During the year, there have been no complaints/grievances on any of the 9 principles of NGRBC from any of the business stakeholders.

24. Overview of the entity's material responsible business conduct issues

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Increased temperature and heat waves	Risk	Increase in temperature and prolonged heat waves may create unsafe environment and cause health & safety risks for the workforce	The company is implementing newer technology & devices to maintain cooler temperatures around machineries like furnace, etc. The company is also looking at building sheds and planting more trees on the plant premises to reduce surface temperatures and provide more resting places to the workforce	Negative
2	Water scarcity	Risk	Water scarcity & less rainfall/ droughts might impact the production processes as water is one of the main resources consumed by the company.	However, across all three locations, the company is implementing water storing facilities to maintain reserves upto a weeks' worth of water requirement in case of extreme emergency.	Negative
		Opportunity	Steel pipes and tubes are an important element of water supply/storage infrastructure. Increasing water scarcity & droughts will lead to increase in demand for developing better and additional infrastructure to store and/or transport water across multiple locations. The demand for pipes/tubes will therefore increase.	The Company works with some of the largest infrastructure developers in India and globally, acting as their trusted supplier for steel pipes & tubes. The company will continue to leverage its strong track record and relationships to cater to such growing need for increasing water storage/transport infrastructure.	Positive
3	Extreme weather events	Risk	The company operations may be impacted/disrupted by extreme weather events like storms/cyclones. In addition to supply chain disruption (due to production stoppage), storms/ cyclones may also cause physical damage to the plant infrastructure. As possibility and frequency of such extreme weather increase, particularly near some of the areas where the company has manufacturing facilities, the risks of impact on business also increase.	The company is looking at insurance cover to mitigate financial risks arising from such extreme weather events. The company is also considering creating additional infrastructure around plant premises to minimise/mitigate impact from storms/cyclones.	Negative

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
4	Resource scarcity	Opportunity	Due to growing resource scarcity, industries are looking at recycling/reusing existing materials available. Demand for products from recycled/reused steel will also increase due to this.	The company procures from some of the largest steel manufacturers which in-turn have their own sustainability targets and are looking to increase proportion of recycled/reused steel in the final products they supply. The company is well placed to take advantage of increasing trend and market demand for recycled steel products.	Positive
5	Net-zero transition	Opportunity	To mitigate climate change, there is a growing demand for alternative sources of energy like hydrogen, wind, solar, etc.	Company products are an important part of such alternative energy infrastructure, particularly the use of hydrogen as a source to drive the net-zero transition. The company looks to increase focus towards building new products to cater to the need of newer energy sectors like hydrogen, etc. to help accelerate wider decarbonisation journey in India and globally.	Positive

SECTION B: MANAGEMENT AND PROCESS DISCLOSURES

Principle 1: Businesses should conduct and govern themselves with integrity, and in a manner that is Ethical, Transarent and Accountable

Essential Indicators

1 Percentage coverage by training and awareness programmes on any of the Principles during the financial year:

Segment	Total number of training and awareness programmes held	Topics / principles covered under the training and its impact	% of persons in respective category covered by the awareness programmes
Board of Directors	1	A preliminary understanding of the nine principles of NGRBC	100.00%
Key Managerial Personnel	1		
Employees other than BoD and KMPs	12	Environmental, health & safety related trainings and an overview of the nine principles of NGRBC	100.00%
Workers	12		100.00%

The table above includes data for the larger trainings organised for all employees/workers of the Company. One-off/ad-hoc training sessions on health, safety, environmental and wider sustainability aspects organised for individual teams are not included in the above data.

2 Details of fines / penalties /punishment/ award/ compounding fees/ settlement amount paid in proceedings (by the entity or by directors / KMPs) with regulators/ law enforcement agencies/ judicial institutions, in the financial year, in the following format

Monetary					
	NGRBC Principle	Name of the regulatory/ enforcement agencies/ judicial institutions	Amount (In INR)	Brief of the Case	Has an appeal been preferred? (Yes/No)

During the FY, there have been no incidences of fines/penalties against the company.

3 Of the instances disclosed in Question 2 above, details of the Appeal/ Revision preferred in cases where monetary or non-monetary action has been appealed.

Case Details	Name of the regulatory/ enforcement agencies/ judicial institutions
	Not applicable

4 Does the entity have an anti-corruption or anti-bribery policy? If yes, provide details in brief and if available, provide a web-link to the policy.

The Company has 'zero tolerance' to any form of corruption or bribery. The company is committed to do business with ethical business practices. The Company has a Code of Business Conduct and a Whistle Blower Policy that are approved by the Board of Directors. These are applicable to all the Board Members and Senior Management.

The company also has a standalone Anti-Bribery and Anti-Corruption policy which covers risk assessment procedures, internal controls, mechanism to deal with instances of corruption as well as the training schedule. The policy applies to all employees and associated persons for ensuring compliance with applicable anti-bribery laws, rules and regulations in India and overseas jurisdictions where the company operates. This highlights Ratnamani's commitment to ethical and transparent corporate governance practices. The Anti-Bribery and Anti-Corruption policy is available on the company website at: https://www.ratnamani.com/download/Code_and_Policy/anti-bribery-and-anti-corruption-policy.pdf

5 Number of Directors/KMPs/employees/workers against whom disciplinary action was taken by any law enforcement agency for the charges of bribery/ corruption:

	FY 2022-23	FY 2021-22
Directors	-	-
KMPs	-	-
Employees	-	-
Workers	-	-

During the FY, no disciplinary action has been taken by any law enforcement agency or the chages of bribery/ corruption against any Directors/KMPs/employees/workers.

6 Details of complaints with regard to conflict of interest:

	FY 2022-23		FY 2021-22	
	Number	Remarks	Number	Remarks
Number of complaints received in relation to issues of Conflict of Interest of the Directors	-	-	-	-
Number of complaints received in relation to issues of Conflict of Interest of the KMPs	-	-	-	-

During the FY, no complaints have been received in relation to any instances of conflict of interest for Directors or KMPs.

7 Provide details of any corrective action taken or underway on issues related to fines / penalties / action taken by regulators/ law enforcement agencies/ judicial institutions, on cases of corruption and conflicts of interest.

During the FY, there have been no cases of corruption or conflicts of interest and no fines/penalties have been levied by any regulatory/law enforcement agencies or judicial institutions, so no corrective actions are required.

Principle 2: Businesses should provide goods and services in a manner that is sustainable and safe

Essential Indicators

1 Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.

	FY 2022-23	FY 2021-22	Details of Improvement in environmental & social impacts
R&D	NA	NA	Not applicable (Refer note below)
Capex	34.70%	0.70%	Investment in solar power plant and energy conservation technology

Given the B2B focus, specifications of the products manufactured are driven by the end-client requirements so the company does not engage in any standalone R&D activity.

2 a. Does the entity have procedures in place for sustainable sourcing? (Yes/No)

Yes, the company has a procedure for sustainable sourcing. All new supply chain partners are mandatorily evaluated on environment, health & safety and sustainability parameters before onboarding.

The Company has a Supplier Code of Conduct agreed with key suppliers which mandates the suppliers to consider various environmental, social and wider sustainable aspects like resource usage, waste, minimum wages, child labour, etc. In addition to this, the company ensures that majority of its suppliers have got one of the international or domestic accreditation/ certification, e.g. ISO, etc.

All key raw materials like steel sheets, steel bars, etc. are procured from Indian and global multinationals with their own sustainability targets & initiatives thereby contributing to the Company's own sustainable sourcing process. The Company has considered various sustainabilty parameters while approving vendors for procuring other ancilliary raw materials and packaging materials. The Company engages in periodic engagement with the vendors to ensure compliance with the Supplier Code of Conduct.

Preference is given to suppliers from nearby locations/districts to reduce carbon footprint from the logistics activity. Only government accredited suppliers are chosen for waste management acitivities to ensure strictest level of compliance.

b. If yes, what percentage of inputs were sourced sustainably?

Almost 100.00% of the inputs are sourced sustainably from the suppliers. The Company has a standalone Supplier Code of Conduct to promote sustainability across the value chain and supplier network. The Company engages in ongoing interactions with the Suppliers to align them with the Company's vision and aspirations on ESG goals.

3 Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for

- (a) Plastics (including packaging)
- (b) E-waste
- (c) Hazardous waste and
- (d) Other waste

Yes, focus on effective waste management is an important aspect of the company operations. The Company ensures sustainability of resources by reducing, reusing, recycling and effectively managing waste. It has embraced the “3-R” (Reduce, Reuse and Recycle) philosophy for all types of wastes leading to minimisation of raw materials, air emissions, liquid effluents, and other solid waste, in line with legal requirements and industry best practice.

The Company has implemented a ZLD policy in all 3 manufacturing facilities. All waste water and hazardous waste from the process is treated before reusing or disposing. Strict protocols are in place to ensure that the hazardous waste generated as part of the production process is disposed as per the guidelines of respective State Pollution Control Boards (SPCB). In line with requirements of EPR regulations, the company works with accredited third-party plastic collection and recycling organisations to minimise plastic waste. Detailed logs and records are maintained for traceability and tracking.

The Company operations do not generate any significant e-waste or any other liquid waste. The Company has an internal waste management policy as a guiding principles for e-waste and old machinery/equipment. The internal guidance mandates disposal of the generated e-waste and machinery/equipment waste through authorised dealers only. The functional/departmental head identifies the assets which have reached their end of useful life for disposal. The procurement department enlists certified waste dealer(s) through whom all wastes are managed. The company only works with designated/accredited waste recyclers to help with collection, recycling, and disposal.

4 Whether Extended Producer Responsibility (EPR) is applicable to the entity’s activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

The Company falls under the category of brand owner using plastics for product wrapping and packaging. As a result EPR regulation applies to the Company. The company is responsible for collecting and disposing of the plastic waste generated in the market as a result of its products. For this purposes, the Company proactively collaborates with accredited third-parties to minimise plastic waste. It works very closely with such third-parties to develop waste collection plans in order to meet prescribed targets for plastic collection and recycling. The required waste collection plan has been developed and followed in line with the submissions made to state and central Pollution Control Boards. The Company also purchases EPR credits from CPCB authorised recyclers, in line with regulatory guidelines.

3 Accessibility of workplaces

Are the premises / offices of the entity accessible to differently abled employees and workers, as per the requirements of the Rights of Persons with Disabilities Act, 2016? If not, whether any steps are being taken by the entity in this regard.

Due to the nature of the operations, it is extremely difficult for the company to employ differently abled individuals in the plants and manufacturing activities which involve dealing with heavy raw materials like steel and iron and other chemicals substances. However, the Company endeavours to employ them in HQ and management functions.

4 Does the entity have an equal opportunity policy as per the Rights of Persons with Disabilities Act, 2016? If so, provide a web-link to the policy.

Providing equal opportunities to everyone is one of the key themes of the internal Employee Code of Conduct and various HR policies in place within the organisation. The company does not discriminate based on race, caste, religion, colour, ancestry, marital status, gender, sexual orientation, age, nationality, ethnic origin, disability or any other category protected by applicable law. The Company also has a standalone Equal Opportunity Policy in place which reinforces its commitment to providing equal opportunities to everyone. 6 Is there a mechanism available to receive and redress grievances for the following categories of employees and worker? If yes, give details of the mechanism in brief.

Category	Yes/No (If Yes, then give details of the mechanism in brief)
Permanent Workers	Yes. All employees and workers of the Company have access to greivance redressal mechanism.
Other than Permanent Workers	As part of periodic team/department meetings, an opportunity is provided for employees/workers to voice any concerns and issues.
Permanent Employees	
Other than Permanent Employees	Any compliant/grievance is first discussed with the immediate superior, then with the Department Head. If required, the issue is escalated to the Functional Head and lastly to the Senior management. Plant related complaints (e.g., related to canteen, safety, etc.) are managed by the local plant leadership.
	Formally, there is a dedicated physical drop box at various locations, which all company employees/workers have access to and to which they can use to raise any compliants/grievances. Necessary actions are taken by the HR/stakeholder contact point to resolve the issues as quickly as possible. The HR team also involves various Department Heads as appropriate while resolving the complaints. The resolution is then discussed with the employee/worker who has raised the complaint.
	If any worker/employee is unhappy with the resolution, the issue(s) can be escalated to Senior Management/VP (Human Resources) for further resolution and/or for mediation/arbitration.

10 Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 9 above.

There were no significant risks/ concerns arising from the above assessments.

Principle 6: Businesses should respect and make efforts to protect and restore the environment

Essential Indicators

1 Details of total energy consumption (in Tera Joules) and energy intensity, in the following format:

Parameter	FY 2022-23	FY 2021-22
Total electricity consumption (A)	272	225
Total fuel consumption (B)	22	19
Energy consumption through other sources (C)	116	111
Total energy consumption (A+B+C) in Tera Joules	410	355

Water intensity (optional) – the relevant metric may be selected by the entity	-	-

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No, the company has not undertaken any independent assessment/assurance of the environmental data disclosed in the report.

4 Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

The company has a Zero Liquid Discharge (ZLD) mechanism in place at all 3 manufacturing facilities. It covers the end to end plant operations. Water from STP is used for gardening purposes on the plant premises. Water from ETP is reused in the production processes. Any solid waste generated is disposed off using approved third party agencies.

5 Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

Parameter	Please specify unit	FY 2022-23	FY 2021-22
NOx			
SOx			
Particulate matter (PM)			
Persistent organic pollutants (POP)			
Volatile organic compounds (VOC)			
Hazardous air pollutants (HAP)			
Others – please specify			

Please refer to the below note

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N)
If yes, name of the external agency.

Through government accredited third party agencies, the Company regularly monitors air emissions from its operations at all three manufacturing facilities in line with requirements of ISO standards and local pollution control regulations. Across all locations, all air emissions during the FY are within the permissible limits. The company has implemented various environmental control measures and technology to reduce its air emissions. It also uses natural gas in its operations which have low air emissions compared to traditional fuels like petrol and diesel.

6 Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:

Parameter	Unit	FY 2022-23	FY 2021-22
Total Scope 1 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	8,952.54	8,427.93
Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	40,011.22	30,459.58
Total Scope 1 and Scope 2 emissions per rupee of turnover		0.11	0.12 MT CO ₂ e/ INR Lakh revenue
Total Scope 1 and Scope 2 emission intensity (optional) – the relevant metric may be selected by the entity		-	-

The Scope 1 and Scope 2 calculations are from the energy, electricity and fuel usage at the corporate office, three manufacturing facilities and the branch offices in India. Scope 1 calculations are undertaken using guidelines and emissions factors prescribed by IPCC (2006 version). Latest GWP factors published as part of AR5 are used for the calculations. Scope 2 calculations are undertaken using the emission factors prescribed by Central Electricity Authority (version 18).

The company activities do not involve any process or fugitive emissions.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N)
If yes, name of the external agency.

No, the company has not undertaken any independent assessment/assurance of the environmental data disclosed in the report.

7 Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

The company engages in various initiatives wherever possible in order to reduce its green house gas emissions. One of the key areas of GHG emissions for the company is use of electricity and fuel as part of energy consumption to power machinery/equipment as well as vehicles on the plant premises. For this, the company has installed a captive solar and wind plant with a combined capacity of 42 MWh. During the year, the company has also moved towards using CNG and electric powered vehicles on plant premises to reduced GHG emissions. Additionally, the company is also committed to the reduction of overall GHG emissions by use of low-emission materials (e.g. paints, adhesives, etc), sustainable building materials, solar panels and net metering technology, energy efficient machinery/equipment which reduces fuel & energy consumption, etc.

8 Provide details related to waste management by the entity, in the following format:

Parameter	FY 2022-23	FY 2021-22

9 Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

We have robust waste management practices in place and continuously strive to reduce the amount of waste to landfill or incineration. All of our facilities have Zero Liquid Discharge mechanisms. STP treated water is reused on plant premises for gardening purposes. ETP treated water of is reused for the production process. Waste like used oil, discarded drums, containers, plastic waste, contaminated cotton rags and other cleaning materials, used X-ray films etc., are sent for recycling through accredited third parties. ETP sludge generated is treated and disposed off responsibly as per GPCB guidelines. During the FY, additional measures have been undertaken to provide ETP sludge as a raw material to other industry sectors like cement manufacturing, etc. to reduce the waste going to landfill.
