Business Responsibility & Sustainability Reporting (Contd.)

26. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

Our materiality assessment focuses on identifying and prioritising the most important sustainability/ESG and business conduct issues for the Company. It is based on stakeholder engagement, thorough research, operational insights and regulatory landscape to ensure that all stakeholder groups are represented.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Energy & Climate Change	Risk and Opportunity	Risk: Trident is dependent on fossil fuels as a source of energy for boilers. The Company is also dependent on heavy amount of water intake for paper and pulp manufacturing. Any disruption in the supply chain of traditional fuel will have direct and significant increase in the price and could adversely affect the Company's operations and profitability. Secondly, as climate change is leading to more intense weather events such as- heat waves, droughts, extreme floods and cyclones, it can impact the water availability at extreme high temperatures, forest degradation, and impact the supply chain during extreme weather events. These events can have direct impact on the Company's value chain operations and could lead to a declining revenue. Opportunity: The Company can adapt to innovate processes to achieve energy efficiency and reduce carbon footprint throughout the value chain. The Company can explore decarbonisation opportunities throughout the value chain and develop products which has low/zero emissions. Climate change adaptation and decarbonisation solutions will also provide the company an opportunity to gain competitive edge and enhance market position	The Company has implemented ESG principles across the business functions and operations and have undertaken some key targets under the pillars of Emissions, Water, Waste and RE. Trident has undertaken Science Based Targets to reduce Scope 1 and Scope 2 emissions by 2031 and become a Net-Zero Company 2050. Some of the best practices implemented includes- increasing biofuel consumption, transitioning from coal based grid supply to renewable purchases like IREC's, water conservation and recycling and CAPEX investment in Solar and energy efficient technologies.	Positive Implication: Implementation of measures to switch from Coal will reduce carbon emissions and enhance the Company's reputation in the long run resulting in better brand value. Costly Investments: Adapting to changing climate conditions may require significant investments in new infrastructure or equipment.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
2	Health and Safety	Risk	As a manufacturing Company, the operation at Trident requires workforce to interact with plant machinery and handle material. These activities may lead to accidents, injuries, and fatalities, resulting in legal liabilities, fines, compensation claims, increased insurance premiums, productivity loss and damage to the Company's reputation. Poor H&S practices also contribute to employee dissatisfaction and low morale. Some of the common health and safety risks the Company needs to address are- Occupational Hazards, Chemical Hazards, Fire and Electrical Hazards, Mechanical and Equipment Hazard, and Climate Related Hazards (extreme heat and health related).	The Company places strong emphasis on health and safety within its operations, corporate spaces and supply chain. Various measures are implemented to promote a safe and healthy working environment, such as- Strict adherence to Regulations, Periodic Risk Assessment through HIRA, Employee and Worker Training on occupational health and safety practices and procedures, including the proper use of personal protective equipment (PPE) and emergency response protocols, Safety Equipment and Infrastructure, Ongoing Safety Audits and continuous employee and worker engagements. All manufacturing locations are certified to Occupational Health and Safety Management Systems (ISO 45001:2018) which encourages proactive approach to identify, evaluate and remediate risks before they cause accidents and injuries. By implementing these measures, Trident aims to create a safety culture, protect employees and ensure compliance throughout operations.	Positive: Safe workplace aids in minimising accidents and illnesses, which have positive impact on employee morale and productivity
3	Resource Efficiency	Opportunity	Trident sees resource efficiency as an opportunity to optimise its use of resources, reduce waste generation, and enhance sustainability. Some potential area of resource utilisation improvement includes- Energy Efficiency, Water Conservation, Raw Material Optimisation, Circular Economy, Supply Chain Engagement and Trainings.	Trident aims to maximise resource utilisation and minimise inefficiencies. This will enhance our competitiveness in a resource-constrained world.	Positive: By embracing resource efficiency, Trident can increase productivity, lower operational costs, and foster a sustainable future for both the company as well as the communities in which it operates.

