

BUSINESS RESPONSIBILITY AND SUSTAINABILITY REPORT

Introduction

Given the heightened significance of global climate change, sustainability has emerged as a key priority. Pidilite Industries Limited ("Company") is committed to comprehensive organizational development, clearly focusing on embedding Environmental, Social and Governance (ESG) considerations throughout its value chain. The environmental performance of the Company was primarily driven by the focus on reduction in consumption of fresh water & energy, reduction in Greenhouse Gas Emissions, increasing the usage of renewable energy and reduction and recycling of waste with focus on plastic packaging. The Corporate Social Responsibility (CSR) initiatives were directed towards the wellbeing of the vulnerable and marginalised communities and focused on issues such as education, women empowerment, skill development, agriculture, water management and sanitation. By incorporating ESG principles into these critical areas, the Company aims to foster a sustainable business model that creates long-term value for its stakeholders.

Over the past few years, the Company has been monitoring its ESG parameters and publishing its Sustainability Report since FY 2018-19. With a strong foundation in place, the transformation is based on the concept of sustainable development at the core of its operations. The leadership sets the tone of the Company's culture and the practices are followed across the organisation. The Company has broadened its perspective and consequently, the strategy is to inculcate more stringent environmental targets along with social and governance aspects with special focus on climate risks.

This report has been developed in accordance with the guidelines set forth by the Securities & Exchange Board of India (SEBI) for Business Responsibility and Sustainability Reporting (BRSR).

10. Health and safety management system:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/No) If yes, the coverage of such system?	Yes, the Occupational Health and Safety Management System has been implemented in all manufacturing facilities and Research & Development Laboratory. The health and safety management system follows ISO 45001 : 2018, which is an internationally recognized standard for ensuring occupational health and safety.
b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?	I. Job Safety Analysis ("JSA") is used for both routine and non-routine activities to carefully analyze and identify potential hazards associated with specific tasks. II. Hazard and Operability Study ("HAZOP") for identifying hazard related to chemical processes. III. Industrial Hygiene monitoring is used for identifying health hazards during employment. IV. Fire Risk assessment is used for identifying fire related risks. V. Periodic EHS audits by internal trained auditors and external auditing agencies.
c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks? (Yes/No)	Yes, the Company has established effective mechanisms for reporting work-related hazards. If any worker identifies a hazard, they can promptly report it to their supervisor. The hazard observation is then recorded in the EHS portal under categories such as Unsafe Acts, Unsafe Conditions, or Near Miss incidents. The reported unsafe acts or conditions are investigated, and the progress of implementing corrective actions is closely monitored until completion. These reports are centrally reviewed during EHS performance review meetings, with attention given to their frequency and closure. Also, during the Safety committee meeting/Gemba walks, workers share any potential risk they have observed on the shop floor and the same is corrected within the time frame. In addition to this, the Company is also having suggestion box system where workers can provide their feedback/suggestion related to workplace hazards elimination/reduction measures.
d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/ No)	Yes, all the employees and workers are having access to non-occupational medical and health care services.

12. Describe the measures taken by the entity to ensure a safe and healthy workplace.

The health and safety management system are based on ISO 45001:2018, the International Standard for Occupational Health and Safety. The key focus areas remain the safety of our people by investing in technologies and processes that eliminate / minimize the interface of man and machinery. A few of the examples are automation in processes, process safety control, fire protection systems, machine guarding, tamper proof interlocks on packaging machineries etc. The processes on which we are focusing are Permit Management Systems, EHS SOPs & technical specifications implementation, Risk Assessments e.g., HAZOP, JSA, Audits etc.

At the design stage of any process, the focus is on eliminating the hazards or providing engineering controls to control the various hazards during manufacturing. The Company has implemented Project Risk Assessment (PRA) for assessing risks for all new or significant modifications of processes, plants, equipment and buildings. In our new plants automation and process control systems are being embedded as part of the design. Further, the Company has a systematic process for identification of work-related hazards through periodic assessments of workplace activities through various internal and external audits and action planning to mitigate or eliminate the identified hazards.

The Company provides Health & Safety training to all concerned during initial employment and on an annual basis. During the reporting period, the Company has implemented Pidilite Life Saving Rules (PLSR's) which comprise of 6 rules e.g., Travel safety, permit to work system, working at height, Lifting Safety, Machine guarding & Energy isolation and Adherence to safety control system. We have a health protocol in place that includes medical screening and periodic health checks.

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks concerns arising from assessments of health & safety practices and working conditions.

Examples of a few of the corrective actions which are taken as outcome of Incident Investigations/ Assessments are:

- As a part of periodic assessments of workplace activities, the Company have identified six high risk areas for improvement. The six areas identified were Contractor Safety, Permit to Work, working at height, Machine guarding and energy isolation, Lifting Safety and Packaging machinery. Gap assessments have been done against the standard/ guideline requirements and the identified gaps have been closed.
- A targeted initiative named "360-degree guarding" was carried out to evaluate the adequacy of machinery guarding. Through this campaign, specific action plans were taken to rectify any gaps in the machine guarding.
- Audit was carried out by external agency for Static Electricity risk identification & recommendations are implemented for all identified gaps.
- To enhance overall safety culture within the Company, a comprehensive program called Pidilite Life Saving Rules (PLSR's) was rolled out. This program placed special emphasis on critical areas like Travel Safety, Permit to Work, Working at Height, Energy Isolation and Machine guarding, Lifting Safety and Adherence to safety control system.

PRINCIPLE 4: Businesses should respect the interests of and be responsive to all its stakeholders.

ESSENTIAL INDICATORS

1. Describe the processes for identifying key stakeholder groups of the entity:

The process of stakeholder engagement involves identifying key internal and external stakeholders followed by analyzing the impact of each stakeholder groups on our business and vice versa. Water intensity Ratio (KL/MT) (based on water withdrawal)	1.99	2.49

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N)

If yes, name of the external agency.

No

4. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Yes, currently we have 22 of total 33 manufacturing facilities considered as zero liquid discharge. We are continuing with our efforts to reduce fresh water consumption by applying the principles of reduce, reuse, recycle and looking for newer technologies in the field.

5. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

Parameter	Unit	FY 2022-23	FY 2021-22
NOx	Kg/Yr	17,528	16,754
SOx	Kg/Yr	18,481	14,433

Total Scope 1 and Scope 2 emission intensity	tCO2e/MT	0.11	0.14

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N)
If yes, name of the external agency.

No

7. Does the entity have any project related to reducing Green House Gas emission? If yes, then provide detail.

Yes. With the goals of minimizing carbon footprint and mitigating climate change risks, the Company has undertaken several initiatives to shift to less carbon intensive / renewable fuels. Some of the initiatives include conversion of coal fired boiler into briquette boiler, change of boiler fuel from Furnace oil to PNG. Also new solar panels have been installed in our units and windmills have been maintained to generate electricity in order to reduce the GHG emissions.

8. Provide details related to waste management by the entity, in the following format:
