acquired by your entity (in the current financial year), based on traditional knowledge.**

Nil

5. **Details of corrective actions taken or underway, based on any adverse order in intellectual property related disputes wherein usage of traditional knowledge is involved.**

Nil

6. **Details of beneficiaries of CSR Projects:**

| Sl. No. | CSR Project                                                                                                      | No. of persons benefitted from CSR Projects | % of beneficiaries from vulnerable and marginalized groups |
|---------|------------------------------------------------------------------------------------------------------------------|---------------------------------------------|------------------------------------------------------------|
| 1       | NMDC Balika Shiksha Sahayog Yojana- Scholarship Scheme                                                           | 8,093                                       | 100%                                                       |
| 2       | NMDC Balika Shiksha Yojana                                                                                       | 84                                          | 100%                                                       |
| 3       | NMDC Polytechnic College, Dantewada                                                                              | 126                                         | 100%                                                       |
| 4       | NMDC ITI, Dantewada                                                                                              | 128                                         | 100%                                                       |
| 5       | NMDC ITI, Nagarnar                                                                                               | 36                                          | 100%                                                       |
| 6       | NMDC Residential School at Nagarnar                                                                              | 600                                         | 100%                                                       |
| 7       | Operation of Astha Gurukul at Geedam                                                                             | 1,289                                       | 100%                                                       |
| 8       | Operation of Saksham I & II special school for differently abled                                                 | 200                                         | 100%                                                       |
| 9       | Choo lo Aasmaan- coaching to Boys & Girls for various National/State level Medical & Engineering entrance tests. | 720                                         | 100%                                                       |
| 10      | Mid-day Meal Scheme                                                                                              | 8,000                                       | 100%                                                       |
| 11      | Free Medical treatment at Project Hospitals                                                                      | 1,00,000 (Approx)                           | 100%                                                       |
| 12      | Hospital on Wheels                                                                                               | 22,617                                      | 100%                                                       |
| 13      | Blindness Free Ballari                                                                                           | 14,00,000 (Approx)                          | 100%                                                       |

NMDC's Corporate Social Responsibility (CSR) programs extend beyond the listed beneficiaries, directly supporting village and community residents across multiple focus areas. These include education, drinking water, health and hygiene, nutrition, infrastructure development, integrated village advancement, environmental conservation, sports, skill development, income generation, cultural preservation, and disaster relief.

Through its infrastructure projects, NMDC directly benefits local communities, impacting around one lakh people near development sites, including those involved in construction. Additionally, these initiatives indirectly improve countless lives by enhancing connectivity, expanding access to medical facilities, and fostering local markets for produce.

## Principle 9

**Businesses should engage with and provide value to their consumers in a responsible manner**

### Essential Indicators

1. **Describe the mechanisms in place to receive and respond to consumer complaints and feedback.**

NMDC has implemented robust mechanisms for receiving and addressing consumer complaints and feedback. The DARPAN customer portal serves as a dedicated platform for stakeholders to provide input regarding quality, quantity, and other transaction-related aspects. Through DARPAN, customers can share experiences, raise concerns, and offer suggestions. NMDC maintains a commitment to transparency, ensuring all feedback is handled confidentially and acted upon promptly. The company monitors submissions, analyzes trends, and makes necessary improvements to enhance customer satisfaction while fostering stakeholder engagement.

Customer Portal: DARPAN

Link- <https://darpan.nmdc.co.in/nmdc-crm/>

As a Central Public Sector Enterprise (CPSE), NMDC has an established grievance redressal mechanism. Complaint boxes are placed at all Project locations for stakeholders to submit grievances. Additionally, complaints can be directed to the Chief Vigilance Officer (CVO) via:

- Online submission: "Complaint Form" available on the Vigilance tab of the NMDC website [www.nmdc.co.in](http://www.nmdc.co.in)
- Postal submission: Chief Vigilance Officer, NMDC Limited Khanij Bhavan, 10-3-311/A, Castle Hills, Masab Tank, Hyderabad-500028, INDIA

NMDC remains committed to effective grievance handling and customer-centric service improvements.