Business Responsibility & Sustainability Reporting (Contd.)

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
			The Company has adopted 5Rs Practice- Reduce, Reuse, Recycle, Re-engineer and Redesign, within its operational boundary. The Company has also invested in new products, efficient equipment, plastic recycling through EPR, circular economy (alternative raw material, waste as energy) and utilising waste in process (Alternative Raw Material), to improve the resource-efficiency of the Company. The Company is also engaged with its marginalised suppliers to procure agriculture waste and utilise as fuel in boilers. Implementing resource efficiency measures not only benefits the environment but can also lead to cost savings, improved operational efficiency, and enhanced brand reputation for Trident Limited.		
4	Customer Satisfaction	Opportunity	Trident sees several opportunities to enhance customer satisfaction. Some of the potential areas to consider includes- Product Quality and Reliability, Timely Delivery, Customer Service and Communication, Innovation and Sustainable Products, and Feedback surveys. By focusing on these key areas, Trident can strengthen its relationship with customers and foster long-term engagement. The Company engages with its customers through feedback surveys, in person meetings, media campaigns, and through grievance mechanisms.	NA	Positive: Positive customer experience will lead to brand reputation, and positive marketing, which can increase market share by attracting new customers.
5	Employment	Opportunity	The Company sees employment as an opportunity to attract, retain, and develop a skilled and diverse workforce that is essential for its business operations. Trident provides fair and competitive compensation and benefits to its employees, as well as opportunities for learning and career growth. The Company also fosters a culture of providing skill development training to underprivileged candidates and provide them employment after training. Trident also respects the human rights and labour rights of its employees and workers, ensuring a safe, healthy and inclusive work environment.	NA	Positive

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
6	Value, Ethics and Compliance	Risk and Opportunity	Risk: Trident recognises that value, ethics and compliance are essential for its reputation and trust in the international and national market and society. Some of the potential risks that needs to be addressed in those areas are- Ethical Conduct (unethical behaviour, bribery, conflict of interest, and corruption), supply chain compliance (supplier labour practice and compliance), Environment Impact (risk of improper waste disposal, excessive resource consumption and pollution), Employee and Social Responsibility (risks related to community relationship, stakeholder expectation and employee well-being). Trident understands the risk of legal or regulatory violations or ethical breaches can harm the Company's image and reputation. Opportunity: By establishing itself as an ethical and compliant organisation, Trident can differentiate itself from its competitors and build trust and loyalty with its customers, attract and retain talent who share the Company's values and vision, minimise reputational risks, reduce environment impact, ensure compliance and build transparency across value chain.	The Company has established Code of Conduct that outlines the Company values and principles. Trident also has various policies and procedures to ensure compliance with the applicable regulations. Regular audits, trainings and surveys are conducted to monitor and ensure compliance on ethical conduct across the organisation.	Positive
7	Community Engagement & Local employment	Opportunity	Trident understands that community engagement and local employment are opportunities to support the social development of the communities where it operates and strengthen the relationship with community. The Company engages with the society to provide education, build infrastructure, health and wellness engagement, skill development and employment opportunities.	NA	Positive

