## SECTION B: MANAGEMENT AND PROCESS DISCLOSURES

This section is aimed at helping businesses demonstrate the structures, policies and processes put in place towards adopting the NGRBC Principles and Core Elements.

The National Voluntary Guidelines on Social, Environmental and Economic Responsibilities of Business (NVGs) released by the Ministry of Corporate Affairs has adopted nine areas of Business Responsibility. These briefly are as follows:

- P1 - Business should conduct and govern themselves with Ethics, Transparency and Accountability.
- P2 - Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle.
- P3 - Businesses should promote the wellbeing of all employees.
- P4 - Businesses should respect the interests of, and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalized.
- P5 - Businesses should respect and promote human rights.
- P6 - Business should respect, protect, and make efforts to restore the environment.
- P7 - Businesses, when engaged in influencing public and regulatory policy, should do so in a responsible manner.
- P8 - Businesses should support inclusive growth and equitable development.
- P9 - Businesses should engage with and provide value to their customers and consumers in a responsible manner.

| 11. Has the entity carried out independent assessment/ evaluation of the working of its policies by an external agency? (Yes/No). If yes, provide name of the agency. | Yes, assured by an independent agency (Ernst and Young Associates LLP). |        |        |        |        |        |        |        |        |
| 12. If answer to question (1) above is "No" i.e. not all Principles are covered by a policy, reasons to be stated:                                                    |                                                                         |        |        |        |        |        |        |        |        |
| The entity does not consider the Principles material to its business (Yes/No)                                                                                         |                                                                         |        |        |        |        |        |        |        |        |
| The entity is not at a stage where it is in a position to formulate and implement the policies on specified principles (Yes/No)                                       |                                                                         |        |        |        |        |        |        |        |        |
| The entity does not have the financial or/human and technical resources available for the task (Yes/No)                                                               | Not Applicable                                                          |        |        |        |        |        |        |        |        |
| It is planned to be done in the next financial year (Yes/No)                                                                                                          |                                                                         |        |        |        |        |        |        |        |        |
| Any other reason (please specify)                                                                                                                                     |                                                                         |        |        |        |        |        |        |        |        |

## SECTION C: PRINCIPLE WISE PERFORMANCE DISCLOSURE

This section is aimed at helping entities demonstrate their performance in integrating the Principles and Core Elements with key processes and decisions. The information sought is categorized as "Essential" and "Leadership". While the essential indicators are expected to be disclosed by every entity that is mandated to file this report, the leadership indicators may be voluntarily disclosed by entities which aspire to progress to a higher level in their quest to be socially, environmentally and ethically responsible.

### PRINCIPLE 1: Businesses should conduct and govern themselves with integrity, and in a manner that is Ethical, Transparent and Accountable

#### Essential Indicators:

#### 1. Percentage coverage by training and awareness programmes on any of the Principles during the financial year:

| Segment                           | Total number of training and awareness programmes held | Topics /principles covered under the training and its impact | % age of persons in respective category covered by the awareness programmes |
|-----------------------------------|--------------------------------------------------------|--------------------------------------------------------------|-----------------------------------------------------------------------------|
| Board of Directors ("BoDs")       | 1                                                      | All                                                          | 100                                                                         |
| Key Managerial Personnel ("KMPs") | 2                                                      | All                                                          | 100                                                                         |
| Employees other than BoD and KMPs | 5                                                      | All                                                          | 81                                                                          |
| Workers                           | 1                                                      | All                                                          | 100                                                                         |

#### 2. Details of fines / penalties /punishment/ award/ compounding fees/ settlement amount paid in proceedings (by the entity or by directors / KMPs) with regulators/ law enforcement agencies/ judicial institutions, in the financial year, in the following format:

(Note: the entity shall make disclosures on the basis of materiality as specified in Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and as disclosed on the entity's website):

| Monetary        |                                                                    |                   |                                        |
|-----------------|--------------------------------------------------------------------|-------------------|----------------------------------------|
| NGRBC Principle | Name of the regulatory enforcement agencies/ judicial institutions | Brief of the Case | Has an appeal been preferred? (Yes/No) |
| Penalty/ Fine   |                                                                    |                   |                                        |
| Settlement      |                                                                    | Nil               |                                        |
| Compounding fee |                                                                    |                   |                                        |

# Business Responsibility & Sustainability Report

| Non-Monetary |                 |                                                                    |                   |                                        |
|--------------|-----------------|--------------------------------------------------------------------|-------------------|----------------------------------------|
|              | NGRBC Principle | Name of the regulatory enforcement agencies/ judicial institutions | Brief of the Case | Has an appeal been preferred? (Yes/No) |
| Imprisonment |                 |                                                                    |                   |                                        |
| Punishment   |                 |                                                                    | Nil               |                                        |

- 3. Of the instances disclosed in Question 2 above, details of the Appeal/ Revision preferred in cases where monetary or non-monetary action has been appealed.**

| Case Details | Name of the regulatory/ enforcement agencies/ judicial institutions |
|--------------|---------------------------------------------------------------------|
|              | Not Applicable                                                      |

- 4. Does the entity have an anti-corruption or anti-bribery policy? If yes, provide details in brief and if available, provide a web-link to the policy.**

Yes. The policy is available on the Company's weblink - <https://www.ultratechcement.com/content/dam/ultratechcementwebsite/pdf/policies/anti-money-laundering-and-anti-bribery-and-corruption-policy-old.pdf>

It is applicable to all employees and sets out steps employees must take to avoid being implicated for money laundering and to prevent the Company's involvement in any activity relating to bribery, facilitation payments, or corruption, even where the involvement may be un-intentional.

- 5. Number of Directors/KMPs/employees/workers against whom disciplinary action was taken by any law enforcement agency for the charges of bribery/ corruption:**

| Monetary  | FY 2024-25 | FY 2023-24 |
|-----------|------------|------------|
| Directors | Nil        | Nil        |
| KMPs      |            |            |
| Employees |            |            |
| Workers   |            |            |

- 6. Details of complaints with regard to conflict of interest:**

|                                                                                              | FY 2024-25 |         | FY 2023-24 |         |
|----------------------------------------------------------------------------------------------|------------|---------|------------|---------|
|                                                                                              | Number     | Remarks | Number     | Remarks |
| Number of complaints received in relation to issues of Conflict of Interest of the Directors | Nil        |         | Nil        |         |
| Number of complaints received in relation to issues of Conflict of Interest of the KMPs      |            |         |            |         |

- 7. Provide details of any corrective action taken or underway on issues related to fines / penalties / action taken by regulators/ law enforcement agencies/ judicial institutions, on cases of corruption and conflicts of interest.**

Not Applicable.

- 8. Number of days of accounts payables ((Accounts payable \*365) / Cost of goods/services procured) in the following format:**

| Case Details                        | FY 2024-25 | FY 2023-24 |
|-------------------------------------|------------|------------|
| Number of days of accounts payables | 53.70      | 53.41      |

## 9. Open-ness of business

Provide details of concentration of purchases and sales with trading houses, dealers, and related parties along-with loans and advances & investments, with related parties, in the following format:

| Parameter                   | Metrics                                                                                  | FY 2024-25 | FY 2023-24 |
|-----------------------------|------------------------------------------------------------------------------------------|------------|------------|
| Concentration of Purchases* | a. Purchases from trading houses as % of total purchases                                 | 6.89%      | 2.12%      |
|                             | b. Number of trading houses where purchases are made from                                | 81         | 268        |
|                             | c. Purchases from top 10 trading houses as % of total purchases from trading houses      | 83%        | 92%        |
| Concentration of Sales*     | a. Sales to dealers / distributors as % of total sales                                   | 56%        | 58%        |
|                             | b. Number of dealers / distributors to whom sales are made                               | 39,973     | 34,971     |
|                             | c. Sales to top 10 dealers / distributors as % of total sales to dealers / distributors  | 2.45%      | 2.72%      |
| Share of RPTs in            | a. Purchases (Purchases with related parties / Total Purchases)                          | 1.48%      | 0.28%      |
|                             | b. Sales (Sales to related parties / Total Sales)                                        | 0.07%      | 0.03%      |
|                             | c. Loans & advances (Loans & advances given to related parties / Total loans & advances) | 0.03%      | 0.23%      |
|                             | d. Investments (Investments in related parties / Total Investments made)                 | 5.82%      | 11.75%     |

### Leadership Indicators:

#### 1. Awareness programmes conducted for value chain partners on any of the Principles during the financial year:

| Total number of awareness programmes held | Topics / principles covered under the training                                                                                                                                                                                                                                                                                                                                                                                                                                                      | % age of value chain partners covered (by value of business done with such partners) under the awareness programmes |
|-------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------|
| ~1,65,564                                 | Good construction practices, site demonstration on efficient usage of cement and other building products, benefits of the Company's GreenPro certified cement and products, plant visits showcasing the quality assurance / quality control measures, sustainability initiatives taken during cement manufacturing, etc. Various aspects of green home construction like GreenPro certified products, home plans for better light and ventilations, Green practices like rainwater harvesting, etc. | 38-40                                                                                                               |

#### 2. Does the entity have processes in place to avoid/ manage conflict of interests involving members of the Board? (Yes/No) If Yes, provide details of the same.

Yes, the Company has a code of conduct for the Board and Senior Management pursuant to the provisions of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations").

Further, the Board Members and KMPs confirm, at the beginning of every financial year and as and when there is any change in such interest, that there was no material, financial and commercial transactions with the Company, where they have interest that may have any potential conflict. The Directors do not participate in agenda items at the Board/ Committee meetings in which they are interested or deemed to be interested.

# Business Responsibility & Sustainability Report

## PRINCIPLE 2: Businesses should provide goods and services in a manner that is sustainable and safe

### Essential Indicators

- Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.**

|       | FY 2024-25 | FY 2023-24 | Details of improvements in environmental and social impacts                                                                                                                           |
|-------|------------|------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| R&D   | 48.07      | 39.37      | Green concrete, low water requirement concrete, improvement in energy efficiency, and others.                                                                                         |
| Capex | 8.10       | 2.44       | Energy efficiency, waste heat recovery, renewable energy, air emission control, alternative fuel handling systems, rainwater harvesting, STP instalments and enhanced safety systems. |

- Does the entity have procedures in place for sustainable sourcing? (Yes/No)-** Yes
  - If yes, what percentage of inputs were sourced sustainably? –** 31%

- Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.**

The Company is following prescribed guidelines by CPCB/MOEF for disposing/end of life of plastic bags being used for packaging of cement. We are co-processing plastic waste in our cement kilns for safe disposal in environment friendly manner.

- Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.**

Yes, Extended Producer Responsibility (EPR) is applicable to the Company. The waste collection plan is in line with the EPR plan submitted to concerned authorities.

### Leadership Indicators

- Has the entity conducted Life Cycle Perspective / Assessments (LCA) for any of its products (for manufacturing industry) or for its services (for service industry)? If yes, provide details in the following format:**

| NIC Code | Name of product/ service                                                                    | % of total Turnover contributed | Boundary for which the Life Cycle Perspective / Assessment was conducted | Whether conducted by independent external agency | Details of improvements in environmental and social impacts                                                                                                                                             |
|----------|---------------------------------------------------------------------------------------------|---------------------------------|--------------------------------------------------------------------------|--------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2394     | Ordinary Portland Cement, Portland Pozzolana Cement, Portland Slag Cement, Composite Cement | 96.88                           | Cradle-to-Gate                                                           | Yes                                              | <a href="https://api.environdec.com/api/v1/EPDLibrary/Files/f23f7e4e-486b-4dd4-acff-08da599e304a/Data">https://api.environdec.com/api/v1/EPDLibrary/Files/f23f7e4e-486b-4dd4-acff-08da599e304a/Data</a> |

2. If there are any significant social or environmental concerns and/or risks arising from production or disposal of your products / services, as identified in the Life Cycle Perspective / Assessments (LCA) or through any other means, briefly describe the same along with action taken to mitigate the same.

| Name of product/ Service                                                                              | Description of the risk/ concern                                                                                                                  | Action Taken                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|-------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Ordinary Portland Cement, Portland Pozzolana Cement, Portland Slag Cement, Portland Composite Cement. | <ul style="list-style-type: none"> <li>Abiotic depletion elements and fossils.</li> <li>Global warming potential – high GHG emissions.</li> </ul> | <ul style="list-style-type: none"> <li>Use of alternative fuels and raw materials, including waste and recycled materials to reduce dependence on natural resources.</li> <li>Transition to renewable energy and recovery of waste heat to produce power and reducing dependence on thermal power plants.</li> <li>Low carbon products - reducing clinker content in cement.</li> <li>Investment in R&amp;D for technological advancements to achieve carbon neutrality.</li> </ul> |

3. Percentage of recycled or reused input material to total material (by value) used in production (for manufacturing industry) or providing services (for service industry).

| Indicate input material                                                        | Recycled or re-used input material to total material |            |
|--------------------------------------------------------------------------------|------------------------------------------------------|------------|
|                                                                                | FY 2024-25                                           | FY 2023-24 |
| Recycled and reused material from alumina and steel industry and other sources | 21.73                                                | 20.85      |

4. Of the products and packaging reclaimed at end of life of products, amount (in metric tonnes) reused, recycled, and safely disposed, as per the following format:

|                                | FY 2024-25     |          |                 | FY 2023-24     |          |                 |
|--------------------------------|----------------|----------|-----------------|----------------|----------|-----------------|
|                                | Re-used        | Recycled | Safely disposed | Re-used        | Recycled | Safely disposed |
| Plastics (Including packaging) | Nil            | Nil      | 1,36,000        | Nil            | Nil      | 1,26,883        |
| E-waste                        | Not Applicable |          |                 | Not Applicable |          |                 |
| Hazardous waste                |                |          |                 |                |          |                 |
| Other Waste                    |                |          |                 |                |          |                 |

5. Reclaimed products and their packaging materials (as percentage of products sold) for each product category.

| Indicate product category | Reclaimed products and their packaging materials as % of total products sold in respective category |
|---------------------------|-----------------------------------------------------------------------------------------------------|
|                           | Not Applicable                                                                                      |

# Business Responsibility & Sustainability Report

**PRINCIPLE 3: Businesses should respect and promote the well-being of all employees, including those in their value chains.**

## Essential Indicators

### 1. a. Details of measures for the well-being of employees:

| Category                       | % of employees* covered by |                  |         |                    |         |                    |         |                    |         |                     |         |

## 10. Health and safety management system:

- a. Whether an occupational health and safety management system has been implemented by the entity?  
(Yes/ No). If yes, the coverage such system?

Yes. The Company has established, implemented and maintained an occupational health and safety management system as outlined in ISO 45001. All Units have been certified except for a few recently acquired Units.

- b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

The Company has established a comprehensive standard on Hazard Identification and Risk Assessment ("HIRA"). All Units form a cross-functional team of trained employees and experienced workers that identifies each activity-wise (both routine and non-routine) hazards, assesses associated risks considering exposure, severity and probability and formulates control measures based on the significance of the risks. UltraTech follows hierarchy of control in the following order to reduce the risk to As Low As Reasonably Practicable ("ALARP") level: elimination, substitution, engineering control, administrative control and Personal Protective Equipment ("PPE"). In addition, for critical jobs requiring permit to work, detailed Safe Work Procedure ("SWP") is made and followed.

- c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Y/N)

Yes. Workers are encouraged to report work-related hazards during conduct of HIRA, before start of activity during Tool-Box Talk ("TBT"), Contractor Connect Initiative ("CCI") as well as during Unit safety committee meeting. Moreover, UltraTech has put in place a system of raising safety-related concerns by workers through a dedicated safety toll-free No. while keeping the identity of the caller anonymous.

Every safety related issue raised by workers is addressed without undue delay. Workers are also empowered not to engage in any activity if they consider the same is not safe through a system of "60 seconds to think" wherein unless answer to all the seven well thought-out checkpoints are "yes", they can decline to do that activity.

- d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services?  
(Yes/ No)

Yes. Doctors and other health care service providers are there at Units to cater to the medical needs of employees and workers.

# Business Responsibility & Sustainability Report

## 11. Details of safety related incidents, in the following format:

| Safety Incident/Number                                                        | Category* | FY 2024-25 | FY 2023-24 |
|-------------------------------------------------------------------------------|-----------|------------|------------|
| Lost Time Injury Frequency Rate (LTIFR) (per one million-person hours worked) | Employees | 0.21       | 0.12       |
|                                                                               | Workers   | 0.19       | 0.07       |
| Total recordable work-related injuries                                        | Employees | 15         | 11         |
|                                                                               | Workers   | 77         | 44         |
| No. of fatalities                                                             | Employees | 2          | 0          |
|                                                                               | Workers   | 6          | 5          |
| High consequence work-related injury or ill-health (excluding fatalities)     | Employees | 9          | 5          |
|                                                                               | Workers   | 38         | 15         |

\*Including the contract workforce, excluding third-party.

## 12. Describe the measures taken by the entity to ensure a safe and healthy work place.

The Company has been striving relentlessly to take safety, a non-negotiable aspect of the business, to the next higher level of maturity and realize organizational goal of "zero harm."

In line with the well-proven Plan-Do-Check-Act ("PDCA") cycle, substantial endeavors have been put to continually improve Company's safety culture. Right from preparing a meticulous plan, putting emphasis on implementation, reviewing and tracking progress of decided actions to chart out next course of action- there have been numerous initiatives.

As far as governance is concerned, OH&S board chaired by Managing Director reviews overall effectiveness of safety management system once in every two months. In addition, eight different subcommittees headed by Manufacturing Cluster Heads and Corporate Function Heads at board-level and six subcommittees at unit-level headed by Unit Heads have been functioning to strengthen various important elements of safety and reviewing effectiveness periodically.

Company has taken a lot of digital initiatives too. For example: mySetu, the safety management portal is there for improving convenience and effectiveness in reporting and analysis of various safety related information and data. Online Permit To Work (PTW) system is in place for performing hazardous activities.

Chetna - A generative AI assistant is available for safety data (safety observations, walk-through inspections and incidents) analysis. With the help of Power BI dashboard, departments can get insights related to causes and suggested actions along with trends.

For details, please refer to the safety section of Management Discussion and Analysis (MDA).

## 13. Number of Complaints on the following made by employees and workers:

| Category           | FY 2024-25            |                                       |         | FY 2023-24            |                                       |         |
|--------------------|-----------------------|---------------------------------------|---------|-----------------------|---------------------------------------|---------|
|                    | Filed during the year | Pending resolution at the end of year | Remarks | Filed during the year | Pending resolution at the end of year | Remarks |
| Working Conditions | 0                     | 0                                     | -       | 55                    | 2                                     | -       |
| Health & Safety    | 57                    | 0                                     | -       | 27                    | 5                                     | -       |

#### 14. Assessments for the year:

|                             | % of your plants and offices that were assessed<br>(by entity or statutory authorities or third parties) |
|-----------------------------|----------------------------------------------------------------------------------------------------------|
| Health and safety practices | 100% by the Company, 50% by third party                                                                  |
| Working Conditions          | 100% by the Company, 50% by third party                                                                  |

#### 15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks / concerns arising from assessments of health & safety practices and working conditions.

For prevention of recurrence of similar incidents, lessons learnt through those are circulated across all Units through Red Corner Notice (RCN) and Black Corner Notice (BCN) followed by periodic review of progress on compliance of recommended corrective and preventive actions. In addition, crisp animated incident learning videos have been made available in English, Hindi and local languages to sensitize employees and contract workers about serious incidents and their negative impact.

"Risk-e-thon" driven at all manufacturing locations to identify and mitigate risks. Mandatory morning rounds by employees institutionalized to increase field presence. Rectification of identified gaps if any is done and implementation tracked through CAPA (corrective and preventive action) module.

Apart from HIRA, detailed SWP is made and followed for critical jobs requiring permit to work.

In order to unearth unsafe conditions at workplaces, discrepancies are identified and reported through walk through inspection ("WTI") process with the help of comprehensive check-list. Identified gaps are rectified.

With an objective to identify unsafe acts/ behaviors of people and set those right through instant intervention, safety behavior observation- a six step process is conducted at Units.

Third Party Safety Audit ("TPSA") is conducted at selected Units by independent expert agency to evaluate degree of compliance with critical safety standards. Audit reports are shared with Units and implementation of corrective actions is monitored.

Second Party Safety Audit ("SPSA") is conducted at all remaining Units by trained employees of other Units and appropriate corrective actions are taken against reported deficiencies. Trained employees of all Units carry out First Party Safety Audit ("FPSA") using pre-defined protocol.

In addition, periodic structural stability assessments are done at Units by experts/ trained assessors and identified deficiencies get rectified.

Training for Safety leadership, Standard Champions, Structural stability assessment, Safety auditors, Process Safety Management ("PSM"), Incident investigation, VR-enabled safety training, e-learning on critical high-risk activities, safety induction, display of pictorial SOPs on high-risk activities etc. are organized to build competence.

#### Leadership Indicators

##### 1. Does the entity extend any life insurance or any compensatory package in the event of death of (A) Employees (Y/N) (B) Workers (Y/N).

(A) Employees - (Y) (B) Workers - (Y).

##### 2. Provide the measures undertaken by the entity to ensure that statutory dues have been deducted and deposited by the value chain partners.

The Company conducts regular structured audits for compliance. Also, monthly bills of the contractor are scrutinized through a well-defined check list to detect any non-compliance.

# Business Responsibility & Sustainability Report

## 3. Provide the number of employees / workers having suffered high consequence work-related injury / ill-health / fatalities (as reported in Q11 of Essential Indicators above), who have been are rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment:

|           | Total no. of affected employees/ workers   |                          | No. of employees/workers that are rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment                             |                                                                                                                                                                                                       |
|-----------|--------------------------------------------|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|           | FY 2024-25*                                | FY 2023-24*              | FY 2024-25*                                                                                                                                                                   | FY 2023-24*                                                                                                                                                                                           |
| Employees | - 2 Fatality<br>- 9 Lost Work Case ("LWC") | - 0 Fatality<br>- 5 LWC  | Fatalities: Compensation given to family members of both the deceased.<br>LWC: All LWC injured person resumed duty.                                                           | LWC - all injured person resumed to duty.                                                                                                                                                             |
| Workers   | - 6 Fatality<br>- 38 LWC                   | - 5 fatality<br>- 15 LWC | Fatalities: Compensation given to family members of all 6 deceased.<br>Suitable employment provided to deceased of 2 workers.<br>LWC: All LWC injured person resumed to duty. | Fatalities - 3 cases: compensation paid and employment provided to legal heirs of respective deceased persons.<br>2 cases: compensation paid to the family.<br>LWC - all injured person resumed duty. |

\*Including contract workmen and excluding third party.

## 4. Does the entity provide transition assistance programs to facilitate continued employability and the management of career endings resulting from retirement or termination of employment? (Yes/No)

As an organization, your Company eases employees' retirement process by providing retirement planning support. Retiring employees can give their preference of location to settle down post-retirement and the goods transportation for the employees is undertaken in terms of the mobility policy. However, programs to facilitate continued employability is not a part of this support.

## 5. Details on assessment of value chain partners

|                             | % of value chain partners (by value of business done with such partners) that were assessed           |
|-----------------------------|-------------------------------------------------------------------------------------------------------|
| Health and safety practices | Around 75% contractors- through Pre-qualification (PQ) score & Contractor Filed Safety Audit ("CFSA") |
| Working Conditions          |                                                                                                       |

## 6. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from assessments of health and safety practices and working conditions of value chain partners

- Contractor Safety Management: Contracts are awarded based on evaluation of PQ score. All contract workers mandatorily undergo safety induction prior to be deployed at work. Their safety performance is periodically checked through CFSA and is measured by Severity Index (S.I.). Contractors with S.I. greater than 1.5 are counselled and those found with serious violations are penalized.
- Contractor Connect Initiative (CCI): Live work being executed by contractual workmen at various Units are reviewed by Heads of other Units through on-line interaction. Gaps identified are closed. Progressive Consequence Management (PCM) actions are applied against unsafe acts as well as persons are rewarded in appreciation of their positive safety behavior.

- In line with “mentor-mentee” concept, all workers across Company Units have been aligned to executives in 1:5 ratios to closely work on improving safety behaviors.
- Safety Incubation Centers (SIC) established at 7 Units – Awarpur & Manikgarh, Maihar, Rajashree, Andhra Pradesh Cement Works, Nathdwara & Hirni to improve behavioral safety of front-line employees and contract workers. Through this, they have been sensitized through communicating about what negative impact they might have to face in terms of injury/ illness if they don’t follow laid down safety norms.
- VR-enabled safety training on 44 modules imparted across Units along with driver safety training module in Hindi.
- Safety toll free number: To make each employee /contract workers aware that they can act as whistle blowers to save lives, an exclusive safety toll free number is available 24 X 7. This acts as an effective deterrent against engaging in high risk activities without taking requisite safety precautions. The concerns voiced are addressed keeping the caller’s identity anonymous.
- PRATIBIMB 2.0: Zone owners of Units are connected with COOs through on-line sessions to review their risk perception with an aim for risk perception improvement, discussion on repeated findings and establishing emotional and behavioral safety connect with their safety ambassadors and mentees.

#### PRINCIPLE 4: Businesses should respect the interests of and be responsive to all its stakeholders

##### Essential Indicators

##### 1. Describe the processes for identifying key stakeholder groups of the entity.

- Please refer to the Stakeholder Engagement section forming part of this Report.

##### 2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

| Stakeholder Group                 | Whether identified as Vulnerable & Marginalized Group (Yes/No) | Channels of Communication (Email, SMS, Newspaper, Pamphlets, Advertisement, Community Meetings, Notice Board, Website) other                                                                                       | Frequency of Engagement (Annual / Half Yearly / Quarterly / Others – Please specify) | Purpose and Scope of engagement including key topics and concerns raised during such engagement                                                                 |

| Community                             | Yes                                                            | <ul style="list-style-type: none"> <li>- Community meetings</li> <li>- Need assessment, baseline, impact assessment and other studies</li> <li>- Trainings and workshops</li> </ul> | Periodic /Ongoing                                                                    | Support the stakeholder/ communities by empowerment and capability enhancement through projects/ programmes on education, health, sustainable livelihood , need based infrastructure and Social Causes |
| Customers                             | Yes                                                            | <ul style="list-style-type: none"> <li>- Company website</li> <li>- Product Campaigns</li> <li>- Surveys</li> <li>- Grievance Redressal</li> </ul>                                  | Periodic                                                                             | Evaluating satisfaction level of customers using Net Promoter Score (NPS) methodology. Understanding customer preference, and shift in awareness.                                                      |
| Suppliers and Contractors             | Yes                                                            | <ul style="list-style-type: none"> <li>- Review Meetings</li> <li>- Vendor Interactions</li> <li>- Performance reports</li> <li>- Feedback and grievance forms</li> </ul>           | Periodic                                                                             | Engagement with suppliers and contractors by adhering to the supply chain code of conduct, thereby developing long-term business relationships and mitigating supply chain risks.                      |

## Leadership Indicators

### 1. **Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.**

The Company's Mission - To deliver superior value to the stakeholders on the four pillars of:

Sustainability | Innovation | Team Empowerment | Customer Centricity.

As a step in this direction, the Company engages with stakeholders as on ongoing process - be it investors; lenders; analysts; shareholders; employees; customers; suppliers and other channel partners.

This enables the Company to feel the pulse of stakeholders, their expectations and aspirations. Feedback received during interactions with stakeholders are deliberated by the management team and implemented, where appropriate.

The Board and relevant Committees are briefed about the interactions with the stakeholders and action implemented.

### 2. **Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.**

Stakeholders form an integral part of the Company's business. Consultations are in the form of investor meetings; employee engagement; vendor / dealer meets; inter-action with host communities; training programs, among others.

The Company is committed to driving sustainability. It is focusing on reducing the carbon emissions by a number of ways. The decarbonisation framework includes driving efficiency improvements, introducing new technologies for reducing carbon footprint, using alternative energy, recovering waste heat, increasing renewables in the energy mix, introducing green product continuously in the portfolio, adopting circularity, reducing water usage and improving biodiversity. It also has effective community management and human rights management.

The Company benchmarks its sustainability practices with global players through Global Cement and Concrete Association ("GCCA"). As the founding member of the GCCA, the Company has played a pivotal role in launching GCCA's India operations and exploring the new technology adoption possibilities.

The Company undertakes its social initiatives under the aegis of The Aditya Birla Centre for Community Initiatives and Rural Development, under the able leadership of Mrs. Rajashree Birla. The key focus areas are education, healthcare, women-empowerment, sustainable livelihood, infrastructure and social reform.

It follows a bottom-up approach for all social projects. All projects are planned in consultation with the community. The process involves interacting with them and understanding their challenges and issues. We interact with village panchayats and prepare a list of requirements based on in-depth focused discussions. Implementation and monitoring of a project is a mutual responsibility of the community and the team. Regular community stakeholder meetings are held to ensure appropriate implementation process is followed. Once the project achieves a status of self-sustenance, ownership is transferred to the villagers. This transfer of responsibility ensures a culture of empowerment and self-reliance.

# Business Responsibility & Sustainability Report

## 3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

The Corporate Social Responsibility ("CSR") projects of the Company aim to focus on a social transformation in the life of its disadvantaged, vulnerable and marginalised stakeholders. The Company ensures that the CSR funds are utilised in an optimum manner that uplifts the weaker sections of the society.

The Company works towards overall development of the way of life of the communities around its Units, most of which are in distant rural areas and tribal belts. It reaches out to more than 1.8 million people across 500 villages spanning 16 states.

It works to actively contribute to the social and economic development of communities in which it operates. The details of projects undertaken under CSR activities towards vulnerable / marginalised stakeholder groups are provided in the Social Report section of this Report.

## PRINCIPLE 5: Businesses should respect and promote human rights

### Essential Indicators

#### 1. Employees and workers who have been provided training on human rights issues and policy(ies) of the entity, in the following format:

| Category               | FY 2024-2025  |                                       |            | FY 2023-2024  |                                        |          |
|------------------------|---------------|---------------------------------------|------------|---------------|----------------------------------------|----------|
|                        | Total (A)     | No. of employee / workers covered (B) | % (B/A)    | Total (C)     | No. of employees / workers Covered (D) | % (D/C)  |
| <b>Employees</b>       |               |                                       |            |               |                                        |          |
| Permanent              | 21,456        | 1,386                                 | 6.5        | 17,917        | -                                      | -        |
| Other than permanent   | 7,128         | 21                                    | 0.3        | 6,304         | -                                      | -        |
| <b>Total Employees</b> | <b>28,584</b> | <b>1,407</b>                          | <b>4.9</b> | <b>24,221</b> | <b>-</b>                               | <b>-</b> |
| <b>Workers</b>         |               |                                       |            |               |                                        |          |
| Permanent              | 6,474         | 333                                   | 5.1        | 5,753         | -                                      | -        |
| Other permanent        | 55,109        | 1,145                                 | 2.1        | 53,130        | -                                      | -        |
| <b>Total Workers</b>   | <b>61,583</b> | <b>1,478</b>                          | <b>2.4</b> | <b>58,883</b> | <b>-</b>                               | <b>-</b> |

## 2. Details of minimum wages paid to employees and workers, in the following format:

| Category <sup>#</sup> | FY 2024-25 |                       |         |                        |         | FY 2023-24 |                       |         |                        |         |

|                                  | Number | Median remuneration/ salary/ wages of respective category | Number | Median remuneration/ salary/ wages of respective category |
| Board of Directors (BoD)*        | 6      | ₹ 65,00,000                                               | 4      | ₹ 1,12,50,000                                             |
| Key Managerial Personnel (KMP)** | 4      | ₹ 1,38,71,441                                             | -      | -                                                         |
| Employees other than BoD and KMP | 18,449 | ₹ 9,80,000                                                | 1,338  | ₹ 6,95,217                                                |
| Workers                          | 5,877  | ₹ 5,74,107                                                | 20     | ₹ 3,37,004                                                |

<sup>#</sup> Data specific to India.

\* Excludes 2 Executive Directors.

\*\* Includes 2 Executive Directors, Chief Financial Officer and Company Secretary.

### b. Gross wages paid to females as % of total wages paid by the entity, in the following format:

|                                                 | FY 2024-25 | FY 2023-24 |
|-------------------------------------------------|------------|------------|
| Gross wages paid to females as % of total wages | 4.06       | 3.91       |

# Business Responsibility & Sustainability Report

**4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)- Yes.**

**5. Describe the internal mechanisms in place to redress grievances related to human rights issues.**

The Company is committed to providing a safe and conducive work environment to its employees and workers. Employees are encouraged to share their concerns with their reporting managers and also reach out to the Human Resource department for the same. The Code of Conduct for Employees and the Whistle Blower Policy allows employees to report any kind of suspected or actual misconduct in the Company in an anonymous manner.

**6. Number of Complaints on the following made by employees and workers:**

|                                   | FY 2024-25            |                                       |                     | FY 2023-24            |                                       |                                 |
|-----------------------------------|-----------------------|---------------------------------------|---------------------|-----------------------|---------------------------------------|---------------------------------|
|                                   | Filed during the year | Pending resolution at the end of year | Remarks             | Filed during the year | Pending resolution at the end of year | Remarks                         |

| Other human rights related issues | -                     | -                                     | -                   | -                     | -                                     | -                               |

**7. Complaints filed under the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, in the following format:**

|                                                                                                                                  | FY 2024-25 | FY 2023-24 |
|----------------------------------------------------------------------------------------------------------------------------------|------------|------------|
| Total Complaints reported under Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (POSH) | 6          | 11         |
| Complaints on POSH as a % of female employees / workers                                                                          | 0.19       | 0.94       |
| Complaints on POSH upheld                                                                                                        | 6          | 9          |

**8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.**

- POSH Committee
- Employee Relations Aapke Dwar
- Tool box talk
- Shop Floor Committee meeting
- Monthly meeting with Union

Provisions of the POSH Act 2013 are rigorously implemented to safeguard the complainants from any adverse consequences in matters of sexual harassment. Some examples are – Interim relief to the complainant, restraining order issuance to the respondent (if needed), emphasis on the status of Internal Committee as a quasi-judicial body etc.

**9. Do human rights requirements form part of your business agreements and contracts? (Yes/No)**

- Yes.

## 10. Assessments for the year:

|                             | % of your plants and offices that were assessed<br>(by entity or statutory authorities or third parties) |
|-----------------------------|----------------------------------------------------------------------------------------------------------|
| Child labour                | 100                                                                                                      |
| Forced/involuntary labour   | 100                                                                                                      |
| Sexual harassment           | 100                                                                                                      |
| Discrimination at workplace | 100                                                                                                      |
| Wages                       | 100                                                                                                      |

## 11. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 10 above.

- Regular education, awareness and training.

## Leadership Indicators

### 1. Details of a business process being modified / introduced as a result of addressing human rights grievances/ complaints.

- Implementation and Adherence of Human Resource Policy.
- 'Xpedite' – online grievances handling tool for workmen at shopfloor.

### 2. Details of the scope and coverage of any Human rights due-diligence conducted.

Human Rights due diligence covered all facets of human rights which provides discrimination against caste, prohibiting child labour, extra forceful working hours, among others.

### 3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

- Yes, operations and office premises are accessible to differently abled employees and workers.

### 4. Details on assessment of value chain partners:

|                                  | % of value chain partners (by value of business done with such partners)<br>that were assessed |
|----------------------------------|------------------------------------------------------------------------------------------------|
| Sexual Harassment                | 100                                                                                            |
| Discrimination at workplace      | 100                                                                                            |
| Child Labour                     | 100                                                                                            |
| Forced Labour/Involuntary Labour | 100                                                                                            |
| Wages                            | 100                                                                                            |

### 5. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 4 above.

Implementation and adherence of Human Rights Policy.

# Business Responsibility & Sustainability Report

## PRINCIPLE 6: Businesses should respect and make efforts to protect and restore the environment

### Essential Indicators

#### 1. Details of total energy consumption (in Joules or multiples) and energy intensity, in the following format:

| Parameter                                                                                                                                                            | FY 2024-25         | FY 2023-24         |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------|--------------------|
| <b>From renewable sources (TJ)</b>                                                                                                                                   |                    |                    |
| Total electricity consumption (A)                                                                                                                                    | 4,075.20           | 2,132.78           |
| Total fuel consumption (B)                                                                                                                                           | 5,493.00           | 5,725.00           |
| Energy consumption through other sources (C)                                                                                                                         | -                  | -                  |
| <b>Total energy consumed from renewable sources (A+B+C)</b>                                                                                                          | <b>9,568.20</b>    | <b>7,857.78</b>    |
| <b>From non-renewable sources (TJ)</b>                                                                                                                               |                    |                    |
| Total electricity consumption (D)                                                                                                                                    | 9,894.06           | 14,725.04          |
| Total fuel consumption (E)                                                                                                                                           | 3,37,702.51        | 2,97,367.74        |
| Energy consumption through other sources (F)                                                                                                                         | -                  | -                  |
| <b>Total energy consumed from non- renewable sources (D+E+F) (TJ)</b>                                                                                                | <b>3,47,596.57</b> | <b>3,12,092.78</b> |
| <b>Total energy consumed (A+B+C+D+E+F) (TJ)</b>                                                                                                                      | <b>3,57,164.77</b> | <b>3,19,950.56</b> |
| <b>Energy intensity per rupee of turnover</b> (Total energy consumed / Revenue from operations) (kJ/rupee)                                                           | <b>470.23</b>      | <b>451.22</b>      |
| <b>Energy intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP)</b> (Total energy consumed / Revenue from operations adjusted for PPP) (MJ/USD) | <b>9.71</b>        | <b>10.00</b>       |
| <b>Energy intensity in terms of physical output (TJ/tonne of cementitious)</b>                                                                                       | <b>0.00262</b>     | <b>0.00270</b>     |

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. Yes, BDO India LLP.

#### 2. Does the entity have any sites / facilities identified as Designated Consumers ("DCs") under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

Over the past years, 49 manufacturing units, including integrated and grinding units, have been designated as DCs under various rolling PAT cycles. This year, none of the UTCL DCs underwent Measurement & Verification (M&V), marking the end of a three-year PAT cycle (across all cement industry).

On 28<sup>th</sup> June, 2023, the Government of India, under section 14 of the EC Act 2001, issued S.O.2825(E), mandating several sectors, including cement, to migrate to the Carbon Credit Trading Scheme (CCTS), marking a significant change/shift in regulatory landscape. Consequently, baseline audits were conducted for all existing DCs, setting targets based on Greenhouse Gas Emission Intensity (GEI) rather than the previous Gate to Gate Energy Consumption (GTG) used in the PAT scheme.

Further, energy saving initiatives were identified during energy audits and their progress is monitored quarterly and annually.

**3. Provide details of the following disclosures related to water, in the following format:**

| Parameter                                                                                                                                  | FY 2024-25         | FY 2023-24         |
|--------------------------------------------------------------------------------------------------------------------------------------------|--------------------|--------------------|
| <b>Water withdrawal by source (in kilolitres)</b>                                                                                          |                    |                    |
| (i) Surface water                                                                                                                          | 40,81,714          | 50,44,121          |

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. Yes, BDO India LLP.

In some of the manufacturing locations there is no access to river/surface water, while we have increased the production (brown field expansion) the requirement is met through ground water.

To counter the same, we will be taking water from our exhausted mine pit in due course of time thus lowering our dependence on ground water.

**4. Provide the following details related to water discharged:**

| Parameter                                                                    | FY 2024-25 | FY 2023-24 |
|------------------------------------------------------------------------------|------------|------------|
| <b>Water discharge by destination and level of treatment (in kilolitres)</b> |            |            |

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. Yes, BDO India LLP.

# Business Responsibility & Sustainability Report

## 5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Yes, mechanism for zero liquid discharge is implemented at 100% cement manufacturing units and bulk terminals.

## 6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

| Parameter               | Please specify unit | FY 2024-25 | FY 2023-24 |
|-------------------------|---------------------|------------|------------|
| NOx                     | Tonnes              | 92,709.30  | 91,993.86  |
| SOx                     | Tonnes              | 28,633.96  | 29,333.00  |
| Particulate matter (PM) | Tonnes              | 8,336.53   | 8,126.00   |
| <b>Mercury*</b>         | Tonnes              | BDL        | -          |

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. Yes, BDO India LLP

\*We have carried out periodic inspection at our facilities as per USEPA-29 testing protocol. At all places Mercury emissions are found Below Detection Limit (BDL)

## 7. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:

| Parameter                                                                                                                                                                                                    | Unit                                               | FY 2024-25     | FY 2023-24     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------|----------------|----------------|
| <b>Total Scope 1 emissions*</b> (Break-up of the GHG into CO <sub>2</sub> , CH <sub>4</sub> , N <sub>2</sub> O, HFCs, PFCs, SF <sub>6</sub> , NF <sub>3</sub> , if available)                                | Metric tonnes of CO <sub>2</sub>                   | 8,11,07,852.00 | 7,12,37,860.00 |
| <b>Total Scope 2 emissions</b> (Break-up of the GHG into CO <sub>2</sub> , CH <sub>4</sub> , N <sub>2</sub> O, HFCs, PFCs, SF <sub>6</sub> , NF <sub>3</sub> , if available)                                 | Metric tonnes of CO <sub>2</sub>                   | 18,84,213.56   | 18,84,386.58   |
| <b>Total Scope 1 and Scope 2 emission intensity per rupee of turnover</b><br>(Total Scope 1 and Scope 2 GHG emissions / Revenue from operations)                                                             | Kg CO <sub>2</sub> /₹                              | 0.109          | 0.103          |
| <b>Total Scope 1 and Scope 2 emission intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP)</b><br>(Total Scope 1 and Scope 2 GHG emissions / Revenue from operations adjusted for PPP) | kg CO <sub>2</sub> /USD                            | 2.257          | 2.286          |
| <b>Total Scope 1 and Scope 2 emission intensity in terms of physical output</b>                                                                                                                              | kg CO <sub>2</sub> /tonne of cementitious material | 609.08         | 618.17         |

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. Yes, BDO India LLP.

Scope 1 have increased due to increased production which is in line with the growth aspirations of the Company but however, intensity in terms of physical output (production) has been reduced significantly.

\*Reporting criteria derived from GHG Protocol and GCCA's Cement CO<sub>2</sub> and Energy Protocol, Version 3.1.

## 8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

The Company has targets to reduce 27% of its Scope 1 emission intensity and 69% of its Scope 2 emission intensity by 2032 from base year 2017, validated by Science Based Targets initiative (SBTi). Under the GHG emission reduction initiatives, Company has implemented various projects in areas of energy efficiency, circular economy, low carbon products development, renewable energy and waste heat recovery and is exploring other technological advancements including kiln electrification, electrolysis of limestone [Zero Carbon Lime (ZeroCAL)], carbon capture and storage.

In addition to Coolbrook, we have signed an agreement with University of California, Los Angeles (UCLA) to pilot ZeroCAL. The ZeroCAL process can eliminate nearly 98% of carbon dioxide emissions associated with limestone decomposition in cement manufacturing. UltraTech will be the first company globally to implement the ZeroCAL process at scale through a demonstration plant that will produce several metric tons of ZeroCAL per day. The Company's partnership with University of California, Los Angeles (UCLA) aligns with its broader sustainability goals "Net Zero Goal by 2050" and its focus on developing and adopting innovative technologies to decarbonize its operations.

The ZeroCAL process, which can be integrated with existing cement plants, uses limestone feedstock to produce calcium hydroxide, which emits no carbon dioxide when heated to produce lime required for manufacturing cement. In the existing cement production process, the calcination of limestone in the preheater causes carbon dioxide to be released in the atmosphere. The ZeroCAL process produces calcium hydroxide by electrochemically decomposing limestone in water without resulting in carbon dioxide emission.

The Company has participated with The Department of Science and Technology (DST), Ministry of Science and Technology's Special Call Under Climate, Energy, and Sustainable Technology (CEST) for Carbon Capture Utilization (CCU) deployment in Cement Sector and partnered with IIT Madras and BITS Pilani K K Birla Goa as the knowledge partners to develop indigenous CCU-based technology for decarbonization of the Indian cement industry. As an industrial partner, the Company will contribute 25% of the total project cost and assist in setting up and implementing a prototype at one of its cement manufacturing plants. The project aims to establish a carbon capture plant with 1 TPD capture capacity, integrated with an existing cement plant, and mineralization and curing strategies to utilize the captured CO<sub>2</sub>.

The Company is also engaging with various start-ups through the GCCA Innovation Challenge program. We have joined several industry consortiums to explore and pilot new technologies to accelerate our decarbonisation journey through carbon capture, utilisation and development of alternative Supplementary Cementing Materials (SCMs), as well as alternative calcination technologies and processes.

The Company's scientists at the research and development centre are continuously working to develop low-carbon cement and concrete products, including water-saving solutions.

**9. Provide details related to waste management by the entity, in the following format:**

| Parameter                                                                                                                              | FY 2024-25       | FY 2023-24       |

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. Yes, BDO India LLP.

## 10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

- The Company encourages circularity across its operations. 99.9% of the waste generated by the Company (including fly ash, STP sludge and rejected screening material) is reused in its operations and production process. The remaining 0.1% waste is recycled through authorized recyclers in an eco-friendly manner. A miniscule quantity of 2 metric tonnes of bio- medical waste (~0.0001% of total waste generated) is disposed through incineration.
- Hazardous waste generated by the Company constitutes only 0.04% of the total waste. Through rigorous trainings and capacity building, the Company has been able to reduce its hazardous waste generation to minimum quantity possible in industrial operations.

**11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:**

| S. No. | Location of operations/offices                                                                                                  | Type of operations                                                                                                            | Whether the conditions of environmental approval / clearance are being complied with? (Y/N)<br>If no, the reasons thereof and corrective action taken, if any. |

## Leadership Indicators

### 1. Water withdrawal, consumption and discharge in areas of water stress (in kilolitres):

For each facility / plant located in areas of water stress, provide the following information:

- Name of the area: Shambhupura (Rajasthan), Tadipatri (Andhra Pradesh), Kovaya (Gujarat), Nathdwara (Rajasthan), Neem Ka Thana (Rajasthan) and Kharia Khangar (Rajasthan).
- Nature of operations: Cement manufacturing.

(iii) Water withdrawal, consumption and discharge in the following format:

| Parameter                                                                             | FY 2024-25       | FY 2023-24       |
|---------------------------------------------------------------------------------------|------------------|------------------|
| <b>Water withdrawal by source (in kilolitres)</b>                                     |                  |                  |
| (i) Surface water                                                                     | 2,00,014         | 1,76,900         |
| (ii) Groundwater                                                                      | 21,30,394        | 13,43,858        |
| (iii) Third party water                                                               | -                | -                |
| (iv) Seawater / desalinated water                                                     | 4,91,527         | 15,56,989        |
| (v) Others (Rainwater)                                                                | 28,36,919        | 15,61,556        |
| <b>Total volume of water withdrawal (in kilolitres)</b>                               | <b>56,58,854</b> | <b>46,39,303</b> |
| <b>Total volume of water consumption (in kilolitres)</b>                              | <b>46,99,413</b> | <b>33,81,111</b> |
| <b>Water intensity per rupee of turnover</b> (Water consumed / turnover)              | 0.006            | 0.005            |
| <b>Water intensity</b> (optional) – the relevant metric may be selected by the entity | 0                | 0                |
| <b>Water discharge by destination and level of treatment (in kilolitres)</b>          | 0                | 0                |
| (i) Into Surface water                                                                | 0                | 0                |
| No treatment                                                                          | 0                | 0                |
| With treatment – please specify level of treatment                                    | 0                | 0                |
| (ii) Into Groundwater                                                                 | 0                | 0                |
| No treatment                                                                          | 0                | 0                |
| With treatment – please specify level of treatment                                    | 0                | 0                |
| (iii) Into Seawater                                                                   | 0                | 0                |
| No treatment                                                                          | 0                | 0                |
| With treatment – please specify level of treatment                                    | 0                | 0                |
| (iv) Sent to third-parties                                                            | 0                | 0                |
| No treatment                                                                          | 0                | 0                |
| With treatment – please specify level of treatment                                    | 0                | 0                |
| (v) Others                                                                            | 0                | 0                |
| No treatment                                                                          | 0                | 0                |
| With treatment – please specify level of treatment                                    | 0                | 0                |
| <b>Total water discharged (in kilolitres)</b>                                         | <b>0</b>         | <b>0</b>         |

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. No

## 2. Please provide details of total Scope 3 emissions & its intensity, in the following format:

| Parameter                                                                                                                                                                     | Unit                                        | FY 2024-25     | FY 2023-24   |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------|----------------|--------------|
| <b>Total Scope 3* emissions</b> (Break-up of the GHG into CO <sub>2</sub> , CH <sub>4</sub> , N <sub>2</sub> O, HFCs, PFCs, SF <sub>6</sub> , NF <sub>3</sub> , if available) | Metric tonnes of CO <sub>2</sub> equivalent | 1,27,11,286.88 | 82,50,584.95 |
| <b>Total Scope 3* emissions per rupee of turnover</b>                                                                                                                         | kg CO <sub>2</sub> / rupee                  | 0.017          | 0.011        |

\*Excluding India Cements and Kesoram Cement Business

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. Yes, BDO India LLP.

# Business Responsibility & Sustainability Report

## 3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

Impacts:

- Habitat degradation and loss of vegetation cover.
- Noise and associated ground vibration impact the lower vertebrate, mainly the ground dwelling reptiles and small mammals.
- Change in the normal behaviour in the form of restricting the movements, feeding, resting and breeding activities of major faunal groups of the project area.

Prevention and remediation:

- Creating awareness amongst employees and local communities through capacity building sessions, introductory workshops, installing biodiversity information poster in the ecologically sensitive areas etc.
- Habitat management through management of invasive species, conservation of vegetation cover, and off setting habitat loss.
- Prevention of human-animal conflict, identification of potential mortality sites, installation of reflective signboards, training security staff for situations of animal encounter to ensure safety of fauna.
- Controlled blasting and upgradation to new noise-free technology.

## 4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

| Sr. No | Initiative undertaken                                                                                                                                   | Details of the initiative (Web-link, if any, may be provided along-with summary) | Outcome of the initiative                                                                                                                                                                                     |
|--------|---------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1      | Transition to green energy – Utilization of renewable energy and recovered waste heat to substitute electricity generated through thermal power plants. | -                                                                                | Avoided Scope 1 GHG emissions through use of renewable energy in FY25: 11,35,864 tCO <sub>2</sub> .<br>Avoided Scope 1 GHG emissions through use of waste heat recovery in FY25: 16,78,175 tCO <sub>2</sub> . |
| 2      | Low carbon products: production of blended cements by substituting clinker with supplementary cementitious materials like fly ash, slag etc.            | -                                                                                | Avoided Scope 1 GHG emissions through blended cements in FY25: 2,10,57,134 tCO <sub>2</sub> .                                                                                                                 |
| 3      | Recycle and reuse of water at all sites.                                                                                                                | -                                                                                | Zero liquid discharge.                                                                                                                                                                                        |

## 5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

The Company has a business continuity and robust disaster management plan thoroughly implemented at each Unit. Disaster management plan, health and safety protocols and adequate communication protocols during extreme weather events ensure safety at sites and minimize the impact on workforce. Annual weather forecasts are considered to mitigate risk of delays in sourcing of fuels due to natural calamities. Insurance coverage is in place to protect against damages to business assets or loss of materials in warehouses or transit due to extreme weather events.

The Company's Units are spread across the country. If a manufacturing unit faces business disruption or shutdown due to extreme weather events, alternative Units in other locations can serve the respective customer. Widespread logistics network with warehouses across different parts of the country enable flexibility in the Company's operations and ensure business continuity.

**6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.**

The Company has vast integrated value chain extending from mines to packed cement bags with interconnected network of mines, suppliers, jetties, manufacturing units, railway yards, warehouses and network of dealers and retailers. Transportation, handling and storage of raw materials, fuels and other additives used in the process impact environment in negative ways. Such material tends to impact environment during cement manufacturing process too.

The Company has continuously followed circularity principles and continues to work towards it. This helps us to be more sustainable in terms of low natural resource utilisation, save on the extraction, environmental impact of transportation on GHG and air pollution. We have able to utilize 44.15 million tonnes of recycled and alternative raw materials in cement production in FY25 along with 100% fly ash utilisation from own power plants in cement making thus saving environment in a big way.

The Company is committed to reduce our GHG emissions from our process and we have made significant process as compared to base year of 2017. Company's net CO<sub>2</sub> emission intensity has decreased from 632 kg CO<sub>2</sub>/tonne of cementitious material (in 2017) to 549 kg CO<sub>2</sub>/tonne of cementitious material (13% reduction from base year) this year, which is in line with our target reducing 27% carbon intensity by 2032. This has been possible due to large influx of renewable energy to substitute the fossil fuel-based energy and optimization of our manufacturing process.

Transportation related environmental impact is a major point in our downstream operation. The Company is working to deploy electric trucks for the same which will nullify the environmental impacts in a large way.

The Company continue to redesign our process and practices to reduce CO<sub>2</sub> emissions by adopting innovative methods, such as use of waterways (NW 1) to transport gypsum and use of new technologies such as ZeroCAL.

**7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts. - 40%.**

**PRINCIPLE 7: Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent**

**Essential Indicators**

1. a. Number of affiliations with trade and industry chambers/ associations.
- b. List the top 10 trade and industry chambers/ associations (determined based on the total members of such body) the entity is a member of/ affiliated to.

| S. No. | Name of the trade and industry chambers/ associations  | Reach of trade and industry chambers/ associations |
|--------|--------------------------------------------------------|----------------------------------------------------|
| 1      | Federation of Indian Chambers of Commerce and Industry | National                                           |
| 2      | Confederation of Indian Industry                       | National                                           |
| 3      | Global Cement and Concrete Association                 | Global                                             |
| 4      | Global Cement and Concrete Association, India          | National                                           |
| 5      | Federation of Indian Mineral Industries                | National                                           |
| 6      | Cement Manufacturing Association                       | National                                           |

# Business Responsibility & Sustainability Report

2. **Provide details of corrective action taken or underway on any issues related to anti- competitive conduct by the entity, based on adverse orders from regulatory authorities.**

| Name of authority | Brief of the case | Corrective action taken |
|-------------------|-------------------|-------------------------|
| Not Applicable    |                   |                         |

## Leadership Indicators

1. **Details of public policy positions advocated by the entity:**

| S. No.         | Public Policy advocated | Method resorted for such advocacy | Whether information available in public domain? (Yes / No) | Frequency of review by Board (Annually / Half yearly / Quarterly / Others) Please specify | Web Link, if available |
|----------------|-------------------------|-----------------------------------|------------------------------------------------------------|-------------------------------------------------------------------------------------------|------------------------|
| Not Applicable |                         |                                   |                                                            |                                                                                           |                        |

## PRINCIPLE 8: Businesses should promote inclusive growth and equitable development

### Essential Indicators

1. **Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.**

| Name and brief details of project                                                                                                                                                                                                                                                                                   | SIA Notification no. | Date of notification | Whether conducted by Independent external agency (Yes / No) | Results communicated in public domain (Yes / No) | Relevant web link |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------|----------------------|-------------------------------------------------------------|--------------------------------------------------|-------------------|
| SIA is the part of EIA study conducted for obtaining Environmental Clearance for greenfield and brownfield projects. The Company has undertaken 12 SIAs in 5 states during financial year 2024-25. The Company actively contributes to the social and economic development of the communities in which it operates. |                      |                      |                                                             |                                                  |                   |

2. **Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:**

| S. No. | Name of project for which R&R is ongoing | State     | District        | No. of project Affected families (PAFs) | % of PAFs covered by R&R | Amount paid to PAFs in the FY (in ₹) |
|--------|------------------------------------------|-----------|-----------------|-----------------------------------------|--------------------------|--------------------------------------|
| 1      | Kujota                                   | Rajasthan | Kotputli-Behror | 49                                      | 100%                     | 41 Crores +                          |

3. **Describe the mechanisms to receive and redress grievances of the community.**

As a part of CSR Policy, the Company proactively meets the community stakeholders and representatives with special focus on marginalized and underserved population. The Company has dedicated CSR team and a designated office at each Unit. Each need is noted, analysed, felt needs are prioritized and a feasible solution is implemented through active community consultation, participation and community ownership.

4. **Percentage of input material (inputs to total inputs by value) sourced from suppliers:**

|                                              | FY 2024-2025 | FY 2023-2024 |
|----------------------------------------------|--------------|--------------|
| Directly sourced from MSMEs/ small producers | 16           | 11           |
| Directly from within India                   | 75           | 69           |

**5. Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent / on contract basis) in the following locations, as % of total wage cost**

(Place to be categorized as per RBI Classification System - rural / semi-urban / urban / metropolitan)

| Location     | FY 2024-2025 | FY 2023-2024 |
|--------------|--------------|--------------|
| Rural        | 47.46%       | 47.02%       |
| Semi-urban   | 5.12%        | 5.93%        |
| Urban        | 10.47%       | 8.71%        |
| Metropolitan | 36.94%       | 38.33%       |

**Leadership Indicators:**

**1. Provide details of actions taken to mitigate any negative social impacts identified in the Social Impact Assessments (Reference: Question 1 of Essential Indicators above):**

| Details of negative social impact identified | Corrective action taken |
|----------------------------------------------|-------------------------|
| Not Applicable                               |                         |

**2. Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:**

| S. No. | State         | Aspirational District | Amount spent (in ₹) |
|--------|---------------|-----------------------|---------------------|
| 1      | Rajasthan     | Sirohi                | 7,17,65,000         |
| 2      | Uttar Pradesh | Sonebhadra            | 3,70,75,000         |

**3. (a) Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized /vulnerable groups? (Yes/No)**

No.

**(b) From which marginalized /vulnerable groups do you procure?**

Not Applicable.

**(c) What percentage of total procurement (by value) does it constitute?**

Not Applicable.

**4. Details of the benefits derived and shared from the intellectual properties owned or acquired by your entity (in the current financial year), based on traditional knowledge:**

| S. No.         | Intellectual Property based on traditional knowledge | Owned / Acquired (Yes / No) | Benefit shares (Yes / No) | Basis of calculating benefit share |
|----------------|------------------------------------------------------|-----------------------------|---------------------------|------------------------------------|
| Not Applicable |                                                      |                             |                           |                                    |

**5. Details of corrective actions taken or underway, based on any adverse order in intellectual property related disputes wherein usage of traditional knowledge is involved.**

| Name of authority | Brief of the case | Corrective action taken |
|-------------------|-------------------|-------------------------|
| Not Applicable    |                   |                         |

# Business Responsibility & Sustainability Report

## 6. Details of beneficiaries of CSR Projects:

| Sr. No. | CSR Projects                         | No. of persons benefited from CSR Projects | % of beneficiaries from vulnerable and marginalized groups |
|---------|--------------------------------------|--------------------------------------------|------------------------------------------------------------|
| 1.      | Education and Capability enhancement | 1,80,430                                   | More than 80                                               |
| 2.      | Healthcare                           | 4,77,889                                   | More than 80                                               |
| 3.      | Sustainable Livelihoods              | 1,81,055                                   | More than 90                                               |
| 4.      | Infrastructure Development           | 5,52,432                                   | More than 80                                               |
| 5.      | Social Empowerment                   | 4,33,263                                   | More than 80                                               |

## PRINCIPLE 9: Businesses should engage with and provide value to their consumers in a responsible manner

### Essential Indicators

#### 1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

The Company is a customer centric organisation designed to enrich customers' experience. The Company has a highly experienced technical team that provides on-site support and demonstration through a mobile testing van. There's an effective complaint handling procedure that facilitates prompt logging, investigation, resolution, and closure.

Customer can register the complaint from various modes like through dealers, UltraTech employee's, Company Website, Contact Centre. Upon receipt of the customer complaint, the concern technical person attends & addresses the complaint within 24 hours. Most of the complaints are closed within 72 hours. It is ensured that all the complaints are closed to the fullest customer satisfaction with a formal complaint closure documentation. In addition to this, all the complaints are registered in One Technical Panel system from where the complaint status is monitored on monthly basis.

The Company has Customer Care Centre who seeks feedback from customers after any transaction (Product Query, complaint, and services). This Centre is also a means for anyone who wants to connect with our brand. This helps us to understand the emotions and pain points of all users which in turn gives us insights to deliver the best.

#### 2. Turnover of products and/ services as a percentage of turnover from all products/service that carry information about:

| As a percentage to total turnover                           |                                                                        |
|-------------------------------------------------------------|------------------------------------------------------------------------|
| Environmental and social parameters relevant to the product | The Company's products confirm to all applicable statutory parameters. |
| Safe and responsible usage                                  |                                                                        |
| Recycling and/or safe disposal                              |                                                                        |

### 3. Number of consumer complaints in respect of the following:

|                                | FY 2024-25                                                             |                                   | Remarks                                                                                                                                                                                                                                                                                                                           | FY 2023-24               |                                   | Remarks                                                                                                                                                                                                                                                                          |
|--------------------------------|------------------------------------------------------------------------|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|-----------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                | Received during the year                                               | Pending resolution at end of year |                                                                                                                                                                                                                                                                                                                                   | Received during the year | Pending resolution at end of year |                                                                                                                                                                                                                                                                                  |
| Data privacy                   | -                                                                      | -                                 | -                                                                                                                                                                                                                                                                                                                                 | -                        | -                                 | -                                                                                                                                                                                                                                                                                |
| Advertising                    | -                                                                      | -                                 | -                                                                                                                                                                                                                                                                                                                                 | -                        | -                                 | -                                                                                                                                                                                                                                                                                |
| Cyber-security                 | -                                                                      | -                                 | -                                                                                                                                                                                                                                                                                                                                 | -                        | -                                 | -                                                                                                                                                                                                                                                                                |
| Delivery of essential services | All services are value added voluntary services. No essential services |                                   |                                                                                                                                                                                                                                                                                                                                   |                          |                                   |                                                                                                                                                                                                                                                                                  |