## 2. Turnover of products and / services as a percentage of turnover from all products/services that carry information about:

|                                                             | As a percentage to total turnover |
|-------------------------------------------------------------|-----------------------------------|
| Environmental and social parameters relevant to the product | 0%                                |
| Safe and responsible usage                                  | 0%                                |
| Recycling and/or safe disposal                              | 0%                                |

## 3. Number of consumer complaints in respect of the following:

| Particulars                                       | FY2024-25<br>(Current Financial Year) |                                   |         | FY2023-24<br>(Previous Financial Year) |                                   |         |
|---------------------------------------------------|---------------------------------------|-----------------------------------|---------|----------------------------------------|-----------------------------------|---------|
|                                                   | Received during the year              | Pending resolution at end of year | Remarks | Received during the year               | Pending resolution at end of year | Remarks |
| Data Privacy                                      | Nil                                   | Nil                               |         | Nil                                    | Nil                               |         |
| Advertising                                       | Nil                                   | Nil                               |         | Nil                                    | Nil                               |         |
| Cyber security                                    | Nil                                   | Nil                               |         | Nil                                    | Nil                               |         |
| Delivery of essential services                    | Nil                                   | Nil                               |         | Nil                                    | Nil                               |         |

## 4. Details of instances of product recalls on accounts of safety issues

|                   | Number | Reasons for recall |
|-------------------|--------|--------------------|
| Voluntary recalls | Nil    | Nil                |
| Forced recalls    | Nil    | Nil                |

## 5. Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web link of the policy.

NMDC is actively bolstering its digital defenses with a newly drafted Cyber Security Policy and ongoing measures to protect its IT infrastructure. NMDC have engaged a third-party consultant to conduct regular Vulnerability Assessment & Penetration Testing (VAPT) across our entire network, with all recommended remedial actions promptly implemented to strengthen security.

This robust approach to cybersecurity extends to our public-facing platforms. While website offers freely accessible information, all content is established and regulated by NMDC's C&IT Department, and NMDC maintain a strict copyright interest. Unauthorized copying or distribution of website data is prohibited without express permission. Similarly, any information stored, transmitted, or processed on company devices remains NMDC property, and unauthorized attempts to upload or alter website content are strictly forbidden and subject to legal action under the Information Technology Act 2000. For site management, NMDC may collect anonymous usage data for statistical analysis, but NMDC ensure user privacy is protected, with data logs regularly deleted and no attempts made to breach individual privacy, except for authorized security investigations

6. **Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty/action taken by regulatory authorities on safety of products/services.**

Not Applicable

7. **Provide the following information relating to data breaches:**

- a. **Number of instances of data breaches – Nil**
- b. **Percentage of data breaches involving personally identifiable information of customers – Nil**
- c. **Impact, if any, of the data breaches – Nil**

### Leadership Indicators

1. **Channels / platforms where information on products and services of the entity can be accessed (provide web link, if available).**

NMDC serves B2G, B2B and B2C customers meeting their resource requirements across the value chain. All the information regarding the products could be accessed through the official website of NMDC Limited.

The weblink to the same is provided below:

<https://www.nmdc.co.in/important-links/product-specifications>

2. **Steps taken to inform and educate consumers about safe and responsible usage of products and/or services**

Not Applicable

3. **Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.**

Not Applicable

4. **Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/ Not Applicable) If yes, provide details in brief. Did your entity carry out any survey with regard to consumer satisfaction relating to the major products / services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)**

Yes, NMDC provides product information beyond statutory requirements by sharing detailed specifications of iron ore such as Fe content, impurity levels, and size fractions. Further, customer feedback on product quality, consistency, logistics, and service support is sought regularly.