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
8	Supply Chain Sustainability	Risk and Opportunity	Risk: Trident has identified that a sustainable supply chain is critical for its business continuity and performance. The Company faces risk of disruptions through various factors such as- global fuel price, political instability, ESG compliance, natural disasters and non-compliance of suppliers. Opportunity: Implementation of a Sustainable Supply Chain is essential for Trident, to minimise its environmental impact, promoting social responsibility, and ensuring long-term business resilience. Some of the supply chain sustainability opportunities for Trident includes- Supplier sustainability assessment, responsible sourcing audits, green logistics, waste recycling and reducing, sustainable way of waste disposal, and manage supplier emissions. By embracing these sustainable supply chain opportunities, Trident can reduce its environmental footprint, promote responsible business practices, and contribute to the overall sustainability operations. It also helps the Company to meet the evolving stakeholder expectations and build reputation.	Trident has deployed several measures to manage supply chain related risks and is engaged with suppliers through regular audits for critical material supplies. The Company has a defined code of corporate governance and conduct, the coverage of which extends to suppliers to ensure ethical compliance. Trident believes that suppliers are important partners in achieving business and sustainability goals and has developed and introduced a comprehensive supplier sustainability framework in 2024, comprising of policies on responsible sourcing, code of conduct, supplier due diligence detailing the expectations from supplier partners. By identifying, assessing, and addressing risks at various stages of the supply chain, the Company strives to build a resilient and sustainable supply chain that can adapt to changing market conditions and mitigate potential disruptions.	Positive
9	Product Responsibility & Association	Opportunity	Trident has identified product responsibility and association as an opportunity to improve the product quality, increase customer satisfaction, develop green and environment friendly products and capture additional markets. Trident ensures that the product meets the desired standards for quality, packaging and communication. The Company has also developed products from recycled fibres and fosters circular economy through alternative materials use and reduce dependency on environment. The Company also adds labels on its products to inform consumers about the features, benefits and direction to use, to improve durability. Trident has also association with different Industry association bodies to collaborate, implement best practices and advocate regulatory changes.	NA	Positive

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

S. No.	Type of Waste	Waste management type (Recycle/Reuse/disposal/end of life)
1	Plastics	We engage with authorised recyclers to facilitate the collection and reprocessing of plastic waste generated as per the Plastic Waste Management Rules, 2016, thereby, assuming accountability for the end-of-life management of the plastic packaging materials we utilise.
2	E-waste	Trident has installed E-waste collection centres within office and operation premises to collect, segregate and recycle the E-waste through authorised recyclers with valid certifications.
3	Hazardous waste	Hazardous waste is disposed through CPCB, SPCB authorised vendors in both Punjab and MP. The Company has also integrated zero liquid discharge systems which removes release of hazardous liquid waste into the environment. The manufacturing facilities use biological plant for biodegradation of wastewater and recover the wastewater.
4	Other waste	All Non-hazardous wastes are sold to recyclers for further upcycling, recycling and relevant use. Trident has also incorporated food waste and other biomass waste to generate electricity at one of the manufacturing locations, through biogas plant.

Trident is committed to sustainability through our 5Rs Practice: Reduce, Reuse, Recycle, Re-engineer, and Redesign. We actively seek alternatives to plastic waste, partnering with recyclers for Extended Producer Responsibility (EPR) initiatives. hazardous waste like ETP Sludge is disposed of at authorised Treatment, Storage, and Disposal (TSD) Facilities.

Our innovations include converting food and biomass waste into electricity via biogas plants and promoting sustainable paper packaging through our "Good Paper" campaign. We prioritise Forest Stewardship Council (FSC) certified papers, reducing carbon and water footprints compared to plastics. Trident remains dedicated to minimising our environmental impact and promoting responsible resource management, showcasing our commitment to sustainability and environmental stewardship.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Yes, the Company has identified the environmental emergency and has identified its role in engaging with Extended Producer Responsibility (EPR) under the plastic waste management rules, 2016, with registration under brand owner. The Company has also submitted targets to the local state pollution control board with approval of collecting back 324 MT post-consumer plastic waste in MP and 1814 MT in Punjab for the FY 2024-25.

6. Is there a mechanism available to receive and redress grievances for the following categories of employees and workers? If yes, give details of the mechanism in brief.

Yes. Trident has an integrated approach on receiving and redressing grievances from employees and workers. We believe in continual improvement of our grievance redressal mechanism system and actively work towards keeping communication channels open for feedback implementation. The following details the various mechanism in brief available for all categories of workforce:

Permanent Workers	KAAN- The company has a 24*7 Helpline Service known as "KAAN" where an aggrieved member can contact in case of any unresolved grievances. Weekly KAAAN meetings are scheduled at all locations for different categories of workforce.
Other than Permanent Workers	SAMEEP- The Company has adopted digital chat bot to stay connected with 17,500+ employees and support them by creating a platform where members can lodge anonymous grievance/ Suggestions/ Opinions/ Improvement ideas etc..
Permanent Employees	Trident supports factory level grievance committee, which includes unit level management, to address any specific concern related to that factory. This committee addresses a wide range of issues including those related to health and safety, wages & working conditions, labour related issues, canteen and administration and so forth.
Other than Permanent Employees	ICC- The Company has formulated a Policy on Prevention of Sexual Harassment at Workplace for prevention, prohibition and redressal of sexual harassment at workplace and Internal Complaints Committee has also been set up to redress any such complaints received. The Company periodically conducts sessions for employees across the organisation to build awareness about the Policy and the provisions of the Sexual Harassment of Women at workplace (Prevention, Prohibition and Redressal) Act, 2013. Panchsabha-Panchsabha was introduced during FY 23-24 under the overarching philosophy of Sarbat Da Bhala with a commitment to ensure Fairness, Justice and Transparency to all. This grievance mechanism aims at negating the influence of hierarchy in grievance resolution and a step further in ensuring a transparent and fair process for grievance redressal. A team of 5 panch give audience to complainant and help him/ her to resolve grievances which could be of interpersonal, societal & economical, value integrity and/or disciplinary issues. Ways to approach the Panchsabhaare-Walkin, Sameep (raise ticket),Email/WhatsApp to nominated Panchsabha coordinator. The Company has an open-door approach, wherein every employee irrespective of hierarchy has access to senior management and can also reach out independently to the Human Resource Function if they choose to. In addition, the Company has framed and implemented whistle-blower policy that enables all employees to report any suspected or actual misconduct in the organisation anonymously, further promoting a culture of transparency.

provided a safe and healthy working environment, while complying with all the necessary regulations to protect the environment, safe disposal of waste, ensuring all the stakeholders safety and security. An EHS committee is constituted by the reporting Company with senior leadership whose responsibility is to ensure safety and healthy working environment. These committees are formed for effective monitoring of risk and its mitigation and implement standardised compliance requirements, monitor performance against targets, develop guidelines and promote awareness. The committee is also responsible for driving safety training sessions to upskill stakeholders in maintaining safe workplace.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

We follow consistent practices across all owned manufacturing facilities to identify work-related hazards and assess risks on a regular basis for all routine and non-routine jobs. The processes used are listed as follows:

1. *'Hazard Identification and Risk Assessment (HIRA)'*- The company utilises Hazard Identification and Risk Assessment, a process involving systematic identification of potential hazards in the workplace place and evaluating the associated risks. It helps the Company in understanding the nature of the hazards, their potential impact on employee health and safety, and the likelihood of their occurrence. Periodically conducting HIRA assessments, helps us to proactively identify and addresses work-related hazards, implements appropriate control measures and minimises the risks to work force
2. *Chemical Risk Assessment* is used by the company for identifying health hazards during handling of chemicals
3. *Safety Audits*- Periodic Safety Audits are carried out both in house and by external agency to help identify work-related hazards
4. Incidence investigation system is in place in the company which helps in finding the root cause and prevention of recurrence of incidence.

c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Y/N)

Yes, Trident has established processes for workers and employees to report work-related hazards and remove themselves from such risks. The company also provides regular training and awareness sessions on hazard identification and reporting procedures. We have mechanisms such as near miss reporting, direct communication with supervisors and EHS department and written procedures and guidelines to support reporting of identified risks by all the stakeholders. An online system of incident reporting is in place which allows us to keep track of incidents that occur as well as the Corrective Action and Preventive Actions ('CAPA'). Learnings from Incidents reported gets discussed in safety committee meetings, communicated to all the concerned persons and deployed horizontally, which helps us to prevent re-occurrence of similar incidents in future. Additionally, we have whistle-blower policy that allows anonymous reporting of suspected or actual hazards.

In case of any imminent danger, workers are free to leave the workplace without taking permission from any authority and report the same to concerned person.

d. Do the employees/ workers of the entity have access to non-occupational medical and healthcare services? (Yes/No)

Yes, employees and workers of the Company have access to non-occupational medical and healthcare services, primarily through the ESIC Schemes and / or health insurance coverage by the employer. These services include outpatient and inpatient treatment, maternity care, and other general health services at ESIC Hospital and empanelled private facilities. For employees not covered under ESIC, the organisation provides group health insurances policies that ensure access to quality medical care for non-work related health issues.

Brief Description of Policies:-

1. Group Mediciam Policy-The coverage extends to all permanent employees and workers (outside the coverage of ESIC), providing financial support for medical expenses in the event of illness or injury. This ensures access to necessary medical treatments and services outside of work-related incidents.
2. Group Personal Accident Policy- Covering all employees and workers (permanent and other than permanent) for any accident occurred, outside the office premises.

3. Workmen Compensation Policy- Covers all workers for any accident during course of employment (outside the coverage of ESIC)
4. ESIC- All workers as per statutory obligation (coverage for workers with gross wages less 21000).

All the sites have access to non-occupational medical and healthcare services either on-site or through tie-ups with reputed medical entities in close proximity. Our Budhni campus has state of the art Madhuban Hospital, run by Trident Humanity Foundation and equipped to provide a range of non-occupational healthcare services, including general medical and specialised consultations, preventive care, vaccinations, and treatment for common illnesses and injuries. In addition, personnel are being trained to respond appropriately to medical emergencies on-site.

12. Describe the measures taken by the entity to ensure a safe and healthy workplace.

The company has always been fully committed to safety and has implemented several measures to ensure a safe and healthy workplace across all its business verticals as follows-

- The company has technical and management safety standard comprising of various work practices such as Permit to Work for Confined Space, Working at Height, Hot Work, LOTO, Machine Guarding, Electrical Safety, Process Safety Management etc. A dedicated team of qualified safety officers is present at all premises who are responsible for implementing, monitoring, and enhancing the workplace health and safety conditions
- To oversee and ensure the maintenance of optimal safety standards across all operational facilities, Health and Safety committee has been formed with equal representation of workers and management. Periodic occupational health monitoring, Work zone monitoring, and employee medical check-up is also being ensured. Mock drills are carried out at regular intervals across all operational facilities.
- We have a well-documented on-site emergency plan
- We also prioritise the provision of appropriate personal protective equipment (PPE) to the workers and ensure that employees have access to and are trained in the proper use of safety gear such as helmets, gloves, safety shoes, goggles and ear protection. The Company also provides comprehensive training on evacuation procedures, fire safety protocols and the proper use of fire fighting equipment to ensure that personnel on site are well-prepared to respond effectively in case of an emergency. Along with Training, capacity building sessions are conducted at regular intervals at each unit, including sessions from industry experts. It is mandatory for all new employees (including contractor, interns, security) to undergo safety induction/orientation.

The Company also leverages visual safety aids and messages throughout its facilities and use signs, labels, posters and other visual aids to communicate and reinforce important safety information and reminders to employees.

Gross wages paid to females as % of total wages	15.2%	15.06%

4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes, the Company does have Grievance Committee responsible for addressing human rights issues caused by the business. The Company advocates the supremacy of human rights and does have internal policy to acknowledge the support. The employees are trained on the issues related to human rights and the company strongly discourages internal and external stakeholders from violating Human Rights.

In compliance with the Prevention of Sexual Harassment (POSH) of Women at Workplace Act, the Company has also set up Internal Complaints Committees at each of its offices and manufacturing locations. These committees are responsible for receiving and addressing complaints related to sexual harassment, ensuring a supportive and respectful workplace for women.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

The Company does have internal mechanism to redress grievances related to human rights issues. These mechanisms are guided by its comprehensive human rights policy, which is available and accessible to all stakeholders.

To ensure that grievances are addressed appropriately, Trident has Grievance committee and Internal Complaints committee to capture the complaints and investigate. Employees and stakeholders who have concerns or grievances regarding human rights violations can raise their issues through the established channels. Where required, Key management personnel are involved in both addressing and redressing such cases due to the sensitivity of the complaint. The company encourage individuals to come forward and report any violations or instances of human rights abuses without fear of retaliation.

Complaints on POSH as a % of female employees / workers	0	0
Complaints on POSH upheld	0	0

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

The Company has integrated robust mechanisms to prevent adverse consequences to the complainant in cases of discrimination and harassment. The Company's policies are designed to safeguard the rights of complainants and ensure their confidentiality throughout the process and has integrated a control mechanism to address issues of harassment and misconduct. The internal Complaints Committee oversees any complaints and engages with the stakeholders to investigate and resolve the issue. The engagement is kept highly confidential looking at the sensitivity of the situation. The Company also has Whistle Blower Policy to address such cases.

2. Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case target have not been achieved, provide the remedial action taken, if any.

Yes, The Company has manufacturing facilities identified as designated consumers and they have been assigned Reduction Targets (refer Target SEC) under Performance, Achieve and Trade Scheme of the Government of India.

In accordance with the PAT cycle-

- We have conducted third party Mandatory Energy Audits for establishing baseline and identifying improvement opportunities.
- We have conducted monitoring & verification audits to verify our progress and performance on reduction Targets.

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Yes, Trident has maintained zero liquid discharge facility from the beginning of operations and employ best in class technology for water recovery from waste streams. The zero liquid discharge mechanism covers 100% of towel and sheeting processing at Budhni location. The recovery of water is through a biological plant for bio degradation of wastewater, membrane technology, reverse osmosis and multi effect evaporator systems. This system enables recovery of wastewater to be reused in operations. We also treat water through effluent treatment plant at Punjab location and use the same for landscaping purposes.

6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

8. Does the entity have any project related to reducing Greenhouse Gas emission? If yes, then provide details.

Yes, Trident Limited has SBTi Targets validated in the reporting year, and as part of its reduction ambitions, have undertaken some key projects to reduce greenhouse gas emissions.

Energy Efficiency

Our manufacturing units across Punjab and Budhni are focusing on Energy Efficiency through Process Improvements and investing in new technologies. In the reporting year through sustainability program Clean by Design, we have invested INR 13.747 Million and implemented measures like Installation of motion sensors on lightening fixtures, replacement of ceiling fan with energy efficient BLDC fan, pump efficiency improvement with energy efficient impellers, utilisation of flash steam, Replacement of clutch motor with servo motors, Transformer power factor improvement, heat loss reduction by insulation, installation of energy efficient LED lamps, Installation of VFD's, air pressure optimisation with pressure regulators and so forth. This has led to 1527954.18 KWh of energy saving, 5,817 KL of Water Saving, 8,543 MT reduction in Steam consumption, 2731. 26 MTCO₂e reduction in GHG Emissions. Additionally, for upgradation of ZLD at Budhni, we have invested 171 million INR.

Renewable Energy

Trident has invested in Renewable Energy Projects such as installation of Rooftop solar, Biomass for energy generation for generating energy from renewable sources. With an investment of 715.76 Million INR, we have installed an additional 23.56 MWp rooftop solar in FY 24-25 taking our capacity to 51.98 MWp, generating 53,769,045 KWh, and avoiding 39,090 MTCO₂e of emissions. We are also continuously evaluating mechanism for plugging our waste streams and using waste as input in our internal operations. Under the initiative in the reporting year, we have commissioned Paddle Steam Sludge Dryer at Budhni and Solar Sludge Dryer at Punjab with a combined investment of 27.6 million INR, which will help us use Bio sludge as fuel at Captive Power Plant. We have also increased Biofuel percentage in fuel mix to 49.29%

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your Company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

The Company has established dedicated processes and facilities for handling hazardous waste, battery waste, e-waste, and scrap ensuring compliance with all legal requirements associated with different types of waste. Having adopted 5Rs framework to address waste generation, viz. Reduce, Reuse, Recycle, Re-engineer, Redesign, our primary focus is on waste reduction and reuse, and we responsibly dispose of whatever remains.

1. Waste identification, segregation and storage- We have identified the different types and categories of waste and the operations, processes, and activities where they are generated. Areas are earmarked within each department/ process where the waste generated daily is segregated and stored. Vendors for recycling different types of waste are identified and based on their compliance with legal requirements and the company's SOP, authorisation is granted. The transportation of waste follows specific procedures and adherence to the requirements for suitable vehicles and transport methods
2. Waste reduction, recycle and reuse- While we follow the standard SOP for waste disposal, we give precedence to identifying areas within our operations where waste can be reduced. This involves kaizens around optimising processes, finding alternatives to wasteful methods and practices, e.g. we have implemented optimisation systems to reduce steam and power consumption. We also actively explore opportunities to reuse materials within our operations, e.g. Comber Noil and rich flat cotton waste from spinning units are reused in open end spinning with in our operations. Furthermore, to reduce dependency on traditional fuels, we are exploring various forms of waste to energy viz. micro dust from spinning is used in boiler, wastewater from washing straw which is rich in organic content is used to generate Biogas.
3. Responsible Disposal- Disposal of Hazardous waste, Biomedical waste, e-waste, and battery waste is done following all necessary compliances and guidelines. Hazardous waste and biomedical waste are handed over to TSDFs (Treatment, Storage, and Disposal Facilities) authorised by the State Pollution Control Board, and e-waste and battery waste are given to vendors authorised by the State Pollution Control Board.
4. Chemical Management- The company has a well-documented chemical management policy accessible to all stakeholders and supporting procedures on identification, procurement, storage and handling, transportation and traceability of chemicals which includes the following procedures:
 - a. Chemical Evaluation against requirements of RSL/MRSL prescribed in ZDHC and Oeko Tex STeP and furnishing documents viz. TDS, SDS, Certificate of Analysis, GOTS, REACH
 - b. The Chemical management system holds chemical manager responsible for performing chemical risk assessment when incorporating any new chemical
 - c. Wastewater standard- Ensuring effluent quality meet applicable standards for key parameters such as pH, suspended solids, BOD, COD, TDS, Heavy metals and toxic substances.

Daily testing of the ETP in-let water, ETP out-let water is conducted by in-house laboratory. A government-approved third-party agency performs monthly testing, and globally recognised laboratories like Hohenstein conduct annual tests based on the ZDHC wastewater guidelines.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

The above-mentioned requirement is not applicable to the Company as the Company does not have any of its operations/offices in/ around ecologically sensitive areas.

Business Responsibility & Sustainability Reporting (Contd.)

PRINCIPLE 9: Businesses should engage with and provide value to their consumers in a responsible manner

ESSENTIAL INDICATORS

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

The Company has integrated complaint management with its SAP system. The retail consumers can reach out through toll free contact number and common group email address. All the complaints are recorded through SAP system and intimates the concerned department over email. The department then evaluates the complaint and address through effective communication networks.

2. Turnover of products and/ services as a percentage of turnover from all products/service that carry information about:

	As a percentage to total turnover
Environmental and social parameters relevant to the product	100%
Safe and responsible usage	100%
Recycling and/or safe disposal	0

3. Number of consumer complaints in respect of the following:
